#### PAY AND ALLOWANCES.

Simla, the 1st April, 1918.

- No. 644.—The Governor-General in Council is pleased to announce that the Right Honourable the Secretary of State for India has approved an increase of pay for British soldiers in India as follows:—
- 1. From the 29th September 1917 and for the remaining period of the present war, the qualifying period for the grant of proficion y pay as required by Army Regulations, India, Volume I, shall be reduced from 2 years to 6 months, subject, in the case of those enlisted as boys, to the additional modification that they must have attained the age of 184 years instead of 20 years as hitherto, and profici now pay shall be issued to all soldiers eligible for that emplament who on or after the 29th September 1917 have fulfilled the conditions for the grant of preficiency pay as now modified.
- 2. In the case of soldiers who are in receipt of the rates of pay laid down in Army Regulations, India, Volume I, the issue of separation allowance shall, from the 29th September 1917, and for the remaining period of the present war, cease to be dependent on the soldier making an allotment of his pay.

Where the wife or dependant of such a oldier was in receipt of separation allowance and December 1917, or subsequently becomes entitled to receive an allowance with effect that or an earlier date, the whole same which the soldier was allotting on the 2nd Dec 1917 (including any all threat in excess of the pre-cribed in the Appendix to the Regulaissued on 27th October 1914 under the Roy 1 Warrant of the 2nd September 1914) up total of 10d, a day for a soldier of the rank of serjeant, or higher rank, or 6d, for a soldier that rank of serjeant, shall be issued from public funds as separation allowance, and unted from the soldier's pay.

with a greet from the 3rd December 1917 or a subsequent date, the usual procedure for the allowance shall be followed and the whole amount to which the payer is entitled issued from public funds as separation allowance; but in these cases any allotment vognuarily made-by the soldier will be a charge against his pay.

3. From the 29th September 1917 and for the remaining period of the present war, the sum of 1d. per day War Pay in respect of each complete year of service with the Colours, rendered since the commencement of the present war, shall be granted to all soldiers, except soldiers of the Non-Combatant Corps, who are in receipt of sterling rates of pay laid down in Army Regulations, India, Volume I.

Service within the meaning of this paragraph forfeited for desertion or fraudulent enlistment shall not be allowed to count towards War Pay unless restored in accordance with the King's Regulations and Orders for the Army. Any period of penal servitude, or of imprisonment or detention exceeding 28 days, undergone by the soldier, and any continuous period of absence without leave exceeding 28 days, will not be reckoned as service for the purpose of the grant.

- 4. From the 29th September 1917, and for the remaining period of the present war, the sterling rates of pay laid down in Army Regulations, India, Volume I, for warrant officers and non-commissioned officers down to and including the ranks of corporal, bombardier, or 2nd-corporal, Cavalry of the Line, Royal Herse and Field Artillery, Royal Garrison Artillery and Infantry of the Line, shall be increased by the sum of 3d. a day.
- 5. From 29th September 1917, and for the remaining period of the present war, in the case of any soldier below the tank of serjeant, with the exception of boys, of soldiers of the Non-Combatant Corps, and of soldiers employed in agriculture, or etherwise under conditions which bring their earnings up to civil rates of wages, when for any day on which he is entitled to receive his full emoluments his total pay assessed in the manner hereinafter prescribed does not amount to the minimum sum herein laid down for his rank or appointment, there shall be added for that day such amount as will increase the pay so assessed to the minimum sum herein laid down for his rank or appointment.

In assessing the total pay for this purpose there shall be taken into account, in addition to regimental pay (as increased by paragraph 4 above), any professioney pay, service pay, engineer or corps pay, to which the soldier may be entitled; but if entitled to Class I proficiency pay or Class I service pay the minimum in his case shall be increased by 3d.

The minimum sum shall be at the following rates, according to the soldier's rank or appointment:—

					e.	đ.
Trcoper, gunner, driver, sapper, pioneer (R.E.), p	rivate	•••	•••	•••	1	6
Taid lance-corporal or paid acting tombardier	•••	•••	•••	•••	1	g
Corporal or 2nd-corporal	•••	•••	•••	***	2	0

6. All warrant officers, non-commissioned efficers and men now serving who, having, on or since 4th August 1914, completed 22 years' service on their current attestation, including the extra year under Section 87 (1) of the Army Act, have been retained in the Service under the provisions of the Military Service Act, 1916 (Session 2), or have voluntarily continued in the Service during the war, may elect within 3 months from the date of this notification to draw with retrospective effect the pension to which they would have been entitled by service if they had been discharged on completing 22 years' service. A soldier who had more than 22 years' service on 4th August 1914 and who elects to draw pension under this notification may have his pension assessed and paid with arrears as though he had been discharged on 4th August 1914, but not sooner.

Similarly, soldiers who now have less than 22 years' service, may if they complete 22 years' service during the war, elect to draw service pension from the date of completion of 22 years' service.

The right to elect to draw service pension from the completion of 22 or more years' service must be exercised within 3 months of the date of this notification, or of the completion of 22 years' service, whichever is the later date; the election ence made will be final, and the pension granted will not under any circumstances be subsequently increased; though, if disabled, the soldier will be eligible for a disability pension in addition on the usual conditions.

A soldier who elects to draw his pension under this notification will be regarded as having terminated his existing engagement with effect from the date from which pension becomes suable, and as having entered into a new engagement terminable at the end of the war. A eldier who does not claim his pension as above will continue to serve in the Army under the tend conditions providing for the continuance of men of such service, counting his service to ards increase of pension.

7. From the 29th September 1917 and for the remaining period of the present war no stopage shall be made from the pay of any soldier in respect of his admission unless the disability is due to an offence under the Army Act or to the soldier's ov

SEPARATE REVENUE.

INCOME TAX

Simla, the 28th March. 1918.

No. 774-F.—In exercise of the powers conferred by section 44 of the Income-tax Act, 1913 (VII of 1918), the Governor-General in Council is pleased to exempt the income of the following class of persons from liability to the tax payable under the said Act:—

Persons, other than persons in the service of Government, residing in-

- (a) the Linecadive Islands, including Minicoy in the Presidency of Madras;
- (b) the Khondmals and the Mahal of Angul in Orissa.
- 2 The Governor-General in Council is further pleased, in exercise of the aforesaid powers, to direct that the said Aet shall not apply to the following classes of income:—
  - (1) The official allowance which an agent of a Prince or State in India, who has been duly accredited to represent the Prince or State for political purposes in any place within the limits of British India, receives as such agent in British India from the Prince or State; and the official salaries and fees received in India by foreign Consuls, Representatives and Consular employés from their Governments.

(301)

- (2) The salary and allowances paid by a State in India during the period of deputation to any person deputed by the State for training in British India.
- (3) Scholarships granted to meet the cost of education.
- (4) Such portion of the income of a Member of His Majesty's Forces or of His Majesty's Indian Forces as is compulsarily deducted from his salary by the orders, or with the approval, of Government for payment to a regimental mess or band fund.
- · (5) The allowances attached to -

The Victoria Cross.

The Military Cross.

The Order of British India.

The Indian Order of Merit.

- (6) The income derived by a shipping company incorporated or registered out of British India and having its principal place of business out of India and its ships ordinarily engaged in sea-going traffic out of Indian waters.
- (7) The interest on Government securities held by Ruling Chiefs and Princes of India, as the property of their States, in the special non-transferable form of Government promissory notes.
- (8) The yield of Post Office cash certificates.
- (9) The interest on deposits in the Post Office Savings Bank.
- 3. The Governor-General in Council is further pleased to direct that the following class of income shall be exempt from the tax payable under the said Act, but that it shall be taken into account in determining the total income of an assessee for the purposes of the said Act:—
  - The interest on Government securities purchased through the Post Office, and held in the custody of the Accountant General, Posts and Telegraphs.
- 4. The notifications mentioned in the annexed schedule are can selled to the extent stated in the fourth column thereof.

No. 776-F.—In exercise of the powers conferred by section 43 of the Indian Income-tax Act, 19 8 (VII of 1918), the Governor General in Council is pleased to make the following rules, in supersession of rules 1, 2, 4, 5, 6, 7, 8, 10, 11, 12, 13, 14, 15, and 17 of the rules published in the Notification of the Government of India in the Finance and Commerce Department No. 2763, dated the 6th June 1890:—

#### Rules.

- (1) The amount deducted on account of the tax under section 15, subsection (1), of the Act from the interest payable on any security of the Government of India shall be paid to the credit of the Government on the same day as the payment of the interest is made.
- (2) The amount deducted on account of the tax under sec ion 15, subsection (1), of the Act from the interest payable on debentures or other securities for money issued by, or on hebalf of, a local authority or company shall be paid to the credit of the Government within one week from the date on which the payment of the interest is made. The person responsible for paying the interest shall pay the amount deducted therefrom to the credit of the Government by remitting the amount to the Collector with a Stitement showing the following periodlers:—
  - (1) Name of owner.
  - (2) Description of security.
  - (3) Number of security.
  - (4) Date of security.
  - (5) Amount of security.
  - (6) Period for which interest is drawn.
  - (7) Amount of interest.
  - (5) Amount of tax.
- No. 772-F.—In exercise of the powers conferred by section 43:(1) of the Indian Income-tax Act 1918 (VII of 1918), the Governor-General in Conneil is pleased to delegate to all Local Governments and Administrations in India the power to make rules for carrying out the purposes of the said Act, and for the as certainment and determination of any class of income, in so far as regards the territorics under their control.
- 2. Rule 16 in the Finance and Commerce Department's Notification No. 2763, dated the 6th June 1800, is hereby cancelled.
- No. 780-F.—In exercise of the powers conferred by section 43 of the Indian 1: come-tax Act, 1918 (VII of 1918), the Governor-General in Council is pleased to make the following rules:—

#### Ru'es.

- (1) An officer in military employ, in determining the amount of his salary for the purpose of assessment to income-tax, may in the following cases only exclude the horse allowance and tentage included in the consolidated salary, pay or Indian pay of certain appointments under paragraphs 262, 163, 373 and 445 of the Army Regulations, India, Volume 1.—
  - (a) if his salary, after such deduction is made, does not exceed R503 per measure;
  - (b) if, on the occasion on which he first draws in Privish India a slary exceeding R50) per mensem after deinerin of Lorse allowance and tentage, he exercises the option of excluding these allowances;

- (c) if, on the last occasion before the issue of these rules on which he drew in British India a salary exceeding H500 per mensem after deduction of horse allowance and tentage, he exercised the option under any rule or order previously in force of excluding these allowances.
- (2) An officer may at any time elect to include these allowances in his salary for the purpose of income-tax assessment; but, should be do so, he may not subsequently on change of emoluments or for any other reason alter his decision.
- (3) The privilege of excluding tentage and horse allowance under rule (1) is subject to the condition that the officer concerned has provided, and actually maintains, the camp equipage of his rank in a serviceable condition and the number of boná fiae chargers prescribed for his rank.
- (4) It shall not be open to any officer whose consolidated salary, pay, or Indian pay includes both horse allowance and tentage, to exc.ude for the purpose of these rules horse allowance alone or tentage alone.
- 2. The Governor-General in Council is also pleased to cancel the rules given in section (B) of the Finance and Commerce Department's Notification No. 2762, dated the 6th June 1890, as subsequently amended.

### SEPARATE REVENUE.

#### The 28th March, 1918.

- No. 782-F.—In exercise of the powers conferred by section 9, clause (a) of the Indian Stamp Act, 1899 (II of 1899), the Governor-General in Council is pleased to direct that for entry No. 65 of the Notification of the Government of 11 dia in the Finance Department No 3616-Exc., dated the 16th July 1909, the following shall be substituted:—
  - "Agreements entered into under section 6, sub-section (1), of the Indian Income-tax Act, 1918 (VII of 1918)."
- No. 784-F.—In exercise of the powers conferred by section 35 of the Court Fees Act, 1870 (VII of 1870), the Governor-General in Council is pleased to direct that for clause (16) of the Notification of the Government of India in the Department of Finance and Commerce, No. 4650, dated the 10th September 1889, the following clause shall be substituted, namely:—
  - "(16) To direct that the fee chargeable on an application to a Collector with respect either to liability to assessment or to the amount or rate of an assessment or for a refund of income-tax under the Indian Income-tax Act, 1918 (VII of 1918), shall be limited to one anna."

NOTIFICATIONS.

ACCOUNTS AND FINANCE Public Debt.

#### Simla, the 27th March 1918.

No. 153-A.—The following draft of certain rules which it is proposed to make rcise of the powers conferred by section 14 of the Indian Securities

Act, 1886 (XIII of 1886), is published as required by the said section of the said Act for the information of all persons likely to be affected thereby, and notice is hereby given that the said draft will be taken into consideration on or after the 1st June 1918. Any objection or suggestion which may be received from any person with respect to the draft before the date specified will be considered by the Governor General in Council.

#### Draft Qules.

- 1. A Bearer Bond, the coupons attached to which have been exhausted, shall be renewed. Application for renewal shall be made to the Public Debt Office or to the treasury in which the Bond is registered for the payment of coupons, and the Bond must be presented with the application. No fee shall be charged for the renewal of a Bearer Bond.
- 2. The loss or destruction of a Bearer Bond or of coupons or of both shall be notified in the first instance, by letter addressed to the Public Debt Office, Calcutta, direct, or in the case of a Bond standing on the books of the Public Debt Office, Bombay or Madras, through the Public Debt Office concerned. A registration fee of Re. 1 per Bond shall be sent with the letter which shall contain the following particulars, nan ely:—
  - (1) Particulars of the number and value of the Bearer Bond and the loan to which it belongs.
  - (2) Particulars of coupons alleged to have been lost, or in the possession of the claimant, as the case may be.
  - (3) Name of the Public Debt Office or treasury at which the Bond has been registered for payment of coupons.
  - (4) The circumstances attending the loss or destruction.
  - (5) Whether the loss was reported to the Police.

With every such letter there shall be forwarded the following documents, namely:—

- (a) The Post Office receipt for the letter containing the Bearer Bond or coupons, or both, if lost in transmission by registered post.
- (b) A copy of the police report, if the loss was reported to the Police.
- (c) A certificate from the Presidency Bank or the treasury concerned certifying to the last payment of a coupon with regard to the Bond.
- (d) An affidavit sworn before a Magistrate testifying that the claimant was the last legal holder of the Bearer Bond.
- (e) Any portions or fragments which may remain of the lost or destroyed Bearer Bond or coupons or both.

A duplicate of the letter to the Public Debt Office, Calcutta, but not of its enclosures, shall also be sent to the treasury at which the Bond is registered for payment of coupons.

3. The loss or destruction of a Bearer Bond coupons or of both shall be further notified by an advertisement in the following form which the claimant shall cause to be inscrted in three successive issues of the Gazette of India, and of the Local Government Gazette where there is one:—

Lost or destroyed (as the case may he).—The Berrer Bond No.—of the per cent loan of for R—tagether with coupons or without coupons)—having been lost or destroyed, notice is hereby given that application is about to be made to the Public Debt Office, Calcutta, for the issue of a duplicate in favour of the undersigned.

4. Where a Bearer Bond is reported to be lost or destroyed, and the coupons are in the possession of the person claiming to be the owner of the Bond and coupons, the Controller of Currency, if satisfied that the Bond has been lost or destroyed, may, after the expiry of six months from the last date of the advertisement prescribed in Rule 3, direct the Public Debt Office, Calcutta, to issue to the claimant a duplicate Bond with coupons and to pay the amount

of any coupons which may be due, upon the execution by him of a bond of indemnity with two sureties, should the same be deemed necessary, for twice the value of the bond lost or destroyed, and on the surrender by him of the unpaid coupons of the original bond.

- 5. Where both a Bearer Bond and its coupons are reported to be lost or destroyed, the Controller of Currency, if satisfied that the bond and coupons have been lost or destroyed, may, on the expiry of two years from the last date of the advertisement prescribed in Rule 3, include the particulars of the lost or destroyed bond and coupons in a list of lost Bearer Bonds and coupons. No payment shall, however, be made on the lost or destroyed bond or coupons, nor shall a duplicate bond with coupons be issued, until six years have expired from the date of the first insertion in the list. Thereafter the Controller of Currency, if he sees no objection, may direct the Public Debt Office to issue to the claimant a duplicate bond with coupons and to pay the amount of any coupons which may be due (or if the bond is of a terminable loan which has fallen due for redemption, to pay the amount of the Bond and of any coupons which may be due) upon the execution of a bond of indemnity with two sureties, should the same be deemed necessary, for twice the value of the Bond and twice the value of the coupons due for payment. The Controller of Currency may, if he thinks fit, extend to 12 years the period of six years mentioned above.
- 6. Where the coupons only of a Bearer Bond are reported to be lost or destroyed, the Controller of Currency, if satisfied that the coupons have been lost or destroyed, may, on the expiry of two years from the last date of the advertisement prescribed in Rule 3, include the particulars of the coupons in the list mentioned in Rule 5. No payment shall, however, be made on the coupons, nor shall a duplicate Bond with coupons be issued until six years have elapsed from the date of the first insertion in the list. Thereafter the Controller of Currency may, if he sees no objection, direct the Public Debt Office, on the surrender by the claimant of the original Bearer Bond, to issue to him a duplicate Bond with coupons and to pay the amount of any coupons which may be due on the execution of a bond of indemnity with two sureties, should the same be deemed necessary, for twice the amount of the coupons due for payment. The Controller of Currency may, if he thinks fit, extend to 12 years the period of 6 years mentioned above.
- 7. The list referred to in Rules 5 and 6 shall be advertised half-yearly in the Gazette of India in the months of January and July or as soon afterwards as may be convenient. All Bearer Bonds and coupons, the inclusion of which in the list has been directed by the Controller of Currency, shall continue to be advertised every half-year until the expiry of six years from the date of first publication or from the date of the last payment of a coupon, whichever is the later date. The list shall contain the following particulars, viz., the number of the lost Bearer Bond, its value, the dividend numbers and dates of the lest coupons, the name of the loan, the name of the claimant for a duplicate, and the date of publication of the list in which the Bearer Bond was first mentioned.
- 8. The indemnity bond referred to in Rules 4. 5 and 6 shall be in such form as may be prescribed by Government. No fee will be chargeable if a bond does not exceed the amount of Rs. 500, but on bonds for higher amounts a fee of Rs. 5, for every Rs. 1,000, or a part thereof, shall be charged, provided that no fee for any one indemnity bond so issued shall exceed the amount of Rs. 30.
- If, however, the Controller of Currency considers that the circumstances of the case demand that a bond shall be specially prepared by the Government Solicitor, a fee of Rs. 32 shall be payable to that officer.
- 9. Particulars of lost or destroyed Bearer Bonds in respect of which an order is made for the issue of a duplicate under Rule 4, as also of the Bonds or coupons referred to in Rules 5 and 6, shall be advertised half-yearly in the Gasette of India. The Bonds or the coupons shall be included in the first list published next after the passing of such order and shall continue to be advertised every half-year until the expiry of six years from the date of their

lication. The list shall contain the following particulars, viz., the

number of the Bond, the name of the loan to which the Bond relates, the value of the Bond, the dividend numbers of coupons relating to the Bond, the name of the claimant for a duplicate, and the date of publication of the list in which the loss or destruction of the Bond or the coupons was first mentioned. The loss or destruction of the Bond or the coupons or both must also be specifically indicated in each case.

#### DEPARTMENT OF COMMERCE AND INDUSTRY.

#### NOTIFICATIONS.

#### EMIGRATION.

#### Simla, the 6th April, 1918.

- No. 990.—In exercise of the powers conferred by section 116-F. of the Assam Labour and Emigration Act, 1901 (VI of 1901), as subsequently amended, the following rule is issued and should be inserted after Rule 24 of the Assam Labour Board Rules published with the Notification of the Government of India in the Department of Commerce and Industry No. 295-132-C., dated the 20th November 1915.
  - "Rule 24-A. The cess referred to in section 116-E. of the Act may be applied to the following purposes, namely, to the payment of:—
    - (a) such portion of the salary and allowances of the Chairman as the Governor General in Council may direct;
    - (b) allowances to members of the Board to meet their expenses in attendi

of the Board, or on other journeys performed on the business of the Board;

(c) the salary and allowances of the supervisors and other establishment appointed by the Board, including any leave allowances, pensions and contributions towards a Provident Fund sanct.oned by the Board, and including also such contributions towards the leave allowances and pensions of officers whose services have been lent by Government, as the Governor General in Council may direct;

(d) contingent and other incidental expenses, including tour charges, connected with the maintenance of the Board's office and of the offices of officers appointed by

them;

(e) rewards for the detection or prosecution of offences under the Act;

(f) refunds of the cess realised in respect of-

(i) garden sardars and emigrants on whom it has been erroneously realised;

(si) emigrants whose services as labourers have, in the opinion of the Board, for any reason not become available or fully available to employers;

(g) interest which may fall due on any loan contracted by the Board or on any over-draft of the Board's account with the Bank of Bengal sanctioned by the Board;

(h) such other charges as the Board may, with the general or special sanction of the Government of India, direct.

No. 1092.—In pursuance of rule 28 of the Assam Labour Board Rules, published with the Department of Commerce and Industry Notification No. 295-132-C., dated the 20th November 1915, it is hereby notified that the rate of cess payable from 1st July 1918 up to and including the 30th June 1919, on every garden sardar deputed by his employer to engage labourers and on every person recruited or engaged as a labourer or assisted to emigrate under Chapter IV or section 91 of the Assam Labour and Emigration Act, 1901 (VI of 1901), as amended by the Assam Labour and Emigration (Amendment Act, 1915 (VIII of 1915), shall be Rs. 2 per head.

No. 661.—Basil Eden (Second Lieutenant, Royal Artillery, Territorial Force), to be Lieutenant in the Infantry Branch of the Indian Army Reserve of Oilicers, subject to His Majesty's approval. Dated 18th August 1917, but to rank from the 9th December 1916.

No. 662.—Robert Russell Flemington (Temporary Captain, Royal Artillery, Territorial Force), to be Lieutenant in the Infantry Branch of the Indian Army Reservo of Officers, subject to His Majesty's approval. Dated 27th March 1915, but to rank from the 1st September 1915.

No. 863.—Second Lieutenant Heber William Henry Howell, Indian Army Reserve of Officers, to be temporary Captain, subject to His Majesty's approval, while employed as Commandant of a Porter Corps. Dated the 28th March 1918.

No. 664.—In Army Department Notifications No. 16%5 and 168%, dated the 5th October 1917, against the name of Laurence Oliphant McCurrich, for "20th September 1917" read "10th August 1917."

#### LONDON GAZETTE.

No. 665 - The following is published for general information: -

Fourth Supplement dated the 10th January 1918 to the London Gazette of the 8th January 1915.

War Office,

10th January, 1918.

The Secretary of State for War has received the following Despatch addressed to the Chief of the General Staff, India, by Lieutenant-General Sir Stanley Maude, K.C.B., late Commanding-in-Chief, Mesopotamian Expeditionary Force:—

General Headquarters,

Mesopotamian Expeditionary Force,

October 15th, 1917.

SIR,

- 1. I have the honour to submit herewith a report on the operations carried out by the Mesopotamian Expeditionary Force during the period extending from April 1st to September 30th.
- 2. My previous despatch included a narrative of the operations subsequent to the fall of Baghdad up to March 31st, by which date our Columns had driven the enemy north-east, north and west in divergent directions along the Dualah, Tigris and Euphrates, respectively, and our advanced troups had established a screen covering Baghdad, being disposed approximately on the line Shahraban-Dogameh-Mushaidic-Feluja. In order, however, to provide for the scurity of Baghdad, which is an open city deviid of means of defence, it see:

  to presecute our operations against the shartered but reinforced Columns of the Shartered but reinforced Columns of the Shartered but reinforced Columns of the Corps, with which we had been so recently engaged, whilst keeping careful

movements of the 13th Turkish Corps, which was falling back before our Russian Allies, lest the enemy should detach troops from his direction against the right flank and rear of our movement towards Samarrah. The pressure applied by the Russian Columns which had already reached Karind with advanced troops at Khanikin, assisted by our troops operating in the Jebel Hamrin, as described in my last despatch, now forced the enemy to cross the Dialah and continue his retreat on Kifri.

- 3. On April 2nd we effected a junction with General Baratoff's troops, about Kizil Robat, and as soon as these were well established on the line of the Dialah our Column in this vicinity—having served the double purpose of harassing the retreat of the Turks and joining hands with the Russians—was withdrawn. This enabled us to resume our operations along both banks of the Tigris, which had been temporarily suspended.
- 4. On the 6th our Cavalry moved forward to the vicinity of Deli Abbas with instructions to cover our right flank, and by delaying action to draw on gradually any movement initiated by the 13th Turkish Corps towards the Tigris. On the left bank of the Tigris it seemed wiser not to commit our troops to definite action until such time as the intentions of this Turkish Corps became clearer. On the right bank of the Tigris the enemy's force was estimated at 4,000 rifles with 200 sabres and 10 guns, and these were holding Harbe with advanced troops about Beled Station. On the 5th our troops moved forward to attack the enemy's position covering Beled Station, and good progress was made until they came under close machine gun and rifle fire from some rising ground in that vicinity. The 51st Sikhs were ordered to scenre this point, and making good use of the broken ground and well supported by artillery, they established themselves there without difficulty and pressed forward beyond. The enemy holding the station now found his position untenable, and so in his whole line was in retreat. Our losses were slight, but the enemy, in addition to his battle casualties, lost 200 prisoners, including nine officers as well as three machine guns and some rolling stock. On the 9th Harbe was occupied, and here a pause was ordered in order to allow for further operations on the left bank of the Tigris.
- 5. Our troops on the left bank had driven several parties of the enemy across the Shart El Adbaim on the 7th, and on the following day a close reconnaissance of this river was carried out with a view to bridging it. It now became evident, however, that the 13th Turkish Corps from Johel Hamrin and the 52nd Division of the 18th Turkish Corps on the line of the Shatt El Adhaim were contemplating a converging movement against our troops on the left bank of the Tigris. The 2nd and 14th Turkish Divisions, some 6,000 rifles strong, with 250 sabres and 32 guns, moving down the right bank of the Nahr Khalis Canal towards Deltawa, had by the evening of the 5th reached a point some seven miles south-west of Deli Abbas. On the following day our Cavalry, falling back under instructions, continued to draw them on whilst our Horse Artille v inflicted substantial casualties on their marching Columns, and by the evening they had reached Arab Bu Abin, but the 52nd Division remained stationary on the line of the Shut El Adhaim. On the 10th the enemy was reported to be entronching, but on the 11th he continued his advance, moving in dense columns with his left on the Nahr Khalis. To meet this movement and to support our Cavalry we had detached troops from Deltawa up the right bank of the Nahr Khalis Canal towards Deli Abbas, whilst another Column, leaving sufficient trops to contain the enemy on the Shatt El Adhaim, fell "upon his right flank after a night march from Dogameh. This attack, resolutely pressed by two Welsh battaliens and the Wiltshires, was a complete surprise, and before the enemy could recover himself heavy casualties were inflicted on his Columns by our well handled artillery and by tille fire. Low visibility owing to mirage heat and the absence of water hindered our operations, but the enemy was soon in retreat, and by 7 PM, he had regarded Arth Bu Abin.

During the early hours of the 12th the enemy continued his retreat, followed by our infantry patiels, and in the darkness touch with him was lost. At 7 km the Cavery was ordered in pursuit, and at midday located him 6 miles west-south-west of their Arbas, covered by an entrenched rearguard. The Turks were now fighting a stable-orn locarguard action, and this continued throughout the 13th and 14th, our progress being continuous but slow. Our Cavalry essayed a wide enveloping movement round the enemy's right flank so as to gain the Kifri Road ahead of him, but his right flank refused to the foot of the Jobel Hamrin, and lack of water prevented them from reaching their objective. During the night of the 14th/15th the enemy continued his retreat on Kifri, and by midday on the 15th our patrols had entered Deh Abbas, where the pursuit was stopped, as it was not intended to follow the enemy into the Jebel Hamrin, since the advantage of position will there have rested entirely with the defence. Over 100 of the enemy's dead were buried, and I gun and 80 prisoners were captured by us.

Having disposed of the 13th Turkish Corps temporarily, it was now decided to force the passage of the Shatt El Adhain and deal with the detachment of the 13th Turkish Corps still holding it. These operations commenced early on the 18th and by 6-30 a M. our troops were sufficiently established on the right bank to allow of a bring thrown a ross the river. The dannel was narrow, but full of quicksands, and these caused delay, but at 11-40 a.m. the bridge was completed, and by 2 p.m. our infantry had cleared the loop of the river and were moving towards the Barura peninsula. The Turkish opposition had collapsed, prisoners were coming in and a composite Cavalry Brigade moved forward in pursuit.

5GI

This Brigade, skifully handled, pushed on resolutely and, in spite of heat and want of water, succeeded in turning the enemy's retreat into a rout. His casualties in killed and wounded were heavy, and 1,300 prisoners—of which 26 were officers—and 6 machine guns were captured. Indeed, only a small fraction of the troops opposed to us that day effected their escape. In this action an Indian Cavalry Regiment, the Horse and Field Artillery Batteries, and four Lancashire Battalions specially distinguished themselves.

6. On the 19th the Tigris was bridged at Sinijah and riverhead was moved up to that The enemy's opposition on the left bank having been completely destroyed, a further advance was now ordered on the right bank. The Turks were holding a position about Istabulat, facing south-east, with their left resting on the river and extending over a frontage about of 21 miles across the Dajail Canal to the Baghdad-Samarrah railway. After crossing that railway their line bent back starpty, and continued more or less parallel with the railway track to a point west of Istabulat Ruins, a distance of over 3 miles. The Dujail Canal, diagonally situated to our advance, was a considerable obstacle, with banks 40 feet high in some places, and containing water 6 feet deep and 20 to 25 feet broad, and its banks had been prepared in places so as to bring entilade fire to bear upon the ground south of it. Two redoubts north of the Canal were prominent features in this section of the defence, and immediately in rear of the Turkish left centre was a group of mounds affording go d positions for machine guns. The position was a strong one, and was held by some 6.700 rifles with 200 sabres and 31 guns, whilst in the vicinity of Samarrah were reserves consisting of some 4,000 rifles with 500 sibres and 15 guns. The enemy's left and left centre were selected as the point of attack, and on the 20th his covering troops were driven in and an advanced line established to render it possible for our artillery to be brought firward and for the Canal to be bridged. At 5 A. w. on the 21st his p sition on the North side of the Canal was resolutely attacked by the Black Watch and 8th. Gurkhas, under a creeping harrage, and both battalions made steady progress. In spite of a hot rifle and machine gun fire from the main position the redoubt near the river was captured, and the garrison made The other redoubt on this side of the Canal was assaulted, recaptured by the enemy, and finally secured by us, thus giving our troops a good foothold in this part of the enemy's defences. At 6-30 s m. an attack by the Seaforths and 25th and 22nd Punjabis was launched south of the Canal. This advance was carried out with fine dash and gallantry her is 2,000 yards of ground, devoid of cover, and by 7-25 A. M. the enemy's front bine, some 700 yards long, was in our hands. Coosolilation proceeded, and in spite of several counterattacks all gains were held. Reconnaissances were made with a view to a further alvance, but they indicated that further progress with ut reorganisation and careful preparation, which would only be possible under cover of darkness, would be needlessly costly. It was decided therefore to devote the remainder of the day and night to establishing curselves securely and preparing for a simultaneous a tack on both sides of the Canal, to be carried out next morning. A counter-attack by the enemy during the afternion was discorred by gun and rifle fire, and his artillery was active through the afternoon

Early on the 22nd cur patrols reported that the enemy opposite our right was beginning to withdraw, and by 1-30 a.m., the will of the position had been evacuated, and twas then occupied by us. The natural and artificial strength of the position now became apparent, and the number of enemy dead testified to the tenacity with which it had been held. Our troops moved forward in pursuit at daybreak and were in contact with the enemy's main body in the vicinity of Istabular Police P at by moon, where his defensive system consisted of detacted groups of trenches partially completed. The heat was great, and the attack was postponed till the evening, when the assault, aided by concentrated at flery fire, was delivered in dashing style by the Leicesters, supported by the 51st Sikhs and ofth Rifles and the defence was easily penetrated. The attacking troops pressed on relentlessly and rapidly some 1,200 yards forther, and the enemy's gins were only withdrawn just in time to at ideapaire. The Turks ralled and put in a series of counter-attacks, with which our supporting troops dealt, but the enemy maintained a heavy fire until 5 r.m. when he retreated on Samarrah. This attack had been considerably aided by artiflery fire from a Column detached along the left bank of the Tigris to co-operate. During the day a regiment of Indian Lancers made a spirited attempt to break through the line of trenches, and, supported by artiflery fire, it captured the front Turkish trench, butfits advance was finally checked by fire from other trenches in rear. Our captures on the 21st and 22nd amounted to 20 officers and 667 other ranks taken priseners, 14 Krupp guns, 15:9 in. gun damaged, 2 machine guns, 16 engines and 240 trucks, 2 barges, many rifles and much amountain equipment.

At 19 A.M. on the 23rd Samarrah Station was secured, the enemy offering no further resistance and retreating on Tekrit, and on the 24th Samarrah Town, on the left bank, was occupied and a post established there.

7. Whilst these operations were in progress on the right bank, it became evident that the 13th Turkish Corps was once more moving forward from the Jebel Hamrin, but is down the Shatt El Adhaim, against our forces on the left bank of the Tigris, and were accordingly readjusted to deal with the new situation. At 5 p.m. on the leading echelon, estimated at 2,000 rifles, with 9 guns, had reached Duhaba, with 1 group 17 miles in rear. The chance of defeating him in detail was thus offered, and orders

were issued for a night march, culminating in an attack at dawn next day on his advanced troops. The infantry were to attack Duhaba whilst to the Cavalry, moving wide to the north, was assigned the mission of intercepting any Turkish forces moving up in support. Our right came in touch with the Turks soon after daybreak, and the action developed rapidly. As the pressure from our left began to be felt the Turks gave way, crossed the river, and retired rapidly up the left bank towards the remainder of their force, and in doing so presented good targets for artillery and machine-gun fire to our Cavalry. This attack had been gallantly delivered by several Lancashire battalions, and as a result about 100 Turks were buried by us and 150 prisoners fell into our hands.

On the morning of the "5th aeroplanes reported the Turks as retiring up both banks of the river, and our troops moved forward in pursuit. By the evening of the 27th they had reached Satha Ruins, being in touch with the Turkish rearguard covering withdrawal to and occupation of a selected position in the foothills of the Jebel Hamrin, and on the morning of the 25th we occupied a line within 2 miles of the enemy's position. Heat, low visibility and engine trouble had all combined to handicap reconnaissance by land and air, so that the situation still remained somewhat obscure, and during the night of the 25th-29th a violent dust storm arose, which continued intermittently for 48 hours

Briefly put, the plan adopted was to throw our, weight on the 30th up the left bank of the Shatt El Adhaim against the enemy's weaker flank and more shattered division and then turning north and west to drive him away from water and his line of retreat. From dawn till 7 v m the dust storm abated, and our attack on the left bank, developing at 5 a.m., was brilliantly carried out by the Cheshues and South Wales Borderers over 1000 yards of level prom, and was municulately successful. By 8 a.w. all objectives had been reached, including the village of Adam, and the retreating T. rks were being engaged at long range, whilst a number of priseners were already in our hards. Two of our Companies, however, which had lost nearly all their efficers, advanced too far in pursuit. For a moment they calculed two batteries, a section of machine guns and many prisoners, but whilst still our of touch with the remainder of our force they were counter-attacked and isolated. They maintained a gallant hand-to hand fight for some time, but few of them survived. This counter attack, assisted by the configuration of the ground, and the dust sorm, which was now riging, enabled the enemy temporarily to regain the village of Adaim, but, checked here by artillety and machine gun fire, he was until to desouch, and was ultimately driven out again by 11 a.m. and our infantry firmly re-established themselves in the village. The Turks, aided by a continuance of the dust storm, strengthoned their left and secure, their line of retreat to the north-east, but towards evening the dust storm died down, and the enemy's second line trenches, his transport, his horse lines and his artillery north-east of the village of Adam were shelled with good effect. Our treops bive macked on the ground who and pushed firward patrols to maintain fouch with the eventy, but during the light he withdrew, and at 0.45 A.M. on May 1st our aer planes reported him in retreat 7 miles away. In the action on the 50th the enemy suffered heavily in casuatties, and our captures included 865 prisoners, I Hotchkiss gun, I machine gun, and rifles, configuent and adkinds of ammuniti n. whilst 214 eventy dead were barred by us. During this period of haid marching and heavy tighting the Buffs specially distingtished then selves on several occasions.

S. As a result of the highling during the month of April the enemy's 13th at 11sth Corps had been driven back on divergent lines the former into the Jobel Hamrin and the latter to Tekrit. The 13th Corps had twice taken the ffensive, with results disastrons to itself, and the 18th Corps had been defeated and driven from its selected positions on four occasions. Our total care tures for the month amounted to some 5.000 presoners and 17 guns, besides a considerable quantity of rolling stock and body of all kinds. The objectives which we had set out to reach had been secured, and the spirit of the enemy's troops was below. The fighting carried out during this month had imposed a severe strain upon the troops, for the heat, the constant dust storms, and the absence of water on occasions, tested their stamical very highly. But as conditions became more trying the spirit of the troops seemed to rise, and to the end of this period they maintained the same high standard of disripline, galantry in action, and endurance which had been so noticeable throughout the Army during the operations which led up to the fall of Baghdad and subsequently.

9 The increasing heat now rendered it necessary that the tro-ps should be redistributed for the hot weather, and that every provision possible under existing conditions should be made with a view to guarding against the trying period, which was rapidly approaching. Whilst it was necessary to hold the resitions which had been so brively won and to strengthen them defensively, the bulk of the troops were withdrawn into reserve and distributed in suitable camps along the river banks, where they could obtain the benefit of such breezes as were available and where a liberal supply of water for drinking, bathing and washing was obtainable.

fe months of the period under review the heat was considerable, and during no, July and beginning of August it was intense. Consequently moven dertaken by either side without grave risk of incurring substantial casualties from near sir see and heat exhaustion. The troops only yed a well-carned respite

from the continuous fighting in which they had been engaged during the five months terminating in April, but they were by no means idle. Our hold over the area was made secure, defensive positions and pivots were prepared, and training was carried on in the early mornings, and late evenings as the temperature permitted. Manly sports, too, which are so essential to the well-being of the soldier, especially when temporarily inactive in the military sense, were freely indulged in with beneficial results to the health and future fitness of the Army for service in the field. Arrangements had been made for a proportion of the troops to proceed to India on leave during the summer months, and those who had been on service for a considerable time derived much benefit from the change and rest thus obtained.

10. Early in June a communication was received from our Russian Allies to the effect that in consequence of the increasing heat they had found it necessary to evacuate the line of the Dialah River, and they subsequently withdrew beyond Karind towards Kermanshah. This rendered the occupation of Beled Ruz by us necessary, and this was carried out on the 23rd.

For some time after our occupation of Baghdad tribeschen on the upper reaches of the Dialah. Tigris and Euphrates, above Baghdad, were restless, and it was found necessary to take punitive measures against them. Columns for this purpose operated on the Euphrates from May 3rd to 10th, on the Tigris from May 16th to 24th, and on the Dialah from June 2nd to 5th and June 28th to July 3rd. In each case salutary punishment was meted out to the delinquents. Consequent upon these measures the situation became quiet on each river line, and the tribesmen have, generally speaking, remained peacefully disposed except in the case of the operations against Ramadie referred to believ, when the refractive elements were again severely dealt with.

It now seemed desirable to increase our hold on the Euphrates line still further, and it was consequently decided early in July to occupy. Sinn El Zibban, some commanding ground on the right bank of the Euphrates, about twelve miles up stream of Feluja, which dominates the left bank of that river at its junction with the Saklawie Canal. As this advance on our part would bring our right bank detachment within striking distance of Rama ne, where the enemy was located, the opportunity seemed favourable for attacking him with a view to evering our movement. The enemy's troops at Rama lie, with a view to evering Ramadie from the east and south-east, were estimated at 1,000 rifles with 100 salve and six gans, besides some 2,000 Arabs of the Delaim tribe.

On the 5th Sinn El Zibban was occupied, and by the 10th the Column destined to attack Ramadic was concentrated there. Careful reconnaissances of the approaches to Ramadie had already been carried out and motor vans and lornes were allotted to carry a proportion of the troops as necessiry and thus minimise the amount of marching to be done in view of the heat then existing. Special provision were also made for water and for ice. After a night march the Column was in touch with the Turks east of Ramadie by 4 A.M. on the 11th and by 5-15 A.M., after considerable opposition our troops had driven in the enemy's advanced troops, and were preparing for the final assault against his main position. But a blinding dust storm now sprang up, and thus added to the fact that this day marked the commencement of an abnormal heat wave rendered the position of the troops more and more difficult as time went on. Observation became almost impossible and the interruption of our communications both wireless and land line -- by unlucky circum-tances rendered co-ordination of measures for the attack improvemente. It was therefore decided to cancel the order for the attack, but the troops remained in their advanced positions throughout the day and were withdrawn during the night of the 1 th-12th to the river bank ab at Mushaid, where shade was available, but whence they still continued to contain the Ramadie position. On the 12th the heat wave was still increasing and consequently further operations against Ramadie were deemed impracticable, but the troops remained confronting the surks as there were indications that the latter were meditat-As these indications did not materialise, the forces withdrew to Sinn-El-Zibban on the 14th, this movement being methodically and well carried out, and some 1,500 tribesmen who followed up the rearguard were severely handled by our Artillery and Lorht Armoured Motor Batteries. The troops throughout the operation evinced a soldierly spirit, and inflicted or their pronents severe battle casualties which considerably exceeded their own.

On the Dialah front our aeroplanes reported early in August that the Turks were entrenching a position south-west of Shahraban, and this was confirmed by reports received locally. It was therefore decided to occupy Shahraban without further delay, and for this purpose converging columns were despatched from Beled Ruz and Baqubah on the night of the 18th-19th. On the 19th Misdad was seized at dawn, and on the 20th Shahraban was occupied with slight apposition, the enemy retiring histily into the Jebel Hamrin. A new line was at once established and consolidated without interference on the part of the enemy.

11. Plans were now maturing for the capture of Ramadie, the garrison of which had been reinforced as a result of the operations in July, but the distance from Baghdad and the had state of the communications between these two places rendered this matter one of considerable difficulty. Very careful preparations were necessary before these operations could be carried out, and it was September 26th before a column of adequate size could be carried within striking distance of Ramadie for this purpose.

The enemy held an advanced position four miles east of Ramadie on Mushaid Ridge which runs north and south, and rises some 60 feet above the plain. To the north of the ridge lies the Euphrates River, and to the south the salt Habbaniyeh Lake The Turkish main position was semi-circular in outline, and was sited about one mile to the east and to the south of Ramadie. The eastern front ran along but behind the Euphrates Valley Canal and the southern front across bare Landy downs extending from the Euphrates Valley Canal to the Aziziyeh Canal, which leaves the Euphrates one mile west of Ramadie and flows southwards. The plan of operations was to turn the southern flank of the Mushaid Ridge, secure a crossing over the Euphrates Valley Canal, and attack Ramadie from the south with the bulk of the column, whilst the cavalry operating west of the Aziziyeh Canal threw themselves across the enemy's communications with Hit by blocking the Aleppo road. Steps were taken to induce the enemy to expect the main attack against his left on the Euphrates, and with this intent the river was bridged at Madhij and a road was constructed thence up the left bank, whilst supplies were also collected there. The distribution of the troops until the night of the 27th 28th was also designed to give colour to such a movement.

At 6 P.M. on the 27th two infautry columns with the cavalry moved from Madhij to the position of assembly some 5 miles in front of our outposts, and the infantry subsequently made a night advance some 2 miles in a westerly direction to a position of deployment, whence an attack on Mushaid could be delivered at dawn. An infantry detachment also skirted the northern edge of Lake Habbaniyeh, and before daybreak on the 23th had secured important tactical features on and behind the southern flank of the Mushaid position, including a dam across the Euphrates Valley Canal, passable by all arms. This action compelled the enemy to withdraw from Mushael Ridge, which he shelled heavily subsequently in expectation of its occupation by our troops, but in this he was disappointed, as our infantry moved south of the ridge and crossed the dam. At 7 AM, the cavalry were transferred from our right to our left flank, their march being screened from the enemy by Mushaid Ridge. They crossed the Euphrates Valley Canal by the dam and pushed westwards across the Aziziveh Canal to a position astride the Aleppo Road, so as to cut off the enemy's retreat. Meanwhile, to the west of the Euphrates Valley Canal, our left infantry column advanced agains: the enemy's southern front and occupied and consolidated a position under a neiderable apposition. In this attack the Dorsets and 5th Gurkhas especially distinguished themselves. Under cover of the attack our right infantry column was withdrawn, and passing in rear of the left column, was subsequently launched to an attac; which secored a firm footing on Aziziych Ridge. Thus by nightfall the enemy was hemmed in on the south-east and south by our Infantry and on the west by the cavalry, whilst to the north ran the River Euphrates.

At 3 a.m on the 29th the enemy made a determined effort to break through our cavalry and retreat by the Aleppo Road, but after an action lasting for one and a half hours they were driven tack into Ramadae, the Hussars and part of a regiment of Indian Cavalry, with some Horse Artillery and Hotelakiss guns, being mainly instrumental in heading the enemy off. At 6-15 and the Infantry attack was renewed from the south-east and south, and our left Infantry column captured successive positions along Aziziyeh Ridge. The 39th Garhwalis seized the bridge where the Aleppo Road crosses the Canal and captured three guns and many prisoners by 7-30 a.m. whilst the 90th Punjabis pushed castwards through Ramadie and secured the Turkish Commander. Ahmed Bey, at his headquarters near the eastern front of the position. Both these units displayed commendable dash and initiative, and by 11 a m, the whole of the Turkish force had surrendered.

Throughout the operations, which were continuous, the endurance and fine fighting spirit of the troops was conspicuous, which the night operations so successfully carried out testified to the excellence of their discipline and training. During the daytime the heat was considerable, and these operations, which were conducted at some distance from the river, were only rendered possible by the excellence of the arrangements for water supply. A salient factor in these successful operations was the part played by the cavalry. First by their rapid movement round the enemy's rear, and subsequently by the tactical disposition of their machine guns they prevented the enemy's eclumns from breaking out, and so drove them back into the arms of the infantry. Very useful work was also done by the transport, and especially the motor transport, whilst the medical arrangements for the evacuation of the wounded over some bad ground were most satisfactory. Amongst our captures were included 3,454 prisoners, of whom 145 were officers and 192 wounded, 13 guns, 12 machine guns, 2 armed launches, 2 barges, and large quantities of arms, ammunition, equipment, engineering stores, railway material and supplies.

Simultaneously with the above operations on our left thank, our cavalry, operating wide on the right flank of the Army, marched during the night of the 28th-29th and occupied Mendalicarly on the 29th. The Turkish detachment holding that town fled into the hills, leaving 300 baggage causels in our hands and suffering some casualties from our guns whilst retreating. Mendali had for some time been used by the Turks as a source of supply and its occupation, whilst supplementing our own needs, denied it for this purpose to the enemy.

12. If my former despatch I had occasion to bring to notice the capable handling of the troops by the higher Commanders, assisted by their staffs, and the gallantry, endurance

2GI 6

and devotion to duty displayed by the Regimental Officers, Non-Commissioned Officers and men. To this I can only add that the fine receid then established has been fully maintained under very trying climatic conditions, and that the fighting spirit, discipline and efficiency of this Army have never stood at a higher level than they do at the present moment. The further training which it has been possible to give the troops will tend to develop still further that close co-operation between all arms which was so noticeable throughout the operations last winter and which is so essential a factor to success in war.

- 13. Similarly the valuable services rendered to this Army by the Directors and the Administrative Services and Departments were previously dealt with by me in detail. In their case there has been no partial respite from their labours such as has been enjoyed by the fighting troops, for their work at the front, on the lines of Communication and at the Base has continued at the highest pressure. Reorganisation, development of our resources and preparation for the future have needed careful thought and unrelaxed efforts on the part of all and the progress made in these directions has been very gratifying. More than a passing word of recognition is therefore due to these individuals, who, in spite of the intense heat during the summer months, have continued to work so assiduously in the interests of the Army.
- 14. Our communications by water and by land have been thoroughly overhauled to meet the new situation, additional ships and barges have been placed on the river, and our railway system has been developed as rapidly as existing conditions have permitted. The ever-increasing needs of this Army bave rendered expansion as regards port facilities at Basrah necessary, and this has been successfully met by the opening of a subsidiary port in its vicinity, which is being still further developed as the result of the recommendations of a Committee assembled to report upon the matter.

An abnormally low river during the fleed senson gave rise to some anxiety that this might be followed by a correspondingly low river during the same menths, and, though the river did not fall below its lowest record, it reached as low a gauge as at has touched within reasonable recollection. The work of the Inland Water Transport was therefore from June onwards one of considerable difficulty, and it was due to the skell and energy of the personnel of the I. W. T., and to the admirable bucying of the hannels, that the comber of serious groundings was almost neighborhood that the service is manuferance in front of the Base was carried on unimpaired.

The work of transportation by the I.W.T. was ably seconded by the development of our railways, and the way in which, in spite of a limited possible construct in progressed and the railways were worked at 6 astant high possible is do not a finished amendation.

The health of the troops during the unancer months has been uniformly satisfactory, and many of the diseases from which we suffered in prevents year—such an choleral enteric fever and scurvy—were either non-existent or negligible in their extent. This is necessful result was parely attributable to the untirely were of the officers end yell in the bacteriological laboratores, without whose yellishes sistence the difficult, of dealing with the epidemic diseases would have been considerable necessal. But, although bettire either the properties accommodation and increased facilities for combitting to heat result digestrally in a far lower sick rate, an abnormal heat who within swept over the wealth July was responsible for a heavy canalty list. During for the the personner of the Medical Service were severely taxed, but they resolutely in its controlly repeated to the calls made upon them. All ranks red alled their exertions as the situation because more difficult, and the unremitting labours of the Nursing Sisters, many of whom suffered inhealth them eight, were worthy of the high record for devotion to duty which the Nursing Service has always maintained. The viry particular sistance reader directly the burded Reviews So never and Order of St. John during this trying period was tyrical of the valuable covaces so a neighbor of end red by that organisation.

The griwing needs of the Acres of the recessary for marshabing all the available resources of this country haze recessate of the formation of a possibility decorate to deal with this matter, and consequently the construction of Lord Reported Alice band been in process of construction outing the mode of a Brohand took definite shape from the date of our arrival in that City. It will are the other to a construction shape from the date of supplies of each examination in the large of the state of a considerable business of placing the matter of a small facting is on calcing for considerable business capacity and vergy. It is employed to the total absorbers within reasonable distance of our troops have now been tapped and the file a million as of the department have entered very wide topon closed street, which we mountly held.

11. The cordial co-peration 1 the Royal Navy, which yielded such valuable results during the advance on Baghdad has since then been maintained uninter uptedly. The gunboat floting part sipated in the fighting during April, conducing substantial assistance to the land forces, and during the sammer ment; when active operations were temporarily suspended much useful patrol work on the Lines of Communication has been performed by it in spite of the law writer conditions then existing. I was fortunate in receiving visits in turn

from Vice-Admiral E. A. Gaunt, C.B., C.M.G., Naval Commander-in-Chief, East Indies, and Rear-Admiral D. St. A. Wake, C.B., C.I.E., Rear-Admiral in the Persian Gulf and Mesopotamia, and these visits provided an opportunity for the discussion of topics of interest to both services.

16. To the Signal Service and Telegraph Department much credit is due for the rapidity with which they have constructed the extended communications rendered necessary as a result of the operations carried out during last winter. The vast network of lines which has been so quickly creeted has been of very real value to the Army at large.

On other fronts at Nasariyeh and Ahwaz and on the Lines of Communication Defences quiet has reigned throughout the period under review, a state of affairs largely due to the firm control exercised by local Commanders over their districts and to the capable manner in which the troops serving under them have carried out their somewhat monotonous duties.

A very high standard of efficiency, too, has been reached by the Imperial Service troop serving with this Army. The excellent spirit, zeal and keenness that has permeated thems has proved a valuable asset, and our thanks are due to the ruling Chiefs of India by whose generosity and patrictism these Units have been provided and kept in the field.

17. Since my last despatch several units have come into prominence which were at that time not fully developed. The Light Armoured Motor Batteries began to make their mark during the advance on Bagbdad, and since that time they have continued to render valuable services in reconnaissance work, in patrolling and in co-operating with other arms. The cars have been capably handled and the personnel are resolute and determined fighters

The Field Force Canteen, originally on a small basis, has increased in size at a rapid rate in order to cope with the ever-growing demands of this Army. Branch canteens have been opened in larger numbers month by mouth at all suitable stations, and these canteens have contributed in no inconsiderable way to the health and well being of the troops at the present time

The Military Police or ramisation has, owing to the development of the Force and the extension of our communications, been considerably increased, and the personnel have carried out their responsible duties satisfactorily, often under trying conditions of heat.

- 18. I wish to acknowledge once again on behalf of this Army the services rendered by those who have worker so zealously at home and in India to sapply our needs. The difficulties with which they have had to contend are well recognised here and for this reason our gratitude is the our expontaneous
- In this loss of this despatch I would bring to notice the manes of Lieuten ant-General Sir W. R. Marshall, K.C.B., and Lieutenant-General Sir A. S. Coobe, V.C., K.C.B., D.S.O., who have a stinged to render me every assistance and laye commanded their respective Corps with computency throughout the period under review. During the month of April the figiting was sovere, but these formations were hardled through an with vigeur and judgment. To Major-Coneral Sir H. T. Brooking, K.C.B., K.C.M.G., my tomiks and due for his resolute and able handling of the troops during the operations at Rumane. The practical result of having secreted the surrender of the whole force opposed to bim is probably the best indication, of his faction skill and ability.
- 20. The occupation of Baghdad, the consequent extension of a Lines of Communication, the increase in the size of the Force, the development of our rescapes, and the need for boking well are dente the future have thrown heavy work upon my Staff, both at General Head-quarters and on the Lines of Communication. In space of the great bout and occasional shortage of number in consequence they have responded wholeheardedly to every call made upon them, and I wish to take this opportunity of expressing my appreciation of the university support which they have rendered me and of the efficient many, in which they have carried out their duties.

Major-Go end Su George MacMunn, K.C.B., D.S.O., des rives my tounks for the apable manner in which he has carried out his duties as I.G.C. He watchwords have been progress and efficiency, and the level prient of the Peri and Cry of Baseah under directly conditions, arising to man insulubrious climate, is a tribute to his energy and perseverance. His efforts have been ably seconded by the Base. Advance Pass and Administrative Commandants and those working under their orders

21 With our advent into Baghdal the duties and responsibilities of the Civil Commissioner Major-General The Hon So Percy Cox, GCIE, a.CSI, already of an exceedingly heavy nature, have increased substantially. I wish to express my gratitude to man officially for the assistance which he has rendered me and for the advice which has so readily been placed by hon at my disposal from time to time. With his name I should like to associate the personnel of the Political Service working under his orders. Their duties have been responsible and at times dangerous, and they have not besitated at all times to give of their test and have been the means of seconding the successful efforts of the Army in a small measure.

22. A list giving the names of those Officers, Ladies, Warrant and Non-Commissioned Officers and Men whose services are deemed deserving of reward and special mention accompanies this despatch.

I have the honour to be,

SIE,

Your obedient servant.

F. S. MAUDE, Lieutemant-General,

Commanding-in-Chief,

Mesopotamian Expeditionary Force-

<sup>\*</sup> Imported.

For India as a whole the plague returns for the week ending March 23, are eminently satisfactory: 26,192 deaths were reported, 6,190 fewer than in the previous week, a rate of decline without parallel in March when very rapidly increasing mortality is the rule. Decreases in mortality amounting to 2,614 in Bombay, 2,066 in the United Provinces, and 762 in Rajputana, and an increase of 216 in the Punjab, are the outstanding features of the above.

Sinla : "The field Anniel 1018

F. NORMAN WHITE, MAJOR, I.M.S.,

Officiating Sanitary Commissioner with the Government of India.

E. D. MACLAGAN, Secretary to the Government of India.

#### GOVERNMENT OF INDIA.

#### DEPARTMENT OF REVENUE AND AGRICULTURE.

Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 4th April 1918, based on the Indian Daily Weather Reports of the period.

- 1. Disturbances of the winter type caused widespread rain in Baluchistan, the North-West Frontier Province, the Punjab, the northwest of the United Provinces and Kashmir. Rain also fell at most stations in Bihar and Orissa, Assam and the northern half of Bengal. The rainfall of the week was consequently above the average in several divisions in northern India. A few falls were reported from Burma and the Peninsula.
- 2. Burms.—Rain fell at a few stations in the extreme north of the province and in south Tenasserim.

Northeast India, including Orissa.—There was nearly general rain in the western half of Assam, north Bengal and Bihar on the 1st April, and in Chota Nagpur on the 2nd.

The United Provinces, Central India and the Central Provinces.—Rainfall was nearly general in the northwest of the United Provinces on the Slst March. A few falls occurred in the Central Provinces.

Northwest India:—Nearly general rain fell in Baluchistan on the 28th March, in the North-West Frontier Province on the 29th, over the greater part of the Punjab on the 31st and in Kashmir on the 3rd April.

The Penineula.—Hyderabad, Coohin, Trivandrum, Pamban and Kodaikanal had light falls of rain.

- 3. The chief amounts of rainfall reported were as follows:-
  - March 29th. Parachinar 0.93" and Drosh 1.27".
    - .. S0th. Fort Sandeman 0.88" and Multan 0.52".
    - ,, 31st. Victoria Point 1.02", Mergui 1.40", Meerut 0.69", Lahore 0.60", Srinagar 1 13" and Sonamarg 1.43".

GILBRRT T. WALKER,

Director General of Observatories.

R. A. MANT,

Becretary to the Geography of Judia,

SIMEA; Dated the 4th April 1918.

#### GOVERNMENT OF INDIA.

#### DEPARTMENT OF REVENUE AND AGRICULTURE.

## Season and Crop Prospects for the week ending Saturday, 30th March 1918.

Burma.—In Upper Burma harvesting of island crops, cultivation of spring crops and reaping of beans, wheat and other dry crops are proceeding. Standing crops are in good condition. Cattle are generally healthy. The price of unhasked rice at Rangoon remains stationary and is below normal. The market for white rice is weak at Rs. 212 and annas 8 for specials.

Assism.—The weather was generally seasonable and favourable. Pressing of sugarcane, pruning of tea and ploughing for autumn and broadcast winter rice and jute continue. Sowing of autumn rice is going on. Prospects of crops are fair to good. Cattle disease is reported from four districts. The price of common rice is practically stationary.

Bengal.—During the week the rainfall was generally light throughout the Province and was beneficial to agricultural operations. More rain is wanted for the growth of standing crops and for the cultivation of jute and other autumn crops. Harvesting of spring crops is much advanced. Sowings of jute and autumn rice have commenced in places in the eastern and northern districts. Cattle disease is reported from ten districts. The average price of common rice has fallen slightly as compared with that of the previous week.

Bihar and Orissa.—Light rain was fairly general in Orissa. There was practically no rain in Bihar and Chota Nagpur. Pressing of sugarcane is approaching completion. Harve-ting of spring crops, planting of sugarcane and preparation of lands for the next season's crops continue. Standing crops are generally doing well. The price of common rice has risen in four districts, fallen in four and remained stationary in the remaining districts as compared with that of the preceding week. Cattle disease is reported from eleven districts. The condition of standing crops in the Feudatory States of Orissa is good.

United Provinces.—Light rain fell in a few places. Pressing of sugarcine is nearing completion. Harvesting of spring crops, sowing of cane and extraction of opium continue. Standing crops are generally doing well. Slight damage by hail is reported in parts of some districts. Very little cattle disease exists and agricultural stock is on the whole in good condition. Fodder continues dear in some districts. Prices are slightly falling.

Punjab.—Light vain has fallen in parts of nearly all the reporting districts and was useful for extra spring crops and sugarcane. The condition of standing irrigated wheat and other crops is generally good and of unirrigated crops below average to average. Reaping of rapeseed, barley and gram continues in some districts. The expected yield is below normal to normal. Extra spring crops and sugarcane are being sown. The area sown is generally normal. Cattle are healthy but fodder is scarce in some districts. Prices are generally stationary and range between normal and scarcity rates. Price of wheat:—Rawalpindi 64, Lahore 8, Ferozepore 84, Ambala 9 and Lyallpur 94 seers per rupee.

North-West Frontier Province.—During the week rain fell throughout the Province and still continues. Sunshine is urgently needed as crops have been damaged in parts by excessive rain. Prospects of spring crops are generally average. Sawings are normal. Wheat sells in Peshawar at 718 and in Dera Ismail Khan at 10 seers per rupee.

Jammu.—Prices during the week were stationary and rainfall general. There was nothing else noteworthy.

Kashmir.—The week was generally wet and cool. Standing crops are in fair condition. Cattle are generally healthy. Prices are normal.

Rajputana.—The weather during the week was cloudy and moderately cool. Harvesting of spring crops is proceeding. Prospects are good. Cattle are in good condition. Fodder and water are sufficient. Prices are falling.

Central India.—The rainfall during the week was partial in Gwalior. Spring crops are being irrigated and harvested. Standing crops are in fair to good condition and their probable outturn is fair to good. Agricultural stock is generally in good condition. Scarcity of fodder pravails in some paragraph in Gwalior. Prices are high

Central Provinces.—The weather has been clear and occasionally cloud the days are warm but the mornings and nights are cool. Only Seoni received a light were of rain. Harvesting and threshing of rabi crops are in rapid progress. The estimated outturn is reported to be fair in Berar, fair to good in Nagpur and parts of the Jubbulpore and Nerbudda divisions, poor in Seoni, Hoshangabad, Betul, Chiudwara, the Harsud tahsil of Nimar and the Mehkar tahsil of Buldana and good in Chhattisgarh. The price of just rose by 2 seers and of rice by 1½ seers per rupee in Akola. There were no other marked fluctuations but prices of wheat and gram show a downward tendency. Fodder is being imported from Bhandara to the eastern portion of Nagpur and is getting dear and scarce in Hosbangabad. The condition of agriculturists is not satisfactory in the south of the Wardha district.

Foundatory States: - Spring crops are being harvested.

Bombay.—Standing crops are in good condition except slight damage by rate and insects in parts of Thar and Parkar. Harvesting of spring crops continues. Picking of cotton is progressing in Gujarat. West Khandesh, the Karnatak, Kathiawar, Baroda, Rewa Kantha, Cutch and Kolhapur. Agricultural stock is sufficient. Prices of food grains are generally steady.

Hyderabad.—The average rainfall during the week was 30 cents. Harvesting of spring crops continues. Crop conditions are as reported last week. Late rice is in fair to good condition, though it has suffered slightly by blight in parts of. Nalgonda. Cattle are healthy. Prices of grains are practically unchanged but juar sells at 42 seers per rupee in Parbhani.

Mysore.—The week was slightly wet. Standing crops are in good condition. Harvesting of dry and wet crops is proceeding with outturn fair. Cattle are generally healthy. Prices are generally stationary.

Coorg.—The weather during the week was dry. Picking of coffee and threshing of rice have been completed. Cattle are generally healthy. Fodder and water for cattle are sufficient. Prices of food grains are high.

Madras.—The week was generally showery. Standing crops are in fair to good condition generally. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal generally. Sowing of paddy, sugarcane and dry crops is proceeding normally. The condition of cattle is generally good. Prices are steady.

R. A. MANT,
Secretary to the Government of India.

NOTIFICATION.

ESTABLISHMENTS.

Simla, the 4th April, 1918.

No. 165.—A temporary vacancy having occurred in the office of Lieutenant Governor of Bihar and Orissa consequent on the grant of leave for six months to the Honourable Sir Edward Albert Gait, K.C.S.I., C.I.E., the Governor General is pleased, under the authority vested in him by sub-section (1) of section 54 of the Government of India Act, 1915 (5 and 6 Geb. 5, ch. 61), and subject to the approval of His Majesty, to appoint Sir Edward Vere Levinge, K.C.I.E., C.S.I., lately Member of the Executive Council of the Lieutenant Governor of Bihar and Orissa, to officiate as Lieutenant Governor of Bihar and Orissa during the absence of Sir Edward Gait on the said leave.

The Honourable Sie Edward Levinge assumed charge of the office of Lieutenant Governor of Bihar and Orissa on the afternoon of the 4th April 1918.

#### GAZETTE OF INDIA.

#### NOTICE.

The 16th March, 1918.

On and after 30th March and until further notice, Parts I, IV, V and VI of the Gazette of India and the Weather and Crop Report will be published in Simla. Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Simla and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of

India, Home Department, of August 1901:-

"It has been brought to the notice of this Department that matter for the Gazette of India is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the Gazette of India should be delivered at the Press not later than 2 p.m. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette.

J. P. HEWETT,

Secretary to the Government of India "

3550. R. J. Gilmore. Hooping iron stretchers.

#### PATENTS SEALED.

3130. Rennick. 3395. Nagaraja Rao. 3244. Pundt. 3396. Kono. 3369. Molony and Koenig. 3404. James Simpson & Co., Ld.

#### RENEWAL FEES PAID.

305 of 1906. Stokes. (To 6 March 1919.)

88 of 1910. Notcutt. (To 31 March 1919.)

155 of 1912. Hybinette. (To 25 March 1919.)

160 of 1912. Godfree. (To 26 March 1919.)

853 of 1913. Dalen. (To 25 March 1919.)

854 of 1913. Dalen (To 25 March 1919.)

855 of 1913. Regina Machine Co., Ld. (To 25 March 1919.)

874 of 1913. Begg. (To 31 March 1919.)

1539 of 1914. Larymore. (To 20 March 1919.)

1554 of 1914. General Electric Co. (To 80 March 1919.)

1598 of 1914. Muntz. (To 14 April 1919.)

#### CESSATION OF EXCLUSIVE PRIVILEGES.

The public are warned that entries under this heading must not be accepted as final, as under the provisions of Rules 9 and 11 of "The Indian Patents and Designs (Temporary) Rules, 1915," the Controller may extend the time prescribed by the Indian Patents and Designs Act, 1911, and by the Inventions and Designs Act, 1888, for paying the necessary renewal fees.

The Patent Office will supply on request definite information, so far as possible, as to the position of any particular Patent or Exclusive Privilege.

1910.

525, (Tyer).

1911.

417, (Mehta).

' 1912.

677, (Steljes).

#### NOTICES.

#### THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

#### Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

- 1. All communications relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.
- 2. Directions for the guidance of inventors and others are given in the Patent Office Handbook (Frice one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Tempo-

II A 2

rary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. These should be consulted before an application is made to the Controller.

- 3. Advice. The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made to the patent offices in the countries concerned.
- 4. Fees are payable in cash and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.
- 5. Trade and property marks and names are not registered and medicines are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with pictures, photographs, etc., for which copyright is obtainable under the Indian Copyright Act, 1914.
- 6. Printed Specifications of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the Gazette of India. These specifications can be purchased at the Patent Office at a uniform price of 8 annaper copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

M. R. Ry. V. Subba Rao . . Stewartpetta, Pithapuram, Godavari District. .

N.B.—Whenever any teacher changes his address, he is requested to communicate his new address to the Board of Examiners.

N.B.—Teachers whose names are preceded by an asteriak (\*) are considered especially competent to give advanced instruction in the language.

CALCUTTA. The 13th February 1918. O. F. JENKINS,

Rs.

Secretary and Member, Board of Examiners.

## SULPHATE OF QUININE, SULPHATE OF CINCHONIDINE, CINCHONA FEBRIFUGE, RESIDUAL ALKALOID AND QUINOIDINE.

Manufactured at the Bengal Government Cinchona Plantation.

These articles are guaranteed to be free from wilful admixture with other Cinchona Alkaloids. Quinine can be purchased by Government officers, District and Local Boards for Hospitals and Dispensaries in the Provinces of Bengal, Bihar, Punjab and Assam on indents duly countersigned by the Civil Surgeon of their Districts. It can also be purchased by Missionaries for bona fide public purposes. It is never sold to private persons or firms. Cinchona Febrifuge both in powder and 3½ grain tablet forms and Cinchonidine can be purchased by Government officials and the general public. It is also sold by the Principal Druggists in Calcutta. Quinoidine or pure Amorphous Alkaloid and Residual Alkaloid or Amorphous Cinchona Alkaloid, which contains about 40 per cent. of Pure Amorphous Alkaloid, are for sale to Missionaries and Government Institutions only. These drugs are sold strictly cash and in advance but private purchasers may use the V. P. P. system, AND ARE OBTAINABLE FROM THE SUPERINTENDENT, JUVENILE JAIL, ALIPORE.

The rates for these drugs from 1st April 1918 are as follows: -

#### SULPHATE OF QUININE.

# THE HON'BLE THE CHIEF COMMISSIONER OF BRITISH BALUCHISTAN.

#### NOTIFICATIONS.

#### Quetta, the 28th March 1918.

- No. 1192-B.—The following draft rules which it is proposed to make for the regulation of motor vehicles in British Baluchistan, in exercise of the powers conferred by section 1 (2) of the Indian Motor Vehicles Act, VIII of 1914, are published as required by section 11, subsection 1, of the said Act, for the information of persons likely to be affected thereby, and notice is given that the draft will be taken into consideration by the Hon'ble the Chief Commissioner on or after the 15th April 1913.
- 2. Any objection or suggestion with respect to the draft rules which may be received from any person before the date fixed as aforesaid will be considered by the Hon'ble the Chief Commissioner.

#### Draft Rules.

No. 1193-R.—In exercise of the powers conferred by section 11 of the Indian Motor Vehicles Act, 1914 (VIII of 1914), the Hon'ble the Chief Commissioner of British Baluchistan is pleased to make the following rules to regulate the use of Motor Vehicles within British Baluchistan.

#### RULES.

#### PRELIMINARY.

- (1) These rules may be called the British Baluchistan Motor Vehicles Rules,

  Short title, Extent and definitions.
- (2) They shall extend to the whole of British Baluchistan.
- (3) In these rules,—
  - (a) " Registering Authority" shall mean the District Magistrate of Quetta.
  - (b) "The Act" shall mean the Indian Motor Vehicles Act, 1914 (VIII of 1914);
  - (c) The expression "Motor Cycle" means a two, three or four wheeled cycle propelled by mechanical means, fitted with seats, but without a carriage body, and weighing not more than 5 cwt;
  - (d) The expression "heavy motor vehicle" means a motor vehicle exceeding two tons in weight unladen;
  - (e) The expression "trailer" means any vehicle drawn by or attached to a moment vehicle;
  - (f) The expression "axle weight" means in relation to an axle of a heavy motor vehicle or of a trailer, the aggregate weight transmitted to the surface of the road or other base whereon the heavy motor vehicle or the trailer moves or rests by the several wheels attached to the axle, when the heavy motor vehicle or trailer is loaded;
  - (y) The expression "registered axle weight" means, in relation to an axle of a heavy motor vehicle, the axle weight of that axle as registered by the licensing authorities;
  - (A) The expression "weight" in relation to a heavy motor vehicle or trailer when unladen, means the weight of the vehicle exclusive of the weight of any water, fuel or accumulators used for the purpose of propulsion;
  - (i) The expression "width" in relation to the tire of a wheel means the distance measured horizontally and in a straight line across the circumference of the wheel and between the two points in the outer surface of the tire which are farthest apart:
  - (j) The expression "diameter" in relation to a wheel, means the diameter measured between the two opposite points in the outer surface of the tire which are furthest apart;
  - (k) "Night" means the period from half an hour after sunset to half an hour before sunrise.

#### DRIVING LICENSES.

- 2. (1) A license to drive a motor vehicle shall be granted by the District Magistrate,

  Quetta, to any person who can satisfy such authority in the manner laid down in Schedule

  H that he is a competent driver.
  - (2) Such license shall be valid throughout British India.
  - (3) A driving license granted in accordance with any rule in force for the time being in any province of British India shall be valid up to the date of its expiry throughout British Baluchistan.
- 8. The fee for licenses granted under rule 2 (1) shall be :--

For a Motor Cycle . . Rs. 2 per annum . For a Motor Car . . Rs. 4 per annum.

4. Every driving license shall remain in force for a period of 12 months from the

Period of Driving License.

date on which it is granted, but shall be renewable and the same provi sions shall apply to the renewal of the license as apply to the grant thereof.

#### REGISTRATION.

- Subject to the provisions contained in rule 12 and save as provided in rules made under sections 14 and 15 of the Act no motor Vehicle shall be used unless it has been first registered by the registering authority, but any motor vehicle which has already been registered under the Act or in accordance with any other enactment in force for the time being in any province of British India shall be deemed to have been registered.
- 6. Save as provided in rule 11(2) the fee for registration shall be four rupees for motor cycles, ten rupees for motor vehicles exceeding two tons:
  - Provided that traction engines used solely for agricultural purposes shall be registered free of charge and steam rollers, fire engines and fire escape tenders need not be registered.
- 7. The registering authority shall assign a distinguishing number to the motor vehicle with the name of the registering centre in front, riz.:—

#### QTA = Quetta.

- (a) Numbers assigned to motor vehicles shall be shown in white on a Particulars as to distinguishing black ground.
- (b) The numbers shall be of the following dimensions:—
  - Height of each figure 3½ inches, uniform thickness ‡ inch, each figure occupying a space of 2½ inches with 1 inch between each figure, and a margin of ½ inch at the top, bottom and sides of the plate:
  - Provided that in the case of motor cycles the number may be not less than two-thirds of the above dimensions.
- (c) The numbers shall be painted on a plate rigidly affixed in a conspicuous place on the front and back of the motor vehicle and on the back of any trailer:
  - Provided that the number for the back of a motor vehicle or trailer may be painted on any conspicuous smooth surface, such as the petrol tank, that may be available for the purpose, instead of on a plate.
- (d) No number shall in any way be obscured or rendered or allowed to become not easily discernible at a reasonable distance.
- (e) In the case of a motor cycle the front number plate shall have duplicate faces and shall be fixed to the front of the cycle so that from whichever side the cycle is viewed the letters or figures on one or other face of the plate may be easily distinguishable.
- 9. The registering authority shall establish and keep a register (hereinafter referred to as the "Register of Motor Vehicles") for the registration of motor vehicles in which the name and address of the owner together with a description and other particulars of the vehicle will be recorded and such register shall be kept in two parts, riz.:—
  - A. Register of Motor Cars and Cycles (Schedule E).
  - B. A register of Heavy Motor Vehicles (Schedule F).

- 10. Before registering a motor vehicle, the registering authority shall be satisfied

  Requirements before Registration.
  - (a) that it is provided with two independent brakes or other means of stoppage in good working order and of such efficiency that the application of either is capable of promptly stopping the motor vehicle whether going forwards or backwards;
  - (b) in the case of internal combustion engines, that no cut out, fitting or other apparatus or device for allowing the exhaust gases from the engine to escape into the atmosphere without first passing through a silencer, expansion chamber, or other contrivance suitable and efficient for reducing, as far as may reasonably be practicable, the noise caused by the escape of the said gases, shall be used.
  - (c) if such motor vehicle is propelled by steam that -
    - (i) it is so constructed as to consume its own smoke as far as practicable.
    - (ii) it is fitted with an efficient "Spark arrester."
  - (d) if such motor vehicle is propelled otherwise than by steam, that it is so used that no smoke or visible vapour is emitted therefrom except from any temporary or accidental cause.
- 11. (1) Before registering a heavy motor vehicle the registering authority shall also satisfy himself that the tires of the wheels of the vehicle, if the tires are not pneumatic, or are not made of a soft or elastic material, are of the dimensions required by the special rules for heavy motor vehicles, and may also have the weight of the heavy motor vehicle, and if he thinks necessary, the axle weight of each wheel ascertained in such manner as he may by general or special order direct.
  - (2) Heavy motor vehicles shall after first registration be inspected and registered annually, free of fee, and the date of the expiry of such licenses shall be the 31st day of March in each year.
- 12. The registering authority may assign to a manufacturer of, or dealer in, motor vehicles, on payment of an annual fee of thirty rupees, a general number which, together with a distinguishing alphabetical letter of the same dimensions as the numbers, shall be affixed as laid down in rule 8 to any motor vehicle when on trial after completion, or when on trial by an intending purchaser.
- Such manufacturer or dealer shall keep a register in such form as the registering authority may direct, showing the name of the driver and the hours and dates on which he was in charge of the vehicle. He shall also keep a register in which the numbers of all registered cars in his possession shall be entered up showing the date on which such cars were received into his possession.
  - On demand such registers shall be open to inspection by any police officer not below the rank of Sub-Inspector.
- 14. Every transfer of ownership and every temporary transfer of possession of a motor vehicle shall forthwith be intimated to the registered owner and by the transferee and a transfer certificate shall thereupon be granted to the transferee.
  - Provided that no intimation shall be required for temporary transfers for a period not exceeding one month.
  - The word "Transferee" includes the purchaser, dealer, auctioner, receiver agent, repairer or any person who may be in temporary charge of the vehicle for the time being.
- 15. If any circumstances (other than those mentioned in rules 14 and 26) occurring in relation to any motor vehicle, affect the accuracy of any particulars entered as regards that car in the register of motor vehicles, the owner of the motor vehicle shall forthwith inform the registering authority with whom it has been registered.
- Where the registering authority, at any time after a motor vehicle has been registered, considers that it has ceased to comply with the requirements of the Act or the rules made thereunder or that it has not been maintained in such a condition as to prevent danger to the public, such registering authority, may, after notice to the registered owner, direct that the registration be cancelled until such time as the defects are rectified to its satisfaction.

- 17. (1) A motor vehicle shall be driven in accordance with the rules of the road which require a vehicle to keep on the left of the road except when passing vehicles or animals, led or ridden, going in the same direction, which should be passed on the right.
  - (2) The driver of a motor vehicle when turning into a side street, if to the left shall keep close to the corner, if to the right shall make a wide curve. He shall further when about to turn to the right hold out his right hand horizontally to the right of the vehicle and when about to stop raise his hand vertically, palm to the front.
  - (3) A motor vehicle entering a main road from a branch or side road should enter the main road slowly and give way to vehicles travelling on the main road.
- 18. (1) No motor vehicle shall be driven at a greater speed than twenty miles an Speed Limits. hour:
  - Provided that at night, where the road is unlighted by street lamps, and at all times in the neighbourhood of railway stations and crossings, cross roads, side streets, curving roads (when the road in front cannot be seen) in dense traffic, in passing over narrow bridges or by a road entrance to private grounds, the driver shall reduce that limit to such speed that the vehicle can be brought to a standstill within a distance of 5 yards, and
  - Provided also that in such places as the District Magistrate within Municipal limits, or the Cantonment Authority within Cantonment limits may think necessary, he or it may indicate by means of notice boards that motor drivers shall not allow the speed to exceed six miles an hour or such higher rate as may be shown on the board.
  - (2) The speed at which a heavy motor vehicle is driven on any public road shall not exceed eight miles an hour:

#### Provided that -

- (a) if the weight of the motor vehicle unladen exceeds three tons, or
- (b) if the registered axle weight of any axle exceeds six tons, or
- · (c) if a trailer is attached to the heavy motor vehicle,

#### the speed shall not exceed five miles an hour.

#### Provided also that-

- If the heavy motor vehicle has all its wheels fitted with pneumatic tires or with tires of a soft or elastic material, the speed at which the heavy motor vehicle may be driven on any public road shall not exceed—
- (a) twelve miles an hour where the registered axle weight of any axle does not exceed six tons.
- (b) eight miles an hour where such registered axle weight exceeds six tons.
- 19. A motor vehicle shall not be driven in any footway, nor shall a motor vehicle be

  Prohibition as to the use of driven in any road or public place where such traffic may, for the time being, be prohibited within Municipal limits by the District Magistrate or within Carton ment limits by the Cantonment Authority.
- 20. Every person driving a motor vehicle shall have ready and available for immediate use a suitable deep-toned horn or in the case of a heavy motor vehicle a suitable gong, capable of giving audible and sufficient warning of his approach or position, and shall sound the same whenever expedient to prevent danger to any of the public. No warning device shall be used upon a motor vehicle unless it has first been approved of by the Licensing Authority.
- No electric or mechanical devices for magnifying the sound, no sirens, whistles, multiple horns or devices of a like nature shall be used on a motor vehicle in any road or street where the use of such devices may from time to time be prohibited within Municipal limits by the District Magistrate or within Cantonment limits by the Cantonment Authority.
- 22. No person shall drive a motor vehicle at night unless such vehicle is provided

  Motor rehicles to carry lamps. with lights as follows:—
  - (1) In the case of heavy motor vehicles and of motor cars and of motor cycles with trailers attached
    - (a) One lamp showing a white light in front shall be affixed on each side of the front portion of the vehicle; and such lamp shall be fixed at the extreme limit of the car's width. In the case of motor cycles with side car one lamp should be fixed on the cycle and one on the front of the side-car.

26.

- (b) One lamp showing a red light at the rear and showing a white light at the side shall be affixed at the back of the vehicle in such manner as to illuminate with the white light and render easily distinguishable the number of the vehicle.
- (2) In the case of motor cycles without side-cars one lamp showing a white light in front and so fixed as to illuminate and render clearly visible the numbers on both sides of the front number plate shall be attached to the front portion of the vehicle and one lamp showing a red light to the rear shall be attached at the back of the vehicle.

Provided that in lieu of the red lamp mentioned in sub-rule (2) there may be substituted a red reflector so constructed and attached to the vehicle in such manner as to reflect a red light from any light carried on another vehicle approaching from behind.

(8) In all cases:

(a) The lamps shall be of suitable character and illumination;
(b) The lamps shall be kept properly alight;

(c) Acetyline or electric lamps or lamps of any description giving a powerful and intense light shall be hooded or screened in a manner or with a hood or screen of a pattern to be approved by the registering authority.

23. No person shall drive a motor vehicle-

(a) unless it is at all times under full control so as to prevent undue interference with passenger or other traffic, and unless it is Maintenance. maintained in such a condition as to prevent danger to the public;

(b) If such motor vehicle is propelled by steam, unless
(1) it is so constructed as to consume its own smoke as far as practicable,
(2) it is fitted with efficient "spark arresters."

(c) If such motor vehicle is propelled otherwise than by steam,

unless it is so used that no smoke or visible vapour is emitted therefrom except from any temporary or accidental cause.

No driver shall leave a motor vehicle while 24. Standing in streets, etc. the engine is in action.

The driver of a motor vehicle shall not cause the vehicle to travel backwards for a 25. greater distance or time than may be requisite Travelling Backwards. for purposes of safety or in order to turn round, and such movement shall not take place until such driver has ascertained that the ground to be so traversed is clear of all traffic.

(1) Intimation of any change of address shall be given by the owner of every motor vehicle to the registering authority and in the case of an owner leaving his own province, to the registering authority of the province which the owner proposes visiting. Such intimation shall also be given by every holder of a license who drives a

motor vehicle to the authority empowered to grant licenses.
(2) For the purpose of this rule, the address of such owner or holder shall be deemed to be changed when such person ordinarily resides elsewhere than at the address

entered in the license or certificate of registration.

27. Every owner of a motor vehicle who employs any person to drive such motor vehicle shall at the request of the registering Drivers. authority or the authority empowered to grant licenses or any officer empowered in this behalf by any such authority, communicate to such authority the name and address of such driver, or, if he is unable to do so, shall assist such authority to the best of his ability in discovering the

28. No person shall ply or let for him a motor vehicle unless it is first registered in accordance with rule 5 of these rules and Plyingsor letting for hire. unless it complies with the special regulations made for the regulation of vehicles let or plying for hire.

29. No person shall drive or have charge of or cause or permit to be used any motor vehicle which does not in all respects conform to these rules, or which is driven or used so as Responsibility for conforming to to contravene any of these rules.

#### SPECIAL RULES FOR HEAVY MOTOR VEHICLES.

- Upon receiving from the registering authority a copy of the entries made in the 30. register relating to a heavy motor vehicle or trailer, the owner of the motor vehicle shall Registered weight to be printed on the rehicle. cause
  - (a) The highest rate of speed at which in conformity with the rules the heavy motor vehicle may be driven without a trailer,
  - (b) the registered weight of the heavy motor vehicle or trailer unladen, and

(c) the registered axle weight of each axle to be printed or otherwise plainly marked in letters not less than one inch in height, and in such a 'manner as to be legible at a reasonable distance, in the case of (b) and (c) upon some conspicuous part of the right or off side of every heavy motor vehicle or trailer, and in the case of (a) on the left or near side.

This rule shall not apply to trailers not exceeding one ton in weight unladen.

- 31. (1) The axle weight of an axle of a heavy, motor vehicle shall not, exceed the registered axle weight.
  - (2) The registered maximum axle weight of any axle of a heavy motor vehicle shall not exceed eight tons and the axle weight of a trailer shall not exceed four tons.
  - (3) The sum of the registered axle weights of all the axles of a heavy motor vehicle shall not exceed twelve tons.
- The tires of each wheel of a heavy motor vehicle or trailer, unless the tires are pneumatic or made of a soft or elastic material, shall be smooth and shall, where the tire touches the surface of the road or other base whereon the heavy motor vehicle moves or rests, be flat, provided that the edges of the tire may be bevelled or rounded to the extent in the case of each edge of not more than half an inch:

Provided also that-

- If the tire is constructed of separate plates, the plates may be separated by parallel spaces which shall be disposed throughout the outer surface of the tire, so that nowhere shall the aggregate extent of the space or spaces in the course of a straight line drawn horizontally across the circumference of the wheel exceed one-eighth part of the width of the tire.
- 33. The width of the tire of each wheel of a heavy motor vehicle or trailer shall be determined by such of the following conditions as may apply to the circumstances of the case; that is to say—
  - (a) The width shall in every case be not less than 5 inches, or in the case of a trailer, 3 inches.
  - (b) The width shall be not less than that number of half inches which is equal to the number of units of registered axle weight of the axle to which the wheel is attached.
- 31. (1) The unit of registered axle weight shall vary according to the diameter of the Wheel, and the rules set forth in the subjoined scale, that is to say—
  - (a) if the wheel is 3 feet in diameter, the unit of registered axle weight shall be 7½ cwts.;
  - (b) if the wheel exceed 3 feet in diameter, the unit of registered axle weight shall be 7½ cwts. with an addition of weight in the proportion of one hundredweight for every 12 inches by which the diameter is increased beyond 3 feet; and in the same proportion for any increase which is greater or less than 12 inches; and
  - (c) if the wheel is less than 3 feet in diameter, the unit of registered axle weight shall be 7½ cwts. with a deduction of weight in the proportion of one hundredweight for every six inches by which the diameter is reduced below three feet; and in the same proportion for any reduction which is greater or less than six inches.
  - (2) This rule shall not apply to any tire which is pneumatic or which is made of a soft or elastic material, or to trailers not exceeding one ton in weight unladen.
- 35. The diameter of a wheel of a heavy motor vehicle or trailer, if the wheel is fitted with a tire which is not pneumatic or is not made of a soft or elastic material shall not be less than 2 feet.
- 36. A heavy motor vehicle, and any trailer attached to any such heavy motor whicle.

  Width and length of vehicle.

  extreme projecting points, be of a width not exceeding 7 feet 6 inches and no heavy motor vehicle or trailer attached to it shall be used on any street or road if such motor vehicle exceeds 36 feet in length.
- 37. Every heavy motor vehicle and trailer shall be constructed with suitable and sufficient springs between each axle and the frame of the vehicle.
- 38. No heavy motor vehicle used on any street or road shall have attached to it more than one trailer except when allowed by the licensing authority in accordance with rule 47.

4%

49;

A trailer shall not be attached to a heavy motor vehicle which is used as a public 89. conveyance except under a permit granted Vehicle for the conveyance of by an officer authorised by Government in passengers. this behalf.

40. Prohibition of the use of heavy motor vehicle without or der permitting the vehicle to be driven on the partipular road or roads in question.

(1) No owner of a heavy motor vehicle shall cause or suffer such vehicle to be driven, and the person driving or in charge of such vehicle shall not drive it upon any road without having obtained permission to do so. Applications for the said permission shall be made to the District Magistrate or the

Caftonment Authority according as the vehicle is for use in the limits of a Municipality or bazar or Cantonment, and shall specify the road or roads along which the vehicle is to be driven. The application shall be accompanied by a plan showing the axle weight and dimensions of the vehicle.

- (2) The permission granted under the above sub-rule may be revoked by the Authority granting it, either temporarily or permanently if such Authority sees any reason to apprehend danger to life or property by its continuance or to maintenance of road or bridges.
- (1) Where a bridge forming part of a highway is insufficient to carry a heavy motor vehicle of a particular weight, the District Magistrate in the case of bridges within Muni-41. cipal limits and the Cantonment Authority in the case of bridges within Cantonment limits may notify that this rule is extended to such bridge, and thereupon he or it shall affix or set up in suitable and conspicuous positions, on each approach to the bridge, notices which, as regards all their contents or subject matter, shall be clearly and distinctly legible and visible by persons approaching the bridge, and which state that the bridge is insufficient to carry a heavy motor vehicle, the registered axle weight of which exceeds that specified in the said notice board.
  - (2) The owner of any such heavy motor vehicle shall not cause or suffer the motor vehicle to be driven, and the person driving or in charge of the motor vehicle shall not drive the motor vehicle, upon any bridge to which this rule extends.
- 42. The owner of a heavy motor vehicle shall not cause or suffer the motor vehicle to be driven, and the person driving or in charge of a heavy motor vehicle shall not drive the motor vehicle, upon a bridge forming part of a highway at any time when another heavy motor vehicle or a locomotive is on the bridge, if the combined weights of the vehicle would exceed the carrying capacity of the bridge.

When a heavy motor vehicle is used on any road or street, two-persons capable

Number of persons in attendance on of controlling motor shall be employed in heavy motor vehicles.

driving or attending to such vehicle.

The cylinder taps of a heavy motor vehicle propelled by steam shall not be opened within sight of any person riding, driving, leading or in charge of any horse upon the road or street, nor shall the steam be allowed to attain a pressure so as to exceed the limit fixed by the safety valve, so that no steam shall blow off when the vehicle is appeared an extract. 44. when the vehicle is upon the road or street.

45. Every applicant for registration of a heavy motor vehicle shall make a declaration in the form of Schedule J and append it to his Declaration. application for registration.

#### SPECIAL RULES FOR TRACTION ENGINES.

46. Traction engines may be registered at the discretion of the registering officer, who should, on application being made to him, consult, in the first instance, the local authorities of the place in which it is proposed to run such traction engine.

(1) A traction engine and any trailer attached to any such traction engine may when 47. Size.

measured between its extreme projecting points be of a width not exceeding 8 feet 6 inches and no traction engine made up of a locomotive with one or more trailers attached to it shall be used on any street or road if such vehicle and trailers exceed 75 feet in locath. exceed 75 feet in length.

(2) The weight of a traction engine shall not exceed 14 tons.

48. Each trailer attached to a traction engine shall have a brake approved by the Brakes on trailers. registering authority.

Every traction engine must have three persons in attendance, two persons to attend to the traction engine and one person Persons in attendance.]. to be on the watch and ready to help any erson with horses and carriages meeting or overtaking the traction engine nd to attend to the trailers.

50.	The man in charge of	of the trailers shou	ild always be on the alert when approaching

Fees Rs. 2 Motor Cycle

4 Motor Cars and other motor vehicles.

Registration Certificate. (Available for the whole of British India).

191

Certified that the motor vehicle described hereunder has been examined and found fit for use. It has been registered in the name of Mr. residing at been assigned number

This number must always remain attached to the vehicle and must not be transferred to another vehicle. The person disposing of the vehicle as well as the person who takes it over is bound by rule 14 to report the fact to the undersigned.

Description of vehicle :-

Description of type.

Colour.

Maximum speed.

Number of cylinders.

Horse power.

Number of seats.

Number of engine.

In pursuance of endorsement No. 266 I. D., dated 15th March 1915, from the Government of India in the Foreign and Political Department this certificate of registration is valid throughout India.

District Magistrate.

#### Indian Motor Vehicles Act, Section 4, and Rules 7 and 8.

be printed back of tificate.

- Section 4. The person in charge of a motor vehicle shall cause the vehicle to stop and to remain stationary so long as may reasonably be necessary.
- (a) When required to do so by any police officer for the purpose of regulating traffic or of ascertaining his name and address with a view to prosecuting such person under this Act or for any purpose connected with the enforcement of the provisions of this Act or the rules thereunder; or
- (b) When required to do so by any person having charge of any animal if such person apprehends that the animal is or will be alarmed by the motor vehicle; or
- (c) When he knows or has reason to believe that an accident has occurred to any person or to any animal or vehicle in charge of a person owing to the presence of the motor vehicle and he shall also, if so required, give his name and address and the name and address of the owner of such motor vehicle.
- Rule 7. The registering authority shall assign a distinguishing number to the motor vehicle with the name of the registering centre in front, riz.:—

#### Qta = Quetta.

- Rule  $\delta$ . (a) Numbers assigned to motor vehicles shall be shown in white on a black ground.
  - (b) The numbers shall be of the following dimensions :-

Height of each figure 3½ inches, uniform thickness ¼ inch, each figure occupying a space of 2½ inches with 1 inch between each figure, and a margin of ½ inch at the top, bottom and sides of the plate:

Provided that in the case of motor cycles the number may be not less than two-thirds of the above dimensions.

c) The numbers shall be painted on a plate rigidly affixed in a conspicuous place on the front and back of the motor vehicle and on the back of any trailer.

Provided that the number for the back of a motor vehicle or trailer may be painted on any conspicuous smooth surface, such as the petrol tank, that may be available for the purpose, instead of on a-plate;

- (d) No number shall in any way be observed, or rendered or allowed to become, not easily discernible at a reasonable distance;
- o) In the case of a motor tricycle or motor bicycle the front number plate shall have duplicate faces and shall be fixed to the front of the cycle so that from whichever side the cycle is viewed the letters or agures on one or other face of the plate may be easily distinguishable from the front of the cycle.

Dated

191 .

#### SCHEDULE H.

#### Procedure in Applications for Driving Licenses.

Persons wishing to apply to the District Magistrate for a driving license should present their applications in the first instance to the Superintendent of Police. The Superintendent of Police may require any such person to undergo an examination and satisfy the examiner:—

- 1. That he is a competent and careful driver (by !driving the car under the examiner's observation);
- 2. That he possesses a general knowledge of the car he intends driving.
- 3. That he has a knowledge of the law affecting motor vehicles as well as a knowledge of the rules of the road (rule 17). After being satisfied with the results of the examination or having otherwise satisfied himself that the applicant is a competent driver, the Superintendent of Police shall endorse his application to the District Magistrate for the grant of a driving license.

#### SCHEDULE J.

(SEE RULE 45).

Application for Registration of a Heavy Motor Vehicle Declaration.

I hereby declare that the following particulars in relation to the motor vehicle or trailer to which my application relates are true to the best of my knowledge and belief:—

- (1) Weight of my heavy motor vehicle or trailer unladen.
- (2) Axle weights.
- (3) Diameter of each wheel.

#### SCHEDULE K.

#### Width of tires.

Exemplification Tables.

Exemplification of the working of rule 33 of the rules made under section II of the Indian Motor Vehicles Act of 1914, showing the minimum width required for the tyre of a wheel having regard to—

- (a) the diameter of the wheel, and
- (b) the axle weight of the axle to which the wheel is attached.

Each table relates to a wheel of a particular size and is divided into two parts -

- A .- relates to Heavy Motor Vehicles; and
- B.—restes to trailers.

SUPPLEMENT TO

# The Gazette of India.

No. 1. }

CĂLCUTTA, SATURDAY, APRIL 6, 1918.

## OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The d-bates of the Legislative Council of His Excellency the Governor General will in future be published in PART VI of the GAZETTE.

Non-Subscribers to the Garrie may receive the Supriment separately on a payment of Rupees five per annum if delivered in Calcutta, or Rupees eight if sent by post. The Supriment and Part VI of the Garrie can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by post.

No Official Orders or Notifications, the Publication of which in the GARBITE OF INDIA is required by Law or which it has been customary to publish in the CALGUITA GARBITE, will be included in the Supriment. For such Orders and Notifications the body of the GARBITE must be looked to.

## COTTON PRESS RETURN.

No. 9 of 1917-18.

## PREFATORY NOTE.

THE COTTON SEASON 1917-18.

The yield of the cotton crop of 1917-18 is estimated at 4,035,000\* bales on an area of 24,781,000 acres, as compared with 4,489,000 \* bales on an area of 21,745,000 acres, the revised final figures of last year. There is a decrease of 10 per cent in outturn. It will be seen from the appended tables that cotton is coming in much slower than last year. There were 586,000 bales of cotton pressed in the pressing factories, and 184,000 bales received in the spinning mills, from 1st September to 15th January, 1918, as against 876,000 bales and 207,000 bales, respectively, during the corresponding period of last year, or a decrease of 33 and 11 per cent, respectively. The figures for the Native States of Hyderabad, Central India, Rajputana, and Mysore are, as will be seen from the footnotes to the tables, in complete and have been excluded from this comparison.

## I.—Cotton Press Return for India in the half-month ending 15th January, 1918 (Season 1917-18, i.e., from 1st September, 1917, to 31st August, 1918.)

AT THE COUNCIL CHAMBER, WHITEHALL.

The 8th day of February 1918.

## By the Lords of His Majesty's Most Honourable Privy Council.

WHEREAS it is provided by Section 2 of the Customs (Exportation Prohibition) Act, 1914, that any Proclamation or Order in Council made under Section 8 of the Customs and Inland Residue Act, 1879, as amended by the Act now in recital, may, whilst a state of war 4GI

exists, be varied or added to by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

AND WHEREAS it is provided by Section 2 of the Customs (Expiration Restriction) Act, 1914, that any Proglamation made under Section 1 of the Exportation of Arms Act, 1900, may, whether the Proglamation was made before or after the passing of the Act now in recital, be varied or added to, whilst a state of war exists, by an Order made by the Lords of the Council on the recommendation of the Board of Trade:

AND WHERRAS by a Proclamation, dated the 10th day of May, 1917, and made under Section 8 of the Customs and Inland Revenue Act, 1879, and Section 1 of the Exportation of Arms Act, 1900, and Section 1 of the Customs (Exportation Prohibition) Act, 1914, the exportation from the United Kingdom of certain articles to certain or all destinations was prohibited:

AND WHEREAS by subsequent Orders of Council the said Proclamation was amended and added to in certain particulars:

AND WHEREAS there was this day read at the Board a recommendation from the Board of Trade to the following effect:—

That the Proclamation, dated the 10th day of May, 1917, as amended and added to by subsequent Orders of Council, should be further amended by making the following amendments in and additions to it e Schedule to the same:—

- (1) That the following headings should be deleted :-
  - (A) Candles manufactured wholly or partly of paraffin wax or tallow;
  - (c) Candles (except candles manufactured wholly or partly of paraffin wax or tallow);
  - (A) Cartridges, charges of all kinds, and their component parts;

Chemicals, etc., the following: -

- (a) Soda, caustic;
- (B) Tin, chlorides of;
- (c) Tin, compounds of (except chlorides and exide of tine;
- (B) Tim, oxide of, and mixtures and preparations containing time oxide;
- (A) Fibre, coir;
- (A) Fibre, New Zealand flax;
- (c) Fibres, vegetable, not otherwise specifically prohibited, and tissues and manufactures of such fibres, not otherwise prohibited;
- (A) Firearms, rifled, and their component parts;
- (A) Firearms, unrifled, and their component parts;
- (B) Gum tragacanth;

Linen manufactures, the following :-

- (A) Canvas hose;
- (A) Cloth, unbleached, woven from bleached or unbleached flax yarns, whether the cloth or yarn is pure or mixed with any other material:—
  - (i) being of a weight per square yard exceeding 8 ounces; or
  - (ii) if of a weight per square yard of 8 ounces or less, aggregating 96 threads or more per inch warp and weft combined;
- (c) Cloth woven from bleached or unbleached flax s not otherwise specifically prohibited, whether the cloth or yarn is pure or mixed with any other material;

- (c) Goods manufactured wholly or partly of flax not otherwise prohibited;
- (A) Linen thread;
- (A) Linen yarn;
- (4) Nightlights manufactured wholly or partly of partifin wax or tallo v ;
- (c) Nightlights (except nightlights manufactured wholly or partly of paraffin wax or tallow);
- (B) Oakum;
- (B. Sealskins, untanned hair ;

Silk and silk manufactures, the following :-

- (B) Tissues and fabrics of silk of all kinds (including artificial silk), whether pure or mixed with other yarns or material, in the grey, or discharged, undyed, dved or printed, unweighted or weighted; with the exception of velvets, plushes, hair nets in the piece, laces, mourning crêpe, trimmings, braids, ribbons not exceeding six inches in width, furnishing fabrics (embroidered or brocaded), fabrics containing any kind of metal thread, and all made up articles, not otherwise prohibited;
- (B) Tin, and alloys of tin not otherwise specifically prohibited;
- (c) Tin, manufactures of (except hollow-ware, tin plates, and receptables made from tin plates);
- (B) Tin ore;
- (a) Wire, iron, and articles wholly manufactured thereof;
- (A) Wire rode, iron;
- (a) Wire, steel and articles wholly manufactured thereof:
- (A) Wire rods, steel;
- (2) That the following headings should be added :-
  - (A) Ambergris;
  - (A) Candles;
  - (a) Cartridges, charges of all kinds and their compenent parts, and tools, appurtenances and accessories for the filling and repair of rifle and sh.t gun cartridges;

Chemicals, etc., the following:-

- (A) Soda, caustic, and mixtures containing caustic soda;
- (A) Tin, chlorides of;
- (B) Tin, compounds of (except chlerides and oxide of tin';
- (A) Tin, exide of, and mixtures and preparations containing tin exide:
- (A) Fibres, vegetable, not otherwise specifically prohibited;
- (c) Fibres, vegetable:—Tissues and manufactures thereof, not otherwise specifically prohibited;
- (A) Firearms and their component parts, and tools, appurtenances and accessories for use in connection therewith;
- (a) Flax and linen, all goods wholly or partly manufactured of, except made-up articles of wearing apparel;
- (c) Flax and linen, made-up articles of wearing apparel whelly or partly manufactured of;

- (A) Gum tragacanth;
- '(A) Nightlights;
  - (A) Oakum;
- (A) Pencils, copying ink;
- (A) Sealskins, fur and bair;

Silk and silk manufactures of, the following:-

- (B) Tissues and fabrics of silk of all kinds (iscluding artificial silk), whether pure or mixed with other yarns or material, in the grey, or discharged, undyed, dyed or printed, unweighted or weighted; with the exception of velvets, plushes, laces, mourning orêpe, trimmings, braids, ribbons not exceeding six inches in width, furnishing fabrics (embroidered or brocaded), fabrics containing any kind of metal thread, and all made-up articles not otherwise prohibited?
- (A) Tapers;
- (A) Tin and alloys of tin;
- (B) Tin, manufactures of (except hollow-ware, tin plates and receptacles made from tin plates);
- (A) Tin ore;
- (A) Wire rods, and wire of iron or steel, and articles manufactured wholly of such wire rods or wire.

Now, therefore, Their Lordships, having taken the said recommendation into consideration, are pleased to order, and it is hereby ordered, that the same be approved.

Whereof the Commissioners of His Majesty's Customs and Excise, the Director of the War Trade Department, and all other persons whom it may concern, are to take notice and govern themselves accordingly.

Almeric Fitzroy.

## CUSTOMS ESTAILISHMENTS.

## The 13th April, 1918.

No. 1229.—Mr. E. G. L. Laird-MacGregor, I.C.S., formerly a Collector in the Imperial Customs Service, was granted by His Majesty's Secretary of State for India, furlough for one month and twenty-five days from the 2nd September 1917 to the 26th October 1917, both days inclusive, in extension of the leave granted in the Notification of the Government of India in this Department No. 7949-1, dated the 30th August 1916.

Mr. Laird-MacGregor is also granted by the Government of India a further extension by one day of the furlough sanctioned by the Secretary of State.

## GENERAL.

## The 15th April, 1918.

- No. 1357.—Rai Bahadur A. K. Sarkar, B.A., Secretariat Superintendent, 1st grade, is granted privilege leave for one month, with effect from the 2nd April 1918, and the following arrangements are made in his place:—
  - Mr. S. N. Banerji, B.A., Secretariat Superintendent, 2nd grade, to officiate as Score-tariat Superintendent, 1st grade;
  - Mr. D. O'Sullivan, Secretariat Superintendent, 3rd grade, to officiate as Secretariat Superintendent, 2nd grade;
  - Mr. P. Wood-Collins, Secretariat Assistant, 1st grade, to officiate as Secretariat Superintendent, 3rd grade.

## IMPORT AND EXPORT REGULATIONS.

## The 13th April, 1918.

No. 1438.—In exercise of the powers conferred by section 3 of the Import and Export of Goods Act, 1916 (XI of 1916), the Governor-General in Council is pleased to direct that the following addition shall be made in the Schedule appended to this Department Notification No. 5355-C. W., dated the 12th May 1917, as subsequently amended, viz.:—

Add as a web item under "Oils, the following, namely ":-

(s) Mineral, lubricating.

## POST AND TELEGRAPH ESTABLISHMENTS.

## The 13th April, 1918.

- No. 1232.— The following officiating and temporary promotions in the higher grades of the Superior establishment of the Indian Telegraph Department are sanctioned with effect from the dates specified:—
  - Mr. W. S. Sharpe, Director, Telegraph Engineering, is appointed to officiate in the grade of Rs. 1,600 with effect from the 14th January 1918, and to act temporally in that grade with effect from the 14th April 1918.
- No. 1442.—The following appointments are made with effect from the dates noted against each and until further orders.—
  - Mr. P. G. Rogers, I.C S., Postmaster-General, 3rd grade, to be sub. pro tem. in the 2nd grade from the 16th October 1917;
  - Mr. M. P. C. Byrne, Postmaster-General, officiating in the 3rd grade, to be subpro tem. in that grade from the 16th October 1917;
  - Mr. J. Monteath, I C.S., is appointed sub. pro tem. Postmaster-General, 4th grade, Madras, from the 21st a ecomber 1917.

A. H. LEY,

Secretary to the Government of India.

## DEPARTMENT OF EDUCATION.

## NOTIFICATIONS.

## EDUCATION.

Simla, the 5th April, 1918.

- No. 252.—In exercise of the powers conferred by section 6, sub-section (1), clause (c), and section 10 of the Indian Universities Act, 1904 (VIII of 1904), His Excellency the Chancellor of the Calcutta University is pleased to nominate the following gentlemen to be Ordinary Fellows of the Calcutta University:—
  - 1. Nawab Abul Fazi Muhammad Abdur Rahman, Khan Bahadur.
  - 2. Surgeon-General W. H. B. Robinson, C.B., I.M.S.

## The 10th April, 1918.

No. 262.—The following revised rules for the award of State technical scholarships to enable Statutory Natives of India to pursue a course of study in Western countries are published for general information.

## Rules to be substituted for those in Appendix II (ii) (b) of the Government of India Resolution no. 399, dated the 1st May 1916.

1. It has been the practice for the Government of India to award a number of technical scholarships not exceeding ten in each year to hold good for a 4GI

period of two years' study in Europe,\* and the sanctioned number of students in Europe at one time has thus been 20. The number will now be raised to 30 and this number will be the maximum, but it is not necessary that the maximum number of scholarships should be awarded unless thoroughly competent and well qualified candidates present themselves (vide Rule 11). The number is fixed at 30 in order to give local Governments the power to award a technical scholarship to any man of suitable age and skill possessing qualifications hereinafter specified, who has shown exceptional initiative in any branch of industry and who seems likely to add considerably to his usefulness by a special training in Europe.

2. The sanctioned number of students holding technical scholarships in Europe at one time will be as follows for the various provinces:—

Madras, Bombay, Bengal and United Provinces . . . 4 each
Punjab, Burma Bihar and Orissa, and Central Provinces . . . 3 each
Assam and North-West Frontier Province . . . 1 each

The various local Governments, though at liberty to consult the Government of India on any point, will in future conduct all routine correspondence regarding the appointment and training of technical scholars in direct communication with the Under Secretary of State in the India Office.

- 3. The scholarships will be of the value of £150 per annum to be held subject to the observance by the scholar of the rules laid down for him by the Secretary of State. The scholarship may be withdrawn by the Secretary of State at the end of any year and it may be reduced while the scholar is being trained at works if the employer recommends this course. The scholar will also be required to execute a bond (see annexure II) undertaking to repay the amount of the scholarship he has received if he fails to return to India when instructed by the Secretary of State to do so.
- 4. These scholarships will not be given for law, medicine, forestry, veterinary, science, agriculture, civil engineering (other than sanitary and municipal engineering) or geology, nor for the extraction of alkalis or vegetable oil pressing. It should also be noted that certain industries in Europe, such as bleaching, dyeing, tanning and manufacture of chemicals, very rarely offer facilities for practical work for students: in other branches of technological study, such as engineering and the textile industries, adequate opportunities can probably be found for scholars who possess the necessary qualities and training. If it is proposed to award a technical scholarship in any subject in which technical scholars have not hitherto been trained, enquiry should first be made from the India Office several months in advance as to the facilities available. Certain special suggestions regarding particular industries are incorporated in annexure I to these rules.
- 5. The scholarship in Europe should be for a suitable term, not less than two or more than five years. It is very desirable that this should in most cases be preceded by a practical training of not less than one year and should be followed by a period of about one year's practical work in India; and local Governments are at liberty to give from provincial revenues scholarships not exceeding Rs. 100 per mensem for the preliminary training, and scholarships not exceeding Rs. 150 per mensem for the subsequent period of practical work.
- 6. A Board of Selection should be constituted in each province and in the selection of candidates men of business, directors of industry and employers' associations should be consulted. The selection of a scholar to proceed to Europe should be communicated to the India Office in the form laid down in appendix III. The recommendations should, in the case of scholars who intend to begin their training in England with manual work, reach the India Office by the 1st December and the candidate should ordinarily reach England in March or

April of the following year. In cases where a scholar is intended to commence his training in Europe with purely academic work, the recommendation should reach the India Office by January and the scholar should reach England not later than the middle of September.

- 7. The primary object of the selection should be to obtain a candidate whose experience and intelligence justify the expectation that his selection will help in developing the industries of India As a rule he should not be selected for training in an industry not already established in India unless the co-operation of the promoters can be assured, nor for an industry for training in which facilities are not available in Europe. He should, if possible, be selected for training in an industry in which Indian capital and enterprise is engaged or likely to be engaged; this classification includes not merely textile and mining industries but also industries on a smaller scale such as pottery, tanning, and the making of matches, glass, sugar, pencils and paper; and where possible he should be a man already engaged in the industry. As a general rule, he should have had at least a year's practical training in a workshop, factory or mine, have proved his capacity to stand the strain and have learned enough of the industry to understand the theoretic teaching which must follow. When such training cannot be provided in India, the India Office should be asked to arrange a similar training in Europe. Attention is also invited to the suggestions regarding special industries which are appended to these rules. If the Board of Selection desire advice from expert officers attached to the Government of India, they are at liberty to address them on the subject: and it is suggested that if a candidate is to be trained in any industry connected with agriculture. the advice of the Agricultural Adviser to the Government of India should be When a scholar has had a preliminary training in India, a report on his work and progress should be sent to the Secretary of State. suggestions which the Board of Selection may wish to make regarding the course of training to be followed in England should be communicated to the India Office, and in making such suggestions the Board should consider the proposals made by the existing employers (if any) of the candidate. If possible, the employers should be induced to guarantee employment to the scholars on their return to India, and in no case shall a technical scholarship be given to a candidate unless there is a definite prospect of his obtaining employment in which he will be able to put to use in India the experience and training he will have gained.
- 8. In the case of indigenous industries such as tanning, flour milling, etc., a scholar should, if possible, in addition to an aptitude for the industry, inherited or acquired, have adequate educational qualifications, but in the case of candidates who have not both qualifications those who have the qualification of aptitude for the industry should have the preference provided that they have sufficient working knowledge of English to follow lectures in that language.
- 9. The educational qualifications referred to above are as follows. Those who are to study textile industries should have read up to the standard of the B. Sc. degree or the B. A. (with Science) or have obtained an equivalent diploma. Those who take up any branch of engineering should have passed the B. A., B. Sc. or B. Eng., should have a knowledge of mechanical drawing and descriptive geometry, and should have taken mathematics, physics and chemistry among the subjects for their degree. Scholars should be provided with certificates from the University showing in what subjects they have passed, what degree of proficiency they have reached and what marks they have secured.
- 20. Satisfactory evidence of good character should be obtained, and a candidate should ordinarily be of such character and habits and of such an age (not exceeding 25 years) that detailed tutelage should be unnecessary. He should also pass a searching examination as to physical fitness.
- 11. The fact of a vacancy existing shall not be considered a reason for awarding a scholarship if a suitable candidate is not forthcoming.

- 12. Candidates should be made clearly to understand (a) that the scholar-ships are not intended to endow the holders or prepare them for Government service, (b) that the scholar in each case is selected for a definite purpose and will be expected on proceeding to England to enter at once and without discussion of possible alternatives on the course of training laid down for him, and to comply with whatever instructions and to do whatever kind of work it may involve, and (c) that when his period of training is over he will be expected in every case to return to India and to use there the knowledge he has gained for the benefit of his country.
- 13. The local Government should receive an annual report from the India Office of the progress made by each scholar in his training; and the Board of Selection or some similar body should, with the assistance of local mannfacturers and employers, endeavour to find employment for scholars, whether these are provided with a further scholarship on their return or not. When a scholar has a scholarship after his return, the Board should settle the nature of his practical training while he is drawing the scholarship and should, if they think this fit and practicable, obtain from the new employer a report on the way in which the scholar has progressed during his training and his value as a technological specialist. In such a case the scholar should at the end of his period of training receive from the Board a detailed statement of his training together with the final opinion of the Board on his qualifications. Though scholars are to clearly understand that Government cannot guarrantee them employment, the Board should make every endeavour to secure permanent employment for scholars at the earliest possible date after the completion of their training.
- 14. The local Government should in January of each year send a return to the Government of India and the India Office showing how all scholars from the province which have returned since 1910 are employed and what salaries they are drawing.

## ANNEXURE I.

## Suggestions regarding special industries.

- (I) Engineering.—(i) All engineering students of whatever branch should receive a year's preliminary workshop course in a mechanical engineer's shop in India.
- (ii) Indians who come to the United Kingdom for their college course should have taken the B. A., B. Sc. or B. Eng. degree and have received a training in mathematics, physics, chemistry and engineering-drawing of a sufficiently advanced character to enable them to join a second-year class at once; special instruction in mechanical drawing and descriptive geometry is required, and should be given in India.
- (II) Mining.—(i) Scholarships in Mining (as distinguished from Geology) shall only be given to men who intend to become mine managers or mining engineers.
- (ii) In every case the candidate shall have actually worked for at least one year in an Indian mine—preferably in a paid position.
- (iii) A specially strict test of physical fitness shall be imposed on candidates before selection.
- (iv) The candidate shall have reached the B. A. or B. So. standard in physics (theoretical and practical), chemistry and mathematics, mechanics and practical geometry.
- (III) Mining Geology.—Candidates should possess a knowledge of economic geology and some experience of surveying and mining methods.

- (IV) Metallurgy.—(i) Scholarships should be granted only to men who have had previous experience of metal industries, a knowledge even of primitive processes being valuable; and candidates who lack such experience should be sent for some months to metal works in India before coming to this country for their training.
- (ii) If possible notice be given beforehand of the branch of metallurgy that the scholar intends to take up on his return to India.
- (V) Spinning and Weaving.—Scholars should in all cases have had considerable experience in one or more Indian mills, preferably through having served in a paid position.
- (VI) Bleaching and Finishing.—It is almost impossible for Indian students to obtain in England anything more than the training given in technological colleges, and, in order that they may complete this by practical experience, efforts should be made to secure openings for a few carefully selected men in up-to-date bleaching establishments in India; but in the woollen industry facilities for practical training are procurable to a limited extent in Europe.
- (VII) Dyeing.—No scholarship be granted to a candidate who does not possess some knowledge of the dyeing industry as carried on in India, and has reached the B. Sc. standard in chemistry.
- (VIII) Tanning.—(a) As regards students who aim at becoming owners or managers of tanneries—
  - (i) Hereditary connection with the leather industry is desirable, and a knowledge of Indian methods is essential.
  - (ii) Where these conditions are satisfied, high academic qualifications need not for the present be insisted upon; a fair knowledge of chemistry, physics, and some knowledge of mathematics and acquaintance with the metric system of weights and measures will suffice.
- (b) As regards those who intend to take up scientific research as applied to leather industries—
  - (i) The scholarship shall only be granted after the student has received the highest scientific training in India.
  - (ii) He must have shown considerable aptitude for research work.
- (IX) Chemical Manufactures.—The grant of scholarships for the study of chemical industries in the United Kingdom is of doubtful utility; training in India would be preferable, and before any such scholarship is granted, inquiry should be made as to the possibility of providing in Europe a complete training in the special branch of industry concerned, full particulars being furnished to the India Office as to candidates' qualifications and prospects of finding employment on their return to India.

## ANNEXURE II.

Know all Men by these presents, that We,

(undergoing a course of instruction in connection with a Government Technical Scholarship) and

do hereby bind ourselves, and each of us, our and each of our heirs, executors, and administrators, to pay to the Secretary of State for India in Council, or the Government of India as the case may be, the penal sum of

Scaled with our scals, dated this thousand hine hundred and

day of

one

Whereas the Government of India has nominated the above bounden to a Government Technical Scholarship:

And whereas the above bounden

as nominee of such Scholarship is entitled under certain conditions to 150l. per annum for years, tuition fees, certain travelling expenses, and also a second-class return passage from India to England and back.

Now the condition of the above written obligation is that:—
If, in the event of the above bounden

not returning to India, as and when directed by the Secretary of State for India in Council or the Government of India, he shall forthwith refund to the Secretary of State for India in Council or the Government of India any sums which have been paid to him or on his behalf in respect of the said Scholarship, tuition fees, travelling expenses, or second-class return passage.

Then the above written obligation shall be void and of no effect, otherwise it shall be and remain in full force and virtue.

Signed, sealed, and delivered by the above bounden

in the presence of

Signed, scaled, and delivered by the above bounden

in the presence of

N. B.—The names of some members of the scholar's family, or other persons interested in him, should be included in the bond, so that if necessary) legal proceedings may, without difficulty, be taken in India: and it may be hoped that the fact that these persons would be liable to suffer in the event of his breaking his contract, will exercise a restraining influence on his con luct. If the scholar's name alone appears, the bond will be of no practical value.

## SANITARY.

## The 9th April, 1918.

No. 104.—Whereas the Governor-General in Council is satisfied that the Jharia and Bukharo-Ramgarh coal fields are threatened with an outbreak of the dangerous epidemic diseases known as cholera and small-pox, the Governor General in Council, in exercise of the powers conferred by section 2, sub-section (3), of the Epidemic Diseases Act, 1897 (III of 1897), is pleased to direct that all the powers conferred by the said Act may be exercised to prevent the outbreak of cholera and small-pox, or the spread thereof, by the Government of Bihar and Orissa with re-pect to the territories administered by that Government.

## ARMY DEPARTMENT.

## Simla, the 12th April 1918.

### APPOINTMENTS.

No. 708.—Lieutenant D. J. Crump, 1-9th Battalion, The Duke of Canbridge's Own (Middlesex Regiment), is granted, subject to His Majesty's approval, the temporary rank of Captain, while holding an appointment as Station Staff Officer, 1st Class. Dated 1st March 1918.

#### REGULAR FORCES.

#### INFANTRY.

No. 709.—The undermentioned non-commissioned officer to be Second Lieutenant, subject to His Majesty's approval:—

## The Queen's Own Cameron Highlanders.

Colour-Serjeant Instructor George Henderson Brooks. Dated 24th March 1918.

## INDIAN MEDICAL SERVICE.

No. 710.—Subject to His Majesty's approval, the undermentioned to be temporary Lieutenants, with effect from the dates specified:—

Balbir Singh. 22nd August 1917.

Mervanji Dinshah Printer. 25th February 1918.

Nallicherry Samasundara Nataraja Sastri. 1st March 1915.

Kisory Mohan Ghose. 11th March 1918.

Kiyattle Kannan Nambyar. 20th March 1918.

## INDIAN ARMY.

No. 711.—The undermentioned to be temporary Second Lieutenants, subject to His Majesty's approval:—

William Henry Shaw. Dated 25th Merch 1918.

Arthur Gerald Gurton-Hobbs. Dated 28th March 1918.

Robert Love Hunter Carlile. Dated 6th April 1918.

John Logan. Dated 9th April 1918.

No. 712.—The following are appointed to the Indian Army on probation, subject to His Majesty's approval, with a view to permanent appointment, with effect from the dates specified:—

#### To be Lieuteaunts.

Lieutenant William John Bennett Suell. 5th Battalion, The Devenshire Regiment, attached 58th Vaughan's Rifles (Frontier Ferce. Dated 3rd March 1918 but to rank from the 5th May 1916.

Captain Hugo Chenevix-Trench, 5th Battalion, The Rifle Brigade. The Prince Consort's Own), attached 3rd Battalion, 5th Gurkha Rifles (Frontier Force). Dated 24th February 1918 but to rank from the 15th May 1916.

Lieutenant Ronald Alfred Webb, 6th Battalian, The Northamptonshire Regiment, attached 95th Infantry. Dated 16th January 1918 but to rank from the 17th June 1916.

Captain Sydney Charles Ernest Farrance, The Duke of Wellington's (West Riding Regiment), attached 5th Cavalry. Dated 25th February 1915 but to rank from the 22nd June 1916.

Captain Bernard Kerr White, Royal Flying Corps, attached 3rd Battalion, Queen Victoria's Own Corps of Guides (Frontier Force (Lumsden's) (Infantry). Dated 8th February 1918 but to rank from the 3rd July 1916.

Lieutenant Henry Plumer Keary, 2nd Battalion, The South Staffordshire Regiment, attached 2nd Battalion, 30th Punjabis. Dated 26th February 1918 but to rank from the 18th July 1916.

Lieutenant Richard Booth, 1st Reserve Regiment of Cavalry, attached 37th Lancers (Baluch Horse). Dated 12th January 1918 but to rank from the 28th August 1916.

Lieutenant Crawford Henry 1 egan, 11th Battalion, The Royal Fusiliers (City of London Regiment), attached 110th Mahratta Light Infantry. Dated 12th January 1918 but to rank from the 5th November 1916.

Lieutenant Herbert Edwin Abrahall Morris, 4-1st Battalion, The Cambridgeshire Regiment, attached 2nd Battalion, 30th Punjabis. Dated 26th February 1918 but to rank from the 1st December 1916.

Lieutenant Cyril Donald Webber, 10th Battalion, The Devonshire Regiment, attached 20th Duke of Cambridge's Own Infantry (Brownlow's Punjabie). Dated 9th January 1918 but to rank from the 22nd February 1917.

Lieutenant John Henry Parsons, 1-1st Worcestersbire Yeomanry, attached 31st Duke of Connaught's Own Lancers. Dated 19th January 1918 but to rank from the 19th April 1917.

Lieutenant Frank Adolphus Esse, 16th Battalion, The Manchester Regiment, attached 2nd Battalion, 2nd King Edward's Own Gurkha Rifles (The Sirmour Rifles). Dated 26th February 1918 but to rank from the 18th May 1917.

\*Lieutenant Eric Ivan Winnall, 2nd Battalion, The Buffs (East Kent Regiment), attached 2nd Battalion, 33rd Punjabis. Dated 8th February 1918, but to rank from the 23rd May 1917.

Captain Arthur Cecil Saxton, 7th Battalion, Princess Victoria's (Royal Irish Fusiliers), attached 3rd Battalion, 9th Delhi Infantry. Dated 8th February 1918, but to rank from the 27th May 1917.

Lieutenant Geoffrey Wareing Spencer, 2-6th Battalion, The Royal Welsh Fusiliers, attached 1st Battalion, 30th Punjabis. Dated 8th February 1918 but to rank from the 8th June 1917.

Lieutenant Eric Parker, 13th Battalion. The York and Lancaster Regiment, attached 3rd Battalion, Queen Victoria's Own Corps of Guides (Frontier Force) (Lumsden's, (Infantry) Dated 8th February 1918 but to rank from the 21st June 1917.

Lieutenant Arthur Wilfred Oldham, 21st (Empress of India's) Lancers, attached 12th Cavalry. Dated 22nd January 1918 but to rank from the 19th July 1917.

Lientenant Cecil Ynyr Jones, 13th (County of London) Princess Louise's Kensington Battalion, The London Regiment, attached 1st Battalion, 30th Punjabis. Dated 8th February 1918 but to rank from the 24th July 1917.

Lieutenant Robert Sommerville, Machine Gun Corps, attached 2nd Battalion, 18th Infantry. Dated 8th February 1918 but to rank from the 30th July 1917.

Lieutenant Bernard Roger Philip Hawken, 4th Battalion, The Northumberland Fusiliers, attached 2nd Battalion, 113th Infantry. Dated 5th February 1915 but to rank from the 1st August 1917.

Lieutenant Robert Husband Marshall, 1st Highland Cyclist Battalion, attached 4th Cavalry. Dated 8th February 1918 but to ank from the 12th August 1917.

Lieutenant Benno Irmangarda Pitt, 2-9th Battalion. The Manchester Regiment, attached 3rd Battalion, 124th Duchess of Connaught's Own Baluchistan Infantry. Dated 8th February 1918 but to rank from the 2nd September 1917.

Lieutenant Herbert Standing. 1-1st Shropshire Yeomanry, attached 30th Luniers (Gordon's Horse). Dated 6th January 1918 but to rank from the 7th September 1917.

Lieutenant Robert James Fanning, 10th Battalion. The Royal Inniskilling Fusiliers, attached 3rd Battalion, 39th Garhwal Rifles. Dated 9th February 1915 but to rank from the 9th September 1917.

Lieutenant Arthur Reginald Preddle, The East Yorkshire Regiment, attached 15th Ludhiana Sikhs. Dated 9th February 1918 but to rank from the 24th September 1917.

<sup>•</sup> For two weeks.

The 21,681 plague deaths recorded above are 4,511 fewer than the previous week's total. Noteworthy is the decreased mortality in the United Provinces where only 5,922 deaths are recorded against 8,892 in the week ending March 23rd. An increase in mortality of 552 is reported from the Punjab and of 436 from Rajputana.

During March 125,000 deaths from plague were recorded in India as compared with 124,000 in February. When the January and February totals were under discussion it was pointed out that in only one previous year had higher figures been recorded for these two months. Fortunately the predictions for March then made have been justified and last month's plague mortality has been exceeded in the month of March on five occasions. In March 1907, 257,000 plague deaths were reported; in March 1905, 256,000; in March 1904, 200,000; in March 1911, 186,000; and in March 1903, 138,000. Still further improvement during April can be looked for with confidence.

Simila:
The 5th April 1918.

F. NORMAN WHITE, MAJOR, I.M.S.,
Officiating Sanitary Commissioner with the

Officiating Sanitary Commissioner with the Government of India.

E. D. MACLAGAN, Secretary to the Government of India.

### GOVERNMENT OF INDIA.

# DEPARTMENT OF REVENUE AND AGRICULTURE.

# Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 11th April 1918, based on the Indian Daily Weather Reports of the period.

- 1. During the first few days of the week a depression of the winter type gave wide-spread and at places heavy rain in the north of Baluchistan, the North-West Frontier Province, the Punjab, Kashmir and the northwest of the United Provinces. Local falls of rain also occurred in Assam and Upper Burma. The latter half of the week was however free from any disturbance of importance and dry weather prevailed generally.
- 2. Burma.—A few falls of rain were reported from Tenasserim and the north of the province.
- Northeast India, including Orissa .- Nearly general rain fell in Assam on the 4th.

The United Provinces, Central India and the Central Provinces.—Rainfall was nearly general on the 5th in the northwest of the United Provinces.

Northwest India.—There was nearly general precipitation in Baluchistan, the North-West Frontier Province and the southwest Punjab on the 4th, in the east and north Punjab on the 4th and 5th, and in Kashmir on the 5th.

The Peninsula.—Light rain fell at a few stations, chiefly in the south.

- 3. The chief amounts of rainfall reported were as follows:-
  - April 4th. Victoria Point 1.52", Tezpur 1.12", Chakrata 1.02", Rawalpindi 1.40", Murree 3.14', Multan 1.05", Parachinar 1.10", Cherat 1.05", Dera Ismail Khan 0.78", Fort Sandeman 1.02", Harnai 1.06" and Jacobabad 0.50".
    - ,, 5tb. Silchar 1.92", Meerut 3.04", Mukteswar 0.92", Mussooree 1.90", Chakrata 1.28", Ambala and Rawalpindi each 1.36", Ludhiana 1.63", Simla 0.99", Murree 2.54", Cherat 1.81", Sonamarg 3.05", Dras 0.90" and Srinagur 1.05".
    - " 6th. Silchar 1.71" and Murree 1.52".

5G1

4. The week's rainfall was 20 per cent. or more in excess in the United Provinces West, the Punjab, Kashmir, the North-West Frontier Province, Baluchistan and Sind, and was 20 per cent. or more in defect in the Bay Islands, Lower Burma, Assam, Bengal, Bihar and Orissa, the United Provinces East, Rajputana East, the Central Provinces, the Bombay Deccan, Hyderabad Scuth, Mysore, Malabar, the Madras Deccan and the Madras Coast North. No rain usually falls at this time of the year in Rajputana West, Gujarat, Central India, Berar and the Konkan; in the remaining divisions rainfall was equal to the normal.

The rainfall from 80th November to date is 20 per cent. or more in excess in the Bay Islands, Lower Burma, the Punjab East and North, the North-West Frontier Province, the Konkan, Mysore, the Madras Deccan and the Madras Coast North. It is 20 per cent. or morain defect in Upper Burma, Bengal, Bihar and Orissa, the United Provinces, Rajputana, Guarat, Central India, Berar; the Central Provinces and Hyderabad North; and differs from the normal by less than 20 per cent. in the remaining divisions.

### GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

# Season and Crop Prospects for the week ending Saturday, 6th April 1918.

Burma.—The week was practically minless. In Upper Burma cultivation of spring rice and other crops and harvesting of beans, wheat and other miscellaneous crops are approaching completion. Standing crops are generally in good condition. The health of cattle is satisfactory. The price of unhusked rice at Rangoon has fallen slightly and is below normal. The market for white rice is firm at Rs. 215 for specials.

Assam.—The weather was seasonable and favourable. Pressing of sugarcane is nearing completion. Pruning of tea and ploughing for autumn and broadcast winter rice and jute still continue. Sowing of autumn rice is going on and that of broadcast winter rice and jute has commenced. Prospects of crops are fair to good. Cattle disease is reported from districts. The price of common rice is stationary.

Bengal.—Buring the week light rain fell over the greater part of the Province, facilitating agricultural operations generally. More rain is wanted. Harvesting of spring crops is nearing completion. Sowing of jute and autumn paddy continues. The average price of common rice is stationary.

Bihar and Orissa.—Light rain was fairly general over the Province. Harvesting of spring crops is going on. Threshing continues. Planting of sugarcane and preparation of lands for the next season's crops are in progress. Standing crops are generally doing well. The price of common rice has risen in seven districts, fallen in three and remained stationary in the remaining districts as compared with that of the preceding week. Cattle disease is reported from thirteen districts. The condition of standing crops in the Feudatory States of Orissa is good.

United Provinces.—Light rain fell in a few districts. Pressing of sugarcane and extraction of opium have been nearly completed. Harvesting of spring crops and sowing of cane and extra crops are going on. Slight damage by hail is reported in a few places. The condition of standing crops is good. Agricultural stock is doing well and little cattle disease exists. Fodder is still dear in some western districts. Prices are fluctuating.

Punjab.—Fairly heavy rain accompanied by hailstorm was received in some submotane and western districts. Elsewhere the fall was light or moderate. Rain and hail have slightly damaged the standing and reaped spring crops in certain districts. The condition of wheat and other standing crops is generally good on irrigated and average or below average on unirrigated areas. Barley, gram and oliseeds are being reaped. Their yield is expected to be below normal to normal. Sowings of extra spring crops, sugarcane and cotton continue and are generally normal. Cattle are healthy but fodder is scarce in some districts. Prices are generally stationary and range between warning and scarcity rates. Price of wheat:—Rawalpindi 64, Lahore S, Ambala and Ferozepore St, and Lyallpur 9 seers per rupee.

North-West Frontier Province.—Excessive rain again fell causing a little damage to crops in parts of the Province. Prospects of spring crops are generally average to good. The price of wheat in Peshawar was 7 10 and in Dera Ismail Khan 93 seers per rupes.

Jammu .- Prices are rising. The rainfall during the week was general and heavy.

Kashmir.—The week was generally wet and cool. Standing crops are in fair condition. Cattle are generally healthy. Prices are normal.

Rajputana.—The weather is becoming warm. Harvesting of spring crops is proceeding. Prospects are good. Cattle are in good condition. Fodder and water are sufficient. Prices are rising.

Central India.—No rain fell during the week. Spring crops are being harvested. Standing crops are in fair to good condition and their probable outturn is fair to good. Agricultural stock is generally in good condition. Scarcity of fodder is reported in some parganas in Gwalior. Prices are high.

Central Provinces.—The weather has been clear and warm. No rain fell during the week. Reaping, threshing and winnowing of spring crops are in full swing. Preparation of land for the ensuing season's crops is in progress in several districts. The yield of spring crops is estimated to be fair in Berar, fair to good in Nagpur and parts of the Jubbulpore and Nerbuddedivisions, poor in Seoni, Hoshangabad, Betul, Chindwara, the Harsud tahsil of Nimar and the Mehkar tahsil of Buldana and good in Chattisgarh. Variations in prices are

irregular. Fodder is dear or scarce in parts of Saugor and Hoshangabad. Some food grains-have been imported into Nagpur. Agriculturists are not faring well in the south of the Wardha district-and in the Harsud tahsil of Nimar.

Feudatory States: - Harvesting and threshing of spring crops are in progress.

Bombay.—Slight rain fell during the week in parts of Sind and Kolhaper. Standing crops are in good condition except for slight damage by rain in parts of Karachi, Sukkur and the Upper Sind Frontier. Harvesting of spring crops continues. Cotton picking is progressing in Gujarat, West Khandesh, the Karnatak, Kathiawar, Baroda, Cutch and Kolhapur. Agricultural stock is sufficient. Prices of food grains have slightly risen in the Konkan and the Karnatak and are generally steady elsewhere.

Hyderabad.—The average rainfall was 7 cents. Harvesting of spring crops is nearing completion. Cattle are healthy. Prices of grains are practically unchanged but juar sells at 41 seers per rupee in Nander.

Mysore.—The week was slightly wet. Standing crops are in good condition. Harvesting of dry and wet crops is proceeding with outturn fair. Cattle are generally healthy. Prices are generally stationary.

Coorg.—The weather is dry. Coffee blossoms out in parts. Prices of food grains are high. Cattle are generally healthy.

Madras.—The week was generally rainless. Standing crops are in fair to good condition generally. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal generally. Sowings of paddy, sugarcane and dry crops are proceeding normally. The condition of cattle is good generally. Prices are fairly steady.

R. A. MANT,
Secretary to the Government of India.

# **AUDIT AND APPROPRIATION REPORT**

OM

# THE ACCOUNTS

OF

# THE GOVERNMENT OF INDIA

# 1916-17.

[Throughout the report any figure with the rupes sign before it represents the actual number of rupess. Otherwise the amounts shown represent thousands of rupess; thus, 10,64 reads as ten lakks and sixty-four thousands of rapees.]

## PROVINCIAL FINANCE.

No change was made during the year in the terms of the existing Proving Provincial cial Settlements. As the revenues from the increased taxation in connection with the financial arrangements for 1916-17 and credited to 'divided' heads were to be wholly appropriated to Imperial revenues, it was arranged that the Provincial Governments should make suitable contributions to the Imperial Government for the purpose. The contributions from the several provinces on this account amounted to 91,50 in the year under review, against a Budget provision of 68,25.

2. The following statement shows the Revenue, Expenditure, and Balances Provincial of Provincial Governments. The closing balances in all the Provinces were balances. largely in excess of the prescribed minima.

<sup>(</sup>a) Differs from the figure shown in the last report owing to corrections since made.

Taking all the provinces together, there was a slight increase in the percentage, as compared with that for the preceding year. The increase occurred mainly in Burma, and the United Provinces. In Burma, it was probably due chiefly to the restoration of the audit of all bills, whereas only 50 per cent. of the bills were audited in the preceding year. In the United Provinces, it was the result of the operation of the 'Pike Scheme' of revision of district establishment from the 1st April 1915, referred to in paragraph 4 of the preceding report.

### Analysis of Outstanding Objections.

4. The balances of the several classes of objections raised up to the 31st March 1917, and remaining unadjusted on the 31st July 1917, are given in the following statement. The totals of the corresponding figures for the preceding year are also shown for purposes of comparison.

57.58 in the total outstanding balance for all India. The improvement occurred with 1915-16. mainly in Madras (48,11), and was due chiefly to the amount of 47½ lakhs, representing grants to the Madras Municipality for water supply and drainage works, referred to in paragraph 6 of the last report, having been admitted on receipt of sanction of the Secretary of State, during the year under review. There was also some improvement in Bengal, Burma and Assam. In Bengal, the improvement was due chiefly to vigorous action having been taken towards the settlement of outstandings; in Burma, to the prompter receipt of detailed countersigned bills, and to the fact that the outstandings of the preceding year included nearly 30 for want of sub-vouchers in connection with land acquisition; and in Assam, to the total of the objections for the year being less than in the previous year.

On the other hand, there were large increases in India and the United Provinces. The increase in India was due (1) to the non-receipt of orders regarding the incidence of the charges in connection with the South Persia Military Police, of which several items, aggregating about 1,50, were subsequently transferred to the books of the Financial Adviser to Sir Percy Sykes, under the orders of the Government of India, (2) to the non-receipt of detailed countersigned bills in support of charges, amounting to 29, drawn from the Quetta Treasury on account of civil works (the bills have since been received and the objection removed) and (8) to the cost of wheat, purchased by the Agricultural Department for distribution in the United Provinces, having been held under objection, for want of sanction of the Government of India, which was subsequently received. The increase in the United Provinces was due mainly to the want of proper distribution of the district staff under different sections under the Pike Scheme, referred to in paragraph 3 above. The increases in Bombay and Bihar and Orissa were due, in the former, chiefly to expenditure incurred on establishments at Kamaran without the sanction of the Government of India; and, in the latter, to the pay and allowance of Veterinary Assistants having been placed under objection for want of sanction of the Government of India to the provincial scale of these officials who were transferred from Bengal.

6. The following statement shows the outstandings according to the years Classification to which they relate. The corresponding figures for the preceding year are ings according also given.

Relating to 1914-15 and Relating Relating TOTAL. 1915-16. 1916-17. (a) Amount loss than one thousand

The figure for the year under review is better, as compared with that for the preceding year, in respect of the outstanding amount (25,64 as against 66,20), but worse in respect of the number of items which make up the amount (5,743 as against 5,624). The figure relating to previous years is worse, as compared with that for 1915-16, both in respect of the amount outstanding (3,37 as against 34) and in respect of the number of items which make up the amount (184 as against 48).

Analysis of outstandings elating to 914-15 and operious 'ears.

7. Out of the 48 items relating to 1914-15 and previous years remaining unadjusted on the 81st July 1916, 40 were adjusted during the year under review. Of the balance of 8, outstanding on the 81st July 1917, 2 pertain to the year 1913-14 and 6 to the year 1914-15. The following statement shows the amounts of these outstandings and the provinces to which they relate:—

	Year.						Provi	No. of items.	Awount in Re.			
1913-14	•	•	•	٠	•	Bengal Punjab	. *		•	•	1	274
<b>T</b> 914-15	•	•		•	•	India Bombay Assam	•		•	•	2 2 2	<b>28,1</b> 88 8] 1,21
•						٠		Т	otal	, •	8	23,619

The amount outstanding in Bengal is, as stated in the last report, in course of recovery by monthly instalments from a pensioner.

The items in the Punjab, Bombay and Assam are small and have since been adjusted.

One item in India, which amounts to Rs. 28,126, represents, as stated in the last report, part of the closing balance of the Baghdad Treasury, which was handed over by the Political Resident to the United States Consul and held under suspense. The other item represents rent on the capital cost of furniture, short paid by the Head of an Administration. Although no actual recovery will have to be made on this account from the officer concerned, the item remains outstanding, pending the final decision of the Government of India on the subject.

aalysis of itstandings lating to 15-16. 8. The total outstandings for 1915-16 were reduced from 66,20 on the 31st July 1916 to 3,14 on the corresponding date in 1917. In other words, 95.3 per cent. of the objections for 1915-16, outstanding on the 31st July 1916, were cleared during the period under review. The balance is made up of 176 items, distributed amongst the Provinces as follows:—

		Pr	aivo	<b>6</b> 0.						No. of items.	Amount.

9. Of these items the more important are given below :-

India.—The outstandings include (1) Rs. 8,316, which represent charges in connection with the South Persia Rifles, which have since been transferred to the books of the Financial Adviser to Sir Percy Sykes, and (2) Rs. 2,868, which represent the excess expenditure over the contract grant of the Seistan Consulate.

United Provinces.—The items represent mainly amounts placed under objection for want of proper distribution of district staff in connection with the Pike Scheme, as stated in paragraph 5 above.

Bihar and Orisia.—One of the two items represents pay and allowance (Rs. 1,12,852) of the Veterinary Assistants, transferred from Bengal, which await the sanction of the Government of India to the provincial scale of these officials.

Central Provinces.—The items represent expenditure in connection with the scheme for the grading of patwaries, which has since been sanctioned by the Secretary of State.

10. The objections for 1916-17, outstanding on the 81st; July 1917, Analysis of outstandings amounted to 25,64, and may be classified as follows:—

10. The objections for 1916-17, outstanding on the 81st; July 1917, Analysis of outstandings relating to 1916-17.

The corresponding balance for 1915-16, offstanding on the 31st July 1916, was 66,20. The reasons for the improvement have been given in paragraph 5 above.

Under 'Want of sanction' the figures were highest in India (2,09). The outstandings included (a) 1,47 on account of charges connected with the South Persia Rifles, the accounts of which were subsequently transferred to the audit of the Financial Adviser to Sir Percy Sykes, (b) 15 incurred in connection with the introduction of Pusa wheat in the United Provinces, held under objection for want of sanction of the Government of India and (c) 18 incurred on the Basra Survey party. All these were subsequently adjusted. The outstandings in Burma and Bihar and Orissa were 58 and 56, respectively, and included in the former province, 34 on account of excess over the sanctioned scale of certain Military Police battalions, which was subsequently sanctioned by the Local Government, and, in the latter, 44 on account of pay and allowance of Veterinary Assistants, transferred from Bengal. The outstandings in Bombay included 33 on account of expenditure on establishments at Kamaran, which await the sanction of the Government of India.

Under 'Want of sub-vouchers', the figure was highest in Bengal (53). The outstandings included an item of expenditure of 22 on account of the purchase of revolvers by the Deputy Inspector General of Police, Intelligence Branch, in March 1917. This item was subsequently adjusted.

Under 'Other objections' the figure was highest in the United Provinces (14,56). Of this, 14,30 was due to the want of the proper distribution of district staff under the Pike Scheme. The outstandings in India (1,23) included (a) 25 on account of advances drawn in the Salt Department, and (b) 11 on account of charges for excavation, incurred in the Archeological Department, without detailed supporting vouchers, and (c) 12 on account of salaries of tome officials in Persia pending receipt of last pay certificates and charge reports in some cases and acknowledgments from the officers themselves in others. The outstandings in Bengal (48) included 23 on account of excess over contract grants for the year under review, out of which 20 were subsequently adjusted.

## Financial Irregularities.

Prawal of money in advance of requirements with a view to avoiding apses of Budget grants.

- 11. Cases still continued to occur in which money was drawn in advance of requirements with a view to avoid a lapse of Budget grants. There was some improvement in Madras in this respect as the result of stringent orders issued by the Local Government. A few instances of the irregularity are given below; others will be found in the appendix:—
- (a) Out of Rs. 4,000 sanctioned for certain works in a criminal settlement during 1916-17, Rs. 1,154-12-6 only were spent up to the end of March 1917. In order to avoid a lapse of budget grant, and on the ground that the works were urgent, the District Magistrate advanced Rs. 2,542-7-8 in March 1917 to the Manager of the settlement for the completion of the works. This amount having been held under objection in audit the District Magistrate obtained the sanction of Government to the course adopted by him. As this sanction was directly opposed to the rule in article 84-A of the Civil Account Code, the matter was referred to Government again by the audit office, and in reply they stated that their order was merely intended to give ex post facto sanction to an act which could not be undone, and not to convey approval of the irregular procedure. It was again pointed out to Government that, though the amount had been drawn so far back as March 1917, vouchers for a sum of Rs. 1,889-7-8 were then (August 1917) still wanting, and that it was desirable that the balance should be refunded, to be redrawn when actually necessary. Government, thereupon, directed that the unspent balance should be refunded into the treasury, and this was eventually done on the 15th September 1917, nearly a month after the date of the orders of Government directing the refund.
- (b) Rs. 707-4-3 was drawn from a treasury in February 1917 by the Headmaster of a Training School, for the purchase of certain books, apparatus, etc., but payee's receipts for Rs 645-10-3 only were furnished to the audit office and the balance of Rs. 61-10-0 was refunded into the treasury in July 1917. Of the receipts furnished two showed that payment had not been made till May and June 1917 respectively. The Local Government issued orders temporarily depriving the Headmaster of his acting promotion.
- (c) An officer of the Medical Department drew in February 1917, the full amount of Rs 1,500 sanctioned in connection with a scheme for the delivery of popular health lectures. Sub-vouchers for Rs. 685-14-5 were submitted by him to the audit office in April 1917, but Rs. 814-1-7 remained unaccounted for till August 1917, when he was requested to refund the amount, which appeared not to be required for immediate disbursement. The officer thereupon forwarded vouchers for Rs. 145-5-0 in September 1917. The balance of Rs. 668-12-7 was refunded into the treasury on the 24th idem.

ngal.

(d) In one case, the whole amount of Rs. 20,000 allotted for acquisition of land was drawn towards the end of March 1917, though awards in this connection had not been made before the money was drawn. Out of this, Rs 3,416-9-0 were disbursed in March 1917, Rs. 5,201-8-8 subsequently, and the balance was refunded on the 18th June 1917, the land acquisition proceedings having been withdrawn under orders of Government.

ited Provinces.

(e) A sum of Rs. 3,868-14-8 was drawn by an officer in March 1917 for contingent expenditure. Out of this amount Rs. 298, Rs. 15-8-0 and Rs. 3 were refunded in March, April and July 1917, respectively. On being asked by the audit office to furnish a detailed bill in support of the charges, the Controlling Officer stated that some vouchers were wanting and that on their receipt the bill would be sent duly countersigned. Meanwhile, a change in the drawing and the controlling officers took place, and it was then found that a sum of Rs. 1,000 was still left unspent with the head clerk of the office. The amount was refunded in August 1917, and a detailed bill for the balance was then submitted. The matter was reported to Government by the Controlling Officer as well as by the audit office, and the serious nature of the irregularity was impressed upon the draw.

tral Provinces

(f) Certain furniture was ordered by a Deputy Commissioned in January 1917 from a Nagpur firm. Part of it not having been received (though promised) in March 1917 the officer drew Rs. 342-14-0 from the treasury on

the 80th March 1917, and ledged it with the mazir, pending receipt of the articles, which did not arrive till the 10th May 1917.

- A sum of Rs. 900, sanctioned by the Local Administration in November 1916, for the construction of certain buildings in a sub-division, was drawn by a Deputy Commissioner on the 81st March 1917, without details or subvouchers. On the audit office calling for the sub-vouchers on the 24th April 1917, the Sub-Divisional Officer furnished the Deputy Commissioner on the 9th May 1917, with sub-vouchers amounting to Rs. 864-5-0 only, which were paid to the contractor in two instalments on the 11th April and the 8th May 1917, respectively, the unexpended balance of Rs. 35-11-0 being refunded into the treasury on the latter date.
- (h) The same Deputy Commissioner similarly drew a sum of Rs. 450 in lump on the 31st March 1917, for the construction of certain temporary buildings in the same sub-division, for which the expenditure was sanctioned by the Local Administration in July 1916. On the audit office calling for the sub-vouchers, it was stated that the Sub-Deputy Collector concerned had been asked to obtain and send a stamped receipt from the contractor. On the 18th June 1917, the Deputy Commissioner was again asked to furnish the sub-vouchers for Rs. 450, and to explain why the money was drawn in advance of requirement. After two reminders he replied that the amount had been refunded into the treasury on the 30th July 1917. On the 27th August 1917, he was again asked to state why the money was drawn at all in March 1917, when it was not required for payment, and also why the amount was not refunded till the 80th July 1917. On the 18th November 1917, the audit office was informed that the money was drawn for payment just after the work was completed, that the contractor did not turn up to receive payment for a considerable time, that when he came he said that he was paid by the Public Works Department and that the amount was then refunded into the treasury.
- 12. Several cases of fraud came to light during the year under review. Frauds Generally speaking, they revealed no material defect of system, but were defaled due mainly to carelessness or negligence on the part of the responsible officers. by neg They point to the great necessity for a strict observance of financial rules by all officers, if losses of Government money are to be avoided. Details of afew cases are given below; those for which treasury officers were responsible being shewn separately.

(a) A sum of Rs. 1,000 was fraudulently drawn from a treasury in October Treasure 1918 on the presentation, by a Secretariat peon at the instigation of a Officer clark of a formal letter purporting to have been signed by the Secretary of a Bengal. clerk, of a forged letter, purporting to have been signed by the Secretary of a Department, and of a forged receipt purporting to have been signed by the Head Assistant of that Department. The treasury had no specimen signatures of the officers concerned for comparison with the signature on the bill and did not satisfy itself that the peon actually came from the Department of the Secretariat from which the bill purported to come. The clerk was sentenced

to rigorous imprisonment for 5 years. (b) Rs. 2,773-7-0, consisting chiefly of land revenue paid in by village head-Burma. men, were embezzled by the sub-accountant of a sub-treasury. The embezzlement was rendered possible by this official being allowed to receive revenue collections, paid in by village headmen without receiving chalans and iesuing receipts for them. The sub-accountant was convicted in a criminal court and fined. A sum of Rs. 1,798-1-0 was written off by Government as irrecoverable, and the balance of Rs. 980-6-0 is in course of recovery from the different headmen, the sub-treasury officer and a clerk, who were responsible for the loss. The embesslement was chiefly caused by lack of intelligence and carelessness on the part of the sub-treasury officer, who was reverted to his former post of clerk. There was also a defect of system, in that it was the practice for the receipted chalans for revenue collections paid in to be destroyed as soon as the commission on such collections was paid. The public were thus led to believe that the only use for receipted chalans was the right to get commission on them and their main function, as receipts for moneys paid in, was lost sight of. Precautions have been taken to minimise the possibility of similar frauds in futu

Meers.

- (c) In the office of a Superintendent of Police, a sum of Rs. 2.606-12-0 was emberaled by a clerk in connection with the payment of travelling allowance bills during a period of over two years, from September 1914 to October 1916. Office copies of the bills were prepared by station house officers and consolidated by the inspectors, who sent them to the district police office for check, without entering the totals, as the bills were often modified at that office. The clerk in the district office, who was entrusted with the checking and preparation of the fair copies of these bills, entered fletitious totals at the bottom of many of the headquarters bills, the amounts of which were payable in cash. In the fair copies of these bills fictitious journeys and halts were entered to support the altered totals. On cashing the bills memoranda advising remittances were prepared by the clerk. In the case of altered bills he paid to the Inspectors the money actually due, embessied the remainder and never sent the memoranda or altered the totals therein to accord with the amounts paid. Inspectors' acknowledgments were obtained, if possible, without the figures being entered therein—the false amounts being inserted; afterwards: and when the figures were entered by the inspectors, they were altered before production at the district office. The totals of the acquittance rolls were always altered so as to correspond with the false amounts. The fraud was discovered by an official who, having been paid less than he claimed, called at the district office, examined his bill and found fraudulent entries therein. This led to the examination of other bills, and the discovery that the clerk had misappropriated Rs. 2,606-12-0. He was prosecuted, convicted and sentenced to a fine and a long term of imprisonment, and the loss was ordered by the Inspector-General of Police to be made good by the office manager and accountant, who were also severely reprimanded and punished, the former being debarred from promotion for three years and the latter reduced. The Inspector-General of Police reported the case to Government, who asked the District Superintendent of Police why he, too, should not make good a part of the money lost. There is no indication, however, in a subsequent order of the Local Government, dated the 5th March 1918, in which this case is dealt with, that any disciplinary action has been taken against the District Superintendent of Police.
- (d) A sum of Rs. 576-1-0, being the amount of irrigation revenue collections, made from the village officers of a certain village, was embessled by a shroff karkun, who received the money but omitted to credit the same to the treasury and covered up his omission by fraudulent alterations in the chalans. The head karkun failed to investigate the matter at once, but a subsequent investigation by him elicited a confession from the culprit. Rs. 570 were recovered from the shroff karkun, who was prosecuted, found guilty and sentenced to undergo a term of rigorous imprisonment. The fraud was rendered possible by gross negligence on the part of the head karkun, for which his promotion has been stopped for two years.
- (e) A sum of Rs. 1,542-1-11 was embezzled by the accountant of an establishment, who had the disbursing of large sums of money on account of the pay, travelling allowance and grain compensation allowance of the establishment. The head of the office omitted to see that the money was actually disbursed, that the acquittance rolls were checked, and that the undisbursed pay and allowances were refunded by short drawal in subsequent bills, although he furnished the usual disbursement certificates in all the bills. The accountant was prosecuted and sentenced to rigorous imprisonment for two years. I am not aware whether any disciplinary action has been taken against the head of the office.
- ()) The head clerk of a Divisional Forest office embezzled forest revenue, etc., to the extent of Rs. 1,212-12-8. Of this amount, Rs. 233-11-7 was recovered from the security deposit and undisbursed pay, and Rs. 489-1-1 was written off by the Local Government. The balance of Rs. 490 was ordered to be recovered from the Divisional Forest Officer for his failure to effect a sufficient check when passing the accounts. The head clerk, who embezzled the money, was sentenced to three years' rigorous imprisonment.
  - (g) A sum of Rs. 8,560-7-11 was embessled by the head clerk of a Divi-

Forest Officer to take the precautiens laid down in the Code rules in regard to receipts of mency payable into the treasury and the disposal of sums drawn from the treasury for the requirements of the Department. The fraud came to light as the result of an enquiry made by the Divisional Forest Officer regarding the value of some sai trees, sold by the Forest Department, which the head clerk had misappropriated. The official was then prosecuted, convicted and sentenced to rigorous imprisonment and a fine of Rs. 760. The Local Administration were asked to write off the irrecoverable balance of the loss, which amounted to Rs. 8,212-12-10, after crediting to Government the sum of Rs. 317-9-7; being the amount at the credit of the security deposit account of the head clerk, and Re. 80-1-6, being the amount found in his drawer after suspension. There is no indication in the orders passed by the Local Administration that they have considered the degree of responsibility of the Divisional Forest Officer by reason of his inadequate supervision over the work of his head clerk and his neglect of rules.

(A) The work of an impositor in a press is to arrange pages of type and Press Accounts. secure them in chases in such a manner that when they are printed and the sheets folded they will follow in numerical order. In the course of an audit inspection of a Government of India Press, it came to notice that certain impositors were systematically claiming imposition charges during 1914-15 to 1916-17 on proofs of formes which they never imposed. The modus operandi was as indicated below.

After obtaining the section-holder's initials on one genuine proof of matter that had really to be imposed and was imposed, they collected a number of bogus files, apparently from the Press room, placed them below the proof bearing the section-holder's initials and wrote on the authenticated proof the total number of proofs contained in the bundle. The computer, who passed the charges, contented himself with seeing that the number of proofs in the bundle agreed with the number shown on the topmost proof, which was authenticated by the section-holder, and computed the charges for the whole batch. The bogus proofs thus put up for charge consisted of duplicates of proofs charged in previous months and of proofs of work which did not require to be imposed at all.

The fraud was rendered possible by the section-holder not initialling on each proof actually imposed and by the absence of the precautions for recording register numbers and details of files. The computer should also have seen that all the proofs in the bundles consisted of matter which required to be imposed. The amount embessled during the four months of 1915-16 audited, amounted to Rs. 92-14-3 which has been recovered. Proper precautions have now been taken to prevent the possibility of such frauds in future. One of the impositors has been dismissed and the other has been reduced to temporary rank with loss of pension.

13. Several cases of double claims preferred and paid came to light during Double clais the year under review. These included double payments of pensions and profesinterest on Government Promissory notes, owing chiefly to error in making, or to omission to make, proper notes of payment at the treasuries. Details of a few cases are given below; others are included in the appendix.

- (a) A cheque, dated the 8rd November 1915, for Rs. 251-5-4, drawn by a Punjab. Divisional Disbursing Officer on a treasury, was cashed by it on the 29th November 1915, after the issue on the 23rd November 1915 of a non-payment certificate, on the strength of which a fresh cheque was given to the payee. The amount was recovered and credited to Government on the 1st January 1916.
- (b) The Treasury officials, having cashed on the 10th October 1916, a cheque, dated the 80th September 1916, for Rs. 1,289-8-5, drawn by a Divisional Disbursing Officer, certified on the 3rd November 1916 that it had not been paid, thereby causing a double payment.
- (c) A grant-in-aid of a school for Rs. 800 for the year 1915-16, was Control Proving paid that in January 1916 on a simple receipt signed by the Secretary of a Municipal Committee, and passed for payment by a Deputy Commissioner, and again in May and June 1916 on grants-in-aid bills of Rs. 200 for each quarter, signed by the Secretary, and countersigned by an Inspector of Schools. On

the double payment being brought to notice by the audit office, the Municipality refunded the amount, expressing regret that the same grant should have been drawn twice on vouchers received at different times through different gazetted officers. The orders of the Local Administration attributed the error to neglect by the Deputy Commissioner of the rules in the Treasury Manual, adding that, as the officer had since retired, no further action was necessary.

(d) The grant-in-aid of Rs. 50 for January 1916, of a middle English school, was drawn once in February and again in June, 1916. The second payment was made on a duplicate bill, passed by the Inspector of Schools on receipt of a certificate of non-payment of the original bill from the sub-treasury officer, and was not refunded until the error was pointed out by the audit office. The president of the school committee explained that the money, paid in the first instance, was received by the secretary, but was not entered in the accounts owing to oversight, and that if the sub-treasury officer had taken the trouble to examine his books and not given an incorrect certificate, the mistake would have been rectified earlier. The Local Administration ordered that the accountant of the sub-treasury, who was responsible for the irregularity, should be allowed no promotion, officiating or substantive, for a period of 8 years.

14. An officer in the Central Provinces, received an advance of Rs. 2,000 overnment for the purchase of a motor car in July 1916 after executing the mortgage bond in the usual form, which requires that the motor car under mortgage to Government, should be more particularly described in a separate schedule attached thereto. He did not, however, actually purchase a motor car but kept the money with him for about 8 months, paying the instalments by deduction from his salary and leave allowances. The fact came to light when he wrote to the audit office in March 1917 that, consequent on the abrupt rise in prices, he could not close the bargain and had therefore decided to keep a motor cycle. This statement was misleading, as he already had a motor cycle, purchased about 23 months previously. The balance of the The Local Administration asked the advance was recovered in April 1917. Controlling Officer to communicate to the officer the Hon'ble the Chief Commissioner's strong disapproval of his conduct in the matter. I do not consider that adequate action has been taken in this matter.

nditure

15. It came to notice in the Punjab that charges for water supplied by municipalities to the free quarters of police officers were being paid by heads of offices from contingencies, together with the charges on account of water supplied for buildings used for Government purposes. The matter was brought to the attention of the Local Government and orders were issued fixing a scale for water charges for officers of the police department, occupying free quarters, whose pay was more than Rs. 50 per mensem. The approximate loss to Government was about Rs. 163 a year.

Meient iny of by sign-ad counining

16. An officer in Bombay, on being transferred from one district to another. took only his mother and sister with him and was thus entitled to three second class fares, under article 1098 of the Civil Service Regulations, but claimed four on the assumption that he was entitled to the maximum number of fares, irrespective of the actual number of persons travelling. The irregular claim came to notice, owing to a remark on the reverse of the bill that the names of the members of the family were not given as they were not required, which led the audit office to enquire whether the head of the office had satisfied himself as to the validity of the claim. The explanation given shewed that proper attention had not been given to the rule in article 1161 of the Civil Service Regulations. The excess claim was subsequently recovered. The case illustrates the necessity for a careful scrutiny by all officers of bills, which they are required to sign or countersign, as audit has to rely largely on their certificates for the accuracy of the facts on which claims are based.

inting

17. An advance of Rs. 1,000 was drawn on the 19th January 1916, under article 187 (e), Civil Account Code, by a treasury officer in Assam, in connection with the remittance of treasure to another station. As the coort party accompanying the remittance returned by the end of January 1916, the advance should have been adjusted in February 1916. But in spite of several reminders, no detailed bill in adjustment of the advance was submitted to the audit office until January, 1917, and an unexpended balance of Rs. 284-14-0 was not refunded into the treasury; till the 15th November 1916. It was explained that the unexpended belence remained with the nazir, and was entered in his cash book, but he neglected to refund the amount or to submit a detailed hill in adjustment of the charges actually incurred, in proper time. The nazir, who was mainly responsible for the irregularity, was made to retire.

18. The head of an office in the Punjab, in June 1916, obtained an advance Irregular acof Rs. 1,000 to meet a deficiency in his permanent advance, drawing the amount tion to meet a on a contingent billias charges for 'freight on stationery', though there was permanent no specific payment to be made under this head. Other contingent bills were advance. drawn in July and August, but the amount of Rs. 1,000 was not refunded into the treasury till September.

19. An instance of payment before due date, in contravention of article 26, Payment be-Civil Account Code, was noticed in Assam. The pay bill of an Assistant Surgeon fore due date. for September 1916 was cashed at a sub-treasury on the 29th September 1916, before payment was due.

# Public Works Department.

20. The following statement shows, for the Buildings and Roads Branch Percentage of of the Public Works Department, the total expenditure incurred, amount of objections raised, and the percentage which the latter bears to the expenditure:

Buildings and Roads Branch.

<sup>(</sup>a) For the Delhi Province the total expenditure is 49,95, the total amount of objections 29,89, and the ingo 60 (against 66 in the preceding year).

21. It will be observed that, taking all the provinces together, the percent-Comparison age of objections to total expenditure remained the same as in the preceding with 1915-16. year. There were, however, substantial improvements in India, Madras, Bengal, and the runiab. The improvement in India was due chiefly to the introduction of chapter in the treatment of chiestions for want of payers' receipts, and

paid acquittance and muster rolls in the Delhi Province. There was an improvement also in connection with works relating to the Viceregal Estates and civil works under the Director General, Military Works. In Madras, the improvement was due mainly to an outlay of 1,88 for the new currency office without estimate in the previous year. In 1915-16 there was comparatively heavy outlay on certain water supply and drainage works without appropriation, pending adjustment against contribution for works aided by Government. In Bengal, the improvement was attributable to the abolition of the Dacca University Division and the consequent absence of irregularities and to less outlay on works without sanction to estimates. In the Punjab (including Simla Imperial sub-division), the better result indicated general improvement. On the other hand, there were increases in Bembay, the United . Provinces, Billar and Orissa, and Port Blair. The increase in Bombay occurred mainly in connection with objections for want of estimates, The increase in the United Provinces was due to (1) expenditure having been incurred on certain provincial educational buildings without technical sanction to the estimates, (2) expenditure in excess of estimates for the Lucknow and Benares water supply schemes and the Central and South blocks of the new High Court at Allahabad and (8) advances to certain contractors having been placed under objection pending clearance on final payments. In Bihar and Orissa, the increase was due to large outlay in the Bankipore special works division in excess of estimates on three large works, viz., the Secretariat buildings, Government House and the High Court. The increase in Port Blair was due to want of information as to the sanction of an estimate which had been accorded in 1913-14, and to the introduction of the system of audit of expenditure on repairs against sanctioned estimates, instead of against the total budget allotment, which was in existence prior to the year under review.

rcentage objections total penditure: Figation

22. The following statement shows, for the Irrigation Branch of the Public Works Department, the total amount of objections raised as compared with the total expenditure incurred during the year and the percentage which the former bears to the latter.

[Irrigation Branch.

aparison h 1915-16.

23. As compared with the preceding year, the percentage for all India showed an improvement of 8, which was contributed to mainly by Madras and the Punjab, due chiefly to heavier outlay in the preceding year intercess over estimates in both the provinces, and on miscellaneous irregularities also in the latter. On the other hand, there were increases in India, the Central

Provinces and Assam. The increase in India was due to expenditure incurred in excess of estimate and appropriation on the construction of a permanent weir across the Nari river and the Upper Kesh Scheme. The increase in the Central Provinces was due mainly to outlay on the Waingunga and Tandula canal projects in excess of estimates and to detailed estimates for works in the Mahanadi Head Works Division not having been sanctioned. In Assam the increase the accounted for by the fact that the halltioned. In Assam, the increase was accounted for by the fact that the bulk of the expenditure related to annual repairs, the estimates for which are not sanctioned till August and September.

24. The following statement shows separately, under the Buildings and Percentage of Roads and Irrigation Branches, the percentage of works started without works started detailed sanctioned estimates. The figures have been calculated with reference estimates in most of the provinces to about 20 per cent. of the divisions. The corre-to total number of sponding figures for the preceding year are given for purposes of comparison.

works started during the

(c) Less than one per cant.

(b) Differs from the figure shown in the last report owing to the percentage for all divisions having been shown instead of 20 per cent. of divisions taken in the last report.

It will be observed that a very high percentage of works continues to be started without detailed sanctioned estimates in several provinces. In the Buildings and Boads Branch, the main improvements were in India (excluding Delhi Province), Hyderabad and Central India and there were noticeable fallings off in the Punjab, Assam and Rajputana. The increase in the Delhi Province was due to payments of arrears due to labourers and contractors, which accrued in 1915-16, being made in the year under review, before the estimates for annual repairs had been sanctioned. In Bengal, the increase was due to the rise in the proportionate expenditure on repairs, of which a large portion is usually carried out in anticipation of regular estimates. In the Punjab, the increase was due to annual repairs in two out of the three selected divisions, not having been sanctioned till the end of July 1916. In Burma, the increase was due to the estimates for a large number of repairs having been sanctioned late in the year. In Bihar and Orissa and Assam, the increase occurred mainly under repairs, owing, in the latter, to the curtailment of the programms of original works on account of the war and the consequent rise in the proportion of repairs (the estimates for which are generally sanctioned in the second quarter of the financial year). In Rajputana, the increase was due to 12 works, in connection with the provision of accommodation for Indian convalescents at Deca having been started without estimate, owing to the urgent demand for these buildings. In the Irrigation Branch, there was a substantial improvement in the percentage, as compared with that for the preceding year, in Bihar and Orissa and noticeable fallings off in India (excluding Delhi Province), Bombay and Assam. The increases in India and the United Provinces and Burma were due to annual repairs having been taken in hand before sanction to the estimates was accorded. The increase in Assam was due to the reason explained under the Buildings and Roads Branch.

centage yorks red hout estites to al number yorks red ing the r, under iginal ks,' dinary airs' and scial airs.'

• 25. The following statement shows the percentage of works started without estimates to the total number started during the year under review, separately under 'original works,' 'ordinary repairs' and 'special repairs' for each branch of the department. The figures have been calculated, as in the preceding paragraph, with reference in most of the provinces to about 20 per cent. of the divisions taken at random:—

				Building	s and Road	в Ввакон.	Inn	GATION BRA	NCE.
Provi	nce.			Original Works.	Ordinary repairs.	Special repairs.	Original Works,	Ordinary repairs.	Special repairs.

Rajputana .				5	18	10	4	2	•••
Port Blair .	•	• ,	٠	50	100	•••	•••		•••

(a) Less than L

It will be observed that a very large percentage of ordinary repairs is undertaken in most of the provinces without sanction to detailed estimates. In the Irrigation Branch, a large percentage is noticed under original works in India (excluding Delhi Province), Bombay and the Central Provinces. The percentage in Bombay under special repairs is high in both branches.

As pointed out in the previous reports, it is of importance that action should be taken by administrative authorities to ensure a new strict observance of the code rules on the subject. At the same time the rules themselves may repay examination. There is no reason from an audit point of view why an annual repair estimate should ispectat the end of the financial year as is prescribed in paragraph 714, Pablic Works Department Code.

### Analysis of Outstanding Objections.

26. The balances of the several classes of objections, raised up to the 31st Balances of March 1917 but remaining unadjusted on the 31st July 1917, are given in the the 31st July following statement :---1917.

(a) Includes 48 for Port Blair.
(b) a 4 n the Simla Imperial Sub-Division.
(c) n 1 n Central India.

27. As compared with the preceding year, the balance for the whole of Comparison India shows an increase of 4,23, which is the net result of an increase of with 1915-16. 5,69 in the Buildings and Roads Branch and an improvement of 1,46 in the Irrigation Branch. The increase in the Buildings and Roads Branch, occurred mainly in Bihar and Orissa and the United Provinces. The large increase in Bihar and Orisea was due mainly to expenditure in excess of estimates, on works in connection with the new capital. In the United Provinces, the increase was due to works in connection with several educational buildings, being started with the administrative approval of the Local Government, in the absence of the professional approval of the Chief Engineer to the estimates framed by the contractors, to expenditure, in excess of estimate not covered by administrative canction and also in excess over appropriation, in connection with the new High Court at Allahabed, to expenditure on water supplies from tube wells to municipalities, and to amounts appearing in the accounts of the Well Boring division as due from two contractors, pending adjustment of the value of plant, in respect of which the advances had been made against final sub-heelis of the estimate. The increase in Madras was due chiefly to the payment of 150 in 1916-17 by the India Office in London to a firm of contractors, in settlement of a claim against Government for breach of contract in connection with the new Collector's office at Madura. These increases were partly counterbalanced by improvements in the Punjab, Bengal, Bombay and

The improvement in the Punjab, indicated a general improvement under all heads of objections. In Bengal, the improvement was the result of sustained action taken by the audit office throughout the year to clear objections, by reporting all important in egularities monthly to the Superintending Engineers and to the removal of the objections in the Dacca University Division. The improvement in Bombay was due to the clearance during the period under review of several items outstanding from the preceding year and to the speedy adjustment of objections raised during the year. In Burma, the improvement was the result of the more regular submission of vouchers to the audit office.

In the Irrigation Branch, the improvement in the balance was contributed to by all the provinces except India, Bombay and Bengal. The improvement in the North-West Frontier Province, was due chiefly to the second revised project estimate of the Upper Swat River Canal baving been sanctioned by the Secretary of State in the year under report. In Madras, it was due chiefly to the inclusion under the objections of 1915-16 of the progressive outlay for 1914-15, incurred in excess over the estimate in the case of tools and plant for the Panjapatti Reservoir project, the sub-works of the Yellanur project and special tools and plant of the Toludur project. In the United Provinces, there has been a tendency towards gradual improvement for the last three years. In the Punjab, it followed the improvement in the amounts placed under objection under excess over estimate and miscellaneous irregularities. In Burma, it was due to the clearance of a large outstanding on account of an excess over the project estimate for the Twante Canal. In the Central Provinces, it was attributable to the prompt regularization of items of objection pertaining to the year under review and previous years. These improvements were to a great extent covered by the increases in Bengal and Bombay. The increase in Bengal, was due chiefly to an expenditure of 2,51 having been incurred without sanction to detailed estimates and of 2,02 in excess over the project estimate, sanctioned by the Secretary of State, in connection with the Madaripur Bheel Route project. In Bombay, the increase was due chiefly to objections raised during the year for want of, or for excess over, project provision on the individual works, sanctioned for the Pravara, Godavari and the Nira Right Bank Canal projects, which amounted to 10,31.

## Buildings and Roads Branch.

28. The following statement shows, for the Buildings and Roads Branch, the outstandings according to the years to which they relate. The corresponding figures for the preceding year are also given for purposes of comparison :—

39. Out of the 68 items relating to 1914-15 and previous years, remaining Analysis unadjusted on the 81st July 1916, 54 were adjusted during the period under relating review. Of the balance of 14, which were outstanding on the 81st July 1917, 1914-18 as previous 7 related to 1918-14 and 7 to 1914-15.

The following statement shows the amounts of these outstandings and the provinces to which they relate:—

Year.	Provise	<b>.</b>		Number of items.	Amount.
•	Madras .	• •	•	2	, 1
1918-14	. Bombay .			4	2,17
~	United Provinces		•	1	7
•	India .			1	48
1914-15	. Madras .		•	2	9
	Bombay .	. • •	•	4	2,85
		Total		14	5,67

In Madras, the two items relating to 1918-14, which were held under objection under 'Miscellaneous Irregularities,' represent contributions recoverable for works in connection with two tanks, of which one is the subject of litigation and the other is in course of recovery. Of the two items relating to 1914-15, one amounting to 5 under 'Excess over Estimate' represents excess outlay on a taluk office, which awaits sanction to the completion report, and the other amounting to 4 under 'Miscellaneous Irregularities, 'represents the amount recoverable for repairing the bund of a tank, in respect of which a law-suit has since been decided in favour of Government, and the recovery is awaited.

In Bombay, the outstandings for 1913-14 represent, as stated in the last report, 2 items amounting to 2,06 under 'Want of Estimate,' 1 amounting to less than 1 under 'Excess over Estimate' and 1 amounting to 11 under 'Miscellaneous Irregularities.' The items under 'Want of Estimate' represent expenditure on constructing two light-houses in the Persian Gulf. The sanction of the Secretary of State is being requested to excess expenditure on the scheme for the lighting and buoying of the Persian Gulf as a whole. When this is received, the Government of India will issue orders in connection with these two items. The item under 'Excess over Estimate,' represents outlay on constructing a lunatic asylum, which has since been adjusted. The item under 'Miscellaneous Irregularities,' represents an amount due from a municipality for work done in connection with a water-supply scheme, for which Government have sanctioned a further grant-in-aid of 7, leaving a net balance of 4 to be recovered from the municipality. The items relating to 1914-15 represent 2 items amounting to 2,39 under Want of Estimate, and 2 amounting to 46 under Excess over Estimate. The items under Want of Estimate represent further outlay on the two light-houses in the Persian Gulf, mentioned above. Of the 2 items under Excess over Estimate, one represents expenditure on constructing the lunatic asylum mentioned above, and the other on constructing an additional bed-room and staircase at Government House, Ganeshkhind, which has since been manctioned.

In the United Provinces, the item for 1918-14, under 'Want of Estimate,' represents expenditure on metalling a road, which has since been sanctioned.

In India, the item for 1914-15 represents expenditure in anticipation of sanction to estimates on two sub-works of the project Long range wireless installation at Kirkee'. The execution of the project is in abeyance.

(s) Amount less than one thousand.

India (Delhi).—Of the outstandings, 2 items amounting to 1,73 relate to the Delhi Province, and the other 2 amounting to 42 to the New Capital. In the Delhi Province, the item under 'Excess over Estimate,' represents the excess over the Revised Estimate, sanctioned by the Government of India for the Durbar Memorial Pillar, which awaits sanction to the completion report; and the item under 'Miscellaneous Irregularities,' relates to expenditure (1,57) on the City Extension Scheme, provisionally adjusted under Miscellaneous Advances pending orders on the financing of the scheme. In the New Capital, one item has since been adjusted, and the other represents expenditure (42), debitable to the North Western Railway, pending adjustment on receipt of the orders of the Secretary of State on the proposed new railway station scheme.

Madras—18 items have since been adjusted. Of the remaining, the principal item is under 'Excess over Estimate,' and represents excess outlay on constructing a bridge over the Indravati, regarding which the submission of the completion report is awaited. Under 'Miscellaneous Irregularities', the principal items are (a) an excess over the permissible limit of outlay on Government House, which awaits the sanction of the Government of India, and (b) a payment on account of contractors' materials to be recovered from contractors.

Bombay.—In addition to the outstandings in connection with the two light-houses in the Persian Gulf and the lunatic asylum, referred to in the preceding paragraph, the other principal items are (s) constructing Condensing Plant Buildings at Bushire without sanction to estimates, (b) constructing an Assistant Engineer's bungalow and office at Bushire in excess of estimate and (c) extra work done in connection with a water supply scheme, it anticipation of the receipt of the contribution from a municipality.

United Procinces.—The principal items under 'Excess over Estimate' are (a) expenditure on the Lucknow water-supply scheme from tube rells and (b) the construction of the central block, New High Court, Allahabet. Under 'Miscellaneous Irregularities,' the chief item represents amounts fue from certain officers, on account of electric current supplied and rent of installations.

Psecial.—The principal item represents expenditure in excess of estimate on compensation for land, acquired for gasetted officers' residences at Labore, which requires the genetion of the Secretary of State.

Burms.—Of the principal items, one awaits the orders of the Government of India and another awaits further credits to the estimate on account of the sale of materials.

Bibar and Orises.—The outstanding items represent expenditure in excess of estimate on the new works at Patna. It is stated that the sanction of the Secretary of State has been received to the entire Patna and High Court schemes and that the detailed estimates will be sanctioned for all the works as soon as full particulars are received from the Government of India.

31. The outstandings relating to 1916-17 are analysed below:—

(c) Includes 4 for Simla Imperial Sub-Division.

India (Baluckistan).—The only important item under 'Want of Betimate,' is expenditure on improving an Irrigation channel, which has since been sanctioned.

Delai.—Of the total outstandings, 51 pertain to outlay in the Delhi Province and 85 on the New Capital. In the former, the principal item represents further expenditure (89) on the City Extension Scheme, referred to in the preceding paragraph; another item, amounting to 6, awaits submission of the detailed bill. In the New Capital, the principal outstanding item relates to expenditure without appropriation on stock, which has since been adjusted.

North-West Browlier Province. The important items under 'Want of Estimate' relate to special repairs to two causeways. The principal item under 'Excess over Estimate' is the expenditure on the working of a steamer over the Edus at Dera Ismail Khan.

Madest.—Under Want of Estimate, the outstandings are mainly in connection with expenditure on land acquisition for police buildings and

on construction of a police station and quarters for the police staff. Under 'Excess over Estimate' the important items are (s) constructing a Collector's office at Madura and (b) maintaining a road. The latter has since been adjusted. Under 'Miscellaneous Irregularities,' the important items are (s) contribution recoverable on account of the Masulipatam water-works, which has since been adjusted, and (b) outlay on a Sergeant Instructor's quarters awaiting submission of the voucher.

Bombay.—Under 'Want of Estimate' a large portion of the outstandings relate to works in progress in connection with the water-supply project at Bushire and to construction of an Acetone factory at Nasik. Other noticeable outstandings are (a) accommodation for a temporary war hospital at the bacteriological laboratory at Parel (b) providing temporary plant for electric lighting at the War Hospital at Parel and (c) providing electric installations at Government House, Karachi. Under 'Excess over Estimate' the chief item is equipping a meter testing and calibrating laboratory for the office of the Electric Engineer. Under 'Want of Appropriation,' 'Excess over Appropriation,' and 'Miscellaneous Irregularities,' the chief items are in connection with the Acetone Factory at Nasik, stock in the Central Stores and Workshop, Dapuri, and excess over the stock limit sanctioned for the Electrical district, respectively, of which the last two have since been adjusted.

Bengal.—The outstandings are made up of small items. The noticeable item represents expenditure incurred in excess of the sanctioned annual limit on repairs to the Government House at Barrackpore which has since been sanctioned.

United Provinces.—Under 'Want of Estimate' the outstandings relate mainly to expenditure on several district schools and educational buildings, referred to in paragraph 27 above. Under 'Excess over Estimate,' the principal outstandings represent expenditure in connection with the New High Court at Allahabad, and the Lucknow and Benares water supply schemes. Under 'Excess over Appropriation,' the chief item relates to the New High Court at Allahabad. Under 'Miscellaneous Irregularities,' the chief items represent advances to two contractors in the Well Boring Division.

Punjab.—The outstandings consist mainly of small items, the principal of which are under 'Excess over Estimate' and relate to the Medical College, the Mayo Hospital and the King Edward Memorial Scheme at Lahore. These have since been sanctioned by the Local Government.

Burma.—The outstandings are made up mostly of small items, many of which have since been adjusted. Two important items, which were subsequently adjusted on receipt of the sanction of the Secretary of State were, (a) outlay of 53 without estimate on maintenance of the Myitkina-Putao road, and (b) outlay of 1,32 in excess over estimate for constructing a road from Nsop to Myitkina.

Bihar and Orissa.—The bulk of the outstandings is under 'Excess over Estimate' and relates to further expenditure on the new works at Patna. There was also an excess on a new building for the Ravenshaw College, at Cuttack, for which a revised estimate is under preparation.

Central Provinces.—The outstandings consist mostly of small items. The important items under 'Excess over Estimate 'are in connection with the construction at Nagpur of (a) a Central Vaccine Depôt and (b) a Medical School, both of which have since been adjusted. An important item under 'Want of Appropriation' relates to expenditure on annual repairs to certain roads, which has since been passed by the Local Administration.

Assam.—An important item under 'Miscellaneous Irregularities,' represents the unspent balance (17) of a contribution work, executed on behalf of a Local Board, which was refunded in cash in August 1916 to the Chairman of the Board on the completion of the work, and which awaited the orders of the Local Administration regarding its disposal. Orders have since been issued as regards the disposal of 14 out of 17.

Port Blair.—The outstandings include expenditure (33) without sanctioned estimate on a prisoners camp, in connection with the par. The estimate has since been sanctioned.

### IRRIGATION BRANCH.

82. The following statement shows the outstandings in the Irrigation Classic Branch according to the years to which they relate. The corresponding figures of outstandings according to years for purposes of comparison.

In Bombay, the items relating to 1911-12, and two of those relating to each of the years 1912-13, 1913-14 and 1914-15 represent outlay, held under objection under 'Excess over Estimate' on canal excavations (Godavari Bight and Left Bank canals). The completion report for the Godavari Canals is under the consideration of the Government of India.

One item in each year 1912-13, 1918-14 and 1914-15 under 'Want of Estimate' represents expenditure on land compensation, in connection with the Nira Bight Bank Canal. The revised project estimate of this canal, in which this item was provided, was returned by the Government of India for further modification, and in order to avoid possible delay in getting the whole project sanctioned, the Local Government subsequently issued orders to the Superin-

tending Engineer to submit a separate estimate for the item.

The outstandings for 1914-15 consist of 5 items amounting to 5 under Want of Estimate's amounting to 39 under Excess over Estimate' and 1 amounting to 1 under Miscellaneous Fregularities. Under Want of Estimate, one has since been adjusted. Out of the remaining, the chief item represents expenditure in connection with the Girna Left Bank Under 'Excess over Estimate,' three represent expenditure on works in connection with the Pravara Canals project, the revised estimate for which has since been sanctioned by the Secretary of State. Under 'Miscellaneous Irregularities,' the item represents the amount due from a contractor, who has become insolvent. Steps are being taken to recover the amount through the Court.

In Madras, the item for 1913-14 represents expenditure, without sanction to estimate, on temporary establishment employed for the acquisition of land for the Chepaud project. It has since been adjusted.

The outstandings for 1914-15 represent expenditure held under objection under 'Excess over Estimate' on sub-works of the Chepaud project and on tools and plant of a tank project. The former has since been adjusted.

In Bengal, the outstandings for 1914-15 consist of 3 items amounting to 44 under 'Want of Estimate,' and 1 item amounting to 1 under 'Excess over Estimate.' Under 'Want of Estimate,' the two principal items are on account of expenditure in connection with the Madaripur Bheel Route project.

In the Punjab, the outstanding for 1913-14 represents the payment of Government dues by a cheque on a private bank, which went into liquidation before the encashment of the cheque. A sum of Rs. 269 was outstanding up to July 1917 and was brought to the notice of the Local Government.

The outstanding for 1914-15 represents expenditure held under objection under 'Excess over Estimate' on a rest-house and subsidiary buildings, in connection with the Upper Chenab Canal.

In the Central Provinces, of the outstandings for 1914-15, one represents expenditure without detailed estimate on a distributary and the other in excess of estimate, in connection with the head works of a canal.

84. The following statement shows the outstandings relating to 1915-16 and the provinces to which they relate:—

Bombay. The important item outstanding under 'Want of Estimate' represents expenditure on the installation of a Paterson Filter in connection with the Poona water-supply techeme the detailed estimates for which are awaited. Under 'Excess over Estimate,' the chief items represent outlay on canal excavations (Godavari Right and Left Bank Canals), referred to in the preceding paragraph. Under 'Miscellaneous Irregularities,' the important items represent expenditure in connection with the Pravara, Godavari and the Nira Right Bank Canals. Of these, the revised estimate for the Pravara project has since been sanctioned by the Secretary of State.

Bengal.—The outstandings relate mainly to further expenditure in connection with the Madaripur Bheel Route project and expenditure on the construction of the Mohamaya sluice.

Central Provinces.—The outstandings under 'Bxcess over Estimate,' represent expenditure on various works of the Wainganga Canal, which await the sanction of the Government of India to the revised estimate. Under 'Miscellaneous Irregularities,' the outstandings represent advances made to the East Indian and Bengal Nagpur Bailways for the construction of a syphon and a bridge, respectively, for which completion reports are awaited.

Madrae. Under 'Want of Betimate,' the chief item is on account of the Nagavalli project. Under ' Excess over Estimate', the chief item s excess over tooks and plant for the Toludur project, and has since Bombay.—Under 'Want of Estimate,' the outstandings relate mainly to works in connection with the Pravara Canal project. The project estimate for these works has since been sanctioned by the Secretary of State, but sanction of the Government of India to the detailed estimates is awaited. Another important item represents further outlay on the installation of the Paterson Filter, referred to in the preceding paragraph. Under 'Miscellaneous Irregularities,' the outstandings relate mainly to outlay in connection with the Godavari, Pravara and the Nira Right Bank Canal projects.

Bengal.—The outstandings relate mainly to outlay without sanction to detailed estimates, and in excess of estimates, on works in connection with the Madaripur Bheel Route project. In the case of works already sanctioned and executed without detailed estimates, the Government of India have called for the completion reports. In the case of the excess over the original estimate, the sanction of the Secretary of State is awaited. Under 'Excess over Estimate,' another important outstanding is in connection with the remodelling of a zemindary embankment, which awaits sanction to the revised estimates. Under 'Miscellaneous Irregularities,' the outstandings mainly represent outlay on certain drainage and sluice works held under objection, pending acceptance of the completion reports by the Collectors. These have since been removed.

United Provinces.—Under 'Excess over Estimate,' the chief items represent outlay on works in connection with the Gorai and Ghaggar Canals, of which the former has since been cleared, and the latter awaits sanction to the revised estimate. Under 'Excess over Appropriation,' the main items relate to expenditure on the Ghaggar and the Dessan Canals, which have since been cleared.

Punjab—The important items relate to outlay in the Upper Sutlej Canals Division, and the Mangla Division, Upper Jhelum Canal, without appropriation, and on diverting the line at Merala to a timber depôt without sanction to estimate.

Burma.—The outstandings relate chiefly to expenditure in excess of the project estimate for the Twante Canal, which have since been removed.

Central Provinces.—Under 'Want of Estimate,' the outstandings chiefly represent expenditure, incurred on works in connection with the Mahanadi Canal, which awaits sanction to the detailed estimates. Under 'Excess over Estimate, the outstandings chiefly represent outlay on works in connection with the Wainganga and the Mahanadi Canal projects, which await sanction to the revised estimates. Under 'Miscellaneous Irregularities,' the outstandings are mostly on account of advances to the Bengal Nagpur Railway for the construction of syphons and bridges at railway crossings, which await completion reports from the Railway Company.

### Financial Irregularities.

- 36. As in the Civil Department several instances were noticed in which irregular action was resorted to with a view to avoiding lapses of grants. The ordinary devices adopted for this purpose were paying for stores before their delivery, making purchases in excess of immediate requirements, effecting fictitious temporary transfers of the value of materials from stock to a works estimate, drawing cheques and purchasing remittance transfer receipts in anticipation of the receipt of materials, and paying contractors in excess of the value of work done or of materials supplied. Many of these devices naturally involved the risk of losses to Government. The practice was most common in the United Provinces, slightly less common in the Punjab, Burma, and the Central Provinces, while it was prevalent in other provinces in varying degrees. Some cases are given below; others are included in the appendix to the report. Many of the instances that occurred in the United Provinces took place after the issue by the Local Government in July 1915 of general orders prohibiting the practice of drawing cheques before the receipt of materials.
- (a) A sum of Rs. 6,250 was paid by an Executive Engineer to a fish in March 1915 in part payment of the value of five railway trucks, which were actually delivered in December 1915.

- (b) (i) In February and March 1915, a contractor was paid for 4,211,416 of the contractor of the work of a railway feeder road. In the final bill, paid in November 1915, a minuse entry of 746,895 c.ft. led to a departmental enquiry which revealed the fact that up to the 31st March 1915 only 8,149,483 c.ft. had been executed, the excess paid for being 1,061,933 c.ft. The sub-overseer responsible was dismissed and the excess payment to the contractor has been recovered from his security deposit.
- (ii) In the same sub-division, another sub-overseer recorded measurements between the 11th February and the 11th May 1915, aggregating 3,416,200 c.ft. of earthwork, while re-measurements on the 27th October 1915 gave only 2,563,128 c.ft., the excess payment to the contractor thus being for 853,077 c.ft., which was afterwards recovered from the contractor's security deposit. The sub-overseer stated in his explanation that money was advanced to the contractor in March 1915 under the District Engineer's orders, observed that advance payment could only be made when excessive measurements were entered in the measurement book, and added that the practice of doing so in the month of March to avoid lapse was very well known. The pay of this official was reduced by Rs. 5 for two years by the Chief Engineer.
- (c) (i) Materials to the value of Rs. 620-7-0, were purchased between the 29th and the 31st March 1916, and charged to annual repairs estimates, merely to avoid lapses of grants. In one case the materials were lying unused in the godown in December 1916 and in three others they had been used on works other than those charged with their value.
- (ii) Bricks and tiles to the value of Rs. 1,462, were paid for and charged to certain works on the 31st March 1916 in the same division, although they were lying unused at site in December 1916.

The Local Government directed that the Sub-Divisional Officer should be warned for his disregard of rules in both cases.

- (iii) Rs. 191-2-5 were paid from the same division on the 25th March 1916, to a Jail Superintendent for durries and chicks, which were not delivered completely until September 1916. It was explained that the advance was made to get the articles cheaply, as the rates were quickly rising owing to a scarcity of dyes. The Local Government severely censured the Sub-Divisional Officer responsible, and directed that a special note should be made in the officer's next annual confidential report.
- (d) On the 29th March 1915, a running payment of Rs. 1,155 was made to a contractor for supply of deodar logs for use on a work in advance of the actual supply, while in the final payment made in May 1916 the total value of finished work (both labour and materials) amounted to Rs. 1,104 only, i.e., Rs. 51 less.
- (e) On the 80th March 1916, an Executive Engineer placed an order for <sup>L</sup> asbestos sheets with a Rangoon firm by telegram. The firm's bill, received the following day, was immediately paid by a cheque for Rs. 483-13-0, though the materials, which had been despatched by steamer, could not possibly reach their destination within a fortnight of despatch.
- (f) Rs. 2,000 were paid by an Executive Engineer on the 28th March 1917, to a local contractor for the supply of katni stone lying at a railway station. The materials were required for the construction of a school at some distance from the railway station and were carted later on to the site of the work departmentally. The explanation of the Executive Engineer was not accepted by the Local Administration, and the irregularity was noted in his confidential reports.
- (g) Rs. 2,175 were allotted by the Commissioner of Excise on the 11th March 1916, for the purchase of certain buildings. On the 28th idem, the Executive Engineer concerned paid the value of the buildings to a firm, under instructions from his Superintending Engineer, before the registration of the sale-died and before ascertaining from the Legal Remembrancer whether it was in proper form: The Legal Administration described the case as a clear evasion of rule and considered it very regrettable that the Superintending Engineer could not see that the orders on the subject were complied with.

- 37. Many instances came to notice in which irregular adjustments were made, with a view to evading financial rules or audit objections. The object in most of the cases was to reduce excesses over sanctioned estimates or allotments, and thus to obviate the necessity for higher sanction. The irregular procedure was very common in the United Provinces, a little less in the Punjab, while it was prevalent in other provinces also. The Punjab Government issued a circular letter in June 1917, against the practice of making irregular stock adjustments in the Irrigation Branch. Some instances that came to notice during the year under review are given below; others will be found in the appendix to the report.
  - (a) The local inspection of a certain division disclosed erroneous debits to current repairs' on account of expenditure against certain local fund works, the estimates and allotments for which had not been sanctioned. The matter was brought to the notice of the Local Government as involving an infringement of the rule in paragraph 1111-A. of Volume I of the Public Works Department Code. One of the two Sub-Divisional Officers, responsible for the irregularity was reprimanded by the Local Government, and the Executive Engineer's recommendation in his confidential report was modified. The other Sub-Divisional Officer is no longer in service.
  - (b) In a division, the register and file of contracts showed, as the result of an audit inspection, that various contractors held more than one contract running against certain detailed estimates of works, and that the aggregate amounts of such contracts were beyond the sanctioning powers of the Superintending Engineer (Rs. 20,000) and the Executive Engineer (Rs. 5,000) respectively. It was irregular to split up contracts for the purpose of bringing them within the powers of sanction of a particular officer. The contracts had since been submitted by the Executive Engineer to the Superintending Engineer for transmission to the Local Government for sanction.
- (c) Some corrugated iron sheets were lost in the course of the construction of a work, but the loss, amounting to Rs. 632-9-8, was not reported to any higher authority and was made good privately and in part to the extent of Rs. 281-4-3. It was irregular to make good a loss privately without passing the transaction through the Government accounts. The Local Government ordered that Rs. 351-5-5, representing the unrealized loss, should be made good by the head of the office, and endorsed the adverse comments of the Accountant General on the case.
- (d) (i) In a canal division expenditure on special repairs was often charged to, and allowed to remain at debit of annual repair estimates till sanction was obtained to the special repair estimates. Rupees 615 and Rs. 190-8-0 charged in the first instance to two annual repair estimates were written back to two special repair estimates, which were sanctioned in March 1916 and August 1915, respectively. The explanation of the Executive Engineer was that the sanction to special estimates and writes-back were the result of his scrutiny during inspections, but the Superintending Engineer did not accept the explanation. It was ascertained by further enquiry that the irregularities were due to the inexperience of the Sub-Divisional Officer, who has been warned that expenditure must be debited to the correct head initially.
- (ii) In the same division, 105 feet rails, 31,000 bricks and 600 cubic feet ballast, which were surplus and should have been brought on to the stock accounts under the rules, were used, free of cost, on additions and improvements to the Executive Engineer's residence, with the result that the capital value of the building and the annual rent calculated on the same escaped enhancement. The Executive Engineer stated that the use of these materials without value had the approval of the Superintending Engineer. The Local Government have called for the submission of a revised rent statement of the Executive Engineer's residence and propose to pass final orders thereon.
- (e) Materials to the value of Rs. 9,499 were shown as issued from stock to works in the accounts of a division for March 1915 in order to work up to the budget grant for the year. The stores were used by January 1916.
- (f) Stock materials to the value of Rs. 1,492, which had been charged to a work in the accounts of a division for March 1916, were subsequently written

back to stock in the accounts for August 1916. The materials had not been carried to the site of the work and the issue in March 1916 was made apparently to regularize the excess over the appropriation under the head 'Suspense.

38. In the following instances, the payment of liabilities was postponed with Postponement the object of avoiding audit objections; such postponement is directly opposed to evade audit to the rules. In Bengal, the Local Government issued a circular letter in Feb-objections. ruary 1918 impressing on all officers the necessity for the prompt payment of In the United Provinces, the Local Government, at the instance of the Accountant-General, issued orders in July 1916, prohibiting the practice of withholding payment of contractors' bills for repair works.

- (a) The payment of three bills for Rs. 668-2-0, Rs. 400-14-0 and Bengal. Rs. 488-10-0, based on measurements taken on the 26th May, 25th June and 5th July 1916, respectively, was withheld till November 1916 or afterwards, as there were no sanctioned estimates for the work done.
- (b) The claim of a contractor for Rs. 2,574-11-10 for work done between November 1915 and January 1916 and passed for payment by the Sub-Divisional Officer on the 25th February 1916 and by the Executive Engineer on the 8th March 1916 was withheld till April 1916. The object was to avoid an excess over grant.
- (c) (i) Payment was withheld in the case of two bills for Rs. 712-9-0 and United Provinces. Rs. 289-14-0, respectively, on account of measurements in connection with maintenance of two roads, recorded in December 1915, as the funds allotted for the works had already been spent. They were subsequently paid in May
- (ii) In the same division, the measurements in connection with annual repairs to bridges and culverts on certain roads, recorded in August 1915, were not paid for during 1915-16, as the estimate and allotment would thereby have been exceeded. The amount of Rs. 635-3-0 was subsequently paid in May 1916.
- (d) The amount of the bill of a contractor for work measured in Decem-Biker and Orises. ber 1915, was reduced from Rs. 1,118-8-0 to Rs. 930-0-0, in order to avoid an excess over the allotment. The balance of Rs. 188-8-0 was paid in May
- 1916.

  39. The irregular practice of debiting the pay of peons or clerks to works pay of regular in order to avoid the necessity for obtaining higher sauction, commented on in establish-previous reports, was also noticed in some provinces during the year under charged to works to avoid higher sauction.
- 40. Several cases came to notice, which indicated a lack of sufficient atten-tion. tion on the part of officers to the financial interests of Government. Some instances are given below; others are included in the appendix.

  (a) An estimate, amounting to Rs. 20,665, for replacing a bamboo palisading of Government ound a distillery by a magnery wall was appendix.
- round a distillery by a masonry wall, was sanctioned by the Local Administra-Meson. tion in July 1918, and the work was given on contract in October 1913. The work was started in January 1914, and was stopped under the orders of the Local Administration on the 21st September 1914, as it was decided to reconsider the question of moving the distillery. As a result of the cancellation of the contract, the contractor served a notice on the Secretary of State instituting a civil suit for compensation. In accordance with the advice of the Legal Remembrancer the matter was settled amicably. The net unremunerative expenditure involved in the transaction came to Rs. 6,322-11-3.
- (b) During the year 1915-16, a large number of works (including annual United Provinces, repairs), were executed by departmental labour in a division, the total payment under this head amounting approximately to Rs. 49,600. This caused much confusion in the accounts, as the cost of labour was in a number of cases debitable to contractors. The work executed by departmental agency was moreover less economical, as compared with the contract schedule rates of the division and resulted in an excess of Rs. 2,401 over the provision for the same. The Executive Engineer reported that none of the muster rolls for consolidation done by departmental labour, was checked by the Sub-Divisional Officer concerned, notwithstanding his extensive touring, while in some cases,

there was nothing to show whether the attendance was even checked by the subordinate in charge. The Chief Engineer ordered that the district surveyor responsible for the excesses should be deprived of the temporary promotion, he was at the time enjoying, and that he should receive no promotion for a year. It was remarked that this punishment was primarily for insubordination, but in deciding as to the severity of the same the Chief Engineer was influenced by the facts of this case.

grobes materials in advance, or in excess, of requirements.

Madras

- 41. The irregular practice of collecting materials far in advance, or in excess of requirements, commented on in paragraph 88 of the last report, was also noticeable during the year under review especially in the Madras Presidency. In a few cases, the purchases were made even before the site had been acquired or the plan of the building settled. There were also cases in which loss to Government occurred, owing to the works for which the materials had been collected being subsequently abandoned, and the materials deteriorating, becoming unserviceable, or being lost. The Madras Government issued a circular memorandum in May 1917 prohibiting the practice. Some cases are given below; they illustrate the necessity for vigilance in this respect on the part of supervising officers, in order to prevent avoidable losses of public money.
- (a) Surplus articles of tools and plant remained charged to a bridge which had been completed. The cost of the special plant was Rs. 42,396 and this has to be disposed of. The Local Government have requested the Superintending Engineer to see that there is no delay in disposing of the plant, but anticipate that it may take some time as the execution of other works has been curtailed during the war.
- (b) Sheet piles costing Rs. 23,730 were obtained from England for a bridge, and were actually carried from a railway station to the work site at a cost of Rs. 6,987. It was then reported that these were not required and so they were transferred to another division; the charges for transport from the railway station to the bridge-site and back amounting to Rs. 11,223, which remained at debit of the bridge. The Local Government have stated that the estimate as originally prepared contained a provision for well foundations; but that the Chief, Engineer recommended open foundations to be constructed in a coffer dam formed with steel sheet piling and the estimate was altered When the work was started, the Executive Engineer was allowed take the risk of laying the foundations without using the piles and he was recessful in doing this. The Local Government hold that the provision for ne piles in the estimate was a prudent course. I accept this view; but a pint for consideration is whether it was necessary to have incurred the ansport charges from and to the railway station when it was decided to low the Executive Engineer to build the work without the piles.
- (c) In April 1914, 1,114 rolls of sensitized ferro-gallic paper were obtained on indent from England, but out of this quantity only 211 rolls were issued to Public Works divisions up to the end of June 1916. The quantity indented for was about 11 years' supply, and the balance of 903 rolls, valued at Rs. 1,270, was found to be unserviceable and written-off. It is understood that the indent was due to a misapprehension of the orders as to the exact officer who was responsible for stocking and supplying the paper to Government institutions.

irregular use of Govern-

42. In the course of the inspection of a division in Bengal, it was noticed that Government cash was being used for the purpose of cashing private cheques, which were not sent to the banks concerned till the following month. The cash balance on the 1st May 1916 comprised one cheque for Rs. 150 and three cheques for Rs. 100 each, drawn on private banks by some officers of the establishment between the period from the 8th April to the date of inspection. The officer responsible merely remarked that the objection had been noted and would not occur again. The Local Government did not consider this to be an adequate explanation; a further explanation has been called for.

43. Numerous cases came to notice in which the accounts, of contractors were not debited with the values of materials at the time of their issue as required by rule. The practice was fairly common in Bengal, Madras and Burma. The Bengal Government issued a general letter in February 1918 prohibiting the

irregular upkeep of contractor

irregularity. Negligence in the upkeep of contractors' accounts is likely to lead to disputes and losses and should not therefore be allowed to occur. Details of a few cases are given below.

- (d) (i) Rs. 1,388, being the cost of materials issued to a contractor in Madra July 1915, were not debited to his account till the work had been completed in October 1916.
- (ii) Rs. 6,891, being the cost of materials issued to a contractor on various dates from March 1914 onwards for constructing a college hostel, were not debited to or recovered from him till the work was completed in March The Sub-Divisional Officer has been warned.

In both the above cases, the contractor was paid full rates inclusive of the cost of materials on intermediate bills, and there was no record in the accounts to show that the cost of materials had to be recovered from him.

- (b) Rs. 4,510, being the cost of Government materials supplied to a contractor at various times, were not debited to his account, and the debit, when raised for the first time in the final bill, was not accepted by the contractor as correct. In consequence, the amount due to the contractor on the final bill has been deposited in a court of small causes. The Local Government did not consider it necessary to take action against the officers responsible, as they had left the division. It is not clear whether they have left the service of Government; if not, the case appears one to be pursued further.
- (c) In March 1915, an Executive Engineer issued stock materials to the Burma. value of Rs. 3,138-14-3, to a contractor and debited the same to various subheads of the work, but in the final hill, which was paid in September 1916, no recoveries were made on this account. The omission was discovered in an audit inspection in December 1916, and the whole amount was recovered in February 1917. The case has been reported to the Chief Engineer, who has been requested to institute a full enquiry and to bring the facts to the notice of the Local Government. The increment of the accountant concerned has been stopped.
- 44. Most of the irregularities under this head, which came to notice during Want of, or the year under review, consisted in giving work to contractors before agreements irregularity were entered into. The practice was specially prevalent in Madras and the for the United Provinces. In Bengal, some improvement was noticeable, but the Public Works. position was not entirely satisfactory. The Government of Bengal issued special instructions with a view to the avoidance of the irregularity. In the United Provinces, five cases were reported in one sub-division; nine in another; and four among others, in a third. In one sub-division, a number of payments was made in the absence of agreements; and in another, no agreements or work orders were prepared for repair works costing under Rs. 500. In one division, numerous cases were found, in which work had been executed and measured up before the completion of contract agreements. In another division, the Executive Engineer entered into several agreements, which required the sanction of the Superintending Engineer. The Government of the United Provinces issued general orders in May 1916 prohibiting the irregular procedure and circulating a list of common irregularities in this connection. Too much stress cannot be laid on the necessity for strictly conforming to the code rules on the subject in order to prevent litigation and possible losses to Government. Details of some cases are given below; others are given in the appendix to this report.
- (a) In connection with the contract for a new taluk office building, altera-Madras. tions, verbally ordered by the Executive Engineer, resulted in a claim for Rs. 20,000 on the part of the contractor, and the subsequent institution of a law suit against Government. The Executive Engineer was prepared to pay only Rs. 712. The suit ended in a compromise with the contractor, who accepted a sum of Rs. 9,003 (including Rs. 1,801 on account of costs of the suit). In addition to this, Government had also to incur other law charges amounting to Rs. 1,429. The law charges and costs, at least, are a dead loss to Government, and it is for consideration whether some disciplinary action should not be taken against the officer responsible.
- (b) Several works, some of them of considerable value, had been executed United Provinces. in a division on verbal orders, although the rules require that the conditions

to be fulfilled must be reduced to writing and signed by the contractor. It was evident that in all these cases no watch on the rates to be charged by the contractors could be kapt, beyond seeing that the scheduled rates were not exceeded. Even the latter check did not seem to have been exercised, as in many cases, the acknowledgments of the contractors on the bills were wanting and in many, there were such items as 'brick work,' 'masonry,' etc., without any more detailed description, so that it was not possible to check the rates even by a comparison with the schedule, which provided for various kinds of masonry and brick work, at various rates.

- (c) (i) Two payments of Rs. 833-10-0 and Rs. 954-1-0 were made on the 31st and the 80th March 1916, respectively, without any agreements with the contractors.
- (ii) In the same division, the Sub-Divisional Officers frequently entered into contracts considerably in excess of their powers. One officer made two final payments of Rs. 10,098-6-0 and Rs. 1,634-1-0 on the 31st March 1916, on agreements dated the 15th February 1916 and the 28th November 1915, respectively, the execution of which were beyond their powers.
- (iii) In the same division, the Executive Engineer entered into a contract for Rs. 9,601 on the 25th September 1915, for annual repairs to a certain road, which required the authority of the Superintending Engineer.

Bikar and Orissa.

- (d) (i) An estimate of Rs. 14,034 was canctioned in November 1913 and the payment, up to the 28th February 1916, to a certain contractor amounted to Rs. 1,289-2-0, without any agreement with him.
- (ii) Estimates of Rs. 28,693 each for two works, were sanctioned in August 1915, and payments up to the 29th February 1916 to certain contractors amounted to Rs. 9,695-2-0 and Rs. 10,765-0-0, respectively, without any agreement with them.
- (iii) An estimate of Re 23,895 was sanctioned in August 1915 and the payment up to the 29th February 1916, to a certain contractor amounted to Rs. 10,862-6-0, without any agreement with him.

The possibility of disputes and expensive litigation from this failure was impressed by the audit office upon the Executive Engineer, who noted the instructions; but during an audit inspection in 1917-18, it was observed that, although agreements were being entered into, they were in some cases accepted after the work had been started by contractors.

Irregular Monsure-Monts. 45. In several cases, it was noticed that measurements had not been carefully made and that over-payments had sometimes occurred in consequence. In the United Provinces, these irregularities consisted chiefly in the entry of measurements in excess of work actually performed, or in respect of work which had not been executed, and it was apparent that in some cases entries were made on the assumption that work had been done, or that certain quantities had been executed, while the responsible subordinate did not take the trouble, or could not find the time to visit the work and actually measure it. In Burma, large payments were made on subordinates' measurements without check. A few instances are given below.

(a) In one division, on audit of a contractor's final bill, it was noticed that the quantity of earthwork billed for in the first two running certificates had been overmeasured by more than 8 lakhs cubic feet, resulting for the time being in an excess payment of Rs. 7,060. The matter was reported to the Chief Engineer, who in reply stated that the subordinate who was directly responsible for the error in the overmeasurement, had already been reverted to the Military Department.

(b) On a voucher for a certain payment made on the 1st April 1915, in connection with repairs to the channel of an anious system, the Sub-Divisional Officer remarked that the work done had been considerably damaged by the floods of December 1914, but the work paid for was said to have been measured by the overseer for the first time on the 20th January 1915. On the question being raised as to how it was possible to measure on this date the work done prior to the floods, it was found that no record of the above measurement was traceable. Government have asked for a full report from the Superintending Hagineer.

Delhi.

Madras.

(e) Measurements, totalling 48,888 c.ft. earthwork, recorded by a sub- United Propinces. overseer in a measurement book, were reduced on check by the Sub-Divisional Officer to 20,628 c.ft. only. No over-payment was, however, actually made. The sub-overseer was removed from the service by the Superintending Engineer under the orders of the Local Government.

(d) Three pages of a measurement book contained measurements of dressing silt, recorded by a sub-overseer on the 21st March 1916, but the charges were not paid for finally even on the 17th December 1916, as the Sub-Divisionals-Officer visited the sites in question, but could not find any dressing done. The subordinate in fault has been dismissed from the service and the Local Government do not consider that further action is necessary.

(e) Incorrect measurements were recorded by a subordinate in the Punjab. measurement book and had these not been checked by the Sub-Divisional

Officer, an over-payment of Rs. 322-7-6 would have been made.

(f) Excessive measurements ranging from 12 to 31 thousand and from 6 to 68 thousand oft. of earthwork were entered by two subordinates in measurement books, resulting in overpayments, which were subsequently recovered from the contractors concerned on bills for other works.

(g) A payment of Rs 9,785-13-10 was made on measurements taken Burme

by a temporary lower subordinate.

(A) A final bill payment of Rs. 1,230-9-0 was made on measurements taken by a sub-overseer.

46. Many cases came to notice, in which there were discrepancies between Other the dates of measurement as recorded in the measurement books and as given irregularities in the travelling ellowance inversely of the subordinates conserved in the up-keep in the travelling allowance journals of the subordinates concerned. The of measure explanation of these discrepancies has generally been either that the date was ment books. wrongly posted in the measurement book by mistake or that the measurements were copied from other documents, and that the date of the copy was shown instead of the date of the actual measurement. As the measurement book is the basis of payments to contractors, and may require to be produced in a court of law in cases of dispute, a scrupulous observance of the rules on the subject of its up-keep is very essential. Details of a few-cases are given in the appendix.

47. Some instances are furnished below in which losses of Government Last to money occurred, mainly owing to neglect of financial rules or standing orders by Government

responsible officers.

(a) Several buildings at a certain station were fitted with electric lights or standing and fans during 1910-11 and 1911-12, but no recoveries were made from orders. their occupants in accordance with the rule contained in paragraph 931, Public Province. Works Department Code, Volume I., either on account of repair or interest charges, or on account of the cost of current consumed. In the case of some of the buildings, moreover, the initial charges were not separately sanctioned or booked as such in the accounts. In the case of two buildings, where the actual cost of installation is known, the loss to Government to the end of 1916-17 amounted to Rs. 592-8-0 at Rs. 178-8-0 per year from the 1st April 1912. The cost of current is a further loss, the amount of which is not exactly known.

(b) Lime and mortar required for a work were manufactured by the Public Madras. Works Department at a cost of about Rs. 6,300 and Rs. 14,400, respectively, but owing to the issue of raw materials, such as limestone, coal, sand, etc., considerably in excess of the quantities provided for in the estimates, a loss of Rs. 8,125 was incurred. The Superintending Engineer thought that no control was exercised either by the Executive Engineer or by the Sub-Divisional Officer over the operations.

(c) The measurements, recorded by a subordinate in connection with work Punjab. done by three contractors, were found, at the time of the final measurements, to have been excessive, with the result that the contractors were overpaid to the extent of Ra. 5,450. Out of the amount overpaid a sum of Rs. 8,764 was adjusted by the Executive Engineer against the amounts due to the contractors on security and other accounts. The Local Government ordered that a further sum of Rs. 223 should be recovered from two of the contractors and

neglect of

that the balance of Rs. 1,464, should be written off. I am not awars what action has been taken against the supordinate.

(d) 120 drums of solignum and 100 gallons of copal varaish worth Rs. 2,623 were paid for in connection with a work against the estimated provision of only Rs. 1,274 for the work. It was, however, found by the Executive Engineer when settling the account of the contractor who did the painting work, that more than Rs. 455 worth of the materials could not have been used on the work. In the godowns, solignum and varnish worth Rs. 1,029-7-6 only were found and this was brought on to stock returns. The balance of materials, worth Rs. 1,139, charged to the accounts of the work concerned, could not be traced or accounted for. A sum of Rs. 292 has since been recovered from the contractor who executed the painting work, and the balance has been written off under the orders of the Local Government.

ntral Provinces.

- (e) The annual return of material-at-site for the year ending the 31st March 1916 for a work showed a shortage of materials, worth Rs. 5,481-1-8, due to the defective manner in which the accounts were kept by the Sub-Divisional Officer. After a careful examination of the accounts, and allowing for adjustments due to arithmetical errors, confusion in taking measurements, and failure to note issues to other works and make recoveries therefor, the actual shortage came to Rs. 1,554-7-9 only, which was written off under the orders of the Local Administration. Neither the Superintending Engineer, nor the Executive Engineer concerned had any reason to suspect dishonesty on the part of the Sub-Divisional Officer. The Local Administration, however, ordered that the increments of pay due to the officer should be withheld for a period of eighteen months, and that he should get no further increments unless his accounts work met with the approval of his Executive Engineer.
- (f) A contractor, who was given a contract for metalling a portion of a road, sublet a part of his contract to a sub-contractor for the manufacture of bricks. This was in contravention of one of the conditions of the contract agreement, but no action was taken by the Executive Engineer on this point. Again there was no stipulation in the contract agreement that coal for the manufacture of bricks should be supplied to the contractor by the Department, but coal was supplied freely without security and apparently in excess of the actual requirement of the work. No precaution was taken in regard to the excessive issues, although at the end of each financial year the contractor's accounts showed a heavy debit balance, the amount due from the contractor at the end of 1913-14 amounting to Rs. 1,579-2-9. Moreover 67,413 bricks, passed by the Sub-Divisional Officer, at the site of the kiln, entered in a measurement book and formally taken delivery of in the presence of both the contractor and sub-contractor were allowed to be taken away subsequently and sold by the sub-contractor, despite the contractor's protest and the Superintending Engineer's orders to the contrary, the entries in the measurement books being cancelled. On his expressing his inability to proceed with the work, the contractor's accounts were finally closed, and a loss of Rs. 874 to Government occurred, which had to be written off by the Local Administration as irrecoverable.

ands and falcations casioned 7 negligence.

- 48. As in the Civil Department, several cases of fraud, mainly due to carelessness and neglect of standing rules or orders, came to light during the year under review. Details of a few instances are given below.
- (a) There was a fraudulent overpayment of Rs. 8,755 to a contractor in a sub-divisional office on bills for stores and materials caused by a manipulation of the chalans or invoices of stores. The manipulation which was contrived by the contractor and a clerk who had already been dismissed for another reason was facilitated by carelessness on the part of the Sub-Divisional Officer in verifying the bills preferred for payment with the invoices. The procedure was that (1) purchases from local firms should be made on a written order, and (2) that stores sent in compliance with such orders should be accompanied by chalans in duplicate—one copy being sent back duly receipted to the supplier, the other copy being filed in the sub-divisional office. When a bill was received it ought to have been checked with the office copy of the order, the chalan filed in the office, and a suitable note of the fact

of payment recorded on both the chalans and the order book. As a matter of fact, the order book was not written up and bills were neither checked with the order book nor with the office copy of the chalan. The result was that fraud was perpetrated (1) in double payment for the same articles and, (2) in payment for articles that had never been supplied. The first result was attained by the firm getting hold of office copies of chalans and presenting fresh bills for the same articles, attaching these chalans to the new bills. The method adopted in the second system of fraud was the intention of the bills. The method adopted in the second system of fraud was the insertion of new items in the receipted chalans returned to the firm. Audit failed to detect the irregularities the bills were received with the certificate of the Sub-Divisional Officer that the contents had been received, as required by Public Works Department Code, paragraph 1005. Suitable amendments to the procedure have now been made with a view to removing the possibility of such manipulations remaining undetected in future. Under the orders of the Local Administration, a sum of Rs. 2,196 due to the contractor on another account has been set off against the overpayment and the balance of Rs. 1,559 will be deducted from the pay of the responsible Sub-Divisional Officer by monthly instalments of Rs. 100 (since reduced to Rs. 75).

(b) It was noticed that a navigation munshi used to realize tolls on rafts Purish. of timber and issue receipts on behalf of Government for the amount realized. The recoveries were accounted for by him in a cash book, and at intervals the collections were paid by him to the Sub-Divisional Officer. The latter used to accept the amounts paid by the munshi from time to time without exercising any check over his accounts. It was suggested by the audit officer inspecting the division that this procedure was faulty, and that proper check should be exercised over the receipts by comparing them with the counterfoils of the receipts and the pass tickets issued by the munshi who used to retain the latter. This led to an investigation, with the result that the Executive Engineer discovered that the munshi had embezzled Government money to the extent of Rs. 1,185-10-9. The munshi was sent up for trial in connection with three cases of short payments and was convicted and sentenced to undergo one year's rigorous imprisonment and to pay Rs. 50 fine on each charge. I am not aware whether any notice has been taken of the neglect on the part of the Sub-Divisonal Officer.

(c) A sub-divisional cashier, while attached to two different sub-divisions, Biker and Orisea. embezzled Government money to the extent of Rs. 4,376-6-0 by resorting to three methods, vis., (1) by double payment on account of the same work, (2) by alterations in youchers, and (3) by payments for which measurements were not traceable in the measurement books. The defalcation came to notice as the result of an enquiry regarding the causes of certain excesses over appropriations for 1915-16, which led to a searching investigation with the assist. ance of a clerk from the audit office. The fraud was facilitated by want of system in the sub-divisions in dealing with cash transactions, a continuous breach of the rules and the orders laid down for the guidance of Sub-Divisional Officers in Chapter XI of the Public Works Department Code, Volume I, and a general laxity of control on the part of the Sub-Divisional Officers. The cashier was criminally prosecuted and convicted and sentenced to undergo rigorous imprisonment for 5 years and to pay a fine of Rs. 500. The Local Government ordered that, after meeting Rs. 792-14-6 from the security deposit of the cashier, a sum of Rs. 2,100 should be recovered from the 3 Sub-Divisional Officers in fault, the balance Rs. 1,483-7-6 being written-off under article 279 (a) of the Civil Account Code, Volume I. Necessary precautions were also taken with a view to removing the possibility of similar defalcations in future.

49. There were large excesses over the estimates under the sub-heads excava- Inaccur tion and land compensation of a sewerage and water-supply project in Bombay, estimating. the expenditure under the former head being Rs. 3,07,038 against an estimate of Rs. 1,15,105, and that under the latter head being Rs. 71,886, against an estimate of Re. 20,510. This was due to the inaccurate method followed by the Executive Engineer in preparing the estimates—the excess in the case of excavation being due to insufficient trial pits when the project was prepared, and in the case of land compensation, to proper information being not furnished by the Bovenus Denastment.

egularities connection th stock counts. 50. In the Buildings and Roads Branch of the United Provinces, inadequate attention was paid in many cases to the proper maintenance of stock accounts. Details of a few cases are given below.

ted Provinces

- (a) The stock account for 1915-16 of a division fell into confusion, and minus balances appeared against several items. These were removed in an irregular way, vis., by writing back from works to stock the value of materials, sufficient to cover the minus figures, and meeting the credits thus raised in the works accounts by transferring equivalent sums from stock to works in respect of other materials, against which there were sufficiently heavy debit balances in the stock accounts. The Local Government ordered the discrepancies to be rectified as early as possible. The Mankawar (section site) registers produced at the audit inspection of 1917-18, were office copies and not the original registers. These showed that the differences previously noticed had been reconciled. It was found, however, that accounting continued to be irregular and fresh minus balances had been created as a result chiefly of omission to bring materials on to the registers in the month of receipt while the issues were recorded when these were actually made. The matter is being dealt with by the audit office in correspondence with the Divisional Engineer.
- (b) In a division, the site accounts of three works continued to show materials of the aggregate value of Rs. 10,045-9-4 as being at site, whereas they had been used up long before. The Executive Engineer stated that irregularities of this nature would be guarded against in future and the Superintending Engineer called for a detailed report.

### Posts and Telegraphs...

contage of setions to al senditure.

51. The following statement shows the gross amount of objections raised in the Posts and Telegraphs Department during the year under review, the net amount of objections representing infringements of financial rules, the amount of expenditure audited, and the percentage which the net objections bear to the total expenditure.

· 1,	Total amount placed under objection	10
2.	Deduct-Amount relating to Debt heads including Suspense 30,10

Indo-European Telegraph		28	,	35	16	48
Total	. 4	1,55		2,07	Ajes	44

The increase of 34 in the Post Office and Indian Telegraph Traffic Department, as compared with the similar figure for the preceding year, was due to a large number of objections against Base Poet Offices, which were unavoidable owing to the conditions of work on field service. The increase of 7 in the Indo-European Telegraph Department was mainly due to the war.

The items for 1915-16 represent chiefly pay and field allowance of men on field service, claimed without requisite sanction, a sum of 8 under recovery in a Base Post Office, and expenditure incurred without necessary sanction on some temporary offices, opened in connection with the North-West Frontier disturbance.

The objections for 1916-17, outstanding on the 31st July 1917, are classified as follows:--

Want of sanction Want of detailed of Want of vouchers, Service payments for Other objections	and do	cumer	•	•	•	•	89 40 26 6 17
~~				Tot	al	•	1,78

Under 'Want of sanction' and 'Want of detailed countersigned bills,' the figures were largest in Bombay owing to numerous objections against Base Post Offices.

54. The following statement shows the balances of objections outstanding on the 31st July 1917 in the Indian Telegraph Eugineering Department. figures of the preceding year are also given for the purpose of comparison.

The outstandings of 1915-16 represent items of travelling allowance overdrawn by officers on field service. Recovery has been effected in four cases and credit is awaited from the Central War Controller.

### Financial Irregularities.

able pay-

55. Cases of double payments of pay, leave and acting allowances came to notice. The amounts overdrawn have been recovered in all cases except one in which the recovery has been waived by the Government of India. In one case, two last pay certificates were issued by a Postmaster in favour of the same official, and this resulted in a double drawal of the allowance due to him. The Postmaster explained that he issued the duplicate to another Postmaster, on the assurance of the latter that he would cancel the original sent to a third Postmaster. He should, however, have satisfied himself that the original was duly cancelled, before the duplicate was issued.

rdrawals
n Savings
1k Ac1to.

- 56. A few instances of overdrawals from Savings Bank accounts are given below:—
- (1) A sum of Rs. 103-13-4 was overpaid as the result of a wrong copying of the balance into a new ledger in the Post Office. The check afforded by a comparison of the pass-book with the ledger was defeated in this case, as a duplicate pass book showing the wrong balance was issued on the plea that the original had been lost.
- (2) A sum of Rs. 50-4-0 was overpaid as the result of a wrong cancellation of an original entry of withdrawal. In this case, the original entry of withdrawal was wrongly scored out from the ledger without consulting the Savings Bank Journal, as there was no corresponding entry in the pass-book.

The cases were reported to the Postmasters General concerned and the overdrawals liave since been recovered.

(3) Sums of Rs. 206 9-7 and Rs. 100 were overdrawn from two Savings Bank accounts as the result of a wrong casting of the balances. The latter amount still remains to be recovered. In the former case, a duplicate passbook showing the wrong balance was issued on the plea that the original had been lost, and in the latter, the mistake had been carried into the pass book also.

to Govsent.

57. There was a case of shortage, amounting to Rs. 208-4-6, in the cash balance of a Field Telegraph Office, due to overpayment in consequence of the insufficiency of fully trained accounts establishments in the field. The amount has been written off by the Director-General, Poets and Telegraphs, and the shortage was debited to the Controller of War Accounts.

din a
Office -s money
pay-

58. Four bogus money orders for Rs. 200, Rs. 199, Rs. 500 and Rs. 525, aggregating Rs. 1.424, purporting to have been issued from a post office, were paid by the post office of another city, the first two on the 8th April 1916 and the last two on the 14th April 1916. The first two were received in the paying office on the 3rd April 1916 and were originally payable to the payee, 'care of the Postmaster,' but they were neither entered in the register of money orders received, nor sent out for payment till the 7th, and were apparently in the possession of some official of the post office, who was working in concert with the swindler. On the 4th April 1916, a post card was received from the payee from another place requesting the Postmaster to keep the articles intended for him in deposit. The address on the money orders was subsequently changed on the 7th April 1916 by the Postmaster, probably under verbal instructions from another person, or the defrauder himself; and they were accordingly paid to the payee at the house of the other individual. The defrauder, having thus succeeded in securing payment, prepared two other hogus money orders two days later, and received payment on the 14th April 1916, without difficulty. The frauds were detected when the money orders came under sudit, as credits for them were not traceable in the issue list of the post office from which they were supposed to have been issued. The culprit has since been convicted and fined Rs 1,225 which, when recovered, will be credited in reduction of the sum of Rs. 1,424 lost by Government. The fraud is this case was mainly facilitated by the negligence of the postal officials.

### Railways.

59. Of the total expenditure of the year which amounted to 84,34,34, the Percentage of amount placed under objection was 1,98,16, or 5.77 per cent. The correspond-objections to ing percentage in 1915-16 was 8.90 (a). The increase in the percentage was ture: Compare due mainly to the large outlay of 68,81 on the construction of the Nushki son with 1915 Extension Railway and of 17,10 on the restoration of the Hill Section of the Assam Bengal Bailway without detailed estimates as mentioned in paragraph 60 below.

# Analysis of Outstanding Objections.

60. The following statement shows the balances of the several classes of outstanding objections, raised up to the 31st March 1917, and remaining unadjusted on the balance on 31st July 31st July 1917. The corresponding figures of the preceding year are also 1917: Comparison with 1915-16.

Heeds of objection.	Balan 31st Jul	nce on ly 1917.		nce on ly 1916.	Increase + Decrease		
	No of items.	Amount.	No. of items.	Amount.	No. of items.	Amount.	
Want of Estimate	157	1,37,16	132	84,89	+25	+1,02,77	
Excess over Estimate Covered by administrative exaction. Not covered by	215	17,24	826	33,47	-183	-16,28	
adminis tra- live sauction	78	25,34	103	87,68	<b>3</b> 0	12,29	
Want of Appropriation	13	26	57	4,06	-44	8,80	
Excess over Appropriation	49	5,82	129	11,44	80	6,13	
Miscellaneous Irrégularities	83	1,90	(a) <b>2</b> 4	(a)11,19	8	9,29	
Total .	68)	1,87,22	(a) 848	(a) 1,83,18	-304	+55,01	

Although the total sum under objection under all beads of account outstanding on the 31st July 1917 was 1,87,22 as compared with 1,32,18 in the preceding year; there was a considerable improvement except under 'Want of Betimate'. The very large increase of 1,02,77 under 'Want of Betimate' over the corresponding figure on the same date in the preceding year was mainly due to an outlay of 68,81 in the construction of Nushki Extension Railway and of 17,10 on the restoration of the Hill Section of the Assam Bengal Railway, incurred during 1916-17 without detailed estimates. Expenditure on the former project was incurred with the approval of the Secretary of State, and a detailed estimate for the latter has since been sanctioned by him. The improvement under the other heads of objection is attributable chiefly to the regularisation of a few large items, which were outstanding in the preceding year, namely, the excess expenditure on the Southern Shan States Railway, Thasi-Aungban Section, for which a completion estimate has been sanctioned by the Secretary of State and certain items aggregating 15,82 on the Lower Ganges Bridge, which have all been cleared

<sup>(</sup>a) Differs from the figures shown in the last report owing to emission of certain items of merely technical objection from the balance outstanding on the 31st July 1916 of the Great Indian Peninsula Relivant.

Assam-Bengal Railway.—All the items are covered by administrative sanction. The excess will be regularised, when the revised estimate for the Kooseara-Sylhet section, which has been submitted to the Railway Board, is sanctioned.

Burma.—The objections relate to the Aungban-Heho Section of the Southern Shan States Railway, and will be removed when the estimate for the project is sanctioned. The Secretary of State has approved of expenditure being incurred on this extension.

Great Indian Peninsula.—The principal items are :—

- (i) Victoria Terminus. Land required for the extension and remodelling of the Yard (3,98). The Secretary of State has since sanctioned an estimate for the acquisition of the land.
- (ii) Relaying 128 miles of 82 lbs. track with 100 lbs. track between Igatpuri and Duskheda (11,40). The completion reports, in which the excess will be regularised, were submitted to the Railway Board for sanction; but have been returned to the Railway for revision.

North-Western Railway.—The principal item is :—

Remodelling the Lahore Yard (1,09). A revised estimate for the work has since been sanctioned by the Government of India.

inalysis of outstandings disting to 1918-16. 64. Out of the 615 items relating to 1915-16 outstanding on the 31st July 1916, 525 were adjusted by the 31st July 1917. Particulars of the balance are given in the following statement:—,

Assam-Bengal.—Restoration of Hill Section (5,70). The estimate for the work has since been sanctioned by the Secretary of State.

Bombay, Baroda and Central India.—The principal item is:-

Relaying 10.3 miles of 69 lbs. permanent-way in Bulsar Division (88).

This will be regularised through the revised estimate which is under preparation.

East Indian.—The principal items are :—

- (i) Uttarpara to Lilloah—Extension of third line (48).—The objection has since been removed by the Railway Board's sanction.
- (ii) Extension to the Carriage and Wagon Shop, Lillosh (58). The objection will be removed when sanction is accorded to the completion report for the work, which is under preparation.

Other Railways -- The objection relates to the Aden Railway for which no project estimate was sanctioned and will be removed when the completion estimate for the railway which has been called for by the Railway Board is sanctioned.

65. The outstandings relating to 1916-17 are analysed in the following Analysis of outstandings statement:—

(a) Amount less than one thousand.
 (b) These represent items placed under objection due to delay in the submission of completion report and such other miscellaneous irregularities.

### Assam-Bengal.—The principal items are :-

- (i) Erecting 5 E class and 4 B class engines and 25 oil tanks (1,81). Formal sanction to the detailed estimate has been delayed, pending settlement of the question as to the percentage leviable on account of indirect charges.
- (ii) Restoration of Hill Section (17,10). The detailed estimate for the work has since been sanctioned by the Secretary of State.

### Eastern Bengal.—The principal items are :-

- (i) Constructing 34 unit European guards' quarters at Chitpur (1,22).

  An estimate for the work has since been sanctioned by the Railway Board.
- (ii) Constructing seven subordinates' quarters at Lalmanirhat District (65). The commencement of the works was authorised by the Railway Board. An estimate is under preparation.

### Bast Indian.—The principal items are :—

- (i) Burdwan-Howrah Chord Railway (1,67). Completion estimate for the project has been sanctioned by the Railway Board.
- (ii) Excess over Appropriation (2,50). Out of the 26 items, 22 have been regularised and the remaining 4 items amounting to 58 will be cleared early.

Great Indian Peninsula.—The major portion of the amount under objection is accounted for by the following items:—

- (i) Relaying 6.1 miles of 82 lbs. track with 100 lbs. track on the down road on Lonavla-Poona Section (3,57). An estimate for the work has since been sanctioned by the Railway Board.
- (ii) Equipment of the Kargali Colliery (3,99). The objection has since been removed by the Railway Board's sanction to the estimate.
- (iii) Kalisindh Washaways—Additional waterways, temporary diversions, etc. (2,14). The estimate awaits the Home and Railway Board's sanction.
- (io) New carriage and wagon shops at Matunga (3,96). A revised estimate has been submitted to the Secretary of State for sanction.

(v) Quadrupling the line from Currey Road to Kalyan (1,75). The excess will be cleared partly by credits for released material and partly by reappropriation.

# North-Western.—The principal items are:—

- (i) Nushki Extension Railway (68,81). The construction of the line was approved by the Secretary of State. An abstract estimate has been submitted by the Engineer-in-Chief but on receipt of a final detailed estimate steps will be taken to obtain the sanction of competent authority.
- (ii) Khanai-Hindubagh Railway (3,25). The estimate is under preparation.
- (iii) Remodelling Lahore Yard (2,06). A revised estimate for the work has since been sanctioned by the Government of India.
- (iv) Laki-Pezu-Tank Railway (2,81). A revised estimate for the project is under preparation.

### Oudh and Rohilkhand.—The principal item is :-

Transfer of Bombay, Baroda and Central India Railway land at Cawnpore Collectorganj for the Bengal and North-Western Railway Goods-shed at Cawnpore (1,05). The estimate awaits the Railway Board's sanction.

Madras and Southern Mahratta.—The principal item is :-

Excess over Appropriation—Mysore State Railway (1,61). This awaits the Railway Board's sanction.

South Indian.—The principal item is 3,40, which represents expenditure incurred on 'Random renewals of sleepers during 1916-17' and the objection will be regularised by the submission of a statement of expenditure, which is under preparation by the Chief Engineer.

Tirhoot.—This is made up of several small items, most of which are in course of regularisation.

Other Railways.—The principal item is 3,34, which represents expenditure on the Aden Railway, for which no project estimate was sanctioned. The objection will be removed when the completion estimate for the Railway, which has been called for by the Railway Board, is sanctioned.

### Financial Irregularities.

Pulation Sounts to audit tions.

- 66. A class of financial irregularity which has been noticed in previous reports and which still recurs at intervals is that of incurring expenditure on works without an estimate and sometimes without prior sanction to the work being put in hand, and allocating the bills to ordinary revenue maintenance in order to avoid audit objection. The following four cases of this kind which came to notice in 1916-17 were reported to the Railway Board who have asked the Agent to issue a stringent warning to all officers that disciplinary action will be taken in any subsequent cases of this nature:—
- (a) An Executive Engineer incurred expenditure on the laying of certain sidings without a sanctioned estimate and without even obtaining the Agent's approval to an urgency certificate, and by allocating the expenditure to ordinary revenue maintenance got bills passed by the audit office up to a total amount of nearly \$\frac{1}{2}\cdot 400\$. The irregularity in putting the work in hand without an urgency certificate was taken up by the Agent on his own initiative. The evasion of audit objection by wrong allocation was brought to his notice by the Chief Examiner.
- (b) Another Executive Engineer incurred expenditure aggregating nearly R28,000 from May 1916 to February 1917 on a programme revenue work for which an estimate had not been sanctioned, and debited the outlay to ordinary revenue with a view to avoiding audit objection. The whole expenditure was written back to the special work on receipt of sanction to the estimate in March 1917. The matter was reported for necessary action to the Agent, who has taken it up with the Chief Engineer.

- (c) An estimate for improvements in certain watering arrangements was sanctioned in 1915, but expenditure to the extent of #3,804 on laying and maintaining a tramway in connection with the work was incurred by the Executive Engineer between February 1914 and October 1916 and charged to ordinary revenue. Moreover, the value of the materials laid on the line had not been charged off to the work. The matter is still under correspondence between the Agent and the Chief Engineer.
- (d) A patent water lift costing R192 was indented for for a sanctioned work in 1914-15, but could not be supplied that year. It was, however, received in 1915-16 and, there being no allotment to cover the outlay, the cost was charged to ordinary revenue, and written back to the special work in 1916-17. The matter was brought to the notice of the Chief Engineer, who has issued instructions to prevent a repetition of the irregularity.
- 67. An officer purchased a platform crane for R2,000 for use at a junction Irregular station, without a sanctioned estimate and without obtaining the formal appro-purchase of val of the authorities of the contiguous railway, which was necessary as the crane had to be provided at the cost of the latter. The railway eventually refused to take the crane, having a spare one of its own, and it had in the end to be brought on to the General Stores. Some loss was incurred in the shape of handling and carriage charges in moving the crane to and from the junction station. The matter was reported to the Agent, who did not accept the explanation of the officer concerned that, in order to facilitate speedy execution of work and make his section yield good financial results, he should be given some latitude, and orders were issued that code rules should be strictly complied with in future. The case has also been brought to the notice of the Railway Board.

68. At an inspection, it was noticed that a Sub-Divisional Officer, in March Irregular 1917, had submitted to the District Office for payment 5 bills aggregating view to avoid R19,893-13-0, in favour of two contractors, of which two bills amounting to ing lapse of R7,070-9-1 were final. The bills were passed for payment, but on the pay grants. clerk presenting them the Sub-Divisional Officer stopped payment and explained that the bills had been prepared before the works were quite complete to avoid lapse of grant, but that payment would be deferred as the works had not been done properly. Subsequently, the Sub-Divisional Officer reported to the Executive Engineer that the contractors had completed their work satisfactorily and asked that payment of the bills should be arranged for. The case was reported to the Agent by audit and attention drawn to the risk involved in the preparation of final bills for unfinished work merely for the sake of utilising It has also been reported to the Railway Board for necessary action.

69. During the course of audit, it was discovered on a certain railway that, Insufficient contrary to the orders regarding the allocation of the cost of private and attention to assisted sidings, the cost of a portion of a private siding, inside the premises of a ing orders. mill. had not been charged to the mill owners. The matter was taken up with the Executive Engineer, and the cost of the material inside the premises has since been recovered. To prevent such cases in future, it has been arranged that when no portion of a siding lies inside private premises, a certificate to this effect should be given by the Engineering Department both on the estimate and on the completion report for the work.

70. (a) An ingenious system of petty fraud in an audit office was discovered Frauds and during the year. It had been the custom, for some years past, for Travelling tion of funds. Inspectors of Accounts to give a clerk in the Inspection Section of the Traffic (a) Accounts to give a clerk in the Inspection Section of the Traffic (a) Accounts to give a clerk in the Inspection Section of the Traffic (a) Accounts to give a clerk under the Inspection Section of the Traffic (a) Accounts to give a clerk in the Inspection Section of the Traffic (a) Accounts to give a clerk in the Inspection Section of the Traffic (a) Accounts to give a clerk in the Inspection Section of the Traffic (a) Accounts to give a clerk in the Inspection Section of the Traffic (a) Accounts to give a clerk in the Inspection Section of the Traffic (a) Accounts to give a clerk in the Inspection Section of the Traffic (a) Accounts to give a clerk in the Inspection Section of the Traffic (a) Accounts to give a clerk in the Inspection Section of the Traffic (a) Accounts to give a clerk in the Inspection Section of the Inspection Se Inspectors from their daily diaries, etc., and to check the journeys before the journals were submitted to the officer in charge of the branch for countersignature. He took advantage of his position to tamper with the journals after they had been courtersigned and before they were submitted with a bill for audit. This was effected by inserting claims for Sundays and holidays, when the Inspector had been away from his headquarters, but had not drawn the usual daily allowance, or by altering trains and their timings so as to make it appear that allowadce for a day was admissible. This was done very cleverly, and it was difficult to discover that the journals had been tampered with. Then

when the bill and journals were audited and paid, he paid those Inspectors on whose behalf he had received payment only the amount they had claimed, retaining for himself any amount over and above the original claim. The amount so embezzled during the two or three years the fraud was in progress was very petty, amounting to just over R500; and as the whole amount of the Provident Fund bonus earned by the culprit, namely R1,287, was forfeited, there was no loss to Government. With the approval of the Accountant General, Railways, the man was dealt with departmentally, being summarily dismissed with forfeiture of bonus earned in 29 years' otherwise satisfactory service. Certain defects in procedure which helped to make the fraud possible were set right, and a Superintendent and some clerks, who had not been as intelligent or as careful as they should have been, were adequately dealt with.

Railway tion.

- (b) Two instances of fraud at railway stations are given below:—
- (i) On August 26th, 1916, a man was arrested in the passenger hall at a station in the act of selling to passengers tickets which had already been used, of which a considerable number were found in his possession. This man, who was subsequently found to have been working at the station as an unpaid probationer, was convicted of fraud and sentenced to one year's rigorous imprisonment and a fine of R25, or in default 3 months' further imprisonment. Enquiries instituted shewed that the re-sale of tickets in this manner had been going on for some time, and that the Station Master, who had no authority to employ a probationer, was either a party to the fraud or at least had been so grossly slack in supervision as to permit fraud to be carried on without his knowledge. He was consequently dismissed from the service.
- (ii) In May 1916, during an inspection of the accounts of a station, a Travelling Inspector of Accounts made a surprise collection of tickets and found that of the tickets collected many were un-stamped while others were stamped for an earlier train. This led to the suspicion that re-issues of tickets had been going on for some time and tests specially instituted proved that this was actually the case. The Station Masters were prosecuted and were sentenced to one month's rigorous imprisonment and a fine of B250, or in default a further term of imprisonment for 3 months.

lequate on on etion

71. On a State Railway, it was noticed that the points raised and the irregularities brought to light in audit inspection reports on Open Line Executive Engineer's Offices were not always adequately dealt with by either the Executive Engineers or the Engineer-in Chief. In the case of one District Office the disposal of the inspection report was so unsatisfactory that the Chief Examiner represented the matter to the Chief Engineer with the result that severe action was taken against the staff concerned and the report was returned to the District for redisposal.

**tuler** op of unts of anent rials.

72. On a State Railway, inspections by audit have brought out the fact that the accounts of permanent way materials kept by the Engineering Department, Open Line Offices, have been uniformly bad; and, with a view to remedy the defect, it is understood that such materials are being transferred to the custody of the Stores Department.

# Army.

73. The following paragraphs contain the usual information regarding the expenditure under objection and financial irregularities in the Army Department. Some special points arising out of the war are dealt with in a separate section of this report.

tions to

74. The total gross expenditure audited by the Supply and Divisional Conexpendition trollers in India amounted to 65,55,49 during the year under review, while 8,19,67 were placed under objection. The percentage amounts to 4.88 as compared with 3.76 in the preceding year—the increase being due to objections on war expenditure, audited by the Controller of Military Supply Accounts and passed on to the Controller of War Accounts, not having ari- 3,19,67 were placed under objection. included in the calculation for 1915-16.

### Analysis of Outstanding Objections.

75. The following statement shows the balances of objections, raised up to classification the 31st March 1917, but remaining unadjusted on the 31st July 1917. The ings according corresponding figures for the preceding year are also given, as far as possible, to years and comparison for purposes of comparison:—

with 1915-16.

·	Items s	waiting	Service p		To	tal.		on 31st 1916.	Incres Decre	
	No. of items.	Amount.	No. of items.	Amount.	No. of items.	Amount.	No. of items.	Amount.	No. of items.	Amount.
Relating to 1912-13 .  to 1918-14 .  to 1914-15 .  to 1915-16 .  Total .	1 8 463 3,457 12,129	(a) (a) 1,07 6,96 89,06	8 1 484 2,644 5,160 8,247	19 (a) 68 3,04 4,67 8,58	9 4 897 6,101 17,289 24,800	19 (a) 1,75 9,99 93,78	12 33 3,388 19,922  22,305	19 1 6,61 44,28  51,04	-3 -29 -1,441 -13,821 +17,289 +1,995	1 4,86 34,24 +93,73 +54,62

(a) Amount less than one thousand.

The large increase of 54,62 in the amount outstanding on the 31st July 1917 as compared with that on the same date in the preceding year occurred mainly in the Rawalpindi, Lahore and Burma Divisions and in the Supply Circle, due to the causes explained in the following paragraph.

76. The following statement shows these outstandings according to the Classification to subject the related of outstand-Divisions to which they relate:-

ings according to Divisions,

	Items av clears		Service p	syments overy.	Tot	al.	Total on July 1	
Divisions, etc.	No. of items.	Amount.	No. of items.	Amount.	No. of items.	Amount.	Ne. of items.	Amount.

TOTAL	. 15,053	97,08	8,347	8,58	24,800	1,05,66	22,305	51,0

As compared with the previous year, the increase in the balance outstanding on the 31st July 1917, in the 2nd (Rawalpindi) Division (5,87) was due chiefly to delay in receipt of bills in adjustment of the advances made to agents for purchase of stores, etc., in connection with the North-West Frontier Operations and Waziristan Field Force; that in the 3rd (Lahore) Division (21,07) due chiefly to non-receipt of the necessary information from officers and men who had proceeded on Field Service; that in the Burma Division (14,43), to want of receipt vouchers for rice despatched to Base Supply Officers at Marseilles and Basra; and that in the Supply Circle (14,84), to the inclusion of objections on war expenditure.

77. The reasons for the outstandings are explained below:—

1912-13.—The sum of 19 outstanding in the 6th (Poona) Division represents the loss sustained by the State by the failure of a contractor. Legal steps were taken for the recovery of the amount; the case is, however, on the sine die list of the Court of the District Judge, Poona.

1913-14.—A small item of Rs. 20 outstanding in the 8th (Lucknew) Division represents the amount of income-tax recoverable from - certain pensioners, who did not appear for payment.

1914-15.—Of the sum of 1,75 outstanding for this year, 4 pertains to the 1st Division, 94 to the 3rd Divisiou, 24 to the 6th Division, 8 to · the 7th Division and 33 to the 8th Division, representing items of disallowances chiefly on account of pay and allowances of officers and men, and other charges, and the balance 12, pertaining to the Supply Circle, represents objections issued on railway vouchers, etc. Of the total outstandings 50 have since been adjusted, 62 are outstanding for want of vouchers or other particulars which have been called for, 60 are under recovery and 3 are awaiting Government sanction. Steps have been taken for the early adjustment of the outstandings.

1915-16 — The outstandings amount to 9,99 as against 44,28 shown in the last report. Of the total, 2,12 have since been adjusted, 4,88 are outstanding for want of vouchers or other particulars which have been called for, 3,02 are under recovery and 2 are awaiting Government sanction.

1916-17.—Of the sum of 93,73 outstanding, 48,63 have since been adjusted, 41,91 are outstanding for want of vouchers or other details, 2,44 are under recovery, and 75 are awaiting Government sanction.

The delay in the settlement of these outstandings is chiefly due to the increase of work on account of the war and the absence of experienced clerks in the Field Account Offices. Endeavours are being made to reduce the outstandings with the assistance of extra temporary establishments and of Gazetted Staff and Accountants deputed from Civil Accounts Offices.

### ACCOUNTS OF FIELD CONTROLLERS.

preentage of tal expendin with )15-16.

78. The expenditure placed under objection during the year under review (35,57) represents 1.54 per cent. of the total expenditure (23,09,17) audited ire: Compart in the Field Controllers' offices during the year. The corresponding percentage for the preceding year was 3.69. This improvement was due to the whole of the pay lists of Indian troops (rank and file) and of a large number of British troops and establishment pay bills being subjected to pre-audit, any mistakes found being corrected on the spot; to the greater scrutiny now exercised by the Divisional Disbursing Officers; to the reduction in the scope of audit to 1th of the accounts; and to the steadily growing experience gained by the civil and temporary clerks in auditing the field accounts.

assification outstand.

79. The following statement shows the balances of objections raised up to gs according the 31st March 1917, but remaining unadjusted on the 31st July 1917 in the books of Field Controllers. The corresponding figures for the preceding year are also given for purposes of comparison:-

			Items awaiting clearance.	Service payments for recovery.	Total.	Total on Blat July 1916.	Increase + Decrease—
Relating to 1914-15 Relating to 1915-16 Relating to 1916-17	•	•	 31 4,00	 2,44	 81 6,44	3,0 t 18,90	-3,04 -18,59 +6,44
Тота	L		4,81	2,44	6,75	21,9+	-15,19

The improvement of 15,19 in the amount under objection outstanding on the 31st July 1917, as compared with that in the preceding year, was due to a reduction in the objection issued on account of hire of vessels employed in Mesopotamia, owing to such charges having been regularized, and to the adjustment of 13,65, paid provisionally to a firm on account of the hire of a flotilla in Mesopotamia in 1915-16, subject to the rate of hire being fixed by the Government of India.

80. The following statement shows the outstandings under each field Classification of outstandings under each field classification of outstandings under each field classification of outstandings under each field classification of outstandings under each field classification of outstandings under each field classification of outstandings under each field classification of outstandings under each field classification of outstandings under each field classification of outstandings under each field classification of outstandings under each field classification of outstandings under each field classification of outstandings under each field classification of outstandings under each field classification of outstandings under each field classification of outstandings under each field classifica office:--

Field Offices.	Items awaiting clearance.	Service payments for recovery.	Total.
Indian Cavalry Corps, Indian Expeditionary Force "A" (British personnel) Indian Expeditionary Force "B" Indian Expeditionary Force "D" (Supply) Office of Field Controller of Military Accounts, Poona, which includes Indian Expeditionary Force "A" other than the Cavalry Corps, Force "D" other than the Supply portion,	11 4,11	 8 2,34	14 6,45

The above outstandings represent almost entirely objections for want of vouchers, last pay certificates, certificates of payments or other particulars; they include 1.82 on account of disallowances against the Inland Water Transport Officer, Amara, which are under local investigation.

### Financial Irregularities.

- 81. A few instances of financial irregularity, belonging to classes, which were prominent during the year under review, are given below
- (a) An inspection of the accounts of a dairy farm disclosed the fact Drawhl of that two payments for Rs. 1,040-11-3 and Rs. 1,431, respectively, in connection money in with schedule measure works were entered in the Cash Book for March 1917, requirements although only Rs. 486-6-0 and Rs. 445-12-0, respectively, out of them had with a view to actually been spent in that month, and the remainder in 1917-18. The money lapses of was apparently drawn with the object of preventing a lapse in the grant. Budget The Assistant Director, Dairy Farms, concerned issued necessary instructions to prevent a recurrence of such irregularities in future.

- (b) (i) It was noticed in the course of an inspection of the accounts Unspent of a Silladar Camel Corps that a sum of Rs. 52,762-5-11, drawn in 1915-16 by refunded to the Office Commanding for purchase of bhoosa, etc., for the feed of camels treasuries. (which is allowed when free grazing is not available), was not wholly spent for the purpose, and the unexpended balance was credited to the corps fund. The irregularity was reported to the General Officer Commanding, and eventually a sum of Rs. 6,339-10-10 was recovered and credited to Government in July 1917. The officer subsequently submitted an appeal against the recovery of the sum.
- (ii) The unexpended balances of hutting grants for the year 1916-17 and previous years had been retained by the Officers Commanding certain Indian Regiments, instead of being credited before the close of the financial year, as required by the rules. One officer credited to Government in the accounts for 1917-18 Rs. 59-14-8, due for 1916-17. Another officer utilised a part of a sum of Rs. 484-6-0 for 1916-17 and previous years to meet expenditure in 1917-18, but the amount has since been recovered. A sum of Rs. 1,524-12-1 for 1916-17 is due from a third officer and necessary action has been taken for its recovery.
- (c) (i) An embessioment of a sum of Rs. 883-5-11, on account of family Defalorations allotment by men of a corps of Sappers and Miners during March 1917, came of Government to notice on the 26th April 1917. It was decided by the Court of Enquiry held on the case, that the embezzlement was due to want of care on the part of the officer entrusted with the duty of checking the accounts and that he was, therefore, responsible for the loss; but on further enquiry, it was found that his responsibility covered only Rs. 405-13-11. This amount is being recovered from

his pay by instalments and the balance of the loss has been made up by the corps.

(ii) A sum of Rs. 636-8-0, representing the value of 66 money orders on account of family allotments, which were returned by the Post Office unpaid during 1915-16, was embessed by a writer, owing to his being allowed to receive such unpaid money orders. Two officers were held responsible. The amount for which one of them was responsible was subsequently recovered, and steps have been taken to recover the portion for which the other officer was responsible. Unpaid money orders are now received by a British officer to avoid such frauds.

vances erdrawn false stificates. (d) Five officers obtained advances of Rs. 3,644, Rs. 2,706, Rs. 1,864, Rs. 3,355 and Rs. 5,216 respectively, in the field, between the period from November 1916 and September 1917 on false certificates to the effect that they were in credit up to those amounts. The first three cases were brought to the notice of the War Office, as the officers had gone Home, and in the remaining two cases, the officers were tried by Court-martial and dismissed from the service.

## Military Works.

reentage of jections jetal jenditure: inparison h 1915-16. 82. Under 47—Military Works, the total expenditure during the year under review was 2,29,64, of which 2,01,22 (excluding overlapping figures) were placed under objection, showing a percentage of 87.6 as against 39.6 in the preceding year. These figures do not include the Military Works expenditure debited to the Central War Controller, which is separately dealt with in paragraph 87 below. The great increase in the percentage was the result of war conditions and was mainly due to very large expenditure incurred without, or in excess of, estimates and appropriation on the construction and improvement of roads on the North-West Frontier to render them suitable for mechanical transport, on aviation camps, hospitals, cavalry lines, cantonments and hut accommodation, and to large unvouched outlay and excesses over the reserve limit of stock. The expenditure held under objection during the year amounted nearly to (1) 70,00 (i.e., 53,00 more than the last year), for want of sanctioned estimates to urgent works, (2) 12,00 for want of completed vouchers and (3) 86,00 for an excess over the reserve limit of stock in Bombay, purchased for despatch overseas to the Indian Expeditionary Forces.

Under 47-A.—Special Defences, the percentage of objections to the total expenditure was 29.1 as against 23.7 in the preceding year, the total expenditure during the year under review being 2,78, out of which 81 (excluding overlapping figures) were placed under objection. The increase in the percentage was mainly due to expenditure without estimates on the refrigeration of a magazine.

### Analysis of Outstanding Objections.

standing octions.

83. The following statement shows the balances on the 31st July 1917 and the corresponding figures for 1915-16:—

84. The balance of 1,15,15 was made up of 87,98 under 'Ordinary Demands,' Comparison 0 under 'Special Demands,' and 1,17 under 'Special Defences,' while the with 1916-1 24,00 under 'Special Demands,' and 1,17 under 'Special Defences,' corresponding figures for 1915-16 were 10,29, 12,28 and 41, respectively. The large increase, as compared with the preceding year, was due mainly to the reasons mentioned in paragraph 82 above.

85. Out of 92 items relating to 1914-15 and previous years which were Analysis of outstanding on the 81st July 1916, 75 were adjusted during the period under according review. The item specially referred to in paragraph 84 of the last report, years. which represents a sum of 11 advanced in March 1912 and February 1913 to an Officer Commanding a Volunteer Rifles Corps for the construction of an Armoury and Sergeant Instructor's quarters, still remains unadjusted.

Of the outstandings for 1915-16 and 1916-17, 81,10 represent excesses over the reserve limit of stock, of which 58 only were adjusted up to end of October 1917.

86. It has been roughly estimated that the percentage of Military Works Percentage started during the year without detailed sanotioned estimates was 42.15, against without 32.46 in the preceding year. This estimate is based on statistics for eight estimates districts selected at random. The increase in the percentage, as compared number of with the preceding year, was due to urgent works undertaken on account of works start the war.

### War Expenditure.

87. The expenditure on Military Works charged to war, which was Percentage placed under objection during the year under review, amounted to 2,42,79, to total and the total expenditure to 2,94,45, thus giving a percentage of 82.46. This expenditure high percentage was due to many works having been started without either administrative or technical sanction owing to their great urgency, to the want of consignee's receipts for stores despatched to the various expeditionary forces and to large advances to contractors for war works.

88. The following statement shows the balances of objections raised up Analysis of to the 31st March 1917, but remaining unadjusted on the 31st July 1917: objections.

	Relating	lo 191 <b>5-16.</b>	Relating	to 1916-17.	To	tal.
Heads of objection.	No. of Items.	Amount.	No. of Items.	Amount.	No. of Items.	Amount.

Missellaneous irregularities .	•••	•••	238	69,39	233	69,39
Total .	7	5,9	485	1,44,77	492	1,45,89

89. The outstandings under Miscellaneous irregularities include 66,19 held under objection for want of consignee's receipts for stores despatched to the various overseas expeditionary forces. This important matter is referred to in paragraph 94 below. The remainder of the outstanding represents chiefly expenditure, without or in excess of estimates, on war hospitals, water supply and pontoon bridge trains.

90. The percentage of works started without estimate to the total number Percentage of works and during the year was reugily 52.68. started during the year was roughly 52.68.

vithout estimate

### Financial Irregularities.

on with ding es of got grants.

- 91. As observed in paragraph 86 of the last report, the Director General, Military Works, issued a circular during 1915-16 prohibiting irregular action for the purpose of avoiding a lapse of budget grants. Similar orders were also issued by this officer during the year under review, but the irregularity is not entirely absent, as the following instances will illustrate:—
- (a) The receipt of some tools was certified by a Barrack Sergeant on the 25th March 1916, and a remittance transfer receipt for Rs. 85-10-0, representing the cost of the articles, was sent to the supplying firm on the 80th March 1916. The tools, however, were actually taken delivery of on the 17th April 1916, on which date a credit note for the railway freight was issued.
- (b) Two remittance transfer receipts for Rs. 15 and Rs. 55-14-3, being the value of certain articles, were obtained from a treasury on the 30th March 1916 and despatched to the payees on the 3rd April 1916, but the stores were actually received on the 12th April and 6th April 1916, respectively.

**Tular** f Govern t money.

- 92 A cheque for Rs. 150 was encashed on the 17th October 1915 for recouping a treasure chest balance and the amount was advanced under the orders of the head of an office to a subordinate officer, who was proceeding on casual leave, without the payment being recorded in the cash book. The irregularity was detected at the time of an audit inspection. The serious features in this case were-
  - (i) Utilisation of State funds to meet private expenditure—the officer having no power to sanction the advance.
  - (ii) Omission to record the transaction in the cash book.
  - (iii) Signing of an incorrect certificate for the cash balance.

The officer responsible was warned by the Commanding Royal Engineer against the irregularity, and the Director General, Military Works, concurred in the action.

ularities ancial dure :

- 93. During the year under review, several works were started without administrative sanction. In some cases, this sanction was not accorded even after satarted the lapse of 12 months from the date they were taken in hand; while in istrative several others, the delay was for six months or more. Details of a few cases are given below:
  - (a) The construction of rest and relief camps in two different stations was started in November 1916, and the expenditure incurred on them to the end of March 1917 amounted to Rs. 93,725 and Rs. 83,846, respectively.

(b) A new water supply installation was started in December 1916, and the expenditure to the end of March 1917 amounted to Rs. 1,25,830.

(c) The construction of a hospital was started in July 1916, and the expenditure to the end of March 1917 (2nd Supplementary) amounted to Rs. 6,74,944.

In none of these cases had administrative sanction been received by February 1918.

ents of

91. (a) The War Office have always attached special importance to the obtaining of adequate proof of delivery of secret and to obtain consignees' receipts in peditions issued in July 1915 the audit officer is required to obtain consignees' receipts in peditions issued in July 1915 the audit officer is required to obtain consignees' receipts in overseas for the use of the Expeditionary Forces. An exception had, however, to be made in regard to the earlier shipments, and it was decided that for stores despatched before 1st April 1916 it would be sufficient to obtain mates' receipts for packages supported by certificates of contents from purchasing and packing officers. The officer responsible for shipments of Military Works stores up to 1st April 1916 was not able to produce even the latter proofs of shipment, and an audit inspection of his office in August 1916 brought out the fact that no systematic records were available and that it was very difficult to connect bills of lading with the actual contents of the packages or with the vouchers on which the stores purchased had been paid for. audit office brought this to the notice of the Director General of Military Works in September 1916, but while I fully recognise the special difficulties attendant on the earlier shipments of stores, I regret to have to state that the question still remains to be settled,

- (b) Even in regard to the supplies made from 1st April 1916, prompt attention has not been given to the necessity for obtaining consignee's receipts and the amount placed under objection on this account and remaining unadjusted to the end of March 1917 was nearly 95,92. Out of this sum nearly 46,72 has been adjusted to the end of February 1918.
- 95. The officer responsible for shipments of Military Works stores also failed Failure to to keep an up-to-date and correct account of purchases and stock, the position accounts of the position accounts of the position accounts of the position accounts of the purchases are the property of the position accounts of the purchase are the property of the purchase are the property of the purchase are being particularly unsatisfactory in regard to the large supplies of timber. The stock and parduties entrusted to this officer have been taken over by the Indian Munitious chases. Board; but the work of winding up his transactions up to July 1917 is still proceeding, and there is some dispute as to the value of the stores taken over by the Board.

96. In regard to the purchases of Military Works stores for shipment Payments on overseas, one serious feature was the large payments 'on account' made to account. contractors, which sometimes ran into lakhs of rupees and remained unadjusted for months together. The total of such payments during 1916-17 amounted to 1,80,73; the unadjusted balances on this account at the end of March 1917 were particularly heavy, and in two cases amounted to 26,97 and 14,42, respectively. It is, however, satisfactory to observe that outstandings on account of these advance payments have been pleared or considerably reduced as the result of the action taken by the administrative authorities on the representations made by the audit officer.

### Marine.

97. The percentage which the expenditure placed under objection during Percentage of 1916-17 (16,16) bears to the total expenditure of the year (11,80,05) is 1.37 total expenditure. as against 3.78 in the preceding year.

### Analysis of Outstanding Objections.

98. The following statement shows the balances of objections raised up to outstanding the 31st March 1917, but remaining unadjusted on the 31st July 1917, classi-balances. fied according to the years to which they relate:-

,						waiting Bance.	BERVIO	ERIES OF DE PAY- INTS.	Tot	Pat.		on 31st 1916.
		-			No. of items.	Amount.	No. of items.	Amount.	No. of items.	Amount.	No. of items,	Amount.
Relating to	1914-15	•	•	•			17	(a)	17	(a)	68	6
	1915-16	•		•	. 1	1	27	2	28	8	324	47
1+ <b>9</b> +	1916-17	•	•	•	114	8,54	78	13	187	8,66		
		Total			115	8,55	117	14	282	8,69	2,87	53

(a) Amount less than one thousand.

The balance outstanding on the 81st July 1917 shows a large increase comparison of 8,16, as compared with the preceding year. The increase is due to the with 1915-18. inclusion of objections on war expenditure, which consists chiefly of the charges for hired transports, purchase of rivercraft, prize steamships employed on military service, Royal Indian Marine vessels placed at the disposal of the Admiralty, and stores supplied to the Expeditionary Forces.

99. The outstandings relating to the year 1914-15 represent disallowances Analysis of on account of exchange compensation, field and command allowances, overpaid relating to to certain officers by Officers Commanding, Marine vessels. The delay in settle-1914-15. ment was due to the transfer of the officers concerned, and the late receipt of replies. The amount is under recovery.

Analysis of outstandings relating to 1915-16. 100. Out of the outstandings of 3, relating to the year 1915-16, 2 have since been adjusted, and the balance is cutstanding for want of authority in support of the charges, which has been called for. Action has been taken for an early settlement.

Analysis of outstandings relating to 1916-17. 101. Out of 8,66 outstanding on the 81st July 1917, which relate to the year under review, 8,16 have since been adjusted, 46 are outstanding for want of vouchers or other details, and 4 are under recovery. Steps have been taken towards effecting an early settlement of the items, and the delay is chiefly attributable to the present war conditions.

# March Expenditure.

102. Tables of figures to show the heavy expenditure in March, similar to those given in paragraphs 95 and 97 of the last Appropriation Report, as also in previous reports, have been omitted from this report, as Sir Reginald Gamble was of opinion that though the figures for each province were instructive when taken separately, they were misleading for the purpose of comparison between different provinces, as all the provinces did not base them on the Simplified tables, giving figures which would legitimately same data. admit of comparison between the different provinces, will appear in future reports. For the year under review, it must suffice to state that Accountants General were able to report an improvement only in the provinces of Burma and Bengal. As regards other provinces, while no perceptible improvement was noticed, the heavy expenditure was often attributable more or less to legitimate causes, such as the urgency of certain works, the lateness in certain tracts of the monsoon of 1916 and the consequent delay in the commencement of works. The following specific instances however show that the practice of rushing expenditure in order to use up grants is still resorted to by a number of officers. Personally, I would not regard heavy expenditure in March as serious in itself, if it is incurred without infringing those rules which experience has shown to be essential for safeguarding economy, but in the instances below it is difficult to assume that all the prescribed safeguards were actually adopted. These remarks would also apply to the irregularities detailed in paragraph 36 of this report, which are closely connected with the practice of rushing expenditure in March.

inited Provinces.

(a) The expenditure in March 1916 in one division, amounted to Rs. 3,36,673, against the average of Rs. 57,823 for the other eleven months of the year. During the last 3 days of March, no less than 173 cheques were drawn for a total sum of Rs. 1,61,317.

unjab.

- (b) 31 cheques, amounting to Rs. 9,866, were drawn by a Sub-Divisional Officer on the 31st March 1916 for payment of 62 vouchers. This rush of payments on so many accounts on a single day entailed, (i) the writing of 7 pages of the cash book on that day, (ii) the posting by the Sub-Divisional Officer of 234 pages of measurement books, (iii) the checking (and billing) by his clerk of 347 pages of measurement books, and (iv) the entering of 62 bills in the bill book. In spite of this heavy work done on the 31st March, the cash book was certified to have been closed on the 31st March 1916.
- (c) A subordinate recorded the measurements of 42 works, covering 58 pages of two measurement books on the 31st March 1916. All these entries were further checked in the sub-divisional office and passed and paid by the Sub-Divisional Officer on the same day, along with some others recorded by other subordinates, the total amount paid on that date being more than the works payments of the previous 30 days of the month. The situations of the several works shown as measured on the 31st March were such that the subordinate could not have visited all of them in one day; his travelling allowance journal showed that he had visited almost all the places that day, but the Executive Engineer and the Superintending Engineer were of opinion that this was not true.
- 103. In paragraph 94 of the last report, Sir Reginald Gamble alluded to the special procedure, introduced by the Government of India, providing for the regrant of the lapses of each year in the Budget Estimates of the following year. This was intended to do away automatically with any inducements

that spending officers may have for adopting irregular devices to avoid a lapse of grants. Probably all the provinces, except Madras, have by now taken steps to introduce this procedure. Bengal, Bombay and the United Provinces, were not in time to give effect to it in the Budget Estimates for 1917-18. In the Budget Estimates for 1917-18 of the Punjab, Burma, Bihar and Orissa, the Central Provinces (Buildings and Roads Branch), and Assam provision was made for regrants of 6,66, 5,00, 7,70, 3,20 and 89, respectively, out of lapses in the grants for 1916-17. This action resulted in Burma in an improvement in the expenditure-incurred in March 1917, as compared with that in the corresponding month of 1916. It is to be hoped that, as the procedure becomes more generally known to spending officers, there will be a similar improvement in other provinces.

Disciplinary Action.

104. In paragraph 98 of the last report, Sir Reginald Gamble referred to the necessity for disciplinary action, if the volume of financial irregularities was to be appreciably decreased. This view has been endorsed by the Secretary of State, who, in his despatch No. 63-Financial, dated the 30th November 1917, has expressed his regret at the recurrence of the same classes of irregularity year after year, in spite of repeated injunctions, and requested the Government of India to impress on the Local Governments the great importance of enforcing a higher standard of efficiency in the matter. The Government of India, in circulating this despatch with their Finance Department letter No. 67-A., dated the 12th February 1918, have associated themselves fully with the remarks made by the Secretary of State. This report indicates that Local Governments and other administrative authorities are becoming increasingly aware of the importance of this matter, and I believe that the orders recently issued will not fail to bear fruit in the near future.

It is disappointing, however, to note that on the whole there has been no appreciable decrease in the number of irregularities which have had to be brought to notice in the present report, although there has been a slight improvement in some provinces. These irregularities have already been brought to the notice of the Local Governments, or the superior administrative authorities concerned, by the respective audit officers. In most cases, the authorities concerned have merely expressed their disapproval of the methods or procedure adopted, or warned the officers responsible, or drawn their attention to the rules and orders on the subjects at issue. General orders have also been issued by them from time to time in regard to the more common types of irregularity. I doubt, however, whether much benefit can now be hoped for from the issue of further general orders, and am confident that more advantage will be derived from adequate action on individual cases. It is satisfactory to note, therefore, that in some cases sufficient disciplinary action has been taken (vide e.g., paragraph 12 (f), paragraph 37 (c), paragraph 45 (c) and paragraph 81 (c) above). In others, however, I have felt it desirable to ask that the adequacy of the disciplinary action taken should be reconsidered (vide e.g., paragraph 12 clauses (c), (e) and (g).

In some of the cases included in the last report stringent disciplinary action has been taken. In the Madras case of theft of R2,000 during transit, referred to in paragraph 13 (a), the Deputy Collector was censured for the neglect of duty and retired from the service, while the treasurer who had previously been granted an extension of service was ordered to retire immediately; and the two head constables and the five constables, who escorted the treasury remittance, were prosecuted and convicted. In the case of embezzlement of Rs. 1,736 referred to in paragraph 13 (f), the Government of the United Provinces ordered a Deputy Collector to pay Rs. 800 being half the net amount for which his carelessness had rendered him liable. In the Punjab case of loss of Rs. 2,506, referred to in paragraph 39(o), the Local Government stopped the promotion of the Sub-Divisional Officer for two years for his gross carelessness in paying for bricks, which he had never personally counted, and which were not properly classified and stacked, and in permitting bricks largely in excess of contract agreement to be burnt and paid for. In the Army Department case, referred to in paragraph 79(o), the person responsible was dismissed from the service.

# APPROPRIATION AUDIT.

105. The net grants, after taking into account all modifications sanctioned during the year, have been exceeded under several heads. The excesses are shown separately under Imperial and Provincial. The following table brings together the excesses under each head under Imperial and Special, which require the sanction of the Government of India:—

	India	Baluchistan.		N.W. F.	,			U. P. of	:	•	(miles)		TOTAL	ij

107. The excesses were due, for the most part, either to unexpected heavy Explanation expenditure in the closing months of the year, when it was too late to obtain for Excesses sanction for the required additional allotments, or to adjustments made in the accounts of March final, which were not foreseen. The more important excesses are explained below:—

In India Civil (excluding Baluchistan), the excess under 6—Stamps (61), was chiefly caused by smaller supplies of stamp paper to Provincial Governments. The excess under 13—Interest on Debt (42,61), was due to Interest on Railway Debt being less than the amount provided in the estimate. Under 26 A—Agriculture, the excess (12) was due to the fact that the savings anticipated in the Budget were not fully realised. Under 30—Stationery and Printing, the excess (1,54) was due to smaller indents by Provincial Governments for stationery from the Central Stores. Under 33—Famine Relief, the increase (91) was due to larger expenditure in connection with measures for the protection of cattle in Ajmer than was anticipated. Under 42—Irrigation—Major Works—Interest on Debt, the excess (1,05) was the result of a variation in the rate of interest adopted in the accounts from that adopted in the Budget.

In Baluchistan, the excess under 25—Political—Special (3,72) was due chiefly to charges in connection with the deputation of Major Keyes to the Mekran Border, the incidence of which was not settled during the year under review.

In Bombay, the excess under 1—Refunds and Drawbacks (1,92) was chiefly under customs and income tax refunds, which exceeded anticipations in the closing months of the year. The excess under 5—Salt (14) was due to the adjustment in March (Final) of the cost of stores, supplied by the Marine Department. The excess under 18—General Administration (10) was due to expenditure in connection with the loan work and to larger payments of allowances to Presidency Banks than anticipated. The excess under 47—Military Works (1,03) was due to outlay having been incurred without allotment on constructing an Acetone Factory, additions and alterations to a Police training school to make it suitable as a hospital, and conversion of the New Customs House at Karachi into a war hospital.

In Bengal, the excess under 2—Assignments and Compensations (16) was due to the payment of arrears of malikana in the closing months of the year. The excess under 42—Irrigation Major Works—Working Expenses—Public Works Department (7) occurred under the Madaripur Canals, establishment, and was caused by a smaller recovery on account of such charges than was anticipated.

In the United Provinces, the excess under 14—Interest on other Obligations—(50) resulted from the utilisation of anticipated savings under this head on account of the pensions of certain Wasikadars in meeting excesses under other heads. The anticipation of savings did not, however, prove to be correct. The excess under 42—Irrigation, Major Works—Working Expenses—Public Works Department (80) was mainly due to establishment charges having exceeded anticipations.

Under Railways, the excess under 14—Interest on other Obligations (1,50) was due chiefly to the interest on the unexpended balance with the Secretary of State of the capital raised by the Madras and Southern Mahratta Railway Company having been larger than was anticipated. Under 38—State Railways—Share of Surplus Profits, etc., the excess (1,58) occurred chiefly on the Mysore State Railway.

Under 46—Army, the excesses over the grants for the several minor heads amounted to 27,10. The excesses in connection with Administration (3,42), Military Accounts (21) under 'Contingencies' and 'Travelling,' Supply and Transport (including Farms,) (11,36) under Dairy Farms, Divisional Staff and Establishment, Peace Stores of Supply and Transport Corps, and Hired and Mechanical Transport, Medical Services (66) and Ecclesiastical (29) under Roman Catholic and Wesleyan Chaplains were due to unforeseen expenditure towards the aloss of the year. The excess under Remount Establishments (47), was due to an anticipated saving of 78, which was transferred to

meet in part the excess under Army Clothing Department, not being fully realised; and that under Indian Munitions Board (55), to the head being opened after the close of the year. The excess (1,76) under Conveyance by Road, River and Sea was mainly caused by an unexpected debit of over one lakh after the close of the year and to heavier sea transport charges. The excess (5,42) under Conveyance by Rail was due to larger movements of stores, etc., in connection with the war. The excess (1,45) under Cantonments was due to the funds, transferred from this head to meet in part the excess under Army Clothing Department, having been too high. The excess (1,09) under Pensions was mainly due to no additional grant having been sanctioned to meet charges for the enhanced rates of pensions for Indian combatants, which, it was anticipated, would be allotted from the reserve under Miscellaneous Services.

Of the total excess of 25,29 under 47—Military Works (India General), 25,21 relate to Ordinary Demands and the balance to Special Demands, the main cause for the excess under the former being the purchase of stores for Overseas Forces by the Engineer Stores Officer, Bombay.

### War Accounts.

108. The following remarks are not confined to the year under review but refer also to the year 1917-18.

109. The volume of work, which the war has thrown on the Military Accounts Department of the Government of India, has increased considerably in 1917-18 as compared with the preceding year. The expenditure in India on Military Services, chargeable to the revenues of India, which stood at £20.7 million in 1916-17, is expected to amount to £23.5 million in 1917-18. The net amount of expenditure, debited to His Majesty's Government in 1916-17 in the war accounts of the Central War Controller, was £86.2 million, after allowing for a credit of £6.3 million on account of India's contribution in respect of the 'normal cost' of the Indian Expeditionary Forces. The corresponding figures in 1917-18 are estimated at £69.7 million and £6.8 million respectively. Apart from the charges recorded in these war accounts, there are certain other items, which are to be recovered from the Admiralty and the Ministry of Munitions, of expenditure connected with the war (e.g., on account of transports chartered in England and rails supplied to the Ministry of Munitions), which are adjusted with His Majesty's Government, outside the war accounts of the Central War The amount of such expenditure in 1917-18 will be about £2 million. There is also a large volume of expenditure on the purchase of reserves of stores of various classes to meet future demands from the various theatres of war and probable requirements in connection with measures for the defence of India's frontiers. This expenditure is charged to a 'War Stores Suspense Account', until it can definitely be allocated as chargeable either to His Majesty's Government or to Indian revenues. The outstanding balance under the 'Suspense' head at the end of 1916-17 stood at £7 million.

To deal with this heavy increase in work, further additions have been made during 1917-18, both to the superior staff and subordinate establishments.

110. The Indian Munitions Board was formed towards the end of 1916-17. The Financial Adviser, Military Finance, was appointed to be the financial member of the Board, and all financial and accounts work, connected with the Board, was entrusted to the Central War Controller. One of the latter's deputies works as the financial officer of the Board; and, generally speaking, all proposals involving expenditure are scrutinised by him, and all important measures, as well as all questions of increase in establishments or addition to pay and allowances, are reviewed by the Financial Adviser, Military Finance, personally. To secure effective control, all important payments are made from head-quarters, after audit by officers working under the Central War Controller. With the transfer of the administrative control of the Army Clothing and Ordnance Factories to the Indian Munitions Board, the payment, audit, and accounting of the expenditure connected with these factories, has been transferred to the Central War Controller.

eral.

- 111. The Government of India have recently had under their consideration a scheme of enhancing the financial powers of Divisional and Independent Brigade Commanders. The primary object of the scheme is to ensure that, within specified limits, questions of Military expenditure shall be decided expeditiously on the spot by the local Military anthorities to avoid delays and unnecessary multiplication of work, which particularly in time of war are seriously prejudicial to the public interests. They have also examined the question of new financial powers which may suitably be conferred on the Army Commanders. They have now sanctioned as a temporary measure, and for the period of the war only, the introduction of an amended system of financial delegation. The main features of these changes are:—
- (i) The Army Commanders, Northern and Southern Commands, have been given financial powers and assigned their appropriate place between Divisional Commanders and the Army Department of the Government of India as the 'next higher competent financial authority' to Divisional Commanders. They are now authorised to sanction expenditure up to a limit of Rs. 15,000 in respect of each sanction, and to reappropriate savings from the Budget grant of any one Division or Independent Brigade to meet expenditure in any other. They now possess special powers in respect of Military Works expenditure and power of remitting disallowances by audit officers and of writing off losses. Besides these, certain other powers, e.g., in connection with pensions, claims to compensation for losses, have also been delegated to them temporarily.
- (ii) The Financial powers of Divisional and Independent Brigade Commanders and other authorities have been enlarged. This has been effected mainly (i) by the removal of certain formal restrictions of procedure, and (ii) by recasting rules, the terms of which required a restricted interpretation. Certain new powers, e.g., of sanctioning Military Works expenditure, and of increased powers of reappropriating savings have been conferred on Divisional and Independent Brigade Commanders.

In order that the exercise of financial powers by Army Commanders and Divisional and Independent Brigade Commanders may not be unduly hampered by lack of funds, these officials have, in addition to extended powers of reappropriation, been assigned annual grants for unforeseen expenditure, as follows:—

								Rs.
Army Commander .	•	•	•	•	•	•	•	50,000
Divisional Commander	•	•	•		•	•	•	15,000
Independent Brigade Con	mman	der	•	•	•			7,500

112. Owing to a large increase in the strength of the non-military personnel employed with the Indian Expeditionary Forces, a separate office of Chief Auditor, Non-Military Pay and Pension Accounts, was formed at Bombay to deal with their accounts. The duties entrusted to this officer consist chiefly of the payment of family allotments arranged for by men on field service; the preparation of the personal accounts of the men, excepting those serving with Directorates in Mesopotamia, whose personal accounts are prepared by the accounts officers attached to these Directorates; the audit of these accounts and the examination of all pension claims in respect of these men.

This officer also audits and brings to account the charges incurred in recruiting non-military personnel through the agency of railways. The charges connected with the recruitment in the Straits Settlements of non-military personnel for the Indian Expeditionary Forces are audited by officers of the Colonial Government, under arrangements made with them, and are then adjusted with the Central War Controller.

- 118. A temporary office of Field Controller, Waziristan Force, was opened at Rawalpindi to audit the store accounts connected with supplies to the Supply and Transport services of the force. The office of Indian Field Controller of Military Accounts in Egypt has recently been revived in consequence of an increase in the expenditure of the Indian Expeditionary Force in Egypt.
- 114. The system of preparing the accounts of Indian troops by the divisional Andre and field dispursing officers on a nominal basis, and the reduction in the review

of the audit of these accounts to one-sixth of the bills, have worked satisfactorily. The increase in the numbers of the disbursing officers has enabled them to prepare these accounts more accurately and promptly. The delay in payments consequent on a delay in the preparation of these accounts has now been reduced to a minimum; while there has been no weakening in the audit of the accounts. It has accordingly been decided to reduce the complete audit of pay and personal claims by the divisional and field controllers offices to one month's accounts in every eight months. Steps have, however, been taken to secure a general scrutiny in rotation of the different classes of charges included in the accounts, so that each class may come under proper review during the year.

It has also been decided to extend the nominal system of preparation of accounts, with a reduction in the review of audit to one-sixth of the bills to all staff, departmental, clerical and other establishments whose pay accounts have hitherto been prepared under the 'normal cost' system.

- 115. The accounts of prize vessels employed on commercial duty under the control of the Director, Royal Indian Marine, have now been practically settled, and the balances of the accounts have been transferred to the India Office. There are now only a few prize vessels under the control of the Director, which are employed on military transport duty. Their transactions are audited by the Marine Controller and are adjusted through the war accounts.
- 116. Some difficulty has been experienced in getting into order the accounts of certain local authorities subordinate to the Indian Munitions Board owing to want of completeness and other defects in the accounts maintained by the organisations which were brought under the Board. Instructions for the maintenance of proper accounts at the various factories, workshops and depôts under the control of the Indian Munitions Board have been issued by the Central War Controller from time to time. The administrative authorities in several cases have not, however, yet found it possible to observe these instructions in full; and the Central War Controller and his staff have visited the principal organisations at Bombay, Calcutta and Karachi and explained to the authorities the arrangements to be followed in respect of their accounts. Proper accounts are now maintained at most of the factories, workshops and depôts. But in the depôts of timber and general stores at Bombay there is, as mentioned in paragraph 95 above, still a certain amount of confusion owing to disputes about the value of stocks taken over by the officers of the Indian Munitions Board from the organisations replaced by them.
- \*117. Broadly speaking, the accounts procedure introduced by the Central War Controller with the approval of the Munitions Board is as follows:—
- (i) All charges of fixed establishments, and all contractors' bills for large sums, are paid, after pre-audit, by an audit officer at the headquarters of the Board.
- (ii) All labour charges, petty contractors' bills and contingent expenses are paid out of imprests issued by the audit officer and cash accounts supported by proper vouchers are rendered to him monthly or at other stated intervals.
- (iii) Store ledgers in appropriate forms are maintained at all factories, tanneries, workshops and depots. The audit of the ledgers is conducted locally by peripatetic auditors on the staff of the Central War Controller.
- (iv) At all factories and workshops cost accounts or cost sheets of work are maintained, and at the tanneries the cash and store accounts are maintained in such a form that the cost of tannage can be ascertained readily at the end of each month.
- 118. No important change has been made in the system of accounts of the Army Clothing Factories on their transfer to the Indian Munitions Board, except that the more important payments have been centralised and the audit of store ledgers is conducted locally. In the case of the Ordnance Factory accounts, similar changes have been introduced and it has also been decided, with the approval of the Secretary of State, to decentralise as far as possible the

cost accounts, the entire work connected with which has hitherto been concentrated in the office of the Director of Ordnance Factories at Calcutta.

119. The cost of the headquarters and provincial organisations of the Indian incidence of Munitions Board (with the exception of those provincial organisations dealing the charges—with the purchase and supply of raw and tanned hides which, under standing tions Board. arrangements, are debited direct to His Majesty's Government) are compiled, in the first instance to a new service grant—Grant 14-A.—Indian Munitions Board opened under the head 46 Army of the Indian Budget. The cost of the headquarters organisation is shared between Imperial and Indian revenues in the proportion of 8 to 2, the adjustment being made once a quarter. The charges, on account of the provincial organisations are allocated in the form of a percentage charge on the value of the stores handled and their incidence is, therefore, the same as that of the stores supplied by these organisations. A separate 'Munitions Suspense Account' has been opened to receive the debits on account of the purchases made by the Board and per contracredits for the value of actual supplies made to the Indian Expeditionary Forces or to various departments in India. The receipts and expenditure in connection with factories (other than Army Clothing factories) tanneries, etc., controlled by the Board are compiled to suitable sub-grants under the new heads XIV-A and 14-A in the Indian Budget. Sub-grants have thus been opened on account of the following:-

The Government Acetone Factory,

The Government Tannery, Allahabad,

The Government Tannery, No. 1, Bombay,

The Government Tannin Research Factory, Maihar, and

The Kutra Iron Works, Kidderpore.

The accounts of these concerns are maintained on commercial lines and the only debits on their account to the Imperial Government are those in respect of the properly computed price of the stores supplied, which would be such as to cover all recurring expenses including depreciation and interest on capital outlay. The question of the incidence of any very large capital outlay on schemes falling under this class would be considered separately. As regards the Rivercraft Board and Committees, the whole of the expenditure incurred by them is debited to His Majesty's Government.

- 120. In connection with the Waziristan operations the ordinary system of audit and accounting for Supply and Transport stores had to be modified as transhipment at the Indus was found to upset the direct connection between consigners and consignees through the usual receipt and delivery vouchers. It was accordingly decided to adopt the following arrangements:-
- (i) The strike off of stores despatched from stations in India to the Waziristan Field Force should be supported by a simple delivery voucher which should be accepted for purposes of audit in lieu of the consignees' receipt ordinarily required.
- (ii) The officer despatching the stores should send to the Field Controller, Waziristan Field Force, a statement shewing in detail the stores despatched on each occasion to the field.
- (iii) The Field Controller should check the total of each description of stores despatched from all parts of India with the corresponding total accounted for by the Supply and Transport officers in the field.

The Field Controller has now completed his check and the result is a net

loss to the State of only about Rs. 37,000.

121. The Field Controller of Military Accounts, Poons, recently brought to notice the great delay in the receipt of cash accounts and acquittance rolls from officers drawing imprests in Mesopotamia. At the beginning of January 1918 cash accounts and acquittance rolls had not been received for some Rs. 22 lakks drawn in September and October 1917 and a large number of advances for previous months dating back to 1916 were also outstanding for want of accounts. The Government of India are taking steps to reduce the number of the implicit-holders in the field as far as possible, and to secure the prompt submission of accounts and acquittance rolls by them.

122. The Financial Adviser, Mesopotamia Expeditionary Force, recently reported that store accounting in Mesopotamia cannot yet be said to be entirely satisfactory though considerable improvement has been effected during the last year. Owing partly to defective arrangements in the field, considerable difficulty is still being experienced by supplying officers in India in getting proper consignees' receipts for stores despatched to the Indian Expeditionary Forces, and the question of improving the present arrangements is now under the consideration of the Government of India.

counts.

123. No change was made during the year under review in the system of sompiling war accounts which was described in paragraph 110 of last year's

venue and penditure of coupled ritory in

124. The accounts of revenue and expenditure of the occupied territory in .Mesopotamia have been prepared to the end of 1915-16. Generally speaking, no serious irregularities were discovered in adjusting the transactions. It has not been possible to obtain proper vouchers in all cases, particularly in the earlier stages of occupation of a tract, though in most of the cases there was sufficient indirect evidence to show that the charges had actually been incurred. In a number of cases the local authorities had exceeded the financial powers which were formally conferred on them in 1916; and these have been reported to the Government of India so that steps may be taken to regularise the expenditure by obtaining the sanction of competent financial authority. A few cases also came to notice in which the action of the local authorities was not in accordance with accepted financial rules. These irregularities were mostly due to the absence of any organised financial control in the earlier stages of the occupation.

The accounts for 1916-17 have also been practically completed, but certain matters are still under reference to the local authorities.

ounts of th Persia

125. In July 1917 it was decided, in view of the large growth in the expenditure of the South Persia Rifles and the confusion into which the accounts of the force were falling, to appoint a Financial Adviser to the General Officer Commanding the Rifles and to define the financial powers of the latter. It was also decided that the expenditure should be audited locally and two audit officers have recently been appointed for the purpose. The accounts will be prepared more or less in the same form as is used by Field Controllers with the Indian Expeditionary Forces, and will be submitted to the Central War Controller, who will incorporate them in his accounts. The Central War Controller has up to now received no accounts for the force, and the matter is under investigation.

### General Remarks.

126. The following remarks are not confined to the year under review, but refer also to the year 1917-18.

- 127. Several changes of classification were introduced during the year incition. under review. The important changes are mentioned below.
  - (a) The major heads of revenue and expenditure 'XX and 24—Medical' were sub-divided into two, vis.,—'XX-A and 24-A Medical,' and 'XX-B. and 24-B.—Sanitation 'respectively.
  - (b) A new Imperial minor head 'Super tax' waso pened under 'VIII and 10-Income Tax' on both sides of the accounts.
  - (c) A new minor head 'Sumptuary allowances of the Governor-General, Governors, Lieutenant-Governors and Chief Commissioners' was opened under the major head '18—General Administration' in most of the provinces.
  - (d) A new minor head 'Fisheries' was opened under 'XXI-B. and 26-B.—Scientific, etc.'
  - (e) A new Imperial minor head 'Freight Tax' was opened under 'XXV-Miscellaneous ' for crediting the receipts from the surcharge on goods traffic, imposed under the Freight Tax Act (No. XIII) of 1917.
  - (f) Expenditure on account of the Exchange Treasury at Allahabad, hitherto shown under '18—General Administration—Civil Offices of Account and Audit,' was transferred to the minor head 'Ourrency Department.'

(g) The establishments of District Officers in the United Provinces were formerly separated into these debitable to '3—Land Revenue' and those debitable to '19-A.—Law and Justice,' but under the Pike scheme of revision of these establishments, they are now divided into purely revenue establishments (debited in full to '3—Land Revenue') and other establishments (debited in the first instance to '3—Land Revenue', but subsequently distributed in the proportion of 3 to 1, between this head and '19-A.—Law and Justice').

### Inspections and Test-audits.

128. In the year 1917-18, Sir Reginald Gamble or myself visited the Tours by the following offices, some of which came under inspection more than once.

Auditor General.

### CIVIL ACCOUNT OFFICES.

(1)	Office	of	the	Accountant	General,	Bengal.
-----	--------	----	-----	------------	----------	---------

(2)	Do.	do.		Bihar and Orissa.
(8)	Do.	do.	•	United Provinces.

- (3) Do. do. United P (4) Do. do. Madras.
- (5) Do. do. Bombay.
- (6) Do. Comptroller, India Treasuries.
- (7) Do. do. Central Provinces.
- (8) Do. do. Assam.

### RAILWAY ACCOUNT OFFICES.

(9) Office of the Chief Examiner, Eastern Bengal Railway.

POSTS AND TELEGRAPHS ACCOUNT OFFICES.

(10) Office of the Accountant General, Posts and Telegraphs.

### MILITARY AND MILITARY WORKS ACCOUNT OFFICES.

- (11) Office of the Examiner of Accounts, Military Works.
- (12) Do. Controller of Military Supply Accounts.
- (13) Do. Central War Controller.

129. The work of inspection and test audit by Civil Deputy Auditors inspections General had to be suspended from about the middle of May to the end of Deputy December 1917, owing to the shortage of officers in the Department, and is not General. accordingly up to date. The following six offices have been inspected during 1917-18, and the inspection of eleven more account offices has become overdue.

(1) Office of the Comptroller, India Treasuries.

- (2) Currency Office, Bombay.
- (3) Do. Karachi.
- (4) Do. Cawnpore.
- (5) Do. Madras.(6) Do. Calcutta.

Generally speaking, the first five offices were found to be in an efficient state. The report on the remaining office has not yet been received. The reports on the offices of the Deputy Accountant General, Telegraphs, and the Telegraph Check Office which were inspected tewards the close of -1916-17, did not bring to light any serious defects or irregularities, but showed that there was room for improvement in certain directions. The necessary orders have been issued.

The inspection of the North-Western Railway audit office was begun some time towards the close of 1916-17, and was finished by the end of May 1917. Its general condition was found to be satisfactory. Further inspection work on the Railway side during 1917-18 was temporarily suspended, dwing to a shortage of officers.

On the Military side, the ordinary inspection work of the Military Deputy Auditors General remained suspended throughout the year 1917-18. In view of the frequent compaints received from the India Office regarding the delays in the receipt of last pay certificates and non-effective accounts of men who were transferred to the Home Establishment, or who were dead, and also in the receipt of family allotment rolls, the Military Deputy Auditor General, Southern Army, was placed on special duty from May 1917, for inspecting each account centre in India. It is satisfactory to note that the outstanding cases have now been considerably reduced as the result of these inspections. The Military Deputy Auditor General, Northern Army, was employed in inspecting the accounts of the various depôts of Indian units in the Northern and Southern Army up to August 1917, when he was appointed as Field Controller of the Waziristan Force. The inspection of the depôt accounts was, however, continued during the rest of the year with the assistance of his staff.

130. Eighteen Government Presses were inspected by the Examiner of Press Accounts and his staff during 1917-18, and their accounts were found to be generally in a satisfactory state.

House

131. The Auditor of Custom House Accounts in India was engaged, during 1917-18, in carrying out a test-audit of the accounts of the Chittagong, Calcutta, Rangoon, and Bombay Custom Houses. The test-audit did not, generally speaking, reveal any serious irregularities.

ions of ries blic Divi132. The inspections of treasuries and Public Works divisions, conducted by account officers during the year, brought to light several irregularities and defects of procedure. In addition to the educative value of these inspections, referred to in paragraph 119 of the last report, I may mention that they sometimes result in a direct benefit to Government, by leading to the discovery of excess or erroneous payments or an omission to credit Government dues. As examples, I may cite the cases, described in paragraphs 43(c) and 48(b) of this report.

In addition to the inspections of Public Works divisions and treasuries, the accounts of many other Government Institutions (e.g., those of Police Offices, Divisional Forest Offices, Jails and Jail Manufactories, Hospitals, Administrators General, Official Assignees, Official Trustees, Stationery Offices, etc.), and of quasi-public bodies (e.g., Universities) were locally inspected by the Civil Audit Department in the different Provinces. Generally speaking, the broad results secured by these inspections were satisfactory, as the system of keeping accounts shewed a tendency towards gradual improvement, and very few instances of financial irregularity came to notice.

### Changes of Rules and Procedure.

for oveaudit, 133. The following are 'some of the directions in which an improvement was effected in audit procedure and control:—

- (a) General orders were issued in consultation with the Accountants General and Comptrollers for the efficient review of the audit of works expenditure by Gazetted Officers of the works audit branches of the account offices. The orders on the subject, contained in paragraph 1397, Public Works Department Code, being very general, considerable divergence had arisen in the procedure followed in the different account offices.
- (b) It came to notice that in the majority of the provinces no audit check was applied with regard to the recovery of rents in the case of public buildings constructed and maintained as residences by departments other than the Public Works Department, and it has been laid down, with the concurrence of the Government of India, that the check through Public Works Department Form 32Y should be applied (as laid down in clause (s), Appendix BBBB, Civil Account Code, Volume I) in the case of such buildings, except, where other standing arrangements exist for watching the recovery of rents, e.g., in the Police department in some provinces.
- 134 No definite orders exist as to whether it is the duty of an audit officer to call for the sanction of the Government of India or the Secretary of State, as the case may be, to appointments of individual officers to duly sasctloned.

posts, when such appointments are not in accordance with the recruitment rules, approved by the Government of India or the Secretary of State, for the service to which they are appointed, and the practice obtaining in the different account offices has been found to vary. The question was carefully considered by Sir Reginald Gamble and his proposals on the subject are under the consideration of the Government of India.

185. With the concurrence of the Secretary of State, the Government of Audit Rest India have laid down the fundamental rules defining the financial powers Book of of the Provincial Governments, the Departments of the Government of powers. India, and the minor Local Governments, and the maximum powers that may be delegated to the authorities subordinate to them, including separate rules for the Surveyor General and the Director General of Posts and Telegraphs. For facility of reference a book of powers embodying these rules is under compilation in the Finance Department of the Government of India.

136. The scheme of Public Works accounts to be finally adopted as a result Public Works of the amalgamation of the Civil and Public Works accounts departments, accounts referred to in paragraph 124 of the last report, is under the consideration of the Government of India, and orders on the subject are expected shortly.

137. It has been recognised for some years that the Public Works Department Revision of Code stands urgently in need of revision. A draft code embodying the rules Public Work ordinarily required for reference by executive officers has already been prepared in the Public Works Department of the Government of India. A rough draft of a Public Works Account Code has also been prepared by me. An officer will shortly be placed on special duty to check the drafts already prepared and bring out the codes at an early date.

138. It has been felt for some time past that the rules in chapter 6, Civil Civil Account Code, regarding contingent expenditure are out of date as they deal Code. mainly with contingencies passed on the countersignature of superior authorities, a system which has been considerably reduced of recent years. I have recently rewritten the rules in this chapter, using as the basis of revision a re-draft, prepared in 1910 by Mr. F. C. Harrison, late Officiating Comptroller

General. The revised chapter will be issued in due course.

139. The examination of the suggestions contained in Mr. Heseltine's simplificate report on the reduction of work in civil account offices, referred to in para-in Accounts graph 126 of the last report, has been practically completed and no ques-processes. tions of importance remain outstanding.

140. In paragraph 127 of the last report, Sir Reginald Gamble referred to the more important changes in rules and procedure, which had been introduced, or were then contemplated, including those suggested in Mr. Heseltine's report. The summary below shows the further steps which have been taken.

- (a) Several questions have been decided in regard to the reduction of detailed heads, of which the following are the more important:—
  - (i) Abolition of details of contract contingencies;
  - (ii) Simplification of detailed heads under establishment and allowances;
  - (iii) Reduction of details under Jail expenditure;
- (b) The question of apportionment of charges for establishments and tools and plant among the Public Works major heads has been finally settled. The main feature of the new procedure is the distribution of the joint expenditure on establishments and tools and plant in proportion to the works outlay under each head of account in each circle of superintendence. The new system, it is expected, will tend materially to reduce work, both in the administrative and account offices.
- (c) Until lately, it was the practice for Government officers using service postage stamps to obtain their supplies of such stamps by purchasing them from treasuries on payment of cash. After a successful experiment in the Punjab, the Government of India have recently approved the introduction of a new system, by which supplies of service stamps may be obtained by officers without any money having to pass in the course of the transaction. It is expected that the new procedure will not only enable a reduction to be made in the amounts of permanent advances but will also obviate the risk of frauds.

- (d) The procedure relating to pension payments and the verification of service for pension has been simplified. The rule in article 346 of the Civil Account Code, which imposed on a disbursing officer the duty of satisfying himself by enquiry at the time of making pension payments as to the non-employment of pensioners, has been abolished. The concession allowed by article 949 (a), Civil Service Regulations, to pensioners not resident in India to draw their pensions through duly authorised agents has been extended, subject to certain safeguards, to those resident in India. The procedure laid down in article 347-A., Civil Account Code, on the subject of the identification of pensioners by thumb impressions has been modified. In the case of inferior servants, it has been settled that service rolls should be maintained in place of service books and that the detailed verification of their pension applications in audit offices should be abolished.
- (e) In his report on the reduction of work in civil account offices, Mr. Heseltine drew attention to the fact that the rules and practice in regard to the payment of pensions at the Presidency Towns differed in the several account offices, and recommended that the Madras procedure of complete preaudit before payment should be introduced in all offices. The system with slight minor modifications has been introduced in Bombay and in Bengal and is about to be introduced in the Office of the Comptroller, India Treasuries.
- (f) With effect from the 1st April 1917, a stores ledger has been introduced as a permanent measure in the Military Works Services, in substitution of the annual returns of tools and plant and barrack and hospital furniture, subject to the conditions that the test audit of ledger entries to be made at the inspection by the Examiner of Accounts, Military Works, should extend over three months' transactions and that the annual count of the articles should be taken by an officer.
- (g) In September 1915, orders were issued for the discontinuance of the check exercised in the office of the Senior Controller of Military Supply Accounts over the authorised proportions in indents for stores, accounted for in equipment ledgers. The procedure was subsequently extended tentatively for one year to requisitions for Supply and Transport and Ordnance Stores, issued to units, and accounted for by them in returns rendered to the divisional audit offices, and having proved satisfactory, it was confirmed in March 1917.
- (h) In connection with the inquiries of the Public Works Reorganisation Committee, Sir Reginald Gamble considered how far, under the present system, expenditure on the Public Works Department is being unnecessarily kept 'under objection.' He came to the conclusion that there was room for simplification in regard to the present method of making budget allotments for individual works in the Buildings and Roads Branch, as it was sufficient for budget purposes if it was ensured that each spending officer was working within the grant allotted to him. Certain alternative proposals for a simplified system have been circulated to audit officers for opinion, and the matter is engaging my attention.

pts.

141. The simplification of the form of Provincial and Departmental Appropriation Reports was referred to in paragraph 128 of the last report. With a view to a further reduction of work in the account offices, it has been decided, with the concurrence of the Provincial Governments and Administrations and the Departmental authorities concerned, that the preliminary editions of these reports should be dispensed with, and that their final edition should be submitted to me by the 1st of January each year.

Ints.

142. The Examiner, Press Accounts, has been considering, in consultation with the Controller of Printing, the question of unifying the rates of depreciation allowed on articles of dead stock in the different presses. Before introducing this measure, it will be necessary to revalue the stock at the different presses, and this question is receiving the attention of both the Examiner and the Controller. Certain details have also been settled in regard to the method of calculating 'overhead charges.'

ice and nue unte. 143. The question of the revision of the Railway portion of the Finance and Revenue Accounts, referred to in paragraph .180 of the last report, is still under the consideration of the Government of India.

144 (a). Some important changes in the rules relating to the General General Provident Fund have been canotioned and others are under the consideration of the Government of India. It has been decided that a subscriber to the Fund, who also subscribes to the Indian War Loan, by deductions from pay, should be allowed to take advances from the fund, when he went on leave, in order to enable him to continue his Loan payments. A special concession has also been sanctioned, under which a subscriber is permitted to withdraw money out of his deposit to cover his own passage money or that of a member of his family for a voyage over the sea, even when the circumstances are not exceptional.

- (b) A case occurred in Bombay in which the whole amount at credit of a depositor was paid to him under the rules on his retirement, while under a decree of a court, half of it was payable to another person. The case brought to light a defect in the rules and a revision of them is now under the consideration of the Government of India.
- 145. Owing to the depreciation which took place in Provident Fund secur-Frontiers of Indian Railway Companies and to the fact that subscribers would have Indian had to bear the loss, the Secretary of State, on the representation of the Railway Companies. Companies, offered them the choice of two alternative schemes:

- A. The Government to take over securities at cost price (or, if preferred, the securities held on 81st March 1914 at value on that date and those since purchased at cost price); future subscriptions, bonuses and interest being deposited with Government, and bearing interest at 4 per cent. per annum.
- B. The undertakings to guarantee to make good, if and when the Provident Funds are wound up, any deficiency in the sale price of the securities held on 31st March 1914, as compared with the purchase price (or, if preferred, with the value at 31st March 1914), subject to the following conditions:-
  - (a) Half of any excess of future interest on securities over 4 per cent. to be paid to a Sinking Fund.
  - (b) The guarantee to hold good and the Sinking Fund payments to be made until the first half-year in which the value of securities held on 31st March 1914 plus the Sinking Fund equals or exceeds the cost price (or the value at 31st March 1914) of the securities held at that date.

The Sinking Funds to be part of the assets of the Provident Funds. Four Railways, namely, the Assam-Bengal, Bombay, Baroda and Central India, Great Indian Peninsula and Madras and Southern Mahratta Railways accepted the first alternative and the securities held by the Provident Funds of these Railways and their uninvested cash balances have accordingly been transferred to Government and adjusted to credit of a new deposit head 'Companies Railways' Provident Funds' to which all future subscriptions and bonuses will be credited.

146. The budget and other periodical estimates, submitted by railway Railway administrations, were defective principally because they were not accompanied Accounts: by proper explanatory notes, which were essential to enable the Accountant of railway Ceneral, Railways, and the Railway Board to deal with them satisfactorily. budget procedure. The Accountant General, Railways, accordingly put forward proposals for a general revision of the estimate forms and procedure with draft instructions to Railway Administrations specifying what figures should be explained by them and laying stress upon the necessity for full and clear explanations of their estimates of revenue and expenditure. Certain statements giving information and figures which were not wanted were eliminated and the forms were generally revised so as to accord with the new method of budgeting for railway working expenses under the three heads, ordinary expenses, fuel and programme revenue expenditure. The Six Months' Estimates and the Revised and Budget Estimates, which were required to be submitted by Railway Administrations at short intervals, were amalgamated into a combined revenue Six Months', Revised and Budget Estimates. The revised procedure and forms. have been introduced on railways, with effect from the current-year, and constitute a great improvement on the old system.

Schedule of the powers of the Government of India and the Railway Department n railway natters.

147. A schedule showing the financial and executive powers of the Government of India in railway matters and the extent to which these have been delegated to the Railway Department (Railway Board), which was prepared in the office of the Accountant General, Railways, under the orders of the Government of India, was submitted to the Secretary of State in May last for his approval. He was also requested to empower the Government of India to delegate in whole or in part to Agents, Engineers-in-Chief, and Boards of Directors of Companies' lines the powers entrusted to the Railway Department, subject to the condition that a statement of the cases in which this power is actually exercised will be forwarded to him from time to time. The Secretary of State in his despatch No. 37 Railway, dated the 5th October 1917, has approved of the schedule and also the proposals regarding delegation.

³osts and ?elegraphs \ccounts.

148. A 'Clearing House' has been started in Bombay for the settlement of claims of all the telegraph staff employed in the field and the preparation of accounts of the field offices opened in connection with the war.

imergency recedure in onnection yith the xecution ? urgent diltary yorks.

- 149. In the circumstances arising out of the war, under which much of the work to be undertaken by the Military Works Department is of an urgent nature, the Government of India have, in relaxation of the existing rules in the Public Works Code and the Army Regulations, sanctioned the following procedure, subject to the approval of the Secretary of State:—
- (i) The preparation of detailed measurements and abstracts of cost required for detailed estimates may, under certain safeguards, be dispensed with during the remaining period of the war in the case of urgent works the commencement of which in anticipation of sanction to estimates is authorised by competent authority.
- (ii) For work carried out on lump sum contracts or on contracts based on plinth area rates, it is unnecessary to make and record in Measurement Books the detailed measurements of the work done, it being sufficient to enter in these books the number of buildings constructed or in the case of plinth area contracts, the measurements of the plinth area, together with a certificate signed by a Garrison Engineer that the work has been completed in accordance with the detailed drawings and specifications, or up to the standard of the sample building.
- (iii) In the case of all temporary buildings and works constructed in connection with the war, the rule in Army Regulations, India, Volume III, paragraph 388, requiring accounts to be kept by sub-heads, if the estimate is Rs. 5,000 or over, may be suspended.
- (iv) Tenders need not be called for if the local officers consider that the interests of Government are better served by making an arrangement with a single contractor or a few selected contractors.

- 150. Final orders have been issued by the Government of India on the proposals for the amalgamation of the Civil and Public Works Accounts Establishments in accounts offices, referred to in paragraph 136 of the Lat report.
- loan, the Government of India sanctioned a scheme for allowing them to deduct subscriptions from their salaries in ten monthly instalments. To meet the convenience of officers who desired to spread the deductions over a longer period, an arrangement was entered into with the Presidency Banks, by which scrip was purchased for them in advance by the Banks, the monthly deductions being paid to the Banks, which should deliver the scrip to the officers after 24 instalments had been completely paid in and after making necessary adjustments on account of interest. The case of small investors was also provided for by allowing heads of officers to make deductions before disbursing salaries and invest them through the post office. The account procedure to be adopted in each of these cases was prescribed in detail and has been found to gwork well in practice.

152. A definite procedure has been laid down to be followed in treasuries Deposit of when cash cartificates and Government Promissory notes are received by them cases and for safe custody, in accordance with the orders of the Government of India Government Promissory permitting such deposits. In the case of the Government Promissory notes, notes in it has been decided that the transactions should be audited locally by the treasuries. treasury inspecting staff of the accounts department, and that a personal ledger account should be opened in the treasury in respect of the interest realised on them, and the payment of the same to the parties concerned.

153. Under the orders conveyed in the Secretary of State's despatch Discretionary No. 82-Financial, dated the 31st July 1914, the Auditor General is vested with Auditor discretionary powers to raise questions conducive to economy. Sir Reginald General. Gamble took action on one occasion under these powers. The case related to the Boiler Inspection Department of one province in which the annual expenditure exceeded the receipts from fees by Rs. 28,000, while in certain other provinces the receipts on this account more than covered the expenditure; and the Government of India were asked to consider whether the extra expenditure could not be avoided by increasing the fees or otherwise. The Government of India consulted the Local Government, but were unable for the time being to effect any reduction in the extra expenditure. The matter has accordingly been dropped; but I have expressed the hope that the question will be borne in mind, when a vacancy occurs in the existing staff of Inspectors or if an opportunity arises for an increase of the fees.

154. The war has thrown considerable extra work on civil account offices, War-work in which have moreover had to work with depleted staffs, as a number of ex-offices other perienced officers and clerks have had to be deputed for duty in the Military than Military. Accounts Department, while several officers have also joined the Indian Army Reserve of Officers or are at home doing war work of various kinds. The following items of increased work may be specially mentioned:

- (a) Recruiting charges, accounts connected with the liquidation of hostile firms and the custody of enemy property, internment of hostile aliens, exports of mica from Bihar and Orissa, the Wolfram industry in Burma, timber supplies to Basra, purchases of Tibetan wool, and applications for subscription to the Indian War Loan.
- (b) In the office of the Comptroller, India Treasuries, the accounts of special commissions or committees, e.g., the Wheat Commission, the Hide Scheme, Jute Commission, Coal Committee, etc., and transactions in connection with Munitions work in the Mint and the repatriation of hostile aliens.
- (c) In the Posts and Telegraphs, the accounts of field post offices, telegraph offices and construction of telegraph lines in Mesopotamia, adjustment of telegraph message-revenue against the War Accounts, family allotments of officers and men on field service, and pension claims in respect of casualties in
- (d) The opening of a new sub-treasury under the Aden treasury necessitated by the assumption by the British Government of the administration of the island of Kamaran. The expenditure incurred is audited by the Accountant-General, Bombay, and passed on to the Central War Controller for adjustment.
- (e) The maintenance of a complete account of the contributions made by India in various ways towards the prosecution of the war. Instructions have been issued to Accountants General to afford any assistance or advice that may be asked for by the Local Governments in this matter.
- 155. The accounts of the Wheat Scheme were described in paragraph 137 of the last report. In the wheat season of 1916-17 direct purchases by the Government of India were discontinued and the transactions in that year were therefore only the closing transactions of the 1915-16 season.

The special arrangements for Munitions expenditure were referred to in paragraph 189 of the last report. The manufacture of shells was discontinued from about August 1916 and only certain closing adjustments have since appeared in the accounts.

ction taken previous eports. 156. All items brought to notice in the Appropriation Report for the year 1914-15, with the exception of the case mentioned in paragraph 45 (c), of that report, have been settled. Further information is awaited from the Bombay Government regarding this case. As regards the Report for 1915-16, some items have been settled and the others are either under correspondence or await the report of the Local Government or Administration, as to the action taken by them.

M. F. GAUNTLETT,
Offg. Comptroller and Auditor General.

The 9th April 1918.

### Appendix.

Details of further cases referred to in paragraphs 11, 13, 36, 37, 40, 44 and 46 of the report.

### CIVIL DEPARTMENT.

1. (a) An officer of the Fishery Department drew from the treasury on the 31st March Drawal or 1917 Rs. 2,309-13-3, being the value of cocoanut oil required for soap-making experiments, advance of but the amount was not actually disbursed till the 14th May 1917. The delay in the disrequirements, bursement was reported to be due to the supply of the oil not having been completed till May with a view to avoiding largest of

- (b) A Collector drew on the 8th March 1917, Rs. 2,000 for payment to a Government Budget grants. Pleader on account of law charges. Of this amount Rs. 1,856 were spent by the latter Madras. between July and November 1917, and the balance of Rs. 144 was refunded into the treasury in two instalments in September and November 1917, respectively. It was stated that the money could not be spent earlier, as the Court was closed for the summer recess from the 20th April to the 25th June 1917.
- (c) Rupees 200 were drawn by the Headmaster of a school in March 1917, and paid in Assam. advance to a firm in Calcutta for purchasing instruments, etc., in order, on his own admission, to avoid the lapse of the Budget grant. The goods were not supplied until May and July 1917.
- 2. (a) In a certain treasury, payment of interest for the same period amounting to Double claims. Rs. 10-8-0 on two Government Promissory notes was made once in July 1915 and again in preferred and September 1916.

(b) A pension of Rs. 3-8-0 for June 1916 was paid twice from a treasury, once in July 1916, and again in October 1916, owing to a wrong entry in the pension payment order.

(e) A despande allowance of Rs. 8 due for 1915-16 was paid twice to an individual from a treasury, once in May 1916, and again in November 1916.

- (d) A desmukk allowance of Rs. 92 due for 1914-15, was paid to an individual once in July 1915 from a sub-treasury, and again in November 1916 from another sub-treasury under the same treasury.
- (e) A pension of Rs. 8-9-2 for a month was paid at a treasury on the 4th January 1916, Bikar and Orises and again on the 3rd April 1916.
- (f) A pension of Rs. 3-1-1 for a month was paid at a treasury on the 6th March 1916, and again on the 7th June 1916.

### PUBLIC WORKS DEPARTMENT.

3. (a) An allotment of funds was sanctioned for the purchase of certain articles on the Irregular 30th March 1916; and, in order to avoid its lapse, a payment of Rs. 910-3-0 was made before action the close of the year and prior to the actual receipt of the articles, which took place in April with a view 1916. The payment was, moreover, based on a fictitious entry in the measurement book.

- (b) On the 31st March 1916, a payment of Rs. 799-3-0 was made to a Calcutta firm of Budget for goods received on the 7th April 1916, and Government was put to unnecessary expense grants. by having the goods sent up by passenger train, instead of by goods train, apparently with a view to enable payment to be made before the close of the year.
- (c) Bricks, valued at Rs. 1,080, were purchased on the 31st March 1916, but were not utilised even in December 1916, and were borne on the site account at the time. The work, for which the purchase was made, had not been started at that time, nor had an estimate for it been sanctioned. The matter was subsequently regularised by the sanction of an estimate for collection of materials.
- (d) A sum of Rs. 3,596, being the amount of the bills of an English firm for the Punjab. supply of stores, the receipt whereof could not be verified, was placed in deposit by debit in the accounts for March 1916, with a view to utilize the grant.
- (e) On the 31st March 1916, an Executive Eugineer drew a cheque for Rs. 6,337 Burms. in favour of a firm for rolled steel beams, which were not despatched from Rangoon until the let April 1916.
- (f) On the 31st March 1916, an Executive Engineer drew a cheque for Rs. 180, in favour of a Rangoon firm for supply of 6 wheel-barrows, which were not received till April, being shown as receipts in the tools and plant return for May 1916.
- (g) Two bills for Rs. 159 and Rs. 275 for the supply of latrines were paid by a Sub-Contra ! Province. Divisional Officer on the 28th and 30th March 1917, respectively, whereas the articles were actually received on the 6th April and 5th May 1917. The Local Administration removed the officer at fault from the sub-divisional charge.
- officer at fault from the sub-divisional energe.

  4. (a) Rupees 278 charged in the accounts for January 1916 to an estimate for an Irregular electric installation at a certain station, were written back in February 1916 against a similar action with a estimate at another station. The expenditure to end of February 1916 on the former work view evadamounted to Rs. 3,637-12-0 against an estimate for Rs. 3,500 and the write-back was apparently rules or audit chiestions.

- (b) In the same division, the expenditure to the end of January 1916, on annual repairs to a work amounted to Rs. 960-7-3, against an estimate for Rs. 781. In order to reduce the expenditure, a sum of Rs. 358-12-3 was written back in February 1916 and March 1916 (Final), to three other works.
- (c) The expenditure on annual repairs to a metalled road at the end of January 1916 amounted to Rs. 954-1-7 against an estimate for Rs. 875, and in order to reduce the expenditure, a sum of Rs. 65-10-0 (labour charges paid in October 1915) was written back in Februar 1916, to another road.
- (d) In the same division, the expenditure on repairs to a road at the end of March 1916, amounted to Rs. 298-3-4 against an estimate for Rs. 262, and in order to reduce the expenditure, a sum of Rs. 25-7-9 (labour charges paid in March 1916) was written back in March 1916 (Final), to repairs to another road. The officer responsible admitted that the writes-back in both the cases were made to avoid excesses over estimates.

d Provinces.

- (e) Two cases were noticed in a division of the charge to annual repairs of expenditure relating to original works. In one of the cases, Rs. 148-7-0, the aggregate of seven items of works were involved, this amount exactly coinciding with the excess over the original work estimate that would have resulted if the original allocation had not been altered.
- (f) In a canal division, there were no less than 16 writes-back from one work to another on account of erroneous accounting in the first instance, or to debits having been placed temporarily under some sanctioned estimate, and transferred lates to the proper estimates, on receipt of sanction to the latter. The amounts involved in two cases specifically brought to notice were Rs. 481 and Rs. 511-8-0, respectively. The subordinate responsible for the irregularity has been censured by the Local Government.
- (g) Materials worth Rs. 498, were actually carted to the site of a work before the end of the year 1915-16, but their issue was not accounted for in the stock returns until November 1916, apparently for want of funds in the preceding financial year under the work.
- (A) An expenditure of Rs. 762, incurred in July 1916, was first charged to the maintenance estimate of a road, but written back in September 1916 to its special repair estimate, which was sanctioned in that month.
- (i) In June 19!6, Rs. 304 was written back in the same division from the maintenance estimate for a road to its special repair estimate, the funds for which were allotted in that

and Orissa.

- (i) A Sub-Divisional Officer, who was authorized to pay bills below Rs. 200 only, split up three bills for Rs. 761-3-9, Rs. 337-12-6 and Rs. 359-15-6 into four bills in the first case, and two each in the last two cases. This was evidently done to avoid the submission of the bills to the Divisional Officer for payment. The Superintending Engineer severely consured the Sub-Divisional Officer, stating that the excuse that the contractor pressed for payment was futile.
- (k) A sum of Re 184-5-3, paid on a voucher, dated the 27th March 1916, for the annual repairs to a road, was written back in the accounts of March 1916 (supplementary) of a sub-division to the debit of annual repairs to another road, which was at a great distance from the site of the former work (estimate, Rs. 2,499 and expenditure up to March 1916, excluding the write-back, Rs. 2,753).

cient ion to ancial sts of nment. Provinces.

5. (a) A muster-roll of labour paid on the 31st March 1916, showed that the carnings amounted to Rs. 24-14-0 only, whereas the payment made was Rs. 126-8-0, the overpayment thus amounting to Rs. 101-10-0. The amount was recovered from the contractor, but the Superintending Engineer remarked that the case indicated great carelessness on the part of the sub-overseer responsible in not checking the muster-roll, and a note to this effect was made in his personal register.

ad Orissa.

(b) A contractor was paid Rs. 253-5-0 on the 15th August 1916, on account of the wages of 1,351 coolies, employed from April 1915 to March 1916, after the bills were checked with his thata book, in which the number of coolies employed were noted, as the Sub-Divisional Officer kept no daily reports for the labour employed.

of, or larity execu-Public

- 6. (a) The value of work done, as per running contract certificates, was Rs. 10,828 prior to the acceptance of an agreement for a work with a contractor on the 24th February 1916, cements the date of measurement being the 18th September 1915.
  - (b) The value of work done, as per running contract certificates, was Rs. 6,300 prior to the acceptance of an agreement for a work with a contractor on the 24th February 1916, the date of measurement being the 13th November 1915.
  - (c) Payments of Rs. 898-4-0, Rs. 503-13-0, Rs. 313-10-0, Rs. 297-3-0, Rs. 265-7-0. Rs. 356-6-0 and Rs. 409-14-0 against different estimates, were made from a division in March 1916 to various contractors, although there were no accepted tenders.
  - (d) In the same division, a total payment of Rs. 2,854-12-0, and anothers payment of Rs. 624-8-0, were made in 1916-17 without any accepted tenders. Several cases were also noticed during the year in which tenders were taken after the first payment had been made.

- 7. (s) According to his travelling allowance journal, a Supervisor was at his headquarters Other irre on the 28th and 30th March 1916, but the measurement books showed that on the first day larities in he took measurements at three places 18, 20 and 28 miles, respectively, and on the second day measurement at a place 20 miles away from his headquarters.
- (b) A sub-overseer recorded an entry in a measurement book to the effect that he had (a) Bombay made a measurement at a certain station on the 16th January 1916, but his travelling allowance journal showed that on that day he was at his headquarters, 40 miles away.
- (c) According to his travelling allowance journal, a subordinate was on the 17th March 1916 at a station, 13 miles away from the place, at which a measurement was alleged to have been made, and similarly on the 18th idem, at two stations, 24 and 48 miles away, respectively.
- (d) According to his travelling allowance journal, a Sub-Divisional Officer was at his Assam. headquarters on the 7th March 1916, but the measurement book showed that he took measurements on that day at a station 44 miles away.

### NOTICES.

### THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

### Public room, epen 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

- 1. All communications relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.
- 2. Directions for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. These should be consulted before an application is made to the Controller.
- 3. Advice. The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on

their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made to the patent offices in the countries concerned.

- 4. Fees are payable in cash and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.
- 5. Trade and property marks and names are not registered and medicines are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with pictures, photographs, etc., for which copyright is obtainable under the Indian Copyright Act, 1914.
- 6. Printed Specifications of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the Gazette of India. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

### The 5th April 1918.

No. 2465-C. & I—In exercise of the powers conferred by sections 58 and 59 of the Punjab Excise Act, 1914 (I of 1914), as applied to the Delhi Province, and in supersession of his Notification No. 6880-C. & I., dated the 23rd October 1915, the Chief Commissioner is pleased to make the following rule regulating the import, export, transport and sale of drugs medicines or chemicals containing rectified spirit:—

Drugs, medicines or chemicals containing rectified spirit, whether imported into India or prepared in India with rectified spirit on which the prescribed duty has been paid, may be imported, exported, transported or sold free of all restrictions up to any quantity.

No. 2482-Home.—In exercise of the powers conferred by section 12, sub-section (i) of the Indian Press Act, 1910 (1 of 1910), the Chief Commissioner declares to be forfeited to His Majesty all copies wherever found of a leaflet in Hindi entitled "Swadesha Chimaniyon Ka Sandesh" commencing with the words "Viro tum age barho" and ending with the words "Hindestan hokar," and all copies of all other documents containing the matter of the said leaflet, on the ground that the said leaflet contains words which have a tendency to bring into hatred and contempt the Government established by law in British India, and therefore appear to the Chief Commissioner to contain words which are of the nature described in section 4, sub-section (1), Clause (c), of the said Act.

### The 6th April 1918.

# THE HON'BLE THE CHIEF COMMISSIONER OF BRITISH BALUCHISTAN.

### NOTIFICATION.

### Quetta, the 3rd April 1918.

- No. 1250-R.—In exercise of the powers conferred by section 5 of the Opium Act, 1878 (1 of 1878), and with the previous sanction of the Governor-General in Council, the Chief Commissioner of British Baluchistan is pleased to make the following amendments in the Opium Rules published with his Notification No. 4717, dated the 10th September 1908, as subsequently amended, namely:—
- (1) Rule I(5).—The following shall be substituted for the existing definition of "Opium":—
  - "(5) "Opium" includes also poppy-heads, intoxicating drugs prepared from the poppy and preparations or admixtures of opium other than morphia and allied drugs;"
- (2) Rule 2(3).—The following words occurring between "Opium" and "Provided" shall be omitted:—
  - "Other than morphia or its preparations".
- (3) Rule 3.—Clause (b). The words "and those specified in sub-clause (c) below" shall be omitted.

Clause (c) and the second proviso to the rule shall be omitted.

- (4) Rule 17(2) (i).—The last 32 words and figure beginning with "nor" and ending with "practitioner" shall be omitted.
- reparations published with the Chief Commissioner's Notification No. 4370-R., dated the 15th December 1913:—
  - 2. Anodyne Pine Expectorant.
  - 4. Apocodeniu Hydrochloridum.
  - 5. Apomorphine and its salts and preparations.
  - 6. Astringent wash, compressed tablets for, containing 31 grain of morphia ascetate (Parke Davis & Co.).
  - 8. Beecham's Cough Pills.
  - 9. Boerhavis Odontalgic Essence.
  - 12. Camphorodyne.
  - 14. Cereoli Iodoformi et morphinæ.

(539)

8GI

No. 23.—A vacancy having occurred in the Indian Legislative Council by reason of the resignation of the Hon'ble Sir Elward Hugh Bray. Kt., an Additional Member of the said Council who represented the Bengal Chamber of Commerce, the Governor General is pleased, in pursuance of the provisions of Regulation XI (6) of the Regulations for the Nomination and Election of Additional Members of the Legislative Council of the Governor General, to call upon the Bengal Chamber of Commerce to elect, in accordance with the said Regulations, a person for the purpose of filling the said vacancy on or before the fifteenth of June, 1918.

### The 18th April, 1918.

No. 24.—The following Statute is published for general information :-

### MILITARY SERVICE ACT, 1918:-

17 AND S GLO 5, CH. 66.]

AN ACT TO REPPAR SUB-SECTION (8) OF SECTION THREE OF THE MILITARY SERVICE ACT, 1916, AND TO PROVIDE FOR THE CANCELLATION OF CERTIFICATES OF EXEMPTION FROM MILITARY SERVICE GRANTED ON OCCUPATIONAL GROUNDS.

[6th February, 1919.]

BEIT ENACTED by the King's most Excellent Majesty, by and with the advice and consent of the Lords Spiritual and Temporal, and Commons, in this present Parliament assembled, and by the authority of the same, as follows:—

6 & 7 Geo. 5, c. 15.

- 1. Sub-section 39 of section three of the Military Service Act, 1916, as amended by section six of the Military Service Act, 1916 Session 2), is hereby repealed, and accordingly the Military Service Acts, 1916 and 1917, shall, as respects any man whose certificate of exemption for any reason cersos or has ceased (whether before or after the passing of this Act) to be in force, have effect as though the provisions repealed by this section were not included in these Acts.
- Power of Director eneral of National Service may at any time by order withdraw any certificate of exemption from military service to which this section applies as from such date, not being less than fourteen days after the date of the order applies shall cease to be in force.
- (2) This section applies to any certificate of exemption from the provisions of the Military Service Acts, 1916 and 1917, whether granted before or after the passing of this Act, and whether granted by a tribural or by a under the authority of a Government Department, where the certificate was granted or renewed on occupational grounds, and also applies to any certificate so granted or renewed on such grounds to a man who has voluntarily attested, notwithstanding that the certificate has not statutory force
- (3) An order under this section may be mide applicable either to individual certificates granted by Government departments, or to certificates granted to any class or body of men specified in the order, whether or not depend in on the obtaining by those men of individual certificates), or to certificate granted to men of any class or description specified in the order, and, as respects any class or body of men or men of any class or description, may be made applicable only to men falling within such limits of age or fallilling such other conditions as may be specified in the order, and may contain such exceptions and supplemental provisions as the Director-General thicks fit, including giving the right of making an application to a tribunal in exceptional cases.

An order under this section may be revoked, extended, or varied, by a further order of the Director-General, as occasion requires.

- (4) Where and so long as an order under this section is in force, then except as otherwise expressly provided by the order --
  - (a) no application shall be entertained for the grant or renewal of a certificate, and no certificate shall be granted or renewed where the certificate, if it had been operative at the time at which the order was made, would have come within the terms of the order; and
  - (b) no application shall be made by or in respect of a man whose certificate comes within the terms of the order for the renewal of the certificate except on grounds which are not occupational, or for the grant of any certificate on occupational grounds, and no such application if already made shall be proceeded with, and no certificate shall be renewed or granted on any such application;

and any certificate granted or renewed in contravention of the foregoing provisions shall be invalid, but save as aforesaid nothing in this section shall affect any right of a man, whether

unattested or attested, whose certificate has been withdrawn under this Act to apply for a ronewal of his certificate which he would have had if this Act had not been passed.

- (5) An ord r under this section (other than an order applicable to an individual certificate) shall be laid on the table of both Houses of Parliament as foon as may be after it is made, and if either of those Houses within fourteen days after the order has been so laid presents an address to His Majesty praying that the order, or any part thereof, should be annulled, His Majesty in Council may annul the order or such part thereof, and it shall thenceforth be void without prejudice to the validity of anything done in pursuance thereof: Provided that section one of the Rules Publication Act, 1893, shall not apply to an order made under this 56 & 57 Vict. section.
- (6) Where an order under this section applicable to an individual certificate is made, notice thereof shall be served on the man affected thereby and may be served by sending it to him by registered post to his last known address.
- (7) For the purposes of this section a certificate shall be deemed to have been granted or renewed on occupational grounds which was granted or renewed wholly or partly on any of the grounds specified in paragraph (a) of sub-section (1) of section two of the Military Service Act, 1916, or (in the case of voluntarily attested men) on any similar grounds, or which, in either case, was granted or renewed by or under the authority of any Government department; and if any question arises whether a certificate was granted or renewed on occupational grounds, the question shall be referred to the Director-General, whose decision there in shall be final.
  - 3. This Act may be cited as the Military Service Act, 1918, and the Military Service Acts, 1916 and 1917, and this Act shall be construed Short title and citation. together and may be cited together as the Military

Service Acts, 1916 to 1915.

A. P. MUDDIMAN,

Secretary to the Government of India

### HOME DEPARTMENT.

### NOTIFICATIONS. Establishments.

Simla, the 16th April, 1918.

- No. 224 .- Mr. G. M. Young, of the Indian Civil Service. Under Secretary to the Government of India in the Home Department, officiated as Deputy Secretary in that Department, from the 22nd March 1918 to the 2nd April 1918 both days inclusive).
- No. 226 .- Mr. J. Hullah, of the Ingian Civil Service, is appointed to officiate as Deputs Secretary to the Government of India in the Home Department, with effect from the 3rd April 1918.

### The 15th April, 1918.

No. 234.—Sir Archdale Earle, K.C.S.I., K.C.I.E., is permitted to resign His Majesty's Indian Civil Service, with effect from the 1st April 1918, or the subsequent date on which he may sail from India or relinquish charge of office in the event of his not taking subsidiary leave.

### JUDICIAL.

### The 17th April, 1918.

No. 162.—The following rules which have been made by the High Court of Judicature at Fort William in Bengal, under section 112 of the Presidency Towns Insolvency Act, 1909 (III of 1909), and are to be inserted after rule 178 of the rules published in the Home Department notification no. 44, dated the 13th January 1910, have been sanctioned by the Governor General in Council under section 118 of the said Act, and are hereby published in pursuance of section 114 thereof.

### Costs, Charges, Expenses, Sen of the Official Assigner.

- 178-A. At the hearing of any notice or of any charge under section 10! of the Act, the Court may direct that the Official Assignee shall have the conduct of the proceedings against the insolvent and thereupon the Official Assignce shall be entitled, with the leave of the Court, to pay the costs and expenses of such proceedings out of the " Unclaimed Dividend Revenue Account."
- Where the Official Assignce has been directed by the Court in the matter of any insolvency to institute legal proceedings of any kind whatsoever, he shall be entitled, so far as

the assets in his hands relating to such insolvency are insufficient to meet the costs and expenses of such proceedings, to pay such deficiency out of the "Unclaimed Dividend Revenue Account."

- 178-C. Where the Official Assignee while acting under the order and direction of the Court in the matter of any insolvency shall incur any personal liability and the assets in his hands relating to such insolvency are insufficient to meet such liability, he shall be entitled to apply to the Court for leave to pay any deficiency cut of the "Unclaimed Dividend Revenue Account" and such leave shall be granted provided that the Official Assignee while so acting shall have complied with the order and direction of the Court.
- 178-D. Where an insolvent estate has no available assets the Official Assignee shall not be required to incur any costs, charges or expenses in relation to such estate without the express direction of the Court, but the Court upon the application of the Official Assignee may from time to time empower him to apply any monies standing to the credit of the "Unclaimed Dividend Revenue Account" to an amount specified in the order of the Court, in payment of any costs, charges and expenses of or in connection with the realization or administration of the estate of the insolvent.
- 178-B. All sums advanced out of the "Unclaimed Dividend Revenue Account" under any of the foregoing rules shall be repaid out of any assets of the insolvent in priority to all other claims or charges.

### MEDICAL.

### FOREIGN AND POLITICAL DEPARTMENT

### NOTIFICATIONS.

### Simla, the 15th April, 1918.

No. 402-G.—With reference to Notification No. 1847-G., dated the 29th August 1917, the following notice under the hand of one of His Majesty's Principal Secretaries of State, dated the 2nd February 1918, is published for general information:—

WHEREAS by Article 79 1 of the "Bahrein Order in Council, 1913" provision was made that the said Order should come into force on such day within six months of its publication in the "Gazette of India" as the Governor-General of India in Council might by notification in the said "Gazette" appoint on that behalf : and whereas the said Order was published in the "Gazette of India" on the 3rd February 1915:

AND WHEREAS by Article 2 of the "Bahrein (Amendment) Order in Council, 1915" the words "one year" were substituted for the words "six months" in Article 79 (1) of the

Principal Order: and it was also provided that it should be lawful for the Secretary of State, by notice given under his hand, to extend the said period of one year for such period not exceeding twelve mouths, as may be prescribed in the said notice:

AND WHEREAS by two notices dated the 17th January 1916 and the 2nd August 1916, respectively, the Right Honourable Austen Chamberlain, one of His Majesty's Principal Secretaries of State, extended the said period of one year for two further periods of six months making a period of two years in all:

AND WHERBAS by Article 1 of the "Bahrein (Amendment) Order in Council, 1917" it was provided (inter alia) that the said Order should be read as one with the two Orders firstly and secondly hereinbefore recited and also by Article 2 of the said Order it was provided that the words "four years" should be substituted for the words "twelve months" in Article 2 of the Order secondly hereinbefore recited:

AND WHEREAS by a notice dated the 2nd February 1917 the Right Honourable Austen Chamberlain, one of His Majesty's Principal Secretories of State, extended the said period of two years for a further period of six months, making a period of two years and six months in all:

AND WHEREAS by a further notice dated the 2nd August 1917, the Right Honourable Edwin Samuel Montagu, one of His Majesty's Principal Secretaries of State, extended the said period of two years and six months for a further period of six months making a period of three years in all:

AND WHEREAS it is desired to extend the said period of three years for a further period of twelve months:

Now, I, the Right Honourable Walter Hume Long, one of His Majesty's Principal Secretaries of State, do hereby give notice under my hand that the said period of three years heretofore mentioned be extended for a further period of twelve months.

WALTER H. LONG.

2nd February 1918.

### A. H. GRANT,

Secretary to the Government of India.

The 15th April, 1918.

Boot protectors (made of wood and metal).

Bottle corking and crowning machines (hand or treadle driven). Bottle wiring machines. Box catch fastening and punching machines (hand power). Boxes, metal, of all kinds. Brackets, implement. Bracket lamp or bulb holders, nickelled (electrical accessories and appliances). Braid, wire. Brass component parts for electric lighting. Brass or metal leaf (imitation gold leaf). Brass or phosphor bronze clotn. \*Brass strip. \*Brass tape. Brazing lamps. Bread crumbing machines (hand and power). Bread making machines (hand driven) \*Bricklayers' and plasterers' trowels, as Mason's tools. Bronze leaf. Bronze powder. Brooch joints, pins and catches (base metal) Brushes laminated Brush holders, carbon (not for motor cars). Brush holder springs. Buckles and tie fasteners. Buckles, brans. Buckles for braces. Buckles, metal, for ladies' belts. Buckles, papier-mâché, with metal bar prong. Bullet moulds (G. L.) Bull rings, copper. Bunion springs. Burners, gas, or oil. Burning outfits, " Hauck " (blow lamp). Burnishers, chain. Burring machines (tinsmiths' machines; Bushings, bronze. Button covering machines (hand). Button, sewing on, machines.

By-passes, brass. Cabinets, seed, steel lined. Cable cash carriers, parts of. Cables, insulated. Calendar frames. \*Callipers. Can cleaning machine Canisters, tin. Can keys, and can openers. Capa, brase. Caps, made of tinsel, with wads and discs, for bottles. Caps, metal, for electric lamps. Caps, metal, for milk bottles or toilet powder tins.

Button moulds, metal, fillings and backs.

Butts, steel.

Capsules, lead foil. Card fasteners, with brass s ckets attached, for screwing blocks to wood lasts. Carriage heaters. Carriage tyring machines. "Cary's "fastences, seals and clasps. Casters, furniture and truck. Castings, machine bronze. Castings, phosphor bronze. Catches, joints, and pins for brooches. Catches, plated (for drawers). Catches, tin (used in the manufacture of radiator boiler castings). 8GI

Cattle dehorners. Cattle leaders. Ceiling shades, enamelled iron. Cellar drainers. Chafing dishes. Chain, iron, weldless. Chains, chronometer fusce. Chains, elevator. Chains, sherardized steel for hanging sashes. Chaplet plugs, taper. Chaplets (copper) used in manufacturing radiator boiler sections. Chaplets, perforated tin. Chart dires, steel. \*Chasers (screwing tackle). Cheese presses (" Gang"). Cheque protectors.
Chiropodists' appliances: Cabinet instrument steriliser. Chair, metal and leather. Instrument stands. Wash bowl and accessories. \*Choppers and batchets. Choppers, food. Chromel resistance wire. Chronometer fusee chains. Cigar cutting machines (hand driven). Cigarette cases (base metal). Circuit breakers. Circular blades (for paper slitting machines). Circular knives. Clamp for use with stitching awl. Clamps, brass, with steel screw and nut (for connecting rubber and canvas hose to couplings). \*Clamps, iron or steel, as engineers' tools. Clasps, " Cary's." Clippers, hair. Clippers, horse. Clips, copper, test for use in testing electrical instruments). Clips, fountain pen. Clips or clamps for wire rope. Clips, paper. Clips, spring, for bottle caps. Closing machines (see Tinsmiths' machines). Cloth, brass metal or phesphor bronze. Clothes line recls, metal cases. Cloth, woven galvanised iron wire. Coach screws or bolt-headed screws. Cocktail mixers, electro-plate, Coffee grinding machines (hand driven). Coffee making machines. Coffee roasting machines (hand driven'. Coil holders, metal. Coil lacing, wire. Coke forks for gasworkers' use. Combination tool " Austral." Combs, curry. Commutator copper segments. Commutators for electric motors, Containers or founts (oil used for ordinary oil lighting or heating lamps. Contractors for electric meters. Controller parts, gas, brass. Coolers, evlindrical, for dairies. Copper blanks for electric cranes, Copper foil. Copper plates or sheets cut to shape and size for engraving. Copper rollers.

Cork pressers, roller.

Cork pullers. Corks, sprinkler. Corset busk cutting and tipping machines (hand driven). Cotter pins. Counters for marine indicators. Counter weights, suspension, pulley, and rings. Couplings, belt, steel. Covers, oil hole. Covers, spring lubricating. Crank shaft forgings. Crown oork openers. Cue cutters. Cups, grease. Cups, metal, collapsible. Cups, oil. Curling tongs for waving hair. Curry combs. Curtain rings, brass. Curtain rods, metal. Curvimeters (map measures). Cutters, bench. metal (hand driven). Cutters, cue. Cutters, for card and lead. Cutters, glass. Cutters, pipe. Cutters, rod. Cutters, rule. Cutters, while metal and brass, pattern Cutters, steel, for grooving wood. Cycle alarms "Root-a-tooter." Cyclometers. Cylinders, steel, for oxygen. Cylinders for acetylene gas. Cylindrical coolers for dairies. Damper knobs, nickel plated, for use on boilers Damper regulators, for water and steam boilers. Dating and numbering machines (hand). al' kinds, manufactured largely of metal. Dating or name stamps, i.e., metal or wood with rubber type. \*Deacon's welt ploughs (shoemaker's tool). Dentists' accessories (G. L.). Diamond dies for wire drawing Dictating machines, parts and accessories. (G. L.) Die heads. \*Dies and die stocks. Dilver rods. Discs, metal, for centre of rubbers. Discs, steel, for manufacture of adaptors. Discs, valve. Door bolts.

Door catches (stove fittings). Door hangers, sliding.

seaming

Draw plates for wire drawing.

Drilling machines, railway track

Dovetail (stove fittings).

machines

tinsmith's

Double

machines).
Dovetail bits.

Drafting machines.

Drainers, cellar.

Drawing pins.

Drift forgings.

Drill sleeves.

driven).

Drills, all sorts. Drinking fountains. Drums, driving, iron and steel. Duplicator steel file plates: Earmarkers, tin. Egg beaters. Egg timers, automatic. Electrical accessories and appliances, Adaptors for lamp holders. Armature magnets for use in electric motors or dynamos Armatures for electric motors. Bells and buzzers of all kinds. Bracket lamp or bulb holders, nickelled. Brass component parts for lighting. Brushes, luminated. Brush holders, carbon. Brush holder springs. Cable cash carriers, parts of. Caps, brass. Caps, metal, for lamps. Circuit breakers. Commutator copper segments. Commutators for electric motors. Contractors for electric meters. Copper blanks for cranes. Counter weights, suspension, pulley and rings. Fans and parts thereof. Fitting connector (brass fitment on earthenware base). Flat iron (as laundry iron). Fuse plugs, screw. Fuses, cartridge, refillable. Fuse wire, tested. Grill. Heater or radiator, portable. Hot plate. Insulators complete (porcelain, with metal contact parts). Insulators made from mica and asbestos, with steel or mallcable iron centres. Lamp cases, hand and pocket, made of soft iron scrap, with or without lenses and bulbs. Lamp holders, brass or ebonite, with or without switch or key. Laundry irons. Magnet boxes. Metallic filament for lamps. Meters, parts of. Plugs, flush (consisting of brass fitment mounted on earthenware base). Plugs, wall (consisting of brass fitment mounted on earthenware base'. Screw parts, brass, for use on telephones. (G.L.) Soldering irons. Sounders and keys.
"Spiralite" advertising device. Splicing sleeves. Spraying apparatus. Standard for portable lamp with inkstand. Switches. Terminals, brass, for fuse boards. (G.L.) Toaster, for table use. Torch cases, made of soft iron scrap, with or without lenses and bulbs. Trolley pole catchers. Water heaters.

Wiring sockets (consisting of brass and | porcelain).

Wire fuse, tested.

Electrolytic wire.

Electrotype printing blocks.

Elevator chains.

Emeralite desk lamps.

Emery wheel dressers and cutters.

Emulsifiers, machines.

Embossing stamp or press-monogram.

Engraved plates, music, pe vter. Envelope fasteners, steel.

Envelope sealer (not a machine).

Etch-o-lite dipping machines.

Eyeglass chain holder.

Eyeglass frames, steel and xylonite or steel and rubber.

Eyeguards, engineer's (consisting of wire gauze faced with glass enclosed in sheet iron frame).

Eyelets, boot, me'al.

Eyeletting machines for boots and shoes (hand driven).

Fans and parts thereof.

Fasteners and buckles for ties.

Fasteners and press stude for wearing apparel, eto.

Fasteners, boot, button.

Fasteners, card, with brass sockets attached for screwing blocks to wood lasts.

Fasteners, " Cary's

Fasteners, corrugated, saw edge.

Fasteners, envelope, steel.

Fasteners, paper, of all kinds,

Fasteners, spring block, for shoe lasts.

Faucet, molasses, suction and measuring.

Ferrules, german silver.

Ferrules, or nipples, steel, for gas radiators.

Ferrules, tin, for banding brushes.

Fibre, steel, polishing.

Filament, metallie, for electric lamps.

File clip.

\* Files.

Files, surgical.

Files, watchmakers'. (G.L.)

Filing cabinets, metal accessories for.

Filing cabinets, steel.

Filters, oil.

Filters, water, cast iron.

Filters, whiskey.

Fishing reels, brass.

Fitting connector brass fitment on carthenware base).

Fittings, stove, such as dovetails, door-catches, hinged tubes.

Flat iron, electric, as laundry iron.

Flour sifters.

Fluting machine used for the crimping or fluting of cloth).

Foghorn, Norwegian machine.

Food choppers.

Foot arch supports.

Foot powers

Forges and blowers, portable.

Forgings, crank shaft.

Forgings for bicycles.

Forgings, rough, for sewing machines.

Forks, coke, for gasworkers' use.

\*Forks, garden and agricultural, with or without handles.

Forks, hay.

Foundry ladles or bowls-iron.

Foundry vibrators.

Fountain pen clips.

Fountains, lawn, revolving.
Founts or containers (oil) for ordinary oil

lighting or heating lamps.

Founts, overhead washing, for carriages and motor cars.

Frames, bag and pouch.

Frames, collapsible, steel, for opera hats.

Frames, complete or in parts, metal, for ladies' hand bags.

Frames and fittings, umbrella.

Frames, metal, loose leaf, for perpetual ledger.

Freezers, ice cream.

Fret machines (treadle).

Fruit slicing machines (hand). Fumigators, formaldehyde (metal).

Furnace, gas, forced draught.

Puse pluge, screw.

Fuses, cartridge, refillable.

Fuse wire, tested.

Galvanised iron wire cloth, woven.

Gas burner castings, iron, for stoves.

Gas controller parts, brass.
Gas furnaces (forced draught).

Gas lamps and parts thereof. Gas lighter " Round File."

Gas mantle holders, metal.

Gas meters, brass, parts of.

Gas meters, cast iron, and parts of.

Gas regulators, iron, and parts of.

Gates or taps for oil or melasses.

Gauges of all kinds except recording gauges.

Gauze, brass wire.

Glass cutters.

Glow covers.

Gold foil, imitation.

Gold leaf, imitation (brass or metal leaf).

Gong shells, steel.

Grease cups.

Grill, electric heating.

Grinding attachment for use on horse clippers.

Grinding machine (hand power).

Grinding plates, for coffee grinding mill.

Grindstone in frame (hand driven).

Grindstone frames and fixtures, metal.

Groovers, thin, oval, machines (tinsmiths' machines).

Guides, metal, for textile machines.

Guillery testing apparatus.

Guillotine, rubber (hand power).

Gumming or glueing machine thand driven).

\*Hack saw blades.

Hack saw machines, portable, for rail cutting.

Hair clippers.

Hairsprings. \*Hammers and hammer heads.

Hammers, lead.

Handle formers (tinsmiths' machines).

Handles, "Alaska" for boiler doors.

Handles, cover (of wood and metal), for repairing tea-pots.

Hand trucks.

Handwarmers, for muff or pocket.

Hangers, cast iron, for shafting.

Harness snap.

Hasps.

\*Hatchets and choppers. Hay forks. . Heater or radiator, electric. Heaters, carriage. Heaters, water (electric or gas). Heddles (steel). \*Heddle strip, steel. Hinged tubes (stove fittings). Hinge pins with cone heads. Hinges of all metals. Hob nails. \*Hoes, garden and agricultural, with or without handles. Holders, coil (metal). Holders for rubber stamps, i.e., metal base with wooden handle. Holders --roll paper. \*Hollow brass wire (used in the manufacture of scientific instruments). Hollow wire, as tubes. Hoof hammers. Hoof parers. Hooks and needles, embroidery. Hooks, brass. Hooks, cargo Hooks, coat and hat. wire. Hooks and needles, Blake, for loot machines. Hooks, screw, for coat hangers. Hooks, shoe lacing. "Hooks, steel. belt, for binding machinery belting. Hooks, tenter. \*Hooks, wire (other than coat and hat hooks) Hocping, iron or steel. Hooter signal horns. Horse chippers. H. O. sliles. Hosiery needles "Hotchkiss" automatic paper fastener.
"Hotchkiss" staple presses.
"Hotchkiss" tag machines. Hot-plate, electrically heated. Household appliances: Apple prefers. Potato peclers. Flour sifiers. Knite sharpeners, etc. Hub bands, iron. Hypodermic needle

Ice oream freezers. Ignition wheels, for automatic lighters. Implement brackets Incubators, e st iron and wood. Insulated cables. Insulated wire Insulators, complete (porcelain, with metal contact parts). Insulators, made from mica and asbestos, with steel or mallcable iron centres \*Iron book strip. Irons, laundry. Ironware for poultry farming. \*Jacks, lifting.

\*Jacks. track. Joints, pins and catches, for brooches. Journal boxes, tramear.

Key blanks. Key rings, steel. Keys, for opening tins.

Kitchen utensils. Knife sharpeners. Knives, circular. Knobs damper, nickel plated, for use on boilers. Knobs or pegs, japanned, iron. Label dampers, metal. Labels, base metal. Ladles or bowls, foundry, iron. Lamp burners, gas or oil. Lamp cases, hand and pocket, electric, made of soft iron scrap, with or without lenses and bulbs Lampholders (brass or chonite, with or without switch or key). Lamps, blow, and parts thereof. Lamps, brazing. Lamps, emeralite, desk. Lamps, gas, and parts thereof. Lamps, oil, of all kinds. \*Lanterns, hurricane. "Lanterns, tubular (for farm use). Latch needles. Lathe carriers. Lathe dogs. Laundry irons. Lawn fountains, revolving. Lawn sprinklers Leaders, cattle. Lead foil. Lead hammers. Leather stamping machines. Ledgers, lo se leaf, metal, parts of. Letter opening machines (hand driven) Lever fittings, for correspendence files. Lever or lifter, steel, for metal bungs. Levers, cycle tyre Lide, metal, movable, for tins or glass bottles. Lighters, metal, pocket. Lisodis fount or distributor. Locks and padlocks. Loops, brass. Loose leaf ledgers, metal, parts of. Lubricators, gun metal, for refrigerating

machinery
Lubricators iron or steel.
Lubricators not power driven. Lubricator spring covers.

Carriage tyring.

Machines Addressograph, parts of, such as metal drawers, wooden stands with metal attachments and iron stands. Apple paring and coring hand and power driven). Baling or strapping (hand). Bandsaw setting (hand driven). Battery pressing (hand driven). Bending, for chain. Bending wood hoops (hand driven). Bottle corking (hand driven). Bottle corking and crowning (hand or treadle driven). Bottle wiring. Boxcatch fastening and punching (hand power). Bread crumber (hand and power). Bread making (hand driven). Button covering (hand). Button sewing on. Can cleaning.

Cigar cutting (hand driven). Coffee grinding (hand driven). Coffee making. Coffee rossting (hand driven). Corset busk cutting and tipping (hand driven). Dating and numbering, hand, all kinds, manufactured largely of metal. Dictating, parts and accessories (G. L.) Drafting Drilling, railway track (hand driven). Emulsifiers. Etch-o-lite dipping. Eyeletting for boots and shoes (hand driven). Fluting, used for the crimping or fluting of cloth. Fret, treadle Fruit slicer (hand). (irinding (hand driven). Gumming or glueing (hand driven). Hack saw, portable, for rail cutting. Hosiery scales. Leather stamping. Letter opening (hand driven). Meat chopper and sausage filler combined. Milk separators or centrifuge. Numbering and dating, hand, all kinds, manufactured largely of metal. Overedge sewing. Paint spraying. Pencil sharpening. Pinking and slotting (hand drives). Potato mashing (hand).
Rivet setting (hand driven).
Soroll shears (hand driven). Sealing, rapid Shoe stretching. Signowriter, signature stamping (hand drivon). Slot game, automatic. Spraying for lime and whitewashing and paint. Strapping and baling (hand driven). Tag (Hotchkiss). Textile weighing. Tinsmiths' (hand driven) : Bar folder. Beading. Burring. Closing. Double-scaming. Groovers, thin oval. Handle formers. Paning-down. Tube formers. Wire bending. Wire cutting and bail formers. Typographical numbering. Tyre grooving. Weighing, for steel busks. Magnets, armature, for use in electric motors or dynamos. Augnet hoxes (electrical accessories). lagnets, for aviation. lagnets, steel. 1 silchute apparatus. lails, weaver, steel. landrels, expanding. Intoh stands. leat chopper and sausage filler combined. 8G1

Meat seals made of cold rolled steel strip. Mem-index (small index card calinet). Mesh in strips or rolls, for the manufacture of bags (base metal). Meter parts, steel. Meters, gas, brass, parts of. Meters, gas, cast iron, and parts. Meters, electric, parts of. Milk separator machines or centrifuge. Monogram embosing stamp or press. Moulds, bullet. G. L) Moulds, button, fillings and backs. Mounts, metal, for ice bags. Mouse traps (wood and wire). Muff couplings. Nail or tack pullers. Nails and tacks made of scrap metal. Nails, brass. Nails, driving screw (as wire nails). Nails, hob. Nails, iron, cut. Nails, iron, with all brass heads. Nails, iron, with brass covered heads. Nails or stude for boots and shoes for mountaineering purposes. Nails, upholstery, made of wood and metal. Nauls, wire. Naval instruments, brass screw parts for. Needles, bosiery. Needles, sewing machine. Needles or hooks, Blake, for boot machines. Needles and hooks, embroidery. Needles, hypodermic. Needles, latch. Nickel chrome ribbons. Nickelled copper leading in wire. \*Nippers, wire. Nipples or ferrules, steel, for gas radiators. \*Nipples, spoke, or bolts for cycles. Norwegian fog-horn machine. Nozzles, for liquid sprayers. Numbering and dating machines, hand, all kinds, manufactured largely of metal. \*Nuts and bolte, all kinds. Oil cans, mower machine. Oil cans, reaper. Oil containers or founts (used for ordinary oil lighting or heating lamps). Oil cups. Oilers, pocket. Oil hole covers. Oil lamps of all kinds. Oil pumps, brass. Orthopedic appliances. Overedge sewing machines. Overhead wash founts for cleaning of carriages and motor cars. Oxygen containers (steel cylinder). Packing rings, metallic ("Katzensteins").

Packing rings, metallic ("Katzensteins").
Padlocks and looks.
Paint spraying machines.
Paoing-down machines (tinsmiths' machines).
Paper fasteners, automatic.
Paper roll holders.
Paper tester (Mullens).
Pattern racks (of metal) as used by clothiars and tailors.
Pedal operating wheels.

Pedometers. Pegs or knobs, japanned iron. Peir arms, steel. Pencil sharpening machines. Percil sharpeners (metal). Pencil tips (brass). Pen-nibs steel. Pen points, steel. Perambulator joints, steel. Perforators, letter, for filing purposes. Phosphor brenze or brass metal cloth. Phosphor bronze sheets cut to size. Piercers, round hole. Pincers, scal. Pinking and slotting machines (hand driven) Pins, drawing Pins, hinge, with cone heads. Pins, taper, steel. \*Pins, wire. Pipe case fasteners. Pipe cleaners, cotton and wire. Pipe cutters. Pipe fittings, cast. Plant sprayers, hand (also used for distributing disinfectants)
\*Plasterers' and br
masons' tools. bricklayers' trowels, as Platens, worl hand carding. Plates, for duplicator steel file. Plates, grindi. g. fer coffee mill. Plates or sheets, copper, out to size and shape for engraving. Places, pewter, engraved for music. Plates, steel, for patterns. \*Piers. P ugs, chaplet, taper. ## LONDON GAZETTE.

No. 781.—The following extracts are published for general information:-Supplement dated the 26th January 1918 to the London Gazette of the 25th January 1918, pages 1285, 1287, 1302 and 1317.

li ar Office, 25th January, 1918.

With reference to the award of the Distinguished Conduct Medal conferred as announced in the London Gazette, dated 22nd Ootober, 1917; the following are the statements of service for which the decoration was conferred --

DISTINGUISHED CONDUCT MEDAL.

8 Cpl. J. Dunning, Ind. Unattd. List,

For conspicuous gallantry and devotion to duty. He successfully laid an important line to an advanced position under heavy fire and maintained it, keeping up communication throughout an attack under very difficult conditions, and in spate of very heavy fire. He displayed great initiative and devotion to duty.

18628 B.S.M. G Low, R F.A. (Bangalore, India).

For conspicuous gallantry and devotion to duty. While the battery was being relieved it was very heavily shelled, and many casualties were caused. He attended to the wounded and extricated governl wounded men who had been buried in a dugout. He displayed magnificent courage and coolness under Leavy fire.

Second Supplement dated the 27th January 1918 to the London Gazette of the 25th January 1918, pages 1347, 1354, 1356 and 1357.

War Office,

26th January, 1918.

Sinla:
The 19th April 1918.

F. NORMAN WHITE, MAJOR, I.M.S.,

Officiating Sanitary Commissioner with the Government of India.

E. D. MACLAGAN, Secretary to the Government of India.

## GOVERNMENT OF INDIA.

# DEPARTMENT OF REVENUE AND AGRICULTURE.

# Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 18th April 1918, based on the Indian Daily Weather Reports of the period.

- 1. A depression from the west entered northwest India at the close of the week and gave light local rain in Baluchistan. During the rest of the week weather was dry, except for thundershowers in northeast India and Burma.
- 2. Burma.—Local falls of rain were reported, but the amounts recorded were all small except in the south of the province.

Northeast India, including Orissa.—Rainfall was nearly general in east Bengal on the 16th and 17th. A few falls occurred in Assam, Chota Nagpur and Orissa.

The United Provinces, Central India and the Central Provinces. - Jagdalpur had a light fall of rain.

Northwest India.-Light rain fell at Sonamurg, Quetta, Chaman and Kalat.

The Peninsula .-- Ootacamund and Kodaikanal had light rain.

3. The chief amounts of rainfall reported were as follows:-

April 18th. Dibrugarh 0.92".

- " 14th. Cherrapunji 5.39".
- " 15th. Silchar 0.83" and Barisal 1.08".
- " 16th. Cox's Bazar 2:35", Barisal 2:54", Jessore 1:42" and Mymeneingh 0:89".
- " 17th. Victoria Point 2:81", Moulmein 3:20", Rangoon 1:83", Chittagong 1:88", Narayanganj 1:47" and Barisal 0:92".
- 4. The week's rainfall was 20 per cent. or more in excess in Lower Burma and Bengal, and was 20 per cent. or more in defect in the Bay Islands, Upper Burma, Assam, Bihar and Orissa, the United Provinces, the Punjab, Kashmir, the North-West Frontier Provinces, Baluchistan, Sind, Rajputana West, Central India East, Berar, the Central Provinces, the Konkan, the Bombay Deccan, Hyderabad, Mysore, Malabar, Madras Southeast, the Madras Deccan and the Madras Coast North. No rain usually falls at this time of year in Rajputana East, Gujarat and Central Islia Wess.

The rainfall from the 30th November to date is 20 per cent. or more in excess in the Bay Islands, Lower Burms, the Punjab East and North, the Konkan and Mysorc. It is 20 per cent. or more in defect in Upper Burms, Assam, Bengal, Bihar and Orissa, the United Provinces, Rajputana, Gujarat, Central India, Berar, the Central Provinces, the Bombay Deccan, Hyderabad North and Malabar; and is within 20 per cent. of the normal in the remaining divisions.

GILBERT T. WALKER,

Director-General of Observatories.

R. A. MANT,

Secretary to the Government of Indic.

SIMEA; Cat.d the 18th April 1918.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

# Season and Crop Prospects for the week ending Saturday, 13th April 1918.

Burma. The week was practically rainless. In Upper Burma harvesting of dry crops has been practically completed and cultivation of spring and summer rice is proceeding. Standing crops are in good condition. The health of cattle is satisfactory. The price of unhusked rice at Rangoon is stationary and below normal. The market for white rice is weak at Rs. 207 and annas 8 for specials.

Assam.—The weather is generally seasonable but rain is wanted in the lower Brahmaputra valley. Pressing of sugarcane has been almost finished. Plucking of tea has commenced. Ploughing for and sowing of autumn and broadcast winter rice and jute continue. Crep prospects are fair to good. Cattle disease is reported from three districts. The price of common rice is practically unchanged.

Bengal. During the week light and scattered showers fell in a few districts of the Province. More rain is needed for preparatory operations and for the growth of standing crops. Sowing of jute and of autumn paddy is proceeding, but progress has been retarded for want of rain. The average price of common rice has tallen by about 1.78 per cent.

Bihar and Orissa.—The week was rainless. Harvesting of spring crops is approaching completion. Threshing continues. Planting of sugarcane and preparation of lands for the next season's crops are in progress. Standing crops are generally doing well. The price of common rice has risen in three districts, fallen in five and remained stationary in the remaining districts as compared with that of the preceding week. Cattle disease is reported from cleven districts. The condition of standing crops in the Feudatory States of Orissa is good.

## United Provinces .- Report not received.

Punjab.—No rain fell during the week nor was any needed. The condition of wheat and of other standing crops on irrigated areas is good and on unirrigated areas generally average. Reaping of barley, gram and oilseeds continues and of wheat in some southern districts has commenced. The yield is expected to be normal or slightly below it. Sowings of extra spring crops, sugarcane and cotton are in progress and are generally normal. Cattle are healthy and todder is sufficient except in a few districts. Prices are generally stationary and range between warning and scarcity rates. Prices of wheat:—Rawalpindi 71, Lahore 8, Ambala and Ferozepore 83, and Lyallpur 9 seers per rupes.

North-West Frontier Province. The week was rainless. Sowings of sugarcane and of extra spring crops are proceeding normally. Harvesting of spring crops has commenced in one district. Prospects are fair to good. The price of wheat in Peshawar is  $S_{13}^{\perp}$  and in Dera Ismail Khan 10 seers per rupes.

Jammu .- Prices are falling slightly. No rain fell during the week.

Kashmir.—The week was generally rainless but cool. Standing crops are in fair condition. Cattle are generally healthy. Prices are normal.

Rajputana. - Report not received.

Central India.—No rain fell during the week. Spring crops are being harvested and threshed. Standing crops are in fair to good condition and their probable outturn is fair to good. Agricultural stock is generally good. Prices are high.

Central Provinces.—The weather continues to be clear and the days are getting hot. Harvesting of spring crops is approaching completion and threshing and winnowing are proceeding rapidly. Construction of field embankments in rice districts and ploughing of fields for sowing of autumn crops continue. The estimated outturn is reported to be satisfactory in Chhattisgarh, fair in Berar, fair to good in Nagpur and parts of the Jubulpore and Nerbudda divisions, poor in Seoni, Hoshangabad, Betul, Chhindwara, the Harsud tahsil of Nimar and the Mehkar tahsil of Baldana. There are no marked fluctuations in prices of food grains but gram shows a slight tendency to rise. Cattle are generally in good condition. Fodder is scarce in parts of Hoshangabad, Saugor, Seoni and Akola. Nagpur received large quantities of wheat, rice and rice straw from Bhandara. The condition of cultivators is not satisfactory in parts of the Nimar and Wardha districts.

Feudetory States: - Agriculturists are engaged in gathering spring harvest.

Bombay.—Standing crops are in good condition except in parts of Larkana where they have been damaged by rise in river and canals. Harvesting of spring crops continues. Picking of cotton is progressing in Gujarat, West Khandesh, the Karnatak, Kathiawar, Baroda, Cutch and Kolhapur. Agricultural stock is sufficient. Prices of food grains have slightly risen in Gujarat, the Deccan and the Karnatak and are generally steady elsewhere.

Hyderabad.—The week was rainless. Harvesting of spring crops is nearing completion. Cattle are healthy. Prices of grains are practically unchanged but juar sells at 4½ seers per rupee in Bidar. Owing to high prices Nizam's Government is opening grain shops in taluka headquarters and in large towns to sell to poorer classes coarse rice and juar at 6 and 8 seers, respectively, per halli sieca (Hyderabad, rupee.

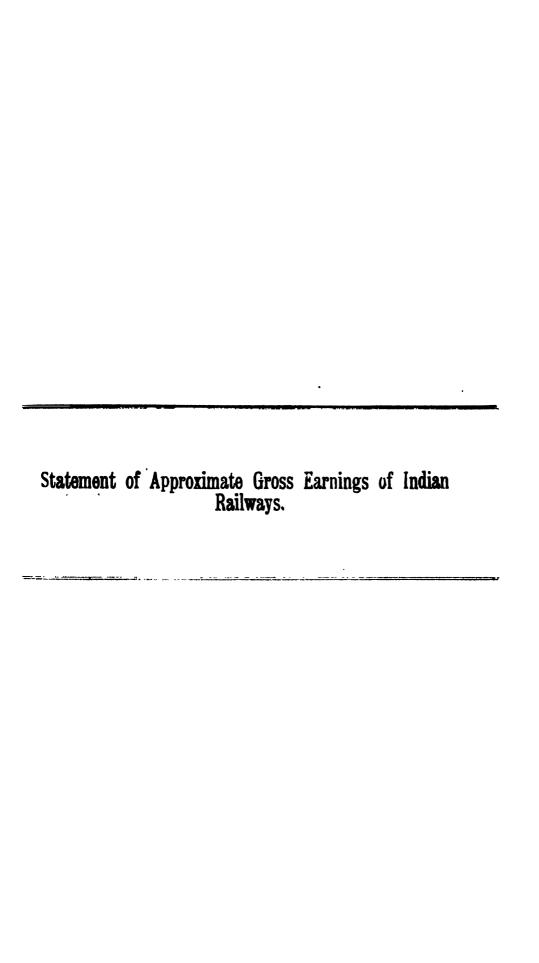

Mysore.—The week was rainless. Standing crops are in good condition. Harvesting of sugarcane is proceeding with outturn fair. Cattle are generally healthy. Prices are generally stationary.

Coorg.—The weather is dry. Coffee blossoms are out. Prices of food grains are high. Cattle are generally healthy.

Madras.—The week was rainless. Standing crops are in fair to good condition generally. Harvesting of paddy, sugarcane and dry crops is proceeding with outturn fair to normal generally. Sowings of paddy, sugarcane and dry crops are proceeding normally. The condition of cattle is generally good. Prices are fairly steady.

R. A. MANT,

Secretary to the Government of India.

GOVERNMENT OF INDIA.
RAILWAY DEPARTMENT.
(RAILWAY BOARD.)

### **Endia**.

### PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, APRIL 20, 1918.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

### PART II.

Notifications by High Court, Comptroller-General, etc.

### GAZETTE OF INDIA.

### NOTICE.

The 16th March, 1918.

On and after 30th March and until further notice, Parts I, IV, V and VI of the Gazette of India and the Weather and Crop Report will be published in Simla. Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at Simla and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the Gazette of India is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the Gazette of India should be delivered at the Press not later than 2 p.m. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette.

J. P. HEWETT, Secretary to the Government of India."

Applications for the supply of the Gasette on the public service should be addressed to the Department of the Gavernment of India, Local Government, Head of Department or other effect empowered in this behalf to whom the applicant is subordinate.

Complaints regarding non-receipt of any number of the Gazette should be forwarded within a well after the date on which it is due.

J. J. MEIKLE, Publisher, Gasette of India.

### THE PATENT OFFICE

### PATENTS and DESIGNS.

Calcutta, the 20th April 1918.

### CORRIGENDUM.

The following entry which appeared in the Notification published by this office in Part II of the Gasette of India, dated the 19th January 1918, under the heading "Cessation of Exclusive Privilege" is hereby cancelled:—

1911-769. (Lumiere.)

### APPLICATIONS FOR PATENTS UNDER SECTION 8.

### April 9.

- \$600. Bishan Dass Mehta. Railway vending Behangi.
- 3601. A. A. Lockwood. Improvements in or relating to the obtainment of gold and silver from their ores.
- 3602. G. Marconi. Improvements in electric accumulators.
- 360 3. W. G. Wheatley, C. J. L. Judge, Saxby and Farmer India, Ld., and Saxby and Farmer (India), Ld. Improvements in railway track circuiting.

### April 10.

- 3604. A. R. W. Kerkhoven. Improvement in apparatus for sorting and cleaning tea and similar light substances.
- 3605. H. V. James. Electro magnetic brake.
- 3606. F. J. Shillcock. Improvements in boots for football and other athletic purposes.
- 8607. P. A. H. Mossay. Improvements in or relating to dynamo electric machines.
- 3608. W. Fairclough. Improvements in and relating to casks or barrels.
- 3609. G. Constantinesco. Improvements in pumps.
- 3610 W. Prior, W. L. Prior and J. S. Gibson. Improvements in the manufacture of hollow articles from wood laminac.
- 3611. B. P. Gray. Improvements in and connected with hoof pads for horse shoes.
- 3612. W. Scott. Improvements in feed mechanism for rotary eack-printing and like machines to which the material to be treated is fed by an endless travelling cloth.
- 3613. General Electric Co. Improvements in or relating to radiating antenna systems.
- 3614. General Electric Co. Improvements in or relating to elastic fluid turbines.
- 3615. Aktiebolaget Nitrogenium. Improvements in or relating to the method of effecting reactions between solid substances or solid and gaseous substances or any other treating in furnaces provided with shelves or similar apparatus.
- 3616. H. Alfren. Improvements in the casting of reinforced concrete vessels.
- 3617. M. Pierron. Recovery of the coating from articles made of tin plate.

### April 11.

- 3618. Alphaero Engines, Ld. Improvements in or relating to internal combustion engines.
- 8619. Alphaero Engines, Ld. Improvements in or relating to internal combustion engines.
- 8620. G. K. Pillai. An improved device for crushing grain and other material.
- 3621. N. Gay. Improvements in calking machines.
- 3622. A. E. Myer. Textile material and method of making same.
- 3623. E. C. de Segundo. Improvements in or relating to the separation and collection of fibres or other flossy or floculent materials from amongst other materials particularly applicable to the deliniting of cotton and other fibre-bearing seeds.
- 8624. E. C. de Segundo. Improvements relating to the defibration of the decorticated hulls of cotton and other fibre-bearing seeds, and to the segregation and collection of the detached fibres.

- 8625. J. Stone & Co., Ld. Improvements in and relating to the brush and terminal contact mechanism of dynamo electric machines.
- 8626. J. W. Cook, T. E. Leigh, J. Jowett and N. Cook. Improvements in or relating to apparatus for stripping carding engines.
- 8627. J. F. Jannink. Process for out-drawing fibrous cotton bands on spinning machines.
- 3628. L. Mauclaire, A. Garbarini and G. Gautier. Improvements relating to kinemato-graphy.
- 3629. T. A. Boyd, H. A. Boyd and J. & T. Boyd, Ld. Improvements in and relating to controlling of the unwinding of yarns from hanks carried on reels.

### April 12.

- 8680. J. Fluker. Improvements relating to fire extinguishers.
- 8631. Coalite, Ld. Improvements relating to apparatus for discharging coke.
- 3632. Coalite, Ld. Improvements relating to the destructive distillation of carbonaceous substances.
- 3633. S. C. Pal. Heat economising and regulating kiln.
- 3634. N. N. Mitra. Valveless differential rotary piston.
- 3685. W. H. Tripp. A turning and tilting indicator for aeroplanes.

### APPLICATIONS ACCEPTED AND ADVERTISED UNDER SECTION 6.

Notice is hereby given that all persons interested in opposing the grant of a Patent on any one of the applications, referred to below, may, at any time within three months of the date of this Gasette of India, give notice at the Patent Office in the prescribed form No. 5 of such opposition.

Printed copies of the specifications in the following list will be on sale at the Patent Office, 1, Council House Street, Calcutta, within about three weeks.

Any one desiring a copy posted to an address in British India should send to the Patent Office the sum of annas eight by money-order on which the number of the application should be stated on the coupon at the foot of the order.

- 3538. Maharaja Madho Rao Scindia. Improvements in and relating to reclining chairs.
- 3579. F. Jacob. Improvements in or relating to insulated electric conductors or cables.
- 3586. G. A. Julius. Improvements in race totalisators.
- 3588. F. H. Dutton. Improvements in connection with light railways.
- 3589. K. T. Hing & Brothers. Improvements in or relating to jointed stays for ambulance stretchers, carriage hoods and the like.

### PRINTED SPECIFICATIONS PUBLISHED.

Printed copies of the undernoted specifications may be purchased at the Patent Office, 1, Council House Street, Calcutta, annas eight each.

- 8172. Holt Manufacturing Co. Improvements in self-laying track vehicles.
- 3453. E. A. Powell. Improvements in railway points safety locks.
- 3549. Techno-Chemical Laboratories, Ld. Improvements relating to methods of conducting high temperature reactions.
- 8551. J. A. Main. Improvements in and relating to concrete slabs for roofing and similar purposes.
- 3552. H. L. Harding. Improvements relating to elastic or resilient tyres for vehicle
- 8554. C. S. Wakefield. Improvements in temporary or portable buildings and the like.
- 3556. C. A. Hallback. Two stroke cycle internal combustion engine.
- 8558. Marconi Wireless Telegraph Co. of America. Improvements in process and apparatus for receiving radio signals.
- 8560. Burma Oil Co., Ld. Improvements in or relating to closures for petrol and the like drums.

### SEALING FEES DUE UNDER SECTION 10.

Notice is hereby given that a patent may now be sealed on the application referred to below. If it is desired that a patent should be sealed, a request on the prescribed form No. 7, accompanied by the fee, #80, should be sent to the Controller of Patents, 1, Council House Street, Calcutta.

3108. Indra Shanker, Shiam Lal and Bankey Lal.

### PATENTS SEALED.

2843. Burgess. 3128. Turner. 3136. Rowlands. 3365. Billinton.

3384. Flint and Brown.

### RENEWAL FEES PAID.

346 of 1906. Lock. (To 10 April 1919.)

131 of 1907. Chloride Electrical Storage Co., Ld. (To 19 April 1919.)

485 of 1907. Wood and anr. (To 30 May 1919.)

108 of 1908. Fessenden. (To 24 April 1919.)

189 of 1908. Lamson Paragon Supply Co., Ld. (To 22nd June 1919.)

213 of 1908. Stuart. (To 2 July 1919.)

31 of 1909. Foden and ors. (To 4 March 1919.)

253 of 1909. Hesselman. (To 1 July 1919.)

512 of 1909. Wakefield. (To 22 March 1919.)

516 of 1909. Hazen. (To 9 May 1919.)

566 of 1909. Petermann. (To 9 May 1919.)

694 of 1909. Watson. (To 16 February 1919.)

158 of 1910. Yeo and ors. (To 3 May 1919.)

466 of 1910. Wakefield. (To 4 April 1919)

489 of 1910. "Captain" Motor Wheel Co., Ld. (To 7 April 1919.)

568 of 1910. Leeds Forge Co., Ld., and anr. (To 11 April 1919.)

106 of 1911. International Precipitation Co. (To 6 April 1919.)

158 of 1911. Feuillette. (To 13 October 1919.)

194 of 1911. Grob. (To 9 April 1919.)

474 of 1911 Bell and anr. (To 13 March 1919.)

487 of 1911. Hill. (To 9 April 1919.)

601 of 1911. Bell and anr. (To 13 March 1919.)

724 of 1911. Packman. (To 25 March 1919.)

769 of 1911. Lumiere. (To 11 October 1918.)

801 of 1911. Cook. (To 27 February 1919.)

127 of 1912. Girard and anr. (To 11 March 1919.)

158 of 1912. Skew. (To 26 March 1919.)

165 of 1912. Bille. (To 1 April 1919.)

169 of 1912. Robinson. (To 2 April 1919.)

174 of 1912. Paterson. (To 9 April 1919.)

175 of 1912. Leeds Forge Co., Ld., and anr. (To 9 April 1919.)

177 of 1912. Raitt. (To 9 April 1919.)

180 of 1912. Corthesy and anr. ('To 11 April 1919.)

220 of 1912. Deacon and anr. (To 1 May 1919.)

389 of 1912. J. Stone & Co., Ld. (To 22 July 1919.)

784 of 1913. Dunn Manufacturing Co. (To 24 February 1919.)

821 of 1913. Scott. (To 10 March 1919.)

828 of 1913, Davidson & ors. (To 10 March 1919.)

830 of 1913. Davidson & ors. (To 10 March 1919.)

847 of 1913. Blondel and anr. (To 25 March 1919.)

866 of 1918. Universal Metal Lath and Patent Co. (Incorporated). (To 31 March 1919.)

870 of 1913. Bullock and ors. (To 31 March 1919.)

883 of 1913. Gibb. (To 7 April 1919.)

904 of 1913. Schmidt's Superheating Co. (1910), Ld. (To 21 April 1919.)

985 of 1918. Melamid. (To 9 May 1919.)

941 of 1913. Schmidt's Superheating Co. (1910), Ld. (To 12 May 1919.)

950 of 1913. Tarrant and anr. (To 13 May 1919.)

980 of 1913. Green. (To 9 June 1919.)

```
1485 of 1914. Harris. (To 24 February 1919.)
```

1560 of 1914. Yseboodt and anr. (To 30 March 1919.)

1564 of 1914. W. R. Sykes Interlocking Signal Co., Ld., and anr. (To 31 March 1919.)

1580 of 1914 Gayner. (To 8 April 1919.)

1584 of 1914. Paterson. (To 9 April 1919.)

1585 of 1914. Paterson. (To 9 April 1919.)

1587 of 1914. Ridley. (To 14 April 1919.)

1588 of 1914. Societe Anonyme pour L'Exploitation, etc., etc. (To 14 April 1919.)

1592 of 1914. (Mrs.) Harrison. (To 14 April 1919.)

### EXTENSION OF COPYRIGHT IN DESIGN.

Class 1. No. 475. The British Mannesmann Tube Co., Ld., Salisbury House, London Wall, London, E. C. April 5, 1913. (Copyright in design extended for five years.)

### DESIGNS ENTERED ON THE REGISTER.

April 8th to 15th, 1918.

- Class 13. Nos. 7226 and 7227. Sham Lal Kunji Lall Sadh, Sadhwara, Farrukhabad. March 12, 1918.
- Class 13. Nos. 7229 to 7241. Sham Lall Kunji Lall Sadh, Sadhwara, Farrukhabad, U. P. April 9, 1918.
- Class 13. Nos. 7242 to 7271. The Calico Printers' Association, Ld., St. James's Buildings, Oxford Street, Manchester, England. April 9, 1918.

### NOTICES.

### THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

### Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

- 1. All communications relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.
- 2. Directions for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. These should be consulted before an application is made to the Controller.

- 3. Advice. The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made to the patent offices in the countries concerned.
- 4. Fees are payable in cash and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.
- 5. Trade and property marks and names are not registered and medicines are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with pictures, photographs, etc., for which copyright is obtainable under the Indian Copyright Act, 1914.
- 6. Printed Specifications of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the Gazette of India. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

H. G. GRAVES,

### BOARD OF EXAMINERS.

### NOTICES.

### Text-books, etc., for sale.

List of text-books, etc., prescribed for the examination (other than departmental) of Civil and Military officers in oriental languages (Urdu, Persian, Arabic, Hindi, Sanskrit, Assamese, Bengali and Uriya), together with annual collections of Specimens of Examination Papers, obtainable from the Board of Examiners, Calcutta, can be had from the Secretary, Board of Examiners, Calcutta.

### Persian and Arabic Instructors.

Two fully qualified instructors, natives of Persia and Arabia, respectively, are maintained by the Government of India, for the convenience of officers wishing to study Persian and Arabic. The services of these instructors may be obtained in Calcutta, on application to the Secretary, Board of Examiners.

### Qualified Urdu Teachers.

CALOUTTA, The 13th February 1918. O. F. JENKINS,

R.a

Secretary and Member, Board of Examiners.

### SULPHATE OF QUININE, SULPHATE OF CINCHONIDINE, CINCHONA FEBRIFUGE, RESIDUAL ALKALOID AND QUINOIDINE.

Manufactured at the Bengal Government Cinchona Plantation.

These articles are guaranteed to be free from wilful admixture with other Cinchona Alkaloids. Quinine can be purchased by Government officers, District and Local Boards for Hospitals and Dispensaries in the Provinces of Bengal, Bihar, Punjab and Assam on indents duly countersigned by the Civil Surgeon of their Districts. It can also be purchased by Missionaries for bond fide public purposes. It is never sold to private persons or firms. Cinchona Febrifuge both in powder and 3½ grain tablet forms and Cinchonidine can be purchased by Government officers and the general public. It is also sold by the Principal Druggists in Calcutta. Quinoidine or pure Amorphous Alkaloid and Residual Alkaloid or Amorphous Cinchona Alkaloid, which contains about 40 per cent of Pure Amorphous Alkaloid, are for sale to Missionaries and Government Institutions only. These drugs are sold strictly cash and in advance but private purchasers may use 'the V. P. P. system, AND ARE OBTAINABLE FROM THE SUPERINTENDENT, JUVENILE JAIL, ALIPORE.

The rates for these drugs from 1st April 1918 are as follows:—

### SULPHATE OF QUININE.

### THE HON'BLE THE CHIEF COMMISSIONER OF BRITISH BALUCHISTAN.

### NOTIFICATIONS.

### DRAFT MORPHIA RULES.

### Quetta, the 6th April 1918.

No. 1326-R.—In exercise of the powers conferred by sections 5 and 13 of the Opium Act, 1878 (I of 1878) and with the previous sanction of the Governor General in Council, the Chief Commissioner of British Baluchistan is pleased to make the following rules to regulate the manufacture, possession, import, export, transport and sale of morphia drugs in British Baluchistan.

- 1. These rules may be cited as the British Baluchistan Morphia Rules, 1918.
- 2. In these rules, unless there is something repugnant in the subject or context,-
  - (a) "The Act" means the Opium Act, 1878.
  - (b) "Approved practitioner" means-
    - (i) any person registered as a medical practitioner under the Medical Act, 1858, and any Act of Parliament amending the same, or under any law for the registration of medical practitioners for the time being in force in any part of British India, or
    - (ii) any person registered as a dentist under the Dentist's Act, 1878, and any Act of Parliament amending the same, or
    - (iii) any person possessed of qualifications which render him eligible for registration as a medical practitioner or dentist, as the case may be, under the Medical Act, 1858, the Dentist's Act, 1878, and any Act of Parliament amending the same Acts, or under any law for the registration of medical practitioners or dentists for the time being in force in any part of British India, and approved by the Collector for the purpose of these rules, or of corresponding rules for the time being in force in any part of British India.
    - (iv) any other person engaged in medical or veterinary practice and approved by the Chief Excise Authority for the purpose of these rules or of corresponding rules for the time being in force in any part of British India.
  - (c) "Chief Excise Authority" means the Revenue Commissioner in Baluchistan.
  - (d) "Collector" means the chief officer in charge of the revenue administration of a district for the time being, and includes any officer specially authorised by the Local Government or Chief Excise Authority to exercise throughout the province or in any specified area therein all or any of the powers of a Collector under these Rules.
  - (e) "Licensed dealer" means a person who has obtained a license under these rules for the manufacture, possessien and sale otherwise than on prescription of morphia drugs.
  - (f) "Licensed chemist" means a person who has obtained a license under these rules for the manufacture, possession and sale on prescription of morphia drugs.
  - (g) " Local Government" means the Chief Commissioner of British Baluchistan,
  - (A) "Morphia drug" includes all alkaloids of opium and their salts, and preparations containing any of these articles.
  - (i) "Prescription" means a prescription given by an approved practitioner for the supply of morphia drugs to a patient.
  - (f) "Province" means the territories for the time being administered by Chief Commissioner of British Baluchistan.
  - (k) "Import," "export" and "transport" have the same meaning as in the Act: provided that import into and export from British Baluchistan from and to the territories administered by the Agent to the Governor-General in Baluchistan as such Agent, shall be deemed to be transport.

### 11. Manufacture.

- 3. A licensed dealer or chemist may, subject to the conditions of his license, manufacture morphia drugs from opium or morphia drugs lawfully possessed by him.
- 4. A licensed chem ist may, subject to the provisions of rule 20, dispense morphia drugs on prescription

### III. Possession.

- 5. Any person may possess such quantity of morphia drugs as has been at one time dispensed and sold for his use in accordance with the provisions of rules 4 and 20, or of corresponding rules for the time being in force in any part of British India.
- 6. An approved practitioner may possess, for his use in his practice but not for sale, morphia drugs not exceeding in the aggregate 120 grains;

Provided that the Collector may, by special order, authorise any such practitioner to possess as aforesaid any larger quantity.

- 7. A person authorised in this behalf by the Collector by an order made under rule 22 may possess such quantity of morphia drugs in such manner as may be specified in such order.
- 8. A licensed dealer or licensed chemist may possess such quantity of morphia drugs in such manner as may be specified in his license.
- . 9. A person to whom a pass has been granted under these rules for the import, export or transport of morphia drugs may possess such quantity of morphia drugs in such manner as may be specified in his pass.

### IV. Import, emport and transport.

- 10. Any person may import, export and transport such morphia drugs as he may lawfully possess under rule 5.
- 11. An approved practitioner may import, export and transport such morphia drugs as he may lawfully possess under rule 6.
- 12. A person authorised in this behalf by the Collector by an order made under rule 22 may import such quantity of morphia drugs in such manner as may be specified in such order, on an indent countersigned by a Chief Medical Officer or Civil Surgeon or Superintendent of the Civil Veterinary Department.
- 13. A person to whom a pass has been granted under these rules for the import of morphia drugs may import such quantity of morphia drugs in such manner as may be specified in his pass.
- 14. When a pass has been granted (a) under the rules for the time being in force in any part of British India outside the province, or (b) by the Resident or Political Agent in any Native State or Foreign Territory to bring morphia drugs from the province into such part, State or Territory and when such pass has been countersigned by the Collector in accordance with these rules, a licensed dealer may, subject to the conditions of his license, export such quantity of morphia drugs in such manner within such period and by such route as may be specified in such pass.

An indent for morphia drugs countersigned by a Chief Medical Officer or Civil Surgeon or Superintendent of the Civil Veterinary Department shall for the purposes of this rule be deemed to be a pass, and shall not require further countersignature.

- 15. A person authorised in this behalf by the Chief Excise Authority by a special order made under rule 28 may export such quantity of morphia drugs in such manner as may be specified in such order.
- 16. A person to whom a pass has been granted under these rules for the transport of morphia drugs may transport such quantity of morphia drugs in such manner as may be specified in his pass.
- 17. Every person importing, exporting or transporting morphia shall comply with such general or special directions as may be given by the Chief Excise Authority.
  - 18. Nothing in these rules shall be deemed to permit.
  - (1) the import of morphia drugs—
    - (a) from any part of British India outside the province, unless the rules for the time being in force in such part relating to the export of morphia drugs have been complied with,
    - (h) from any foreign territory, unless the duty leviable at the place of importation under the Indian Turiff Act, 1894, or any other enactment for the time being in force, has been paid, and the pass has been endorsed by the Customs Collector.
  - (2) the import, export or transport of morphia drugs by post.

### V. Sale.

- 19. A licensed dealer may, subject to the conditions of his license, sell, otherwise than on prescription,
  - (a) to a dealer or chemist licensed under these rules or under the rules for the time being in force in any part of British India outside the province,
  - (b) to an approved practitioner,
  - (c) to a person authorised under rule 22 of these rules or under any corresponding rule for the time being in force as aforesaid,

morphia drugs not exceeding the quantity which such dealer, chemist, practitioner or person may lawfully possess. He shall maintain a written record of every such sale in such manner as the Chief Excise Authority may direct.

- 20. A licensed chemist may sell morphia drugs on prescription, subject to the following conditions, namely:—
  - (a) He shall sell morphia drugs in such quantity and for the use of such person only as may be specified in the prescription.
  - (b) If the prescription does not bear a superscription by an approved practitioner stating that it is to be repeated, and at what interval of time it is to be repeated, and how many times it is to be repeated, he shall sell morphia drugs once only on such prescription, and shall retain the prescription; provided that he shall first warn the person presenting the prescription that unless it bears such a superscription as aforesaid it will be retained.
  - (c) If the prescription bears a superscription as aforesaid, he shall enter on the prescription the date of sale and shall sign or seal the prescription; provided that if it appears that morphia drugs have already been sold on the prescription six times, or such number of times as the prescription is required to be repeated, or that the interval specified in the superscription has not elapsed since the prescription was last dispensed, he shall not sell morphia drugs on such prescription unless it is further superscribed in that behalf by an approved practitioner.
  - (d) Any other conditions that may be contained in his license.

He shall maintain a written record of every such sale in such manner as the Chief Excise Authority may direct.

### VI. Approval, authorisation, licenses and passes.

- 21. (1) The Chief Excise Authority may approve, for the purposes of rule 2 (b) of these rules, any person engaged in medical or veterinary practice.
- (2) The Collector may in like manner approve any person possessed of the qualifications specified in rule 2(b) (iii).
- 22. The Collector may, with the sanction of the Chiof Excise Authority by general or special order authorise any approved practitioner in managing or supervising charge of a hospital or dispensary to possess, import and transport such quantity of morphia drugs in such manner as may be specified in such order.
- 23. The Chief Excise Authority may by special order authorise any person to export morphia drugs.
- 24. (1) An officer empowered in this behalf by the Chief Excise Authority may grant to any person a dealer's license, permitting him to manufacture, possess and, subject to the provisions of rule 19, to sell morphia drugs.
- (2) An officer empowered in this behalf by the Chief Excise Authority may grant to any person a chemist's license, permitting him to manufacture, possess and, subject to the provisions of rule 20, to sell morphia drugs; provided that such license shall not authorise such chemist to possess a greater quantity than four ounces of morphia drugs.
- 25. The Chief Excise Authority, or such other officer as the Local Government may empower in this behalf, may grant to any licensed dealer or licensed chemist a pass for the import of morphia drugs not exceeding the quantity which such dealer or chemist may lawfully possess.
- 26. (1) When a pass has been granted (a) under the rules for the time being in force in any part of British India outside the province, or (b) by the Resident or Political Agent in any Native State or Foreign Territory to any person to bring morphia drugs from the province into such part, State or Territory such person shall present such pass to the Collector, who shall enter therein the period for which the pass is to remain in force and the route by which and the person (if any) in whose charge the consignment is to be conveyed and the number and description of the packages, and shall countersign the pass.
- (2) When a pass has been granted to any person under these rules for the import of morphia drugs from foreign territories, such person shall present such pass to the Customs Collector at the place of import, who shall enter therein the particulars specified in sub-rule (1) and shall countersign the pass.
- 27. The Chief Excise Authority or such other officer as the Local Government may empower in this behalf may grant to any licensed dealer or licensed chemist a pass for the transport of morphia drugs not exceeding the quantity which such dealer or chemist may lawfully possess.
- 28. Subject to the provisions of the Act and of these rules, every license or pass under these rules shall be in such form and shall contain such particulars, and shall be granted by such officer, on payment of such fees, for such period, and subject to such conditions, as the Chief Excise Authority may direct.

- 29. (1) Subject to any directions that the Chief Excise Authority may give in this behalf, the officer who has granted a license to, or has by order approved or authorised any person under these rules may cancel or suspend such license or order,
  - (i) if such person has,
    - (a) failed to pay any duty or fee payable by him,
    - (b) by himself or by any servant or person acting on his behalf, committed any breach of the conditions of such license or order or of these rules,
    - (c) been convicted of any offence under the Act, or under the law for the time being in force relating to excise revenue, or of any criminal offence,
    - (ii) if it is a condition of such license or order that it may be cancelled or suspended at the will of such officer;
  - (iii) in any other case, after giving to such person fifteen days' notice, and shall cancel such license or order within fifteen days on receiving from such persons notice that he desires to surrender the same.
- (2) When such license or order has been cancelled or suspended as aforesaid, such person shall forthwith make over to the Collector all morphia drugs in his possession.

### VII. Disposal of morphia drugs and confiscated articles.

- 30. The Collector shall cause all morphia drugs confiscated under the Act or delivered to him under rule 29 to be examined by the Chemical Examiner or by such other officer as the Chief Excise Authority may direct. If any such morphia drugs are certified by such officer to be fit for use the Collector may sell them to any dealer or chemist licensed under these rules or under any rules for the time being in force in any part of British India or to any person authorised by an order under rule 22 or any corresponding rules in force as aforesaid. The Collector may require any licensed dealer or chemist to purchase at such price as the Collector may direct any quantity of such morphia drugs not exceeding such quantity as the Collector may determine to be ordinarily saleable by him in two months. If any such morphia drugs are certified as aforesaid to be unfit for use, the Collector shall cause them to be destroyed.
- 31. The Collector shall dispose of all other things confiscated in connection with any offence relating to morphia drugs in such manner as he may think fit.

### VIII. Issue of subsidiary orders.

32. Subject to the provisions of the Act and of these rules, the Chief Excise Authority may from time to time give such directions as it may think fit for the purpose of carrying out the provisions of the rules.

### IX. Powers and duties of officers, appeals and revisions, and rewards.

33. The provisions contained in the rules relating to opium issued by the Local Government under sections 5 and 13 of the Act, shall, in so far as they refer to the powers and duties of officers, appeals and revisions and rewards, apply to the case of morphia drugs also.

### X. Exemplione.

34. The preparations specified in the annexed schedule may be transported, imported, exported, possessed and sold without restriction, provided that their import by sea shall be permitted only by means other than that of the post.

### SCHEDULE.

- 1. Anodyne Pine Expectorant.

### HON'BLE THE CHIEF COMMISSIONER IN BALUCHISTAN,

### NOTIFICATION.

### Quetta, the 12th April 1918.

- No. 1416-R.—In exercise of the powers conferred on him by Sections 9, 16, 17, and 62 (2) (d) of the Excise Regulation No. I of 1915, the Hon'ble the Chief Commissioner is pleased to prescribe the following rules regulating the possession and sale of denatured spirit in British Baluchistan:—
- 1. Denatured spirit is spirit rendered effectually and permanently unfit for human consumption by the admixture of caoutohoucine or other substances in accordance with the rules prescribed on the subject.
  - 2. The spirit shall not be of less strength than 50 per cent over proof.
- 3. License in form D. S. I. will be issued free of charge for the sale of denatured spirits to respectable applicants on their showing that they have a legitimate demand for such spirit but on no account shall it be issued to persons licensed to sell liquor for consumption on the premises.
  - 4. The licensee shall be subject to the following conditions:
    - (a) The licensee shall not have in his possession at any one time denatured spirits in a quantity in excess of 100 gallons.
    - (b) The licensee before selling any denatured spirits to any purchaser shall use all reasonable diligence to ascertain the quantity already in the purchaser's possession and shall not at one time sell to him more than one gallon or such smaller quantity as, together with what is, or in good faith is believed to be, in the buyer's possessions, will amount to one gallon.

Provided that the licensee may sell quantities greater than one gallon :-

- (i) to persons licensed to sell denatured spirits and
- (ii) to persons holding license in forms D. S. II. authorizing them to possess such spirits for the purpose of their business.
- (c) The licensee shall procure his supplies of denatured spirits either by direct importation from beyond sea, or by removal from licensed distilleries after obtaining the permit in form D. S. III. or by purchase from other vendors licensed to sell denatured spirits.
- (d) The licensee shall under no pretext whatsoever attempt the admixture of denatured spirits.
- (e) The licensee shall constantly exhibit a sign board at his place of vend bearing his name and the words "licensed vendor of denatured spirits".
- (t) The licensec shall keep a correct daily account of his transactions in the form given in his license.
- (g) The infraction of any of the conditions of the license shall render the licensee liable to forfeiture of his license without prejudice to any other penalty to which he may be liable under the Excise Regulation I of 1915 or other law or rules for the time being in force.
- (h) The license shall also be revocable by the Collector, for any others cause on giving 15 days notice of such revocation.
- 5 Similar license in form No. D. S. II. will be issued to chemists and others who for special reasons require denatured spirits, on their undertaking to use the spirits, for the purpose specified and no other.
- 6. Subject to the condition contained in clause (4) of rule (4) licenses may be granted for periods of which the currency is not determined, but it shall be in the discretion of the Collector by entry made in the license to limit the period of currency of any license to one financial year or such part of one as may remain at the time of the grant of the license.
- 7. Provided that the Collector may reject any application or refuse to renew any license on the ground that the applicant is not a fit person or that a sufficient number of licenses have already been granted in the neighbourhood or for any other sufficient reason.
- 8. Unlicensed persons are prohibited from selling denatured spitits and from possessing more than one gallon at a time.

By order,
R. CHFNEVIX TRENCH,
Secretary.

### FORM D. S. I.

### LICENSE FOR THE SALE OF DENATURED SPIRITS.

- Collector	ofhereby
license you to sell denature	d spirits at your shop at
subject to the following conditions and stipulations t	be observed by you the said-

### CONDITIONS.

- 1. This license only extends to the ale of denatured spirits, which means spirits which have been rendered effectually and permanently unfit for human consumption by the admixture of caoutchoucine and other substances in accordance with the rules prescribed on the subject.
  - 2. No more than 1 gallon of methylated spirits shall be sold at any one time to any one person.

The spirit shall not be of less strength than 50 per cent. over proof.

- 3. The shop for which this license is granted shall not be kept open between the hours of 9 p.m. and 7 a.m.
- 4. Every bottle, jar and cask containing denatured spirits, received into or kept for sale in the shop, shall be conspicuously labelled or branded with the word "made and denatured in India," or "made in \_\_\_\_\_\_ and denatured in India" or "made and denatured in \_\_\_\_\_ "as the case may be.
- 5. The shop shall not be located in the same building with a foreign liquor tavern, refreshment-room, hotel or other shop, for sale of intoxicating liquor for consumption on the premises.
  - 6. This license shall be hung up in a conspicuous place in the shop.
- 7. At the entrance of the shop a signboard shall be put up inscribed with the name of the license-holder and the designation "Licensed retail vendor of denatured spirits."
- 8. The privilege of vend of denatured spirits shall not be sold, transferred or sub-rented.
- 9. A correct account shall be kept of the daily transactions under this license in the following form:—

Date.	Opening balance.	Quantity received.	Source of supply.	Total quantity in hand and receiv-	Quantity rold (each transaction).	Name of purchaser.	Address of purcha-	Total quantity sold each day.	REMARIS.

# 'GOVERNMENT OF INDIA. DEPARTMENT OF COMMERCE AND INDUSTRY.

### TARIFF VALUATION OF SUGAR.

The following statement shows in respect of each of the descriptions of sugar distinguished in the Tariff Schedule II (excepting molasses and all other kinds of sugar), first, the total imports into India in the month of March 1918, and the average value per owt. as calculated on the returns received from the Customs Houses; and, secondly, a running total showing the total imports into India since the beginning of the year (1st October to 30th September) and the average net value per cwt. so far established. It is published in conformity with the procedure laid down in Customs Circular No. V of 1911, in order to enable merchants to compute the probable rate of duty for the year 1919:—

		Descrip	tion	of sugar.	MORTH	DUBIES THE OF MARCE 018.	· Імровтва Остові	stron lar na 1917.

This revised classification has been adopted with effect from January, 1918, in accordance with the classification of Japanese Sugar in item No. 18 of the Import Tariff rehedule prescribed by the Government of India, Department of Commerce and Industry, Notification No. 1647-D., dated the 15th December 1917.

The imports of Sugar from Japan during the three months October to December, 1917, were 2,691 ewt., and the average value per ewt. was 217-8.

H. A. F. LINDSAY.

Director-General of Commercial Intelligence.

A. H. LEY,

Becretary to the Government of India.

CALCUTTA:

The 17th April 1918.

### WHEAT PRICES IN INDIA

RETURN SHOWING THE WHOLESALE AND RETAIL PRICES OF WHEAT IN INDIA PROM THE SECOND HALF OF JULY, 1914, TO THE FIRST HALF OF MARCH, 1918.

#### CALOUTTA, APRIL 5, 1918.

#### Supplementary Memorandum on the WHEAT GROP of 1917-18 (for the period ending 31st March.)

Since the publication of the Second Wheat Forecast on March 13, 1918, revised estimates of area have been received from the United Provinces, the Central Provinces and Berar, and the North-West Frontier Province. The total revised area for All-India thus stands at 34,688,000 acres, as against 34,469,000 acres reported in the Second Forecast.

The recent rainfall has improved the condition of the unirrigated crop which was suffering through drought. The condition of the irrigated crop continues to be good.

Area on 31st March, 1918.

Provinces and States	Area re- ported in 2nd fore- cast, 1917-18 published on March 18, 1918	Present Estimates 81st March 1918	Increase + as compared with 2nd forecast

Mysore	4,000	4,000	•••
Total .	34,469,000	34,688,000	+ 219,000

Harvesting has not yet begun in the Punjab, the North-West Frontier Province, Delhi, and Ajmer-Merwara; it has just commenced in Sind; in the eastern and southern districts of the United Provinces and in Bihar and Orissa, it is in full awing; in the Central Provinces and Berar, in the Bombay Presidency and in Bengal it is approaching completion. Threshing has begun in the Central Provinces and Berar, and also in Bihar and Orissa, and is in full swing in the Bombay Presidency and Bengal.

The provincial reports are summarised below:—
Punjab.—There has been no change in the estimate of area sown. Some rain fell in the unirrigated tracts in the beginning of March, and general rain was received in the second half of that month, the fall being heavy in the sub-montane

tracts. The rainfall has improved the prospects of the crop, and it would have been more beneficial had it been earlier. The irrigated crop is good. Harvesting will begin by the middle of this mouth. This is slightly later than usual on account of late rains. The prospects of yield are satisfactory on irrigated areas, where the average outturn is estimated at 105 per cent of the normal, and fair on unirrigated areas, where the cutturn is estimated at 85 per cent of the normal.

United Provinces.—According to the latest returns received from village accountants, the total area amounts to 7,193,000 acres, which is 143,000 acres more than that reported in the previous forecast. There was some rain with hail in the western districts towards the end of March, causing damage to the crop in places. Harvesting is in full swing in the eastern districts and in Bundelkhand. The average outturn is estimated at 90 per cent of the normal. The condition of the irrigated crop is good, but the unirrigated crop, especially in Bundelkhand, is turning out somewhat poorer than was anticipated.

Central Provinces and Berar.—The area sown in the British districts is now estimated at 3,848,000 acres, which is about 2 per cent above the estimate made in the second forecast. The estimate for the Native States of Khairagarh and Nandgaon remains unchanged (132,000 acres). The combined area comes to 3,980,000 acres, as against 3,908,000 acres reported in the Second Forecast. The weather has been cloudy and universally cool for this season. In the last week of February and in March light showers were received in most districts. Harvesting is approaching completion, and threshing has begun. The average yield for the British districts is estimated at about 80 per cent of the normal, while that in Nandgaon and Khairagarh is estimated at 100 and 85 per cent, respectively.

Bombay and Sind.—No change has been reported in the estimate of area sown. In the Presidency harvesting is almost completed and threshing is in full swing. The average outturn is estimated at normal in Gujarat, above or about normal in the three northern districts of the Deccan and 65 to 85 per cent clsowhere. In the Karnatak the crop is expected to be 75 to 85 per cent of the normal. In Sind the crop is doing fairly well, and harvesting has commenced on the Jamrao Caual. The yield is not likely to be heavy.

Bihar and Orlssa.—No change has been reported in the estimate of area sown. The crops suffered owing to want of winter rains. Harvesting continues, and is likely to be completed by the end of this month. Threshing has commenced but is not yet in full awing. The yield is not satisfactory. The average outturn is conditionally estimated at about 90 per cent of the normal.

North-West Frontier Province.—The total area is now estimated at 1,218,000 acres, which is 4,000 acres more than the second forecast estimate. Rain has recently fallen throughout the province, greatly benefiting the standing crop, especially on unirrigated areas, although there has been some damage in parts owing to excessive rainfall. Harvesting is not

The unirrigated area under wheat is, on the average of the five years ending 1915-16 about 49 per cent of the total wheat area in the Punjab, 51 per cent in the United Provinces, and 72 per cent in the North-West, Frontier Provinces.

merally undertaken before the end of April. The verage outturn is expected to be about normal, cospt in the Kohat district.

Bengal.—No change has been reported in the timate of area sown. The growth of the crop has sen greatly affected owing to the absence of rain roughout the cold weather. Harvesting comenced about the middle of March and is expected be completed in most places by the middle of its month. Threshing is in full awing. The ports of yield are generally unsatisfactory except Birbhum, Bankura, and Midnapore, where the eld is reported to be good. The average outturn estimated at 70 per cent of the normal.

Delhi.—No change has been reported in the timate of area sown. The present condition of its standing irrigated crop is good, and that of nirrigated crop average.

Ajmer-Merwara.—No change has been reported the estimate of area sown. There has been no

damage to crops. Harvesting has not yet commenced. The average outturn is estimated at 75 per cent of the normal.

Wheat in Foreign Countries.—From unofficial sources it appears that drought in the south-western region of the winter wheat belt in the United States of America is now over. Texas has had good rains, and elsewhere snow has fallen, in some parts very heavily. In Canada reports of autumn ploughing are not favourable. Fine favourable weather is prevailing in the Argentine; reports of northern crop are very good, and the total exportable surplus is estimated at 3,000,000 to 3,500,000 tons. In Australia the total crop is estimated at 3,214,000 tons, and the exportable surplus at 2,143,000 tons. In France there is an increase of 700,000 acres in area under wheat this year and it is hoped that there will be a further increase as the result of spring sowings; the appearance of the crop is reported to be magnificent.

G. FINDLAY SHIRRAS.

## CUSTOMS.

## The 26th April, 1918.

No. 2395.—In exercise of the power conferred by section 19 of the Sea Customs Act, 1878 (VIII of 1878), as amended by Act XII of 1914, the Governor-General in Council is pleased to prohibit the bringing, by sen or by land, into British India of any copy of the pamphlet entitled 'Demand of India for Self Government' published by the Central Committee of the Indian Muslim Patriots League, Stockholm, and printed by Hj. Brolins Boktryckeri, Stockholm.

## POST AND TELEGRAPH ESTABLISHMENTS.

## The 27th April, 1918.

- No. 2033.—Sir William Maxwell, K.C I.E., M V.O., I.C.S., Director General of Posts and Telegraphs, is granted such privilege leave as may be due to him on the afternoon of the 25th March 1916, in combination with special leave on urgent private affairs of such duration as will bring the whole period of his absence up to six months.
- Mr. G. R. Clarke, O.B.E., I.C.S., Postmaster General, 1st grade, is appointed to officiate as Director General of Posts and Telegraphs, with effect from the afternoon of the 25th March 1918 and until turther orders.
- No. 2232.—The following officiating and temporary promotions in the higher grades of the Superior establishment of the Indian Telegraph Department are sanctioned, with effect from the dates specified:—
- Mr. M. A. Thompson, Deputy Director General, Telegraph Traffic, is appointed to officiate in the grade of Rs. 2,000 with effect from the 19th February 1918, and to act temporarily in that grade, with effect from the 19th May 1918.

A. H LEY,

Secretary to the Government of India.

#### DEPARTMENT OF EDUCATION.

#### NOTIFICATIONS.

## SANITARY.

Simla, the 20th April, 1918.

- No. 125.—In modification of the Education Department Notification no. 549, dated the 17th December 1917, Major F. Norman White, CIE., MD., I.M.S., is appointed to be Santary Commissioner with the Government of India substantively pro tempore with effect from the date on which he relinquishes charge of his office as Assistant Director General, Indian Medical Service (Sanitary), and until further orders.
- No. 127.—Major R. A. Needham, D S.O., I.M.S., Assistant Director General, Indian Medical Service (Stores), is appointed to be Assistant Director General, Indian Medical Service (Sanitary), with effect from the date on which he assumes charge of the latter office.

#### GENERAL.

## The 26th April, 1918.

F. NORMAN WHITE, MAJOR, I.M.S.,

Sanitary Commissioner with the Government of India.

E. D. MACLAGAN, Secretary to the Government of India.

## GOVERNMENT OF INDIA.

## DEPARTMENT OF REVENUE AND AGRICULTURE.

- Rainfall summary for the seven days ending at 8 hrs. on Thursday, the 25th April 1918, based on the Indian Daily Weather Reports of the period.
- 1. Bainfall occurred almost every day in northeast India with occasional extensions into Burma, and a few falls were reported from Mysore and south Madras. A depression from the west gave some rain in the extreme north of India.
- 2. Burma.—Rainfall was nearly general in north Burma on the 20th and in Tenas-serim on the 24th.

Northeast India, including Orisse.—Nearly general rain fell in Assam on the 19th and 20th, in deltaic Bengal on the 18th and 19th, and in east Bengal on the 20th. There were local falls in Bihar.

The United Provinces, Central India and the Central Provinces. - Weather was dry.

Northwest India.—There was nearly general rain in Kashmir on the 22nd, 23rd and 24th. Local falls occurred in the North-West Frontier Province, northeast Baluchistan, and the central and north Punjab.

The Peninsula. - A few falls of rain were reported from south Madrae and Mysore.

- 3. The chief amounts of rainfall reported were as follows:-
  - April 18th. Dhubri 2.78", Silchar 1.14", Barisal 2.60", Jessore 0.94" and Calcutta 4.28".
    - ,. 19th. Dhubri 1.03", Shillong 1 61" and Jessore 1.16".
    - ,, 20th. Mergui 121", Akyab 8.82", Dhubri 1.54", Cox's Bazar 2.55", Chittagong 1.43", Narayanganj 2.50" and Jessore 1.12".
    - ,, 21st. Victoria Point 1-82" and Barisal 0-92".
    - , 22nd. Burdwan 1.27" and Mysore 1.49".
    - , 23rd. Sonamarg 1.65".
    - " 24th. Tavoy 1.95" and Purnea 1.45".
- 4. The week's rainfall was 20 per cent or more in excess in Lower Burma, Bengal, Bihar, Kashmir and Mysore; and 20 per cent or more in defect in the Bay Islands, Orissa, Chota Nagpur, the United Provinces, the Punjab Southwest, Baluchistan, Rajputana East, Central India, Berar, the Central Provinces, the Konkan, the Bombay Deccan, Hyderabad and the Madras Presidency No rain usually falls at this time of year in Sind, Rajputana West and Gujarat; in the remaining divisions rainfall was normal.

The rainfall from the 30th November to date is 20 per cent or more in excess in Lower Burms, the Punjab East and North, and Myeore. It is 20 per cent or more in defect in Upper Burms, Assam, Bihar and Orissa, the United Provinces, Rajputana, Gujarat, Central India, Berar, the Central Provinces, the Konkan, the Bombay Deccan, Hyderabad and Malabar; and is within 20 per cent of the normal in the remaining divisions.

GILBERT T. WALKER, Director General of Olser atories. R. A. MANT, Secretary to the Government of India.

SIMBA ; Dated the 25th April 1918.

# GOVERNMENT OF INDIA.

# DEPARTMENT OF REVENUE AND AGRICULTURE.

# Season and Crop Prospects for the week ending Saturday, 20th April 1918.

Burma.—Several districts received rain during the week. In Upper Burms cultivation of spring and summer rice is progressing and reaping of beans and other miscellaneous crops has been completed. In Sagaing sowings of cotton have commenced. Standing crops are in good condition. Cattle are generally healthy. The price of unhusked rice at Rangeon is stationary and is below normal. The market for white rice is dull at Rs. 207 and annas 8 for specials.

Asserm.—The weather during the week was seasonable and favourable. Pressing of sugarcane has been nearly finished. Ploughing for and sowing of autumn and broadcast winter rice and jute and plucking of tea are progressing. Or p prospects are fair to good. Cattle disease is reported in two districts. The price of common rice is practically stationary.

Bengal.—Moderate rain fell during the week almost all over the Province. The fall has greatly helped sowings of autumn paddy and jute which are now in progress. More rain is however wanted in places chiefly in the Rajshahi and Burdwan divisions. Bore paddy and other standing crops are doing fairly well. The average price of common rice for the Province has remained almost stationary with a slightly downward tendency.

Bihar and Orissa.—Light rain was fairly general in Orissa and Chota Nagpur. It was scattered in Bihar. Harvesting of spring crops is approaching completion. Threshing continues. Planting of sugarcane and preparation of lands for the next season's crops are in progress. Standing crops are generally doing well. The price of common rice has risen in seven districts, fallen in three and remained stationary in the remaining districts as compared with that of the preceding week. Cattle disease is reported from eleven districts. The condition of standing crops in the Feudatory States of Orissa is good.

United Provinces.—The week was practically rainless. Harvesting of spring crops has been almost completed in places Threshing and winnowing of spring crops, sowing and irrigation of sugarcane, irrigation of extra crops and weighments of opium continue. Standing crops are doing well and prospects are favourable. Agricultural stock is in good condition and little cattle disease is reported. Fodder and water are sufficient. Market supples are ample. Prices have fallen in sixteen districts, risen in five and are tither stationary or fluctuating elsewhere.

The weekly report on searcity is as follows:—No rain fell during the week. Harvesting of spring crops has commenced. Standing crops are doing fairly well. Cattle disease is reported from same patties. Scarcity has been declared in Garhwal and distribution of gratuitous relief has been sanctioned. Advances for importation of grain are being made. Fodder and water are ample. Prices are stationary.

Punjab.—Light rain has fallen in parts of a few south eastern and western districts. The condition of irrigated wheat and other crops is generally good and that of unirrigated crops average. Wheat and other spring crops are being reaped. The yield is expected to be normal to good on irrigated and normal or below normal on unirrigated areas. Sowings of extra spring crops, sugarcane and cotton continue and are generally normal. Cattle are healthy and fodder is sufficient except in a few districts. Prices have fallen slightly in some districts and range between warning and scarcity rates except in the southeast where they are between normal and warning rates. Price of wheat:—Rawalpindi 7½, Lahore 8½, Ambala 8‡, Lyallpur 9 and Ferozepore 9½ seers per rupce.

North-West Frontier Province.—Local falls of rain have occurred. Sowings of extra spring crops are proceeding normally. Harvesting of spring crops is in progress. Prospects are fair to good. Wheat sells in Peshawar at 8 and in Dera Ismail Khan at 10 seers per rup.e.

Jammu.—Prices are falling and crops are being gathered. No rain fell during the week.

Kashmir.—The week was generally dry but cloudy occasionally. Standing crops are in fair condition. Cattle are generally healthy. Prices are normal.

Rajputana.—The weather has been hot. Hervesting of spring crops is proceeding. Prospects are good. Cattle are in good condition. Fodder and water are sufficient. Prices are steady.

Central India.—No rain fell during the week. Spring crops are being harvested and threshed. Standing crops are in fair to good condition and their probable outturn is fair to good. Agricultural stock is generally in good condition. Scarcity of fodder is reported in some parganas in Gwalior. Prices are high.

Central Provinces.—The weather has been clear and hot. Harvesting of spring crops has been almost completed in several districts and threshing and winnowing are well advanced. Preparation of land for the sowing of ensuing season's crops and repairs to field embankments are proceeding. The estimated outturn of spring crops is poor in Seoni, Itoshangabad, Betul Chhindwara and parts of Nimar and Buldana and fair to good in the remaining districts. The price of wheat shows a slight upward tendency. Just is selling cheaper in Berar. Agricultural stock is in good condition except in Hoshangabad. Fodder is inadequate or dear in parts of Hoshangabad, Saugor, Seoni, Chhindwara and Akola. Agriculturists and labourers are not doing well in parts of Nimar and Yeotmal.

Feudatory States: - Harvesting of spring crops and other Agricultural operations continue.

Bombay.—Standing crops are in good condition except in parts of Karachi, Larkana and Nawabshah where they have been damaged by rise in river and canals. Harvesting of spring crops continues. Picking of cotton is progressing in Gujarat. West Khandesh, the Karnatak, Kathiawar, Baroda, Kolhapur and Rewa Kantha. Agricultural stock is sufficient. Prices of food grains have risen slightly in Sind and the Karnatak and are generally steady elsewhere.

Hyderabad.—The week was rainless. Harvesting is nearing completion. Cattle are healthy. Prices of grains are high and rising. Juar sells at 44 seers per rupes.

Mysore.—The week was slightly wet. Standing crops are in good condition. Harvesting of sugarcane is proceeding with outturn fair. Cattle are generally healthy. Prices are generally stationary.

Coorg.—The weather is cloudy. Coffee blossoms are out. Prices of food grains are high. Cattle are generally healthy.

Madras.—The week was generally rainless. Standing crops are in fair to good condition generally. Harvesting of paddy, sugarcane and dry crops is proceeding with cutturn fair to normal generally. Sowings of paddy, sugarcane and dry crops are proceeding normally. The condition of cattle is generally good. Prices are fairly steady with a slight tendency to rice.

R. A. MANT,

Secretary to the Government of India.

Statement of Approximate Gross Earnings of Indian Railways.

# PUBLISHED BY AUTHORITY.

CALCUTTA, SATURDAY, APRIL 27, 1918.

Separate paging is given to this Part in order that it may be filed as a separate compilation.

# PART II.

Notifications by High Court, Comptroller-General, etc.

# GAZETTE OF INDIA.

# NOTICE.

The 16th March, 1918.

On and after 30th March and until further notice, Parts I, IV, V and VI of the Gazette of India and the Weather and Crop Report will be published in Simla. Parts II and III will continue to be published in Calcutta. All notifications and other matter intended for publication in those Parts should be addressed to the Publisher at

Simla and Calcutta, respectively.

Attention is invited to the following Circular Memorandum of the Government of India, Home Department, of August 1901:—

"It has been brought to the notice of this Department that matter for the Gazette of India is sometimes sent to the Press late on Friday evenings for publication in the next day's Gazette and that this involves considerable inconvenience to the Press and expense to Government. In the Circular Memorandum of this Department, No. 777—79, dated 9th February 1870, the Government of India directed that all notifications or other matter intended for insertion in the Gazette of India should be delivered at the Press not later than 2 p.m. on Friday, and that any papers sent thereafter must be certified to be extremely urgent in order to ensure their appearance in the next day's Gazette. The undersigned is directed to request that these orders may be more strictly observed in future, and that Departments will refrain from sending to the Press as extremely urgent any papers which can without harm or inconvenience be held over for the next Gazette.

J. P. HEWETT,

Secretary to the Government of India."

By order of Government, all subscription must be paid in advance.

Applications for the supply of the Gazette on the public service should be addressed to the Department of the Government of India, Local Government, Head of Department or other officer empowered in this behalf to whom the applicant is subordinate.

Complaints regarding non-receipt of any number of the Gazette should be forwarded

within a week after the date on which it is due.

J. J. MEIKLE. Publisher, Gasette of India.

# THE PATENT OFFICE

# PATENTS and DESIGNS.

Calcutta, the 27th April 1918.

# CORRIGENDUM.

The following entry which appeared in the Notification published by this office in Part II of the Gasette of India, dated the 12th January 1918, under the heading "Cessation of Exclusive Privileges" is hereby cancelled:—

1913-1207. (D'Cunha.)

# APPLICATIONS FOR PATENTS UNDER SECTION 8.

## April 15.

3636. P. d'O. F. d'Herbe. A substitute for petrol.

3637. P. Fraser and J. C. Banerjie. Improvements in cement manufacture.

# April 19.

8638. G. George. Improvements in salt manufacture.

# APPLICATIONS ACCEPTED AND ADVERTISED UNDER SECTION 6.

Notice is hereby given that all persons interested in opposing the grant of a Patent on any one of the applications, referred to below, may, at any time within three months of the date of this Gazette of India, give notice at the Patent Office in the prescribed form No. 5 of such opposition.

Printed copies of the specifications in the following list will be on sale at the Patent Office, 1, Council House Street, Calcutta, within about three weeks.

Any one desiring a copy posted to an address in British India should send to the Patent Office the sum of annas eight by money-order on which the number of the application should be stated on the coupon at the foot of the order.

- 3066. P. C. Saccaggio and F. A. Lagrange. Improvements in or relating to spark arresters.
- 3123. M. Chane. Improvements in apparatus for the production of weft spools or cops on weft ring spinning machines.
- 3487. H. M. Anklesaria. Stove pin.
- 3502. A. Macphail. Revolving platform and winch combined.
- 8517. E. E. Dutt and P. C. Dutt. A process for the manufacture and production of alumina, sodium and potassium aluminates, sodium and potassium carbonates and potassium chloride.
- 3534. E. E. Dutt and P. C. Dutt. A process for the manufacture and production of alumino, sodium and potassium carbonates, sodium and potassium aluminates, magnesia and calcium chloride.
- 3597. J. C. Mahindra. Two cycle opposed piston crude oil engine.
- 3598. D. T. McGregor and M. E. Alpassie. Rotary fan or punkah actuated by gas.
- 3599. E. E. Dutt and P. C. Dutt. A process for the manufacture and production of aluminium-sodium chloride, aluminium chloride and carbonates of soda and potash.

# PRINTED SPECIFICATIONS PUBLISHED.

Printed copies of the undernoted specifications may be purchased at the Patent Office, 1, Council House Street, Calcutta, annas eight each.

- 3430. P. E. Billinghurst. Improved method of extracting potask.
- 3457. Dartnell and Devanayagam & Co. Improved oil press.
- 3459. A. Gafoor. Improvements in portable baths.
- 3505. A. N. Thorpe and E. Beecroft. Improvements in communications between passengers and guards and drivers on railway trains or the like,
- 3527. R. S. Hamilton. Improvements in baskets.

- 3563. L. F. Bullot. Improvements in the preservation of meat and other alimentary substances and in apparatus therefor.
- 3566. Allen Bros. & Co. (India), Ld. A new type of floor or terrace roof for warehouses, godowns, dwelling houses and the like.
- 3568. H. & F. Match Machine Corporation. Improvements in or relating to match making machines.
- 3570. Castner-Kellner Alkali Co, Ld., and J. W. Moore. Improvements in the manufacture of bleaching powder.
- 3573. W. Draper. Improvements in or appertaining to slubbing, intermediate and roving machines and doubling and twisting machines for use in the production of yarns and threads.
- 3574. J. Hellen. Improvements in metal wheels for vehicles.

# SEALING FEE DUE UNDER SECTION 10.

Notice is hereby given that a patent may now be sealed on the application referred to below. If it is desired that a patent should be sealed, a request on the prescribed form No. 7, accompanied by the fee, #30, should be sent to the Controller of Patents, 1, Council House Street, Calcutta.

2824. DeCamp.

# PATENTS SEALED.

2757. General Electric Co.	3321. Balwant Rao.

# NOTICES.

# THE PATENT OFFICE, 1, COUNCIL HOUSE STREET, CALCUTTA.

# Public room, open 11 a.m. to 4 p.m.; Saturdays, 11 a.m. to 1 p.m.

- 1. All communications relating to applications for patents and for registration of designs under the Indian Patents and Designs Act (II of 1911), or in continuation of applications under the Inventions and Designs Act (V of 1888) should be addressed to the Controller of Patents and Designs, 1, Council House Street, Calcutta. Documents sent by post should be carefully packed.
- 2. Directions for the guidance of inventors and others are given in the Patent Office Handbook (price one rupee) which contains the Indian Patents and Designs Act, 1911, the Indian Patents and Designs Rules, 1912, the Indian Patents and Designs (Temporary Rules) Act, 1915, the Indian Patents and Designs (Temporary) Rules, 1915, together with current regulations and instructions. These should be consulted before an application is made to the Controller.
- 3. Advice. The Patent Office cannot undertake (1) to give opinions on the interpretation of Patent Law, or on the advisability of protecting inventions and designs or on their infringement; (2) to make searches in respect of information available in the public room; (3) to recommend any particular agent; or (4) to assist in the disposal of inventions. Applicants are warned that the Indian Patents and Designs Act, 1911, is in force in British India only, and patents granted under it do not extend to the United Kingdom or any of the British possessions. The International Convention for the Protection of Industrial Property does not include India. For information regarding patents in countries other than India applications should be made to the patent offices in the countries concerned.
- 4. Fees are payable in cash and must be received in the Patent Office within the time allowed by the Acts. When cheques are offered in payment of fees, it must be clearly understood that the office cannot hold itself responsible for any delay that may occur in the collection of cash on the cheques; any cheque not payable in Calcutta is subject to commission. In cases where it is not possible to have the fees handed in at the Patent Office, it is preferable to send them by money-order or postal order payable at Calcutta to the Controller of Patents and Designs, and to advise him that they have been so sent. Stamps will not be received in payment of fees.
- 5. Trade and property marks and names are not registered and medicines are not patented under the Indian Patents and Designs Act. There is no provision of Law in British India for their registration. Neither does this Act deal with pictures, photographs, etc., for which copyright is obtainable under the Indian Copyright Act, 1914.
- 6. Printed Specifications of applications, which have been accepted, are published within about three weeks after acceptance has been notified in the Gazette of India. These specifications can be purchased at the Patent Office at a uniform price of 8 annas per copy; and may be seen free of charge, together with other publications of the Patent Office, at the following places:—

AHMEDABAD DAGAHALIA			R. C. Technical Institute. Public Library.	HYDERABAD	•	•	Revenue Department of His High- ness the Nisam's Government.

SUPPLEMENT TO

# The Gazette of India.

No. 17. CALCUTTA, SATURDAY, APRIL 27, 1918.

### OFFICIAL PAPERS.

A SUPPLEMENT to the GAZETTE OF INDIA will be published from time to time containing such official papers and information as the Government of India may deem to be of interest to the Public, and such as may usefully be made known. The debates of the Legislative Council of His Excellency the Governor General will in future be published in Part VI of the GAZETTE.

Non-Subscribers to the GAMMITE may receive the SUPPLEMENT separately on a payment of Rupees five per annum if delivered in Calcutta, or Rupees eight if sent by post. The SUPPLEMENT and PART VI of the GAMMITE can also be subscribed for separately on a payment of Rupees six per annum if delivered in Calcutta, or Rupees nine if sent by post.

No Official Orders or Notifications, the Publication of which in the Gazette of India is required by Law or which it has been customary to publish in the Oaloutta Gazette, will be included in the Supplement. For such Orders and Notifications the body of the Gazette must be looked to.

### FOREIGN SEA-BORNE TRADE DURING MARCH, 1918.

REVIEW of the SEA-BORNE TRADE of BRITISH INDIA for the month of MARCH, 1918, and for the twelve months ended March, 1918.

### FOREIGN COMMERCE.

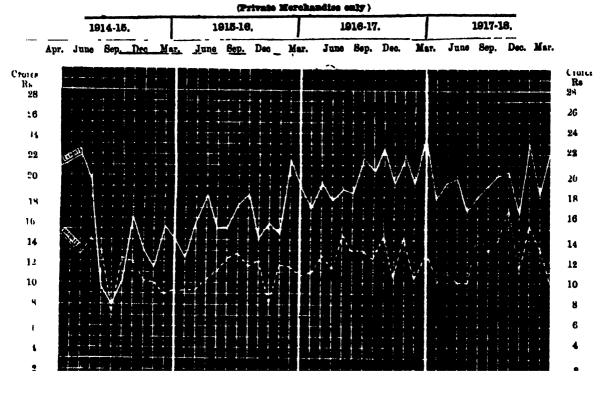

### FOREIGN SEA-BORNE TRADE DURING MARCH, 1918.

The total imports of merchandise in March, 1918, were valued at over R10 crores as against over R18 crores in the preceding month, the value of the exports, including those of wheat, tanned cow hides, and other articles of national importance on Government account, at over R21 crores, as against R17 crores, and the re-exports at R76 lakhs as against R78 lakhs. Imports decreased by 22 per cent, and re-exports by 2 per cent while exports showed an increase of 22 per cent. As compared with March, 1917, imports showed a decrease of 19 per cent, exports of 7 per cent, and re-exports of nearly 2 per cent. A review of the trade of the financial year, ended March, 1918, will be found on page 6.

The chart showing the course of monthly imports and exports, including

re-exports, from April, 1914, to March, 1918, is appended below:-

### MONTHLY IMPORTS AND EXPORTS FROM APRIL, 1914, TO MARCH, 1918

Apr. June Sep. Dec. Mar. June Sep. Dec. Mar. June Sep. Dec. Mar. June Sep. Dec. Mar.

The actual net excess of exports, including re-exports, over imports was R4,91 lakhs in February, 1918, and R11,54 lakhs in March, 1918. The statement below shows the figures of imports and exports, including re-exports, during February and March of the years 1916, 1917, and 1918, and the actual net excess of exports over imports during the same periods:—

		16	116	1917		1918		Actual net expose of exports over imports		
			Exports, including re-exports	Imports	Exports, including re-exports	Imports	Experte, including re-experts	1916	<b>19</b> 17	1918
Pebruary	•	R(lakha) 11,54	R(lakha) 21,72	R(lakhs) 10,25	R(lakha) 19,34	R(lakhe) 18,24	P(lakhs) 18,15	#(lakhs) 10,18	H(lakha) 8,99	H(lakhu)
March	•	10, <b>90</b>	19,08	12,80	28,46	10,87	21,01	- 8,25	10,66	11,59

Comparisons with February, 1918.—As compared with February, 1918, the most noticeable changes were:—

Under imports: increases under sugar 16 D. S. and above (+R20 lakhs), and paper (+R9 lakhs), but decreases under salt (-R10 lakhs), iron or steel, sheets and plates (-R12 lakhs), cotton, twist and yarn (-R89 lakhs), cotton piecegoods, grey (-R1,16 lakhs), white (-R42 lakhs), and coloured (-R51 lakhs), and tea-chests (-R11 lakhs).

Under exports: increases under grain, pulse, and flour (+R3,00 lakhs), lac (+R37 lakhs), raw wool (+R16 lakhs), opium (+R36 lakhs), cotton piecegoods (+R43 lakhs), and jute manufactures (+R92 lakhs), but decreases under raw cotton (-R79 lakhs), hides, tanned (-R37 lakhs), cotton twist and yarn (-R19 lakhs), and paraffin wax (-R13 lakhs).

Comparisons with March 1917.—As compared with March, 1917, the most noticeable changes were:—

Under imports: increases under sugar 16 D. S. and above (+ R65 lakhs), salt (+R8 lakhs), and paper (+R11 lakhs), but decreases under motor cars and motor cycles (—R 14 lakhs), wood (timber) (—R16 lakhs), iron or steel, sheets and plates (—R19 lakhs), cotton piecegoods, grey (—R72 lakhs), white (—R62 lakhs), and coloured (—R86 lakhs), and articles imported by post (—R33 lakhs).

Under exports: increases under grain, pulse, and flour (+R1,82 lakhs), lac (+R27 lakhs), opium (+R22 lakhs), cotton piecegoods (+R15 lakhs), and jute manufactures (+R3,16 lakhs), but decreases under raw hides (-R68 lakhs), copra or coconut kernel (-R12 lakhs), groundnuts (-R45 lakhs), linseed (-R41 lakhs), sesamum (-R18 lakhs), raw cotton (-R2,17 lakhs), raw hemp (-R24 lakhs), raw jute (-R76 lakhs), raw wool (-R19 lakhs), rubber raw (-R11 lakhs), indigo (-R12 lakhs), hides, tanned (-R60 lakhs), akins, tanned (-R47 lakhs), and cotton twist and yarn (-R60 lakhs).

### VARIATIONS IN CLASSES.

The variations in March, 1917 and 1918, as compared with February, 1917 and 1918, respectively, according to the four main classes of merchandise, are as follows:—

	February 1917 B(lakhs)	March 1917 R(lakhs)	or decrease (-	) 1918	1918	Increase (+) or decrease (-) R(lakhs)

## COMPARISON WITH THE IMPORTS AND EXPORTS OF THE PRECEDING MONTH (FEBRUARY, 1918).

### I.-Imports.

AN INCREASE IN THE IMPORTS OF SUGAR, AND A DECREASE IN THE IMPORTS OF SALT, DATES, AND CIGARETTES.

Sugar.

The imports of Food, drink, and tobacco in March, 1918, increased by R10 lakhs, as compared with the preceding month. The imports of sugar, 16 D. S. and above, in March, 1918, increased to 53,110 tons, from 49,371 tons, in the preceding month (February, 1918). The value of these imports of sugar increased by R20 lakhs to R1,60 lakhs. In the twelve months ended March, 1918, the imports of sugar, 16 D. S. and above, amounted to 457,591 tons, valued at R14,61 lakhs, as against 433,201 tons, valued at R14,58 lakhs, in the official year 1916-17. The imports of sait in March, 1918, decreased to 37,331 tons, from 53,454 tons in the preceding month, of dates to 20,674 cwts from 38,285 cwts, and of cigarettes to 239,038 ... from 287,425 lbs.

Salt. Dates. Cigarottes.

A DECREASE IN THE IMPORTS OF KERUSENE OIL AND RAW SILE AND AN INCREASE IN THE IMPORTS OF MINERAL OIL, OTHER THAN KEROSENE.

Mineral oil.

The value of the imports of raw materials in March, 1918, increased by R14 lakhs. The quantity of mineral oil, including kerosene, imported from abroad in March, 1918, increased to 4,724,028 gallons, from 4,109,5.0 gallons in the preceding month. The value of these imports was R34 lakhs, as against nearly R21 lakhs in February, 1913. The quantity of kerosene oil imported decreased to 2,403,820 gallons from 2,519,768 gallons, but other kinds of mineral oil increased to 2,320,208 gallons from 1,589,822 gallons. Imports of raw silk decreased to 29,607 lbs from 81,553 lbs in the preceding month.

Raw silk.

## A DECREASE IN THE IMPORTS OF COTTON GOODS AND IRON OR STEEL SHEETS AND PLATES.

Cotton goods.

The value of the imports of manufactured articles decreased by R3,10 lakhs. The imports of cotton piece goods, including fents, in March, 1918, decreased to 59 million yards, valued at R2,27 lakhs, from 117 million yards, valued at R4,41 lakhs, in the preceding month. Grey goods decreased by 33 million yards to 24 million yards, white goods by 15 million yards to 17 million yards, and coloured goods by 10 million yards to 15 million yards. In the twelve months ended March, 1918, the total imports of cotton piece goods amounted to 1,556 million yards, valued at R50 crores, as against 1,984 million yards, valued at R46 crores, in the official year 1916-17. The imports of iron or steel sheets and plates amounted in March, 1918, to 1,846 tons, valued at R9 lakhs, as against 3,806 tons, valued at R20 lakhs, in the preceding month.

Iron or steel sheets and plates.

<sup>†</sup> Comparison is made with the previous mouth and not with the corresponding mouth of inellyear, owing to the present abnormal circumstances brought about by the war.

## II.—Exports.

### AN INCREASE IN THE EXPORTS OF FOOD STUFFS.

and the second s

The exports of Food, drink, and tobacco increased in March, 1918, by Grain, pulse R8,11 lakks, as compared with the preceding month. The exports of grain, pulse, and flour showed a considerable increase in March, 1918, and amounted to \$5,89 lakhs, as against \$12,89 lakhs in the preceding month. In the twelve months ended March, 1918, the value of the exports amounted to over R52 crores, as against nearly R35 crores in the official year 1916-17.

### A DECREASE IN THE EXPORTS OF RAW COTTON AND AN INCREASE IN THE EXPORTS OF RAW WOOL.

The value of the exports of raw materials decreased by R37 lakhs. The Raw cotton. shipments of raw cotton decreased in March, 1918, to 11,479 tons, valued at R1,59 lakhs, from 18,721 tons, valued at R2,37 lakhs, in the preceding month. In the twelve months ended March, 1918, the exports amounted to 329,143 tons, valued at R36,31 lakhs, as against 425,300 tons, valued at R24,19 lakhs, in the official year 1916-17.

The exports of raw jute in March, 1918, decreased to 28,304 tons, Raw jute. from 29,640 tons, in the preceding month, but the value of the exports increased to R59 lakks from R58 lakks. In the twelve months ended March, 1918, the exports amounted to 273,424 tons, valued at R6,31 lakhs, as against 539,768 tons, valued at H16,29 lakhs, in the official year 1916-17. The exports of raw wool Raw wool. in March, 1918, increased to 1,360,800 lbs from 65,184 lbs in the preceding month.

### . AN INCREASE IN THE EXPORTS OF JUTE MANUFACTURES.

The value of the exports of manufactured articles increased by #1,08 lakhs. Jute manuf The exports of jute manufactures were valued in March, 1918, at R5,82 lakes, as against H4,91 lakes in the preceding month. In the twelve months ended March, 1918, the value of the exports amounted to R43 crores, as against nearly R42 crores in 1916-17.

### TWELVE MONTHS ENDED MARCH, 1918.

The summary of the results for the twelve months ended March, 1918, as compared with the corresponding period of 1913-11 (pre-war year) and 1916-17, is as follows:-

1918-14 (p	1918-14 (pro-war year) 1916-17			[7-18	ACTUAL NET RECESS OF EXPORTS OVER IMPORTS		
Importa	Exports, including Import	Exports, including re-exports	Imports	Exports, including re-exports	1913-14	1916-17	1917-18
R (lakha)	R (lakhs) R (lakh	a) H (lakha)	R (lakhs)	2 (lakha)	ii (lakha)	R (lakbs)	R (lakhe)
Merchandise(private) 1,83,25	2,46,88 1,49,6	2,40,89	1,49,88	2,80,32	<b>6</b> 5,63	91,27	E0,44

In the twelve months ended March, 1918, exports, including re-exports, were less by £10,57 lakhs or 4 per cent than in 1916-17, and by £18,56 lakhs or 7 per cent than in 1913-14. In the same period imports were higher by R26 lakhs or 2 per cent than in 1916-17, but were less by R33,37 lakhs or 18 per cent than in 1918-14. The net excess of exports over imports in these twelve months was nearly R80 crores, as compared with R91 crores in 1916-17 and R66 crores in 1918-14. The total value of merchandise decreased by over R10 crores or nearly 8 per cent, to R8,80 crores.

### TRADE IN THE OFFICIAL YEAR 1917-18.

In the twelve months, April, 1917, to March, 1918, the quantity of impor cotton piece goods decreased by 378 million yards while the value showed increase of £4,08 lakhs. The value of articles imported by post increased by £97 lakhs, matches by £1,19 lakhs, and chemicals by £85 lakhs, while railway plant and rolling-stock decreased by #1,07 lakhs, motor cars and motor cycles by R1,42 lakhs, provisions and cilman's stores by R1,03 lakhs and kerosene cil by R91 lakhs. Under exports, the value of grain, pulse, and flour increased by over B17 crores. The quantity of raw cotton exported decreased by 1,923,136 cwts, while the value thereof increased by over R2 crores and the value of jute manufactures and lac exported increased by R120 lakus and R97 lakus respectively. The value of the exports of raw jute showed the large decrease of R9.97 lakhs while that of linseed decreased by R4,56 lakhs and raw hides and skins by nearly R6,57 lakhs.

Comparing the values of the imports and exports during the twelve months ended March, 1918, with those in the corresponding period of 1916-17, the chief increases and decreases are as follows:—

### I.—Imports.

### TRADE BY PROVINCES.

The total imports and exports, including re-exports, of private merchandise into and from the several maritime provinces during the month of March 1918, as compared with those of Fébruary, 1918, are stated below:—

<del></del>		Inro	B78	Exports, including be-exports			
		February, 1918	March, 1918	February, 1918	March, 1918		
Bond Sind Madzas Burma	u <b>≑</b> .	(lakhu) 4,73 5,65 96 98 98	R (lakks) 8,45 4,01 1,56 49 86	B (lakhs) 9,11 5,10 1,07 1,36 1,51	H (lakhs) 10,45 4,09 2,64 1,45 8,36		
	Total	18,94	10,87		21,91(a)		

Under imports, Sind alone showed an increase of 62 per cent, while Bengal showed a decrease of 27 per cent, Bombay of 29 per cent, Madras of 50 per cent, and Burma of 7 per cent. Under exports, Sind showed an increase of 147 per cent, Burma of 117 per cent, Bengal of 15 per cent, and Madras of 7 per cent, while Bombay decreased by 20 per cent. These comparisons are with the preceding month (February, 1918).

### BALANCE OF TRADE.

The following table takes into account the imports and exports of merchandise on private account only, as well as the value of wheat, tanned cow hides, and other articles of national importance exported on Government account:—

	Twelve months, April to March, 1916-17	Twelve months, April to March, 1917-18
	R (lakhs)	R (lakhs)
Exports of Merchandise, including Re-exports †	2,40,89	2,30,32
Imports , †	1,49,62	1,49,88
Excess of Exports over Imports .	91,27	80,44
Net imports of Gold .	•	•
,, ,, Silver	•	•
Net Imports of Treasure		
Council bills and Telegraphic transfers paid in India	47,07-4	50,72
Storling bills on London sold in India		
Enfaced Rupes paper (net imports)	<b>53</b> ·1	82.8
Interest on Enfaced Rupes paper	29-2	27:7
Net Balance of Trade		
	March (1917)	March (1918)

### Average rate of exchange

In the twelve months ended March, 1918, the excess of exports over imports of private merchandise was R80,44 lakhs, as against R91,27 lakhs in the corresponding period of 1916-17, and R65,39 lakhs in 1915-16. As the publication of treasure figures has been temporarily discontinued, it is not possible to give here the net (private) exports from April to March, nor the net balance of trade in the same period. It may be of interest to note that the net (private) exports are considerably below those of 1916-17 and also below those of 1915-16. The balance of trade, so far as shown by the statistics of merchandise, treasure, Council Bills, and enfaced Rupee paper, in the twelve months ending March is in favour of India, though not to so large an extent as in 1915-16 and 1916-17.

Temporarily discontinued.
† Engineire of Government transactions (other than wheat, tanned cow kides, and other articles of national importance in the case of experie).

(a) Approximate rate for Telegraphic Transfers.

The amount of Council Bills and Telegraphic Transfers paid in India in the twelve months ended March, 1918, was R50,72 lakks, of which over R2,14 lakks were paid through the Gold Standard Reserve, about R12,99 lakhs through the Paper Currency Reserve, and #35,59 lakhs through the Treasuries. In the twelve months ended March, 1917, the amount was over R47,07 lakes, of which over R6,44 lakes were paid through the Gold Standard Reserve, R28,20 lakes through the Paper Currency Reserve, and R12,48 lakes through the Treasuries. In the twelve months ended March, 1916, the amount of Council Bills paid was over R31,05 lakhs. As regards enfaced Rupee paper, R12 lakhs represented the amount of paper enfaced to London, and about R95 lakks the amount re-transferred from London, in the twelve months, April to March, 1917-18, while in the corresponding period of 1916-17, over R48 lakhs represented the amount of paper enfaced to London and over R100 lakhs the amount re-transferred from London.

### DECLARED VALUE PER UNIT OF SELECTED ARTICLES.

The declared values per unit of certain selected articles imported and exported during March, 1914, 1917, and 1918, are noted below:-

		MARCH				March
	1914	1917	1918		1914	1917 1918
Imports Sugar, 16 D. S. and	R A. P.	. R A. P.	R A. P.		B A. P.	B A. P. R A. P.
above owt Cotton, twist and yarn lb ,, grey piecegoods yard ,, white ,, coloured ,, ,,	8 12 11 0 14 8 0 2 7 0 2 9 0 8 4	17 5 7 1 10 8 0 8 7 0 8 8 0 5 5	15 1 8 2 4 11 0 5 11 0 5 10 0 7 1	Esports Indigo . owi Cotton, raw Juie, raw . bale	196 15 11 87 6 0 72 8 2	689 8 9 349 14 2 48 4 1 69 1 4 52 15 8 37 4 10

As compared with the corresponding month of the previous year (March, 1917), under imports, the declared unit value of cotton twist and yarn rose in March, 1918, by 38 per cent, and of cotton piecegoods, grey by 65 per cent, white by 59 per cent, and coloured by 31 per cent, while sugar fell by 13 per cent. Under exports, raw cotton showed an increase of 48 per cent, while indigo showed a decrease of 49 per cent, and raw jute of 30 per cent.

### CUSTOMS. REVENUE.

The following table shows the gross Indian sca customs revenue (excluding salt revenue) collected on principal articles in March, 1918, as compared with February, 1918, and March, 1917 and 1914:-

	March 1914				Increase (	(+) or decrea 1918, as comp	re () in ared with

Others	17,28	21,52	25,15	20,49	-2,66	+97	+5,21
Total (including other articles)	87,61	98,87	1,04,96	84,17	30,79	0,20	8,44
EXPORT DUTY (Total) .	97,98	29,94	88,00	41,90	+9;50	+12,05	+18.96

The Indian Tariff (Amendment) Act, IV of 1916, took effect from 1st March, 1916.

2) Excludes the 7g per cent duty on explosives.

The customs duty figures are an index to the volume of the import trade only, since under exports jute, rice, and tea only are subject to duty. In the twelve months ended March, 1918, the import duties increased to R11,94 lakhs from over R9,90 lakhs in the twelve months ended March, 1917, and the export duties rose to over R3,32 lakhs from R2,47 lakhs. The grand total of gross Indian sea and land customs revenue (excluding salt revenue) in the twelve months, April to March, 1917-18, amounted to about R16,51 lakhs, as compared with nearly R12,99 lakhs in 1916-17.

### RAILWAY STATISTICS.

Railway statistics, like the import and export statistics above, are a valuable index to the general movement of trade throughout the country, and show that the earnings from 1st April, 1917, to 23rd March, 1918, were R74,01 lakhs, as against R68,31 lakhs in the corresponding period of 1916-17, or an increase of R5,70 lakhs.

### TRADE OF ADEN DURING FEBRUARY, 1918.

The grand total value of the imports and exports of merchandise, by sea, into and from the port of Aden amounted to over R1,63 lakhs in the month of February, 1918. The value of the principal articles of imports and exports during February, 1918, was as follows:—

					Imports into Aden.	Exports from Aden.
					R (thousands)	+ H (thousands)
Cotton manufactures Hides and skins, raw Grain and pulse Coffee Coal Tobacco, unmanufactured Previsions Sugar Spices Oil—kerosene Salt Other articles					58,29 4,64 7,85 10,64 1,29 5,59 45 2,85 4,08 3,07	22,40 46 5,02 8,70 — 3,84 8

## COTTON PRESS RETURN. No. 10 of 1917-18.

### PREFATORY NOTE.

### THE COTTON SEASON 1917-18.

The yield of the cotton crop of 1917-18 is estimated at 4,035,000\* bales on an area of 24,781,000 acres, as compared with 4,489,000 \* bales on an area of 21,745,000 acres, the revised final figures of last year. There is a decrease of 10 per cent in outturn. It will be seen from the appended tables that cotton is coming in much slower than last year. There were 699,000 bales of cotton pressed in the pressing factories, and 216,000 bales received in the spinning mills, from 1st September to 31st January, 1918, as against 1,059,000 bales and 237,000 bales, respectively, during the corresponding period of last year, or a decrease of 34 and 9 per cent, respectively. The figures for the Native States of Hyderabad, Central India, Rajputana, and Mysore are, as will be seen from the footnotes to the tables, incomplete and have been excluded from this comparison.

Revised since the publication of the final general memorandum on 16th February, 1918.

## I.—Cotton Press Return for India in the half-month ending 31st January, 1918 (Season 1917-18, i.e., from 1st September, 1917, to 31st August, 1918.)

PARTMENT OF STATISTICS, INDIA,

G. FINDLAY SHIRRAS,

April 94, 1918.

Director of Statistics.

<sup>(</sup>a) Figures for the weeks ending 19th and 26th January, and 2nd Febrarary 1918. [See footnote (b) on preceding page.]
(b) No returns received.
(c) Including Native States situated within provincial boundaries.

(d) Excluding States situated within provincial boundaries.

(e) Returns not received from the Bombay Chamber of Commerce.

(f) Revised figure.

## IMPORTS INTO CHIEF PORTS DURING FEBRUARY, 1918

RETURN SHOWING the QUANTITIES of the PRINCIPAL STAPLES OF AGRICULTURAL PRODUCE IMPORTED into CALCUTTA, BOMBAY, KARACHI, and MADRAS PORTS by BAIL, RIVER and SEA during FEBRUARY, 1918

DEPARTMENT OF STATISTICS, INDIA April 25, 1918

G. FINDLAY SHIRRAS, Director of Statistic

a Published by order of the Governor-General in Counc.

### DEPARTMENT OF STATISTICS, INDIA.

TRADE FLUCTUATIONS IN SELECTED ABTICLES IN FEBRUARY, 1918.

The object offthe tables appended is to show the quantities of the principal staples of agricultural produce imported from the various provinces, etc., and from foreign countries into the ports of Calcutta, Bombay, Karachi, and into the Madras ports during the month of February, 1918, and for the eleven months, April 1917 to February, 1918, as compared with the corresponding periods of 1916-17. The statistics include foreign sea-borne and coasting trade as well as inland (rail and river-borne) trade. They have been furnished by Collectors of Customs, Steamer Companies, Railway Audit Officers, the Commissioners for the Port of Calcutta, etc.

### TRADE FLUCTUATIONS IN FEBRUARY, 1917 AND 1918.

It will be seen from table I, that the imports by rail, river, and sea in February, 1918, as against the corresponding month of 1917, show (in round numbers) an increase of—

187 per cent in tea

(21,953,000 lbs. as against 7,657,500 lbs. last year),

33 per cent in gram and pulse

(68,800 tons as against 51,300 tons last year),

21 per cent in jute

(321,800 bales as against 266,200 bales last year),

20 per cent in wheat (excluding wheat flour)

(70,500 tons as against 59,000 tons last year;, and

4 per cent in rice (including paddy)

(106,200 tons as against 102,500 tons last year).

The imports of linseed by rail, river, and sea into ports show a decrease of 23 per cent (6,900 tons as against 9,000 tons last year) due mainly to smaller exports from Bombay and Nizam's Territory. The decrease of 18 per cent (8,400 tons as against 10,200 tons last year) in the imports of rape and mustard seed is accounted for by smaller receipts mainly from Bihar and Orissa and the Central Provinces and Berar. The fall of 5 per cent (281,000 bales as against 295,700 bales last year) in the imports of raw cotton is due to a decrease in the exports mainly from Rajputana and Central India, Bombay, and Nizam's Territory.

It will be seen from table IV (wheat, excluding wheat flour) that the principal sources of the imports in February, 1917, were the United Provinces, Punjab and the Central Provinces and Berar, During February 1918, the Provinces from which the ports received their supplies were mainly the United Provinces (58 per cent of the total), the Central Provinces and Berar (17 per cent) and the Punjab (9 per cent).

General Remules—Eleven months' imports into the ports from up Country, etc., this year and last year.

The eleven months' figures in table I show (in round numbers) an increase

82 per cent in gram and pulse

(792,800 tons as against 486,000 tons last year),

56 percent in wheat (excluding wheat flour)

(1,797,000 tons as against 1,152,500 tons last year),

28 per cent in tea

(300,384,300 lbs. as against 285,227,500 lbs. last year), and

9 per cent in raw cotton

(2,946,800 tons as against 2,707,000 tons last year).

Imports of linseed by rail, river, and sea into ports show a decrease of 56 per cent (148,200 tons as against 335,000 tons last year) mainly on account of smaller exports from Bihar and Orissa, the United Provinces, the Central Provinces, Rajputana and Central India and the Nizam's Territory. The decrease of 29 per cent (115,800 tons as against 162,300 tons last year) in rape and mustard seed is mainly accounted for by smaller exports from Bihar and Orissa and the United Provinces. The fall of 18 per cent (4,059,000 bales as against 4,946,100 bales last year) in the imports of jute is mainly due to smaller exports from Bengal and Bihar and Orissa. The imports of rice (including paddy) into ports show a decrease of 3 per cent (987,300 tons as against 1,014,600 tons last year) owing mainly to smaller shipments from Burma.

TRADE FLUCTUATIONS IN FEBRUARY, 1918, AS COMPARED WITH THE PREVIOUS MONTH.

As compared with January, 1918, the imports in February, 1918, into the ports referred to above show (in round numbers) a decrease of—

62 per cent in linseed

(6,900 tons as against 18,200 tons previous month),

49 per cent in tea

(21,953,000 lbs. as-against 43,383,500 lbs. previous monthi),

38 per cent in jute

(321,800 bales as against 519,500 bales previous month),

27 per cent in raw cotton

(281,000 bales as against 385,800 bales previous month).

25 per cent in gram and pulse

(68,300 tons as against 91,000 tons previous month),

16 per cent in rice (including paddy)

(106,200 tons as against 125,900 tons previous month),

3 per cent in rape and mustard seed

(8,400 tons as against 8,700 tons previous month),

### and an increase of-

36 per cent in wheat (excluding wheat flour)

(70,500 tons as against 51,900 tons previous month)...

The statistics for February, 1917 and 1915, as also for the eleven months ending February, 1917 and 1918, together with those for January, 1918 and February, 1918, are summarised below:—

NOTE.—One bale of jute is equivalent to 400 lbs

By "Calculta" is meant the town of Calculta with Howash and the Kidderpers Decks. The imports exclude, therefore, imports into these jute mills which are suitable this eres. Such mills form the large majority of the total mills manufacturing jute
